**SUMMARY:** The purpose of today's rulemaking is to approve a revision to section 6.1 of Louisiana State Air Quality Regulation 6.0 which has been adopted by the Louisiana Environmental Control Commission and submitted to EPA by the Governor for approval as a revision to the Louisiana State Implementation Plan (SIP). This action approves a State SIP revision under Section 110 of the Clean Air Act to

adopt, by reference, EPA regulations on New Source Performance Standards (NSPS).

**EFFECTIVE DATE:** This action will be effective on July 9, 1982, unless notice is received within 30 days that someone wishes to submit critical or adverse comments.

**ADDRESSES:** Copies of the State's submittal are available for inspection during normal business hours at the following locations:

**SUPPLEMENTARY INFORMATION:** On November 30, 1981, the Governor submitted a SIP revision to EPA concerning Section 6.1 of Regulation 6.0 of the Louisiana Air Quality Regulations. Section 6.1 of Regulation 6.0 adopts by reference EPA's NSPS regulations. Section 6.1 was adopted to allow the State to receive delegation of authority from EPA to enforce the Federal NSPS regulations. EPA approves this revision to the Louisiana SIP. The approval of this regulation by EPA does not affect in any way EPA's authority to enforce NSPS regulations.

This revision is being approved today without a prior proposed rulemaking because EPA does not anticipate that this rulemaking will generate adverse public comments. The public should be advised that this action will be effective 60 days from (the date of publication). However, if EPA receives a notice within 30 days that someone wishes to submit adverse or critical comments, this action will be withdrawn and two subsequent notices will be published before the effective date. One notice will withdraw the final action and another will begin a new rulemaking by announcing a proposal of the action and establishing a comment period.

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

Under Section 307(b)(1) of the Clean Air Act, petitions for judicial review of this final action must be filed in the United States Court of Appeals for the appropriate circuit by (60 days from the date of publication). This action may not be challenged later in proceedings to enforce its requirements (section 307(b)(2)).

Incorporation by reference of the State Implementation Plan for the State of Louisiana was approved by the Director on July 1, 1981. This notice is issued under the authority of Section 110 of the Clean Air Act, as amended, 42 U.S.C. 7410.

Under 5 U.S.C. Section 605(b), I certify that this SIP approval will not have a significant economic impact on a substantial number of small entities.
