

WHOLE EFFLUENT TOXICITY TRAINING VIDEO SERIES

Freshwater Series EPA-833-C-06-001

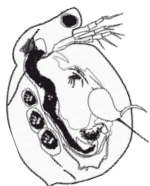

Background

Whole effluent toxicity (WET) test and organism culturing videos are an important training tool for EPA Regions and States and others (i.e., laboratories). Due to the recognized need for WET training, USEPA revised the original videos to incorporate EPA's 2002 WET test methods technical updates and has added new features to enhance the training benefits.

Enhancements to WET Freshwater Series

- ✓ Videos updated to be consistent with the 2002 USEPA WET test methods promulgated at 40 CFR Part 136
- ✓ Training materials transferred to **DVD** (training packet includes hard copies of the reports).
- ✓ Designed to promote training for individuals conducting, processing, or reviewing WET test data. ***New training features added!***

Freshwater Series Package

DVD Contains Training Videos for:

- *Ceriodaphnia* Survival and Reproduction Toxicity Test
- Fathead Minnow (*Pimephales promelas*) Larval Survival and Growth Toxicity Test
- Culturing Fathead Minnows (*Pimephales promelas*)

DVD Contains Supplemental Reports:

- Electronic copies of supplemental reports that provide additional instruction on conducting Freshwater Whole Effluent Toxicity Tests.

Distribution

The Office of Wastewater Management/Water Permits Division distributed the Whole Effluent Toxicity Test Method Training Videos – *Freshwater Series* packet to the EPA Regions and States. Copies are available through the National Service Center for Environmental Publications (NSCEP) at (800)-490-9198 or nscep@bps-lmit.com.

Office of Wastewater Management
