EPA-HQ-2014-001513	John H. Scofield	Oberlin College	11/29/2013 14:11	See attached documents	In most cases buildings of less than 5,000 sf in size are not eligible to receive the EPA's ENERGY STAR building score. The EPA's documents which describe the technical methodology for these building types state this restriction, but provide no evidence or justification to back it up. This is the case for the following models: office/finance/courthouse, hotel, K-12 school, medical office, retail, supermarket/grocery, and warehouse. In technical documents for these buildings the only justification offered is the statement "analytic filter -- analysis could not model behavior for buildings smaller than 5,000 sf." I am requesting to receive copies of any documents, memos, reports, and/or emails that address this issue and provide any evidence to support this claim for each of the building models that include this restriction.

The transition team is the one with the website greatagain.gov. The "landing team" is the Trump transition team officials that are working directly with EPA: Myron Ebell, David Schnare, David Kreuzter, Austin Lipari, David Stevenson, and George Sugiyama. EPA is aware of the members of its own transition team, but to cover all the bases, the head of EPA's transition effort is Shannon Kenny. EPA has made minimal information about the transition available to the public, and the communications between EPA and the landing/transition team are impossible to obtain unless through FOIA. EPA-HQ-2018-002956	Kevin Bogardus	E&E News	12/29/2017 18:12	<p>I request copies of any and all emails concerning official EPA business that were sent to or from EPA Administrator Scott Pruitt's personal email account(s) from Feb. 17, 2017 to the date that this FOIA request is processed. Other past senior administration officials, such as former Secretary of State Hillary Clinton, former Defense Secretary Ash Carter and former EPA Administrator Gina McCarthy, have been found to have used a personal email account for government business. In the cases of former Secretary Clinton and former Secretary Carter, some of those instances not only ran counter to their departments' policies but could have led to the potential exposure of classified information. In response to worries over their use of personal email for government business -- and also litigation in former Secretary Clinton's case -- both former Secretary Clinton and former Secretary Carter released thousands of pages of their personal emails that were used for government business. EPA has also released former Administrator McCarthy's personal emails that were used for government business. Further, a recent court ruling found that agency officials should expect that work-related emails in their personal email accounts to be subject to the Freedom of Information Act. In Competitive Enterprise Institute vs. Office of Science and Technology Policy, D.C. Circuit Senior Judge David Sentelle wrote in the U.S. Court of Appeals for the District of Columbia Circuit's opinion that "an agency cannot shield its records from search or disclosure under FOIA by the expedient of storing them in a private email account controlled by the agency head." Administrator Pruitt should follow the example of other past administration officials as well as court precedent and release all of his personal emails that were used for EPA business. I request a copy of EPA's premium class travel report for the 2017 fiscal year. Agencies are required to create and submit these reports to the General Services Administration under the Federal Travel Regulation, Part 300-70 Agency Reporting Requirements. These reports detail agencies' use of any other than coach-class transportation accommodations for their employees while on official business.</p>

			EPA officials said any after-market part that alters the air-fuel ratio in an engine probably will affect emissions. The agency declined to comment on specific parts advertised online and in catalogues, saying it needs test data to determine emission increases. "EPA is aware that some manufacturers and suppliers may be selling after-market motorcycle parts that could increase air pollution," the agency said in a written statement. "EPA takes this issue seriously and will investigate and take action as appropriate to address potential threats to air quality."

This should include the Trump team's "action plan" for U.S. EPA. We request these records for the time period from Sept. 1, 2016 to the most recently available date at the time of processing this request. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone or email, rather than by mail, if you have questions regarding this request. I am looking for the most up to date cost estimate for the cleanup of the Lower Duwamish Waterway Terminal 117 site. The only cost estimate I can find for the site is based on the EE/CA which was submitted to EPA in 2010. However, I understand that additional cleanup has occurred as a result of the pre-design sampling, and that more cleanup may be anticipated based on findings from recent construction activities.

