Re: Williams Four Corners, LLC – Final Permit Decision for Renewal of Operating Permit, Los Mestenos Compressor Station, Part 71 title V Permit No. R6FOP-NM-04-R2 (replaces R6NM-04-10R1M1)

Dear Mr. Jasek:

In accordance with the Clean Air Act as implemented by the Code of Federal Regulations 40 CFR § 71.11(i), we are required to issue a final permit decision after the close of the public comment period and notify the applicant and each person who has submitted written comments on our draft permit of our final permit decision. We did not receive comments during the 30-day public notice of the draft permit or a request for a public hearing.

After consideration of the pertinent Federal statutes and regulations and additional materials relevant to the application contained in our Administrative Record, the EPA hereby issues the enclosed final permit as well as the statement of basis for the Williams Four Corners LLC – Los Mestenos Compressor Station, title V Operating Permit Number R6FOP-NM-04-R2. A copy of the final permit and other key documents relevant to the final Part 71 permit are also available online at: <https://www.epa.gov/caa-permitting/part-71-operating-permits-tribal-lands-epas-south-central-region>

Should you have any questions regarding the final permit, please feel free to contact Jeff Robinson of my staff at [robinson.jeffrey@epa.gov](mailto:robinson.jeffrey@epa.gov), or telephone (214) 665-6435.

Sincerely yours,
