

**United States Environmental Protection Agency  
Public Notice**

**Ocean County Landfill and MRPC Holdings LFGTE Operations  
Draft Federal Operating Permit Pursuant to Title V of the Clean Air Act**

Date: \_\_\_\_\_

Applicant Name/Address: Ocean County Landfill Corporation  
25 First Avenue  
Atlantic Highlands, New Jersey 07716

and

MRPC Holdings, LLC  
46280 Dylan Drive, Suite 200  
Novi, Michigan 48377

**BACKGROUND:** The United States Environmental Protection Agency (EPA) has prepared a draft operating permit pursuant to title V of the Clean Air Act (CAA) and 40 C.F.R. Part 71 for Ocean County Landfill and MRPC Holdings LFGTE Operations. The applicant is a landfill and an electricity generator that operates a landfill, engines that generate electricity from gas collected from the landfilled waste, and a waste transfer station/materials recovery operation. In accordance with 40 C.F.R. Part 71, the operating permit will be issued for five years and contain all the CAA requirements that apply to the source. The operating permit also requires the permittee to conduct sufficient monitoring, recordkeeping and reporting to enable EPA, the State of New Jersey, and the public to determine whether the source is complying with the air quality requirements that apply. This proceeding is subject to the administrative requirements of 40 C.F.R. § 71.11.

**PUBLIC COMMENT:** The purpose of this notice is to solicit comments from the public on the draft operating permit. Any interested person may submit written comments on the draft permit and/or request a public hearing. All such comments and hearing requests must be received by EPA within 30 days of publication of this notice to be considered during the final permit deliberations. Comments on the draft permit must raise all foreseeable issues, supported with reasonably specific arguments. Any document or evidence used to support comments must be included in full, and may not be incorporated by reference unless it: is already part of the administrative record for the draft permit; consists of Tribal, State, or Federal statutes or regulations; or is a generally available reference material. Requests for a public hearing must be made in writing and state the nature of the issues proposed to be raised at the hearing. If a

hearing is held, the comment period will be extended, if necessary, through the date of the public hearing.

EPA will review all timely comments received during the public comment period in making a final decision on the permit. Upon completion of the administrative review process, the final permit decision will become final agency action and will be published in the Federal Register. Any person interested in reviewing the administrative record (including the draft permit, the application and supporting information submitted by the applicant, and the relevant regulations) supporting this draft permit may do so by visiting the EPA office at the address below between the hours of 9:00 am and 4:00 pm EST. Written comments and other inquiries related to this action (including requests for a public hearing) should be sent to: U.S. Environmental Protection Agency Region 2, Permitting Section, Air Programs Branch, 290 Broadway, New York, New York 10007, Attention: Mr. Steven C. Riva, (212) 637-4074. For Internet access to the draft permit and draft statement of basis, visit <http://www2.epa.gov/caa-permitting/caa-permits-issued-epa-region-2#currentactions>.