EPA-HQ-2016-000223	Sheryl K. Reilly	SciReg, Inc.	10/8/2015 19:10	I am requesting a copy of a letter sent to all registrants of pesticide products containing 100% "Diatomaceous earth" as the active ingredient, and a list of all of the companies to whom the letter was sent, and the dates the letters were sent. It is my understanding the letters were sent this past summer. The letters would have most likely been signed by Richard Gebken or Linda Deluise in the Office of Pesticide Programs' Registration Division, and the purpose of the letter was to notify the registrant that their products' ingredient statements needed to be amended regarding the ingredient statement. If all of the letters were identical, only one copy of the letter would be necessary, with a list of all the registrants/dates sent. Thank you The Center requests all records that are maintained, possessed, controlled, and/or generated by the U.S. Environmental Protection Agency's ("EPA") relating to EPA's recent discovery that information included in pesticide patents, such as for the Enlist Duo™ product and also for other pesticides, is not being presented to EPA in applications to register pesticides under the Federal Insecticide, Fungicide, and Rodenticide Act, 7 U.S.C. §§ 135-136y, as amended ("FIFRA"). This request includes, but is not limited to, any records regarding the content of patent applications, the failure of registrants to provide this information to EPA, EPA's reaction or responses to this discovery, and any information regarding enforcement actions considered or taken.

Pursuant to FOIA I'd like to request copies of all correspondence, memos, reports or presentations regarding the findings or the conduct of both of these inspections and investigations, including what to do about them. I'd also like to request copies of any and all enforcement actions taken as a result of these inspections, including notices of violation or formal citations or warnings issued to the U.S. Army or its tenants at the Radford facility over the violations identified in these reports, as well as all records documenting the remedy of identified violations and return to compliance with the applicable laws and facility permits.

EPA-HQ-2017-003625	Abrahm Lustgarten	ProPublica	2/6/2017 19:02	The following is a re-filing of a FOIA request previously submitted to EPA Region 4, but which seems to be more appropriately handled by EPA HQ: The original FOIA # is EPA-R5-2017-003467 I am requesting copies of all releasable files relating to the permitting of, conduct of, or investigations into, the company U.S. Technology, based in Canton OH, and its handling of hazardous materials, between the years 2000 and 2017. It is my understanding that U.S. Technology is the subject of investigations or enforcement actions in both EPA Region 4, and in EPA Region 6, and perhaps elsewhere. It is information regarding the company's conduct and operations in these specific regions which I am requesting information about. In addition I request copies of all correspondence, including emails and letters received from or addressed to parties outside of the U.S. EPA concerning U.S. Technology, as well as any releasable intra-agency correspondence. I understand that my original request was forwarded to EPA Region 5 because the company in question is based there, but to reiterate, this request specifically concerns actions in R4 and R6. Also, I was advised previously that Region staff did not know or have enough information to know where to begin their search. To clarify my request, because this concerns a hazardous waste handling issue and an enforcement issue, I would suggest beginning with the RCRA enforcement offices and the criminal investigations divisions of these regional offices. However I do not know that responsive records would be limited to those offices, and therefore would like the request considered more broadly.

				<p>Pursuant to FOIA I request copies the list and contact information of all registrants for all public meetings held by the EPA concerning its IRIS review of RDX between Jan 1, 2013 and Jan 20, 2017, as well as any presentation materials or prepared comments also collected from these registrants, per the EPA's guidelines for these meetings referenced below. In addition, I'd like to request copies of any meeting minutes, digitally recorded webinar, or other audio or visual recordings made of these public sessions. According to the notice at Regulations.gov, "Meeting Registration and Presentations Registrants will be required to provide their name, title, affiliation, sponsor (if different from affiliation), and contact information. If you intend to request time on the agenda to make a specific presentation, please register no later than 30 days before the meeting to attend in person or via webinar/teleconference. All other participants should register no later than 7 days before the meeting. Participants that want to make a specific presentation should indicate such in their registration and provide the length of time required. In general, presentations should be no more than 30 minutes. Please submit any written materials to the appropriate docket number for the subject chemical, as specified in Section III of this notice, no later than 7 days before the meeting. If there are more requests for presentations than time allows, the time limit for each presentation will be adjusted. During the meeting, remote attendees and individuals attending the meeting in person are welcome to make comments, ask questions, and participate in the dialogue. Details regarding registration procedures (in person, via webinar, or teleconference) will be posted on the IRIS Web site (http://www.epa.gov/iris/publicmeeting/).</p> <p>I request a copy of the following technical report currently being cited in the EPA's IRIS review of RDX, and with the EPA HERO ID# 2919533: Determination of the chronic mammalian toxicological effects of RDX: Twenty-four month chronic toxicity/carcinogenicity study of hexahydro-1,3,5-trinitro-1,3,5-triazine (RDX) in the B6C3F1 hybrid mouse (Volumes 1-3) The report was originally produced by the U.S. Army Medical Research and Development Command, but is a central document in the EPA's current toxicological review. The report is not classified but is is not made available through a hyperlink the way most other citations relied on for the IRIS review are on the IRIS website. Thus I am requesting a copy of the EPA's version of this technical report.</p>

