

24 FRESHWATER LAKES**Texas Marine Sanitation Device Standard**

On September 21, 1977, notice was published that the State of Texas had petitioned the Administrator, U.S. Environmental Protection Agency, to determine that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the waters of 24 freshwater lakes in the State. The 24 lakes, for which a determination had been requested are Lake Austin, Lake Bridgeport, Lake Brownwood, Lake Cedar Creek, Lake Conroe, Eagle Mountain Lake, Lake Granbury, Lake Grapevine, Lake Houston, Lake Lewisville, Lake Livingston, Lake Lyndon B. Johnson, Lake Meredith, Lake Palestine, Lake Possum Kingdom, Lake Ray Hubbard, Lake Sam Rayburn, Lake Somerville, Lake Tawakoni, Lake Texoma, Lake Toledo Bend, Lake Travis, Lake Waco, and Lake Whitney. The petition was filed pursuant to section 312(f)(3) of Pub. L. 92-500.

Section 312 (f)(3) states

After the effective date of the initial standards and regulations promulgated under this section, if any State determines that the protection and enhancement of the quality of some or all of the waters within such State require greater environmental protection, such State may completely prohibit the discharge from all vessels of any sewage, whether treated or not, into such waters, except that no such prohibition shall apply until the Administrator determines that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for such water in which such prohibition would apply.

The information submitted to me by the State of Texas certified the following information relating to location and operating hours of pumpout facilities on the 24 specified lakes:

The State of Texas has certified that no vessel would be excluded because of insufficient water depth adjacent to any of the cited pumpout facilities on any of the cited lakes. The State of Texas has further certified that waste collected from vessel marine sanitation devices at all of the cited pumpout facilities is treated and disposed of in an approved manner in accordance with any applicable State and Federal standards. The State of Texas has also certified that there is no commercial vessel traffic on any of the 24 lakes for which a no discharge prohibition has been requested.

The Agency has received no comments in opposition to the petition on its merits.

Following an examination of the petition and supporting information, and in the absence of comments in opposition, I have determined that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the waters of Lake Austin, Lake Bridgeport, Lake Brownwood, Lake Cedar Creek, Lake Conroe, Eagle Mountain Lake, Lake Granbury, Lake Grapevine, Lake Houston, Lake Lewisville, Lake Livingston, Lake Lyndon B. Johnson, Lake Meredith, Lake Palestine, Lake Possum Kingdom, Lake Ray Hubbard, Lake Sam Rayburn, Lake Somerville, Lake Tawakoni, Lake Texoma, Lake Toledo Bend, Lake Travis, Lake Waco, and Lake Whitney. This determination is made pursuant to section 312(f)(3) of Pub. L. 92-500.

Dated: November 15, 1977

Douglas M. Costle,
Administrator.
