

HOW TO USE GREENS LIQUID PAINT, VARNISH & LAQUER REMOVER

- Shake can and loosen cap slowly, allowing pressure to vent. Pour small amount in container.
- Apply thick coat with natural bristle brush, brushing one direction only. Do not brush over remover once applied. Allow to remain in surface until film has completely wrinkled (5-15 minutes). Do not allow remover to dry on surface.
- Remove loosened film with putty knife, using steel wool or soft wire brush where surface is irregular.
- Some surfaces may require second application. Acetone or lacquer thinner may be used as a rinse if desired.
- Wipe surface dry with rag, sand to remove defects and apply new finish.
- To clean brush, shake out excess remover and wipe bristles with clean, dry cloth; or rinse in acetone or lacquer thinner.

ADDITIONAL TIPS

- Remove all hardware from furniture before stripping.
- Use rubber gloves when stripping. Safety goggles are a good idea. When stripping indoors, use an "organic vapor" mask
- On cold days, stripping action can be hastened by loosening cap and setting can in hot water (away from stove) for 15 minutes before using.
- Whenever possible, do your stripping in the shade rather than in direct sunlight.
- To strip detail work and other small places, use cotton swab, ice pick, old toothbrush or dental tools.

VOC: 316 Grams Per Liter

DANGER **POISON**

MAY BE FATAL OR CAUSE BLINDNESS IF SWALLOWED
VAPOR HARMFUL • FLAMMABLE

Keep out of Reach of Children • Absorbed Through Skin

PAINT - VARNISH - LACQUER

REMOVER

EXCELLENT REMOVER FROM WOOD OR METAL SURFACES

- DOES NOT RAISE WOOD GRAIN
- WIPES CLEAN - DRIES FAST
- DISSOLVES MOST FINISHES IN SECONDS

Contains less than 30% Methylene Chloride

DANGER! SEE BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENT

WHAT YOU'LL NEED

Do not pour waste chemicals down drains, sewers, or onto the ground where they may pollute the ground water. Contact your local health department for instructions on properly dealing with waste. Responsibility for any damage to person or property in the use of this material rests with the purchaser. Do not use on linoleum, asphalt, tile, plastic surfaces or fiberglass.

THIS PRODUCT CONTAINS A CHEMICAL KNOWN TO THE STATE OF CALIFORNIA TO CAUSE CANCER.

CAUTION: POISON, FLAMMABLE

KEEP AWAY FROM HEAT, SPARKS, OPEN FLAME AND ELECTRICAL OUTLETS

HEALTH HAZARD INFORMATION

Contains Methylene Chloride, Acetone, Methanol and Solvent. Methylene Chloride has been shown to cause cancer in certain laboratory animals. Risk to your health depends on level and duration of exposure. Cannot be made non-poisonous. Absorbed through skin; avoid contact with skin. Avoid breathing vapors. Use in well-ventilated area, out-doors if possible. If you must use indoors, open all windows and doors or use other means to ensure fresh air movement during application and drying. If properly used, an "organic vapor" respirator may offer additional protection. Contact with flame or hot surfaces may produce toxic gases. Clean up rags, papers and all waste promptly. Store in a cool place, away from heat and direct sunlight. Open can slowly, allowing pressure to vent.

FIRE AND EXPLOSION HAZARD

Keep away from heat, sparks, open flame and electrical outlets. Vapors are heavier than air and may travel along the ground or be moved by ventilation and ignited by pilot lights, other flames, sparks, heaters, smoking, electric motors, static discharge or other ignition sources at locations distant from material handling point. Keep container away from heat, spark and flame, even when empty.

FIRST AID INSTRUCTIONS

- In eyes: Flush thoroughly with water for 15 minutes. See physician.
- If swallowed: Contact poison control center, hospital emergency room or physician immediately concerning advisability of inducing vomiting. If medical advice is not immediately available, induce vomiting using syrup or ipecac or a spoon. Cover eyes to exclude light. Get medical attention at once.
- If overcome by vapors: If affected, remove individual to fresh air. If breathing has stopped, give artificial respiration. Get medical attention.
- Skin contact: Wash thoroughly with soap and water.

NON PHOTO CHEMICALLY REACTIVE - 102
KEEP OUT OF REACH OF CHILDREN