EPA-R3-2018-002845	Joshua B. Niemtzw	Langsam Stevens Silver & Hollaender	12/21/2017 20:12	We are requesting all EPA witness interview summaries collected pertaining to the Lower Darby Creek Area Superfund Site. Pursuant to our firm's 2011 FOIA request, we received interview summaries that identified interviewees and redacted "Confidential Source" interviews. We received in the 2011 FOIA interview summaries for Confidential Sources 3, 17, 28, 29, 30, 34, 35, 38,39, 41, 42, 45, 46, 47, 48, and 51. However this gives us reason to believe that at least 51 different confidential sources were interviewed. Furthermore, General Electric's November 19, 2011 104(e) response refers to a November 13, 2001 EPA interview of a former GE employee, Richard Conway, which we did not receive. EPA-HQ-2017-001307	Gregory Alcorn		11/16/2016 14:11	Pursuant to the Freedom of Information Act, I am requesting access to historical pesticide registration information currently maintained by the U.S. Environmental Protection Agency (EPA). As means of background, the Federal Insecticide, Fungicide, and Rodenticide Act of 1947 (FIFRA) required companies to register pesticides with the U.S. Department of Agriculture (USDA). In 1972, the Federal Environmental Pesticide Control Act (FEPCA) transferred pesticide registration responsibilities from USDA to EPA. It is my understanding that copies of the historical pesticide registration records maintained by USDA were also transferred to EPA in 1972. I am specifically requesting information on where historical pesticide registration records are currently located, as well as access to these records. I am a private researcher, not connected to a government agency. As such, I understand that EPA may charge reasonable research fees associated with this request. I authorize up to \$500 in such fees; if the fees will exceed this amount, please contact me for additional authorization.

The first attached file requests the Agency's data evaluation records for studies submitted to support the registration of malathion. The second attached file requests copies of documents that EPA has cited in its draft human health risk assessment, which has a comment period that ends on December 21, 2016. These documents are needed in order for the registrant and the public to fully understand the ecological, endangered species and human health risk assessments that the agency has posted for public comment. Since the Agency has established regulatory deadlines for commenting on these risk assessments, time is of the essence for the EPA to comply with our request to provide the requested documents. Based on this, we request a fee waiver. And, we request expedited processing because of the urgency to inform stakeholders and the public about the reasons for the conclusions of the EPA's draft human health risk assessment. This is especially important given that malathion is an important tool used to control mosquitoes that spread diseases like the zika virus.

I also request any and all compensation/salary information such as earnings and leave statements (pay stubs) from the EPA for Doug Ericksen, relating to any position with the EPA he may have held, or which he currently holds, subsequent to Mr. Ericksen's final pay stub that he received for his then-Temporary Transitional Schedule C Senior Advisor position located in the Office of the Administrator; Washington, D.C. It is my understanding that Doug Ericksen has recently started, or will soon be starting, a new position with the EPA located in its Region 10 Office in Seattle, Washington. I would prefer receiving the records I am requesting to be in electronic/digital format if possible as I am on a very limited budget. Please let me know if you require anything further from me in order to process my request. Thank you. Sandy Robson

My request is a very simple request, so I would expect to receive a response with confirmation on my question regarding Mr. Ericksen's potential EPA employment within the 20 working days, or sooner. Thank you.

