CONSENT FOR ACCESS TO PROPERTY

Name: (b) (6), hereinafter referred to as the "Property Owner".

Location of Property: Herbert Placer, Anglo Saxon Claim, and Harrison Millsite, hereinafter jointly referred to as the "Property"

I hereby give my consent, through March 2016, to officers, employees, authorized representatives and contractors of the U.S. Environmental Protection Agency (EPA), U.S. Department of Interior - Bureau of Land Management (BLM), U.S. Department of Agriculture - Forest Service (FS), and the State of Colorado entering and having continued access to the above referenced property for the following purposes, hereinafter referred to as the "Work":

1. Conducting field inspections and investigations to evaluate the mine waste, adit discharges and related seepage, and the associated impacted lands;
2. Sampling and monitoring water, soil, and mine waste material from waste rock dumps, tailings impoundments, and mine workings or other areas as necessary to evaluate releases of hazardous substances;
3. Constructing, operating, and maintaining the mine water management system, including but not limited to pipelines, treatment/settling ponds and interim water treatment facility; and
4. Any other actions the EPA determines are necessary to address releases from the Gold King Mine.

EPA represents that the contractor performing the Work is required by EPA to obtain and, for the duration of the Work, maintain commercial general liability insurance (including coverage for bodily injury, death, property damage, and contractual liability).

By granting this access to and use of the Property for the Work, the Property Owner assumes no liability for any claims which may be asserted against the Property Owner by third parties solely as a result of the Work authorized under this Consent for Access.

EPA shall use best efforts to conduct the Work in a manner that will allow Property Owner to have reasonable access to the buildings and stored equipment, provided, however, that the Property Owner's access shall not interfere in any manner with EPA's ongoing Work.

I realize that these actions are undertaken pursuant to EPA's response and enforcement responsibilities under the Comprehensive Environmental Response, Compensation and Liability

Act of 1980 (Superfund), as amended, 42 U.S.C. §§ 9601 et seq.
