

CONSOLIDATED CHECKLIST C10

Standards for the Management of Used Oil
40 CFR Part 279 as of **December 31, 2002**

Notes:

1) **No final rules affecting 40 CFR Part 279 were promulgated between June 30, 2002 and December 31, 2002, therefore, this Consolidated Checklist corresponds to 40 CFR Part 279 as published on July 1, 2002.**

2) The preamble to the September 10, 1992 rule (57 FR 41566; Revision Checklist 112) indicated that none of the provisions of that rule were being promulgated pursuant to HSWA. Therefore, the Part 279 regulations would not be enforceable in an authorized State until the State had received authorization for Revision Checklist 112. After publication of the September 10, 1992 rule, EPA realized that its position, making all provisions of that rule non-HSWA, was arguably inconsistent with statements made in the preamble of the November 29, 1985 rule (50 FR 49201; Revision Checklist 19) which promulgated 266, Subpart E. Those provisions were issued under HSWA authority and are recodified in certain portions of Part 279 (specifically, 279.10, 279.11 and portions of 279.1 and Subparts G and H of Part 279) by the September 10, 1992 rule. In the May 3, 1993 rule (58 FR 26420; Revision Checklist 122), EPA, thus, redesignated these provisions in Part 279 as HSWA because they were originally promulgated under HSWA authority. These provisions will continue to be enforced by EPA until a State becomes authorized for them. States already authorized for the Part 266, Subpart E provisions will continue to enforce these provisions until the State becomes authorized for Part 279. For this checklist, the HSWA provisions are designated by a "É" (diamond symbol).

40 CFR Part 279 as of **December 31**, 2002 (cont'd)

-
- 1 This definition may be changed in the future by EPA to better explain what is meant by a "used oil processor/re-refiner."
- 2 There are two typographical errors in this paragraph in the May 3, 1993 Federal Register. The heading "Characteristic hazardous waste" should be in italics, as it appeared in the September 10, 1992 final rule (57 FR 41566, Revision Checklist 112). The phrase "hazardous waste characteristic" should be "hazardous waste characteristics" to reflect the possibility of more than one characteristic.
- 3 On October 30, 1995, EPA issued an administrative stay of the regulatory provisions set forth in 40 CFR 279.10(b)(2) applicable to used oil destined for recycling that has been mixed either with characteristic hazardous waste or with waste listed as hazardous because it exhibits a hazardous waste characteristic (60 FR 55202). However, on January 19, 1996, this administrative stay was vacated by the U.S. Court of Appeals for the District of Columbia. EPA published a final rule on June 28, 1996 (61 FR 33691) that clarified the regulatory status of the mixtures of used oil and hazardous wastes destined for recycling in light of the judicial vacatur. As a result, EPA has decided that the October 30, 1995 rule was not necessary. The revision checklist for the rule has been withdrawn, and its provisions are not included in this consolidated checklist.
- 4 The May 3, 1993, final rule (58 FR 26420; Revision Checklist 122) replaced the original 279.10(c) added by Revision Checklist 112 (September 10, 1992; 57 FR 41566) with a new paragraph introducing several new subparagraphs.
- 5 Subparagraphs 279.10(e)(4)(i)&(ii) were added by Revision Checklist 112 and were subsequently removed by Revision Checklist 122.
- 6 279.10(g) was originally introduced into the Federal code as a single paragraph by Revision Checklist 112 (57 FR 41566; September 10, 1992). Revision Checklist 130 (59 FR 10550; March 4, 1994) revised 279.10(g) by replacing the old paragraph with a new heading at 279.10(g) and adding six new paragraphs, 279.10(g)(1)-(6).
- 7 There is an error in the Federal Register for Revision Checklist 122 (May 3, 1993; 58 FR 26420); according to EPA, "who market" should be "who market or burn."
- 8 The July 14, 1998 rule withdrew the revisions made by the May 6, 1998 (Revision Checklist 166) rule at 40 CFR 279.10(i) and 279.74(b) and made a correction at 40 CFR 279.10(i).
- 9 States are not required to adopt notes, but a State may want to include an analog to this note for clarity.
- 10 279.20(b)(2) was originally introduced into the Federal code as a single paragraph by Revision Checklist 112 (57 FR 41566; September 10, 1992). Revision Checklist 130 (59 FR 10550; March 4, 1994) revised 279.20(b)(2), redesignated it as 279.20(b)(2)(i), and added new subparagraphs 279.20(b)(2)(ii), (b)(2)(ii)(A)-(E).
- 11 Although this paragraph is included in the May 6, 1998 Federal Register notice (63 FR 24963; Revision Checklist 166), no changes were made to this paragraph.
- 12 As introduced into the code by Revision Checklist 112, these paragraphs were numbered 279.23(a) and (a)(1)-(3); 279.23(b) was reserved. Checklist 122 preserved the original wording and order of these paragraphs, but redesignated them as 279.23 and 279.23(a)-(c).

