Finally, the June 22, 1992 (57 FR 27880) exclusion, from the definition of a solid waste for wastes from the coke by-products process that exhibit the TC and are recycled by being returned to coke ovens or mixed with coal tar, is amended and clarified.

All changes go into effect immediately, because this rule was promulgated under HSWA authorities. Both interim and final authorization are available, with the former expiring on January 1, 2003. The State Revision Application must include applicable regulations, an AG statement addendum, Revision Checklist 110, other associated checklists and other application materials, i.e., a program description and an MOA, as determined by the Regional office.