I request that your office provide me with either a copy or an electronic copy of the following information: 1) This is a request for all records, including emails, electronic records, notes, letters, transcripts, memoranda, or other documents regarding communication on a meeting of the Federal Insecticide, Fungicide, and Rodenticide Act Scientific Advisory Panel ("SAP") for glyphosate that was scheduled to meet Oct. 18-21, 2016, but was postponed. This request specifically requests records referencing FIFRA, and/or SAP, and/or glyphosate, and/or CropLife, and/or Monsanto that pertain to this meeting, including any records to address the makeup of the panel experts. The relevant time frame is narrow: October 14, 2016, through February 1, 2017. 2) Any record of communications from January 1, 2016, through February 1, 2017, (including emails, electronic records, notes, letters, transcripts, memoranda, or other documents) between EPA employees Jess Rowland and XX, including records of emails where Jess Rowland was copied on the email, and employees of Monsanto Corporation (for the purpose of this request, an employee of Monsanto Corporation will mean any person who was employed by Monsanto Corporation in the year of 2016 or 2017). As required by FOIA, I expect a reply within twenty working days. If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal process.

				To Whom it May Concern: I would like to request any and all documents that were sent from the White House to the EPA regarding a change to the Renewable Fuel Standard Point of Obligation. As the media has widely reported, discussions between Carl Icahn and outside private parties in the oil and renewable fuels industry occurred in late Feb/early March regarding the White House's consideration of moving the Point of Obligation from refiners/importers to some point further down the fuel distribution chain. In addition to any point of obligation package or memo, I would also request any other documents that were sent that pertained to other changes that might be considered as part of a package to move point of obligation: this list may include things like the E15 Reid Vapor Pressure waiver, or review of MOVES and other models, but my request list is not limited to these. I believe this package was likely sent from the White House to the EPA the week of Feb 27-March 5, but those dates are not exact. This package may include documents from other White House officials to Administrator Pruitt including Gary Cohn. Thank you.

Correspondence between EPA Administrator Pruitt and Senator James Inhofe sent between & including the dates of 2-17-2017 and 3-13-2017. The rule applies to approximately 12,500 facilities in the U.S. that, according to the EPA, have had on average one serious safety "incident" every other day for the past 10 years. Understanding the decision to delay implementing this safety measure previously approved by the EPA is a matter of urgent public interest.

				Please provide the following records in a digital format: 1. All records related to agency travel requests submitted to the White House for designation as “White House Support Missions” (or “White House Mission Designations”) from January 1, 2016 to the present. This request includes, but is not limited to: a. Records pertaining to the dates and itinerary of trips that were submitted. b. The formal request sent to the White House (usually to the Assistant to the President for Cabinet Affairs). c. Records related to the justification(s) for each request, such as the estimated cost of a requested flight and the estimated costs of alternatives. d. Records of response(s) to each request. e. Records indicating whether the trip was in fact taken, and the make/model of aircraft it was taken in. (As this may differ from the make/model of the aircraft requested.) I certify to be true and correct to the best of my knowledge and belief, that there is widespread and exceptional media interest and there exist possible questions about the government’s integrity, which affect public confidence. As travel costs from various federal agencies come to light, there is growing public concern about the government’s integrity as it spends taxpayer dollars. This subject has already led to the resignation of a cabinet secretary, which has further undermined public confidence in the ability of the government to wisely spend the taxpayer’s money. As the use of military planes for travel follows different procedures and has different implications than the use of chartered planes, it is important that such travel be differentiated from other trips as quickly as possible.

This is a request under the Federal Freedom of Information Act (FOIA), the First Amendment to the United States Constitution, the common law of the United States, the Privacy Act (5 U.S.C.) section 552a, and any statute providing for public access to government information: I request copies of all records created by Administrator Scott Pruitt's Superfund task force regarding suggested changes to the Superfund and brownfields programs, including meeting minutes, correspondence between task force members and draft recommendations. I ask that these records be provided to me in electronic form to scarignan@bna.com or via compact disc to the address provided below. Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request copies of all electronic records to and from the U.S. Environmental Protection Agency that have erroneously confused the current Acting Deputy EPA Administrator Mike Flynn for the retired U.S. Army Lieutenant General and former National Security Adviser Mike Flynn. The time frame for this request is Jan. 1, 2012 to the present. The requested documents include but are not limited to electronic and written correspondence, such as email and handwritten letters, received by the EPA that have assumed the EPA's Mr. Flynn is the same person as the retired Army leader, who also previously served as the Director of the Defense Intelligence Agency. The requested documents also include any responses by the EPA to the sender of the erroneous message. I request the documents be made available in electronic format, as searchable PDFs to the extent possible, and delivered to me via email attachment.

