ATTACHMENT "N"

**PETITION TO REMOVE THE RANCHO LIQUID PETROLEUM GAS (LPG) FACILITY
LOCATED AT 2110 NORTH GAFFEY STREET, SAN PEDRO**

The Rancho LPG facility creates an unnecessary and unacceptable ultra-hazardous risk to its neighboring communities. It was irresponsibly located in a liquefaction area of a Palos Verdes Fault earthquake zone and in a designated Tsunami zone. It has the potential for initiating catastrophic devastation from a worse-case event that could result in an estimated 6.8 mile diameter impact to neighboring communities and the untold thousands of deaths. **I want these LPG tanks removed from our community.**

**PETITION TO REMOVE THE RANCHO LIQUID PETROLEUM GAS (LPG) FACILITY
LOCATED AT 2110 NORTH GAFFEY STREET, SAN PEDRO**

The Rancho LPG facility creates an unnecessary and unacceptable ultra-hazardous risk to its neighboring communities. It was irresponsibly located in a liquefaction area of a Palos Verdes Fault earthquake zone and in a designated Tsunami zone. It has the potential for initiating catastrophic devastation from a worse-case event that could result in an estimated 6.8 mile diameter impact to neighboring communities and the untold thousands of deaths. **I want these LPG tanks removed from our community.**

**PETITION TO REMOVE THE RANCHO LIQUID PETROLEUM GAS (LPG) FACILITY
LOCATED AT 2110 NORTH GAFFEY STREET, SAN PEDRO**

The Rancho LPG facility creates an unnecessary and unacceptable ultra-hazardous risk to its neighboring communities. It was irresponsibly located in a liquefaction area of a Palos Verdes Fault earthquake zone and in a designated Tsunami zone. It has the potential for initiating catastrophic devastation from a worst-case event that could result in an estimated 6.8 mile diameter impact to neighboring communities and the untold thousands of deaths. **I want these LPG tanks removed from our community.**

**PETITION TO REMOVE THE RANCHO LIQUID PETROLEUM GASES (LPG) FACILITY
LOCATED AT 2110 NORTH GAFFEY STREET, SAN PEDRO**

The Rancho LPG facility creates an unnecessary and unacceptable ultra-hazardous risk to its neighboring communities. It was irresponsibly located in a liquefaction area of a Palos Verdes Fault earthquake zone and in a designated Tsunami zone. It has the potential for initiating catastrophic devastation from a worst-case event that could result in an estimated 6.8 mile diameter impact to neighboring communities and the untold thousands of deaths. **I want these LPG tanks removed from our community.**

The Rancho LPG facility creates an unnecessary and unacceptable ultra-hazardous risk to its neighboring communities. It was irresponsibly located in a liquefaction area of a Palos Verdes Fault earthquake zone and in a designated Tsunami zone. It has the potential for initiating catastrophic devastation from a worst-case event that could result in an estimated 6.8 mile diameter impact to neighboring communities and the untold thousands of deaths. **I want these LPG tanks removed from our community.**

PLEASE REMOVE HUGE LPG/BUTANE GAS TANKS FROM OUR COMMUNITY IMMEDIATELY

Petition circulator: Jody James 1068 Via Cordova, S.P.

Our LA Harbor communities have been irresponsibly exposed to extreme risk for many years from the Rancho LPG/Butane facility located at 2110 No. Gaffey St. in San Pedro. This is an Ultra Hazardous facility operating in a densely populated area. It is located on land designated by the United States Geological Survey Department as a "Liquefaction and Landslide Area". We DEMAND THAT THIS FACILITY IS REMOVED IN THE INTEREST OF PUBLIC SAFETY!
