OPPT RISK ASSESSMENT, PROBLEM FORMULATION OR SCOPE DOCUMENT

All documents cited in previous OPPT risk assessments, problem formulations and scope documents are included in the following section and listed as *on topic* without further categorization. The references may have also been captured in the search strategy and therefore presented in the peer reviewed literature search results section as either *on topic* or *off topic* for a given topic area in the sections above.

Gray Literature Search Results

Gray literature is defined as the broad category of studies not found in standard, peer-reviewed literature databases (e.g., PubMed). Gray literature includes studies that are difficult to find in conventional bibliographic databases and includes references such as white papers, conference proceedings, technical reports, reference books, dissertations and information on various stakeholder websites.

The gray literature search results are currently contained in this document and in Excel spreadsheets. EPA is considering whether to manually develop EndNote citations for on topic gray literature results. This section lists abbreviated information for each citation, including a link to the reference. Full gray literature search results are presented in the *Gray Literature Excel Spreadsheet: Trichloroethylene*.

Note: Gray Lit Results provided as a second PDF.

Legend for Gray Literature Bibliography Columns

Source		A brief description of the gray literature source that was searched	
General Information About Result	URL	The web address of the search result URL	
	Annotation	An brief description of the search result	
Subject-Matter Tags	Engineering	On topic	An "x" indicates the reference is on topic for the engineering/occupational exposure topic area
		Off topic	An "x" indicates the reference is off topic for the engineering/occupational exposure topic area
	Fate	On topic	An "x" indicates the reference is on topic for the fate topic area
		Off topic	An "x" indicates the reference is off topic for the fate topic area
	Exposure	On topic	An "x" indicates the reference is on topic for the exposure topic area
		Off topic	An "x" indicates the reference is off topic for the exposure topic area
	Human Health	On topic	An "x" indicates the reference is on topic for the human health topic area
		Off topic	An "x" indicates the reference is off topic for the human health topic area
Notes		Any notes about the search result, including a note about search results that were not tagged to individual topic areas but are considered "on topic" overall