I request records of communications between EPA employees/affiliates and employees/affiliates of the Oklahoma Bar Association regarding the grievance against Administrator Scott Pruitt known as "Grievance against Edward Scott Pruitt, DC-17-70" ("the Records"). Please consider any e-mails, attached documents, voice mail logs or transcriptions, letters, memorandums, text messages, voice/video recordings and other documented forms of communications as responsive Records to my request. This request is ongoing, and I am requesting that the records be provided to me on computer files or, if not maintained on computer files, in the same format as they are currently maintained at the EPA. FOIA requires that your agency respond to my request for expedited treatment within 10 business days. In the event your agency denies my request for expedited treatment, whether through your agency's affirmative denial of the request for expedited treatment or through your agency's failure to respond to the request for expedited treatment, then FOIA requires that your agency nonetheless respond to the underlying request for information within 20 business days of receipt of this letter. This request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. Under federal law, if you choose to withhold any such parts of the records from disclosure, you must specify in a written response the factual and legal basis for withholding any part of the Records. Please contact me if I may assist in your office's response to this request. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone or email, rather than by mail, if you have questions regarding this request.

EPA-HQ-2017-005477	Ben Lefebvre	Politico	3/30/2017 13:03	Dear FOIA Officer: Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of any and all correspondence to or from officials at the EPA and President Trump and/or White House staff, including Mike Catanzaro, between the dates of January 20, 2017, and March 29, 2017, relating to the state of California's waivers from aspects of the Clean Air Act. This would include discussions of vehicle emission or efficiency standards as they relate to federal and California state regulations. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the policy implications of the review of CAFE standards as sought by the President that is of current interest to the public because of its possible impact on fuel efficiency and energy production. This information is being sought on behalf of Politico for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. I look forward to your reply within 20 business days, as the statute requires. Thank you for your assistance. Sincerely, Ben Lefebvre

				We would like information concerning waste volumes for the entire span of operation, which would date back to 1944. If possible, we would like the information presented in summary form. Further, we are fine with rolling responses and do not request a log of confidential information at this time. If the U.S. EPA has such information in summary fashion on a load-by-load basis reflecting the identity of each waste generator and/or transporter for each load, then that information would be helpful. I understand that a PRP Group has been formed that is working subject to U.S. EPA oversight and whose information of this nature should be available to the U.S. EPA. 2) Information reflecting communications and other information to date between the a) PRP Group and/or its consultant and b) U.S. EPA regarding the pending remedial investigation and feasibility study for this Site. EPA-HQ-2017-009459	Sophie Shive	University of Notre Dame	7/17/2017 15:07	The names associated with your registry IDs appear to be as of today. I would like a history of the names so that I know whom the facility belonged to in prior years, not just today. Annual snapshots of REGISTRY_ID and FAC_NAME, with the historical FAC_NAMES in each year, would do. Better yet, annual snapshots of your ECHO EXPORTER download database would be great. This is for an academic study and we would like to go back at least to 2007. Thank you.

EPA-HQ-2017-010328	James Duffy	Clean Air Task Force	8/8/2017 19:08	On January 11, 2017 the United States District Court for the Northern District of West Virginia ordered EPA to submit a § 321(a) evaluation of the coal industry and other entities affected by EPA rules and regulations no later than July 1, 2017. Two days before the evaluation was due the U.S. Court of Appeals for the Fourth Circuit vacated the District Court's order. Given that the Court of Appeals decision was released on June 29, 2017, merely two days before the section 321 report was due to the District Court, CATF believes that the section 321 report was in fact prepared by the Agency but never submitted to the Court or otherwise made public. CATF therefore requests: 1. Any and all reports, memoranda, or evaluations prepared in response to the District Court's Jan. 11, 2017 Order (Attach A); and 2. The underlying data supporting any report or evaluation. This is a request under the Freedom of Information Act for a copy of United States Environmental Protection Agency administrator Scott Pruitt's daily calendar from February 1, 2017 through the date of this request. EPA-R6-2017-011643	Alison Grass	Food & Water Watch	9/19/2017 20:09	On September 14, 2017, a joint ProPublica-Texas Tribune publication noted that the U.S. Environmental Protection Agency (EPA) took air samples around a Valero Energy refinery, after Hurricane Harvey came through and residents complained of rotten stench. The EPA did not release any specifics to the public, but said "concentrations of several toxic chemicals, including the carcinogen benzene, met Texas health guidelines." Thus, pursuant to the Freedom of Information Act (5 U.S.C.§ 552), I hereby request all records related to EPA's benzene air sampling conducted in the atmosphere surrounding the Valero Energy refinery following Hurricane Harvey. There is only one Valero Refinery in Houston, and the address for it is: 9701 Manchester St, Houston, TX 77012. I also request a copy of the benzene air sample test results. The date range I am interested in is August 26, 2017 to the present. I would like these records in a searchable and analyzable electronic PDF format, if that is feasible.

