

*****PUBLIC NOTICE*****

**ANNOUNCEMENT OF PROPOSED PERMIT AND REQUEST FOR PUBLIC COMMENT AND/OR
PUBLIC HEARING ON PROPOSED SYNTHETIC MINOR NSR PERMIT
for Enterprise Field Services LLC., Lindrith Compressor Station
PERMIT R6NSR-NM-005
Public Comment Period: January 24, 2018 through February 23, 2018**

The United States Environmental Protection Agency (EPA) provides notice of and requests public comments on the EPA's proposed action relating to the Synthetic Minor New Source Review (MNSR) permit application for Enterprise Field Services LLC. (Enterprise), Lindrith Compressor Station located on the Jicarilla Apache lands, in Rio Arriba County, New Mexico. If finalized, the EPA's issuance of this permit would regulate or limit pollutant emissions associated with the operation of the existing Lindrith Compressor Station. The proposed permit incorporates existing requirements from a 1997 NSR permit that was memorialized in the 2015 Part 71 operating permit and also contains an emission increase of 73 tpy in VOC as a result of producing higher volumes of condensate at the compressor station. No physical modifications at the facility are permitted. The facility is a minor NSR source and emissions of nitrogen oxides (NO_x), carbon monoxide (CO), and volatile organic compounds (VOC) will be below 250 tons per year for each pollutant. Under the provisions of 40 CFR § 49.151, EPA Region 6 implements the MNSR Federal Implementation Plan (FIP) for the Tribal Nations located in EPA Region 6.

Permittee: Enterprise Field Services LLC
Lindrith Compressor Station
1100 Louisiana Street
Houston TX 77002

Facility contact:

Robert Havalda P.E.
713-381-6698 rmhavalda@eprod.com

The annual permitted emissions in tons per year (tpy) from the facility are: NO_x – 66.29 tpy, CO – 102.57 tpy, VOC – 211.34 tpy, 4.26 tpy Sulfur Dioxide (SO₂) and 22.91 tpy Particulate Matter (PM₁₀/PM_{2.5}). The compressor station has operated since 1996 and now has three 3,267 HP compressors and 8 condensate storage tanks with a loading station. There is one 190 HP emergency generator that uses diesel fuel that must meet the 40 CFR Part 63, Subpart ZZZZ regulations. Any interested individual may submit written comments on EPA's proposed permit for the Lindrith Compressor Station. Pursuant to 40 CFR § 49.157(c), comments must specify any reasonably ascertainable issue with supporting arguments in writing by February 23, 2018 (postmarked by February 23, 2018) to Bonnie Braganza at one of the following addresses:

EPA Contact: Bonnie Braganza
Phone Number: (214) 665-7340
E-mail: braganza.bonnie@epa.gov

US Mail: U.S. EPA Region 6
Air Permits Section, 6MM-AP
1445 Ross Avenue, Suite 1200
Dallas, TX 75202

EPA will consider and respond to all comments in making the final decision regarding the issuance of the permit. Similar comments may be grouped together and thus one response will address such groups of comments. In this case, EPA will not respond to individual commenters directly.

Additionally, all comments will be included in the administrative record without change, and may be made available to the public, including any personal information provided, unless the comment includes Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Thus, CBI or other protected information should be clearly identified as such, and should not be submitted through email. Emails sent directly to the EPA will capture your email address automatically and will be included as a part of the public comment. *Please note that an email or postal address must be provided with your comments if you wish to receive responses to comments submitted during the public comment period and direct notification of EPA's final decision regarding the permit.*

Public Hearing: If EPA determines that there is a significant amount of public interest in the draft permit, the EPA has the right to hold a public hearing. Any request for a public hearing must be received by the EPA either by email or mail by February 6, 2018, and must state the nature of the issues proposed to be raised in the hearing. Attendance at the public hearing is not required in order to submit written comments. *If the EPA determines that there is significant public interest,* a public hearing will be held and a hearing public notice will be posted 30 days prior to the date of the hearing.

If a public hearing is held, the public comment period shall automatically be extended to the close of the public hearing. The EPA maintains the right to cancel a public hearing if no request for a public hearing is received or the EPA determines that there is not a significant interest.

Permit Documents: EPA's draft permit, technical support document, permit application and supporting documentation, and comments received from the public, other government agencies, and the applicant during the public comment period become part of the administrative record for the permit. In addition, all data submitted by the applicant is available as a part of the administrative record. The public can access the administrative record, Monday – Friday, from 8:30 a.m.-4:00 p.m., excluding Federal holidays at:

EPA Region 6 Office
1445 Ross Avenue, 7th Floor
Dallas, TX 75202
Phone: 214-665-7200

Additionally, these documents will also be available at EPA's website: <http://www.epa.gov/caa-permitting/tribal-nsr-permits-epas-south-central-region>. Please see the link to the draft permit and the supporting documents under the "Current Actions" heading at the website.

Or

Jicarilla Public Library
165 Hawks Drive
Dulce, NM 87528
Phone: 575-759-1776

Final Determination: A final decision to issue a permit or to deny the application for the permit shall be made after all comments have been considered. Notice of the final decision shall be sent to each person who has submitted written comments or requested notice of the final permit decision, provided the EPA has adequate contact information. Notice of the final permit issuance will also be posted on the EPA National public notice website at: <https://www.epa.gov/publicnotices>
