PROCESS CONTROL		Load	Post	Other	
Process selected file through:		Load File	Post File	Show User Log	
Results and Reports:		Load Summary and Errors	Raw Data Inventory	Goto ENSC	
		Stat CR Report		Refresh Sessions	

Start

Processing is by file (not by screening group)

For Raw Data, when number of Records Posted = number of Records in File, then file is done.

Click here to see most recent summary of file processing