CONSOLIDATED CHECKLIST C10
40 CFR Part 279 as of **December 31**, 2002 (cont'd)

- 13 The September 10, 1992 Federal Register included an extraneous phrase, "of this partuel Marketers", between "subpart H" and "of this part". The May 3, 1993 Federal Register intended to remove this phrase, but misquoted the phrase to be removed as "of the partial Marketers." The correct wording is "subpart H of this part" rather than "subpart H of this partuel Marketers of this part."
- 14 The May 3, 1993 rule (58 FR 26420; Revision Checklist 122) changed the text found in the September 10, 1992 rule (57 FR 41566; Revision Checklist 112), to include renotification. However, the June 17, 1993 amendment to rule 122 (58 FR 33341; Revision Checklist 122) changed the text back to the original wording in the September 10, 1992 rule.
- 15 Note that there is an error in the Federal Register at 279.43(c)(3)(i); there should be a comma after "171.15".
- 16 Note that there is a typographical error in the Federal Register at 279.43(c)(5); "used oil discharged that occurs" should be "used oil dischargeu that occurs".
- 17 Note that there is a typographical error in the Federal Register at 279.44(a); "used oil being transporter" should be "used oil being transported".
- 18 The Federal Register for 279.45(a) says "subpart F of this chapter" and should more specifically say "subpart F of this part".
- 19 279.46(a)(5) was originally introduced to the Federal code by Revision Checklist 112 (57 FR 41566; September 10, 1992). Revision Checklist 130 (59 FR 10550; March 4, 1994) revised 279.46(a)(5), redesignated it as 279.46(a)(5)(i), and added a new subparagraph 279.46(a)(5)(ii).
- 20 279.46(b)(5) was originally introduced to the Federal code by Revision Checklist 112 (57 FR 41566; September 10, 1992). Revision Checklist 130 (59 FR 10550; March 4, 1994) revised 279.46(b)(5), redesignated it as 279.46(b)(5)(i), and added 279.46(b)(5)(ii).
- 21 The Federal Register text for 279.52(a) and 279.52(b) includes two typographical errors: "processors" should be "processing" and "re-refiners" should be "re-refining".
- 22 The Federal Register for 279.52(b)(1)(ii) says "release or used oil" but should say "release of used oil".
- 23 There is a typographical error in the Federal Register at 279.57(a)(2)(ii): "an specified" should be "as specified".
- 24 In § 279.59, "re-fining" is an error and has been replaced in this checklist with "re-refining".
- 25 Note that there is an error in the Federal Register at 279.63(c); the "1" after "hazardous waste" should be deleted.
- 26 Paragraphs 279.63(c)(1)&(2) contain new exemptions from the rebuttable presumption that were not part of the November 29, 1985 final rule (50 FR 49164; Revision Checklist 19) and are, thus, not HSWA provisions.
- 27 The paragraph title and first sentence do not agree. Because 279.64(d) refers to existing aboveground tanks, this checklist assumes that 279.64(e) refers to new aboveground tanks.
- 28 Only 279.70(b)(1)&(2) are designated as HSWA provisions.

CONSOLIDATED CHECKLIST C10
40 CFR Part 279 as of **December 31**, 2002 (cont'd)

²⁹ The May 3, 1993 Federal Register shows two different changes to this paragraph. Only the first change (revision 43) correcting the wording found in the September 10, 1992 (57 FR 41566, Revision Checklist 112) version of the paragraph should be made. While the May 3, 1993 rule (58 FR 26420) changed the rest of the text so that renotification was required, the June 17, 1993 rule (58 FR 33341) changed the text back to that found in the September 10, 1992 rule.
