

## **Chapter 141 -- Alternate Standards**

### **§141.1. Imposing alternate standards authorized.**

The Department may by order impose standards more stringent than those in this article for a source or class of sources, upon the petition of a person or upon its own motion, if one of the following applies:

(1) An alternate standard is reasonably related to the attainment of an ambient air quality standard contained in this article within the time limits required by the Clean Air Act (42 U.S.C.A. §§7401-7642), for the attainment of the ambient air standard, or is reasonably related to the maintenance of the ambient air standard.

(2) An alternate standard is necessary to protect the public health, safety or welfare.

(3) An alternate standard is required by 40 CFR 51.118(a) (relating to stack height provisions).

**§§141.2 through 141.59 [Reserved].**