Authors from the EPA and authors under contract to EPA published the article "Relationship between arsenic concentrations in drinking water and lung and bladder cancer incidence in the U.S. counties"; by Mendez WM et al. in the Journal of Exposure Science and Environmental Epidemiology (2017 May;27(3):235-243). I request a copy of the data set that underlay the published analyses. Please include in the data set the FIPS numbers for each entry as that is not privileged confidential information and is essential for the purpose of confirming the validity of the data set. It is not clear that the published analyses are either correct and valid or that they are the only correct and valid interpretation of the underlying data. I request that the data be sent as a spreadsheet that I can analyze in excel and in STATA. I do not use SAS or SPSS. All the underlying information has been collected by federal governmental agencies and belong in the public domain. How EPA personnel and contractors have organized and used that information using federal funds also belongs in the public domain. This information does not fall within the nine exclusions, including the ninth exclusion on geological information on wells. I am requesting information on the water that comes from the wells and on either the geological nature of the well or the geographical coordinates of the well. The underlying data on the arsenic contents of the waters of the wells has already been publicly released by the USGS. I am requesting the EPA data from the aggregation of the USGS data. I request a fee waiver and expedited processing on the bases explained in the attached copy of my complete FOIA request.

The report was conducted in 1975 but then appears to be distributed in 1979. The EPA had a copy of this report which is what we are requesting. Operation Bootstrap, a 1975 company management study of the Niagara Plant documenting obsolete equipment, substandard environmental conditions and massive discharging of waters into sewers leading to the Niagara River. "The 1975 Report, called 'Operation Bootstrap', was prepared by internal engineers and doctors for the Hooker Chemicals and Plastics Corp., a subsidiary of Occidental Petroleum." https://www.newspapers.com/newspage/160831662/ The 1975 report, called "Operation Bootstrap," was prepared by internal engineers and doctors for the Hooker Chemicals and Plastics Corporation, subsidiary of Occidental Petroleum. It was obtained by The New York Times, television station WKBW in Buffalo and Michael Brown, an environmental writer, from a supervising engineer who was dismissed two years ago, allegedly for complaining about unsafe emissions from the plant. According to Michael J. Bayliss, the former supervising engineer for plant efficiency who released the report, it was Hooker company policy "not to tell workers the dangers of the chemicals they worked with." He said he had told Federal safety officials about the problems but had not yet given them a copy of the report. EPA-HQ-2017-011017	Todd H. Henderson	Bragar Egel & Squire, P.C.	8/30/2017 21:08	<p>On behalf of American Bottom Conservancy ("ABC"), the Washington University Interdisciplinary Environment Clinic requests the following documents pursuant to the Freedom of Information Act: All communications between EPA Region 5 and Veolia ES Technical Solutions, LLC ("Veolia") related to the modification of draft Title V Permit No. V-IL-1716300103-2014-10 (issued about October 14, 2014), from December 2014 to March 2017. Veolia's petition for review of the final permit (CAA Appeal No. 17-02) indicates that after the close of the comment period on December 19, 2014, Veolia and EPA Region 5 "entered into lengthy negotiations" that included several meetings with the Deputy Regional Administrator, and that Veolia made various "offers of compromise" before EPA issued the final permit on January 18, 2017. This request includes, but is not limited to, all communications related to these negotiations and offers of compromise. For purposes of this request, the term "communications" includes, but is not limited to, letters, e-mails, memoranda, notes of meetings, notes of telephone conversations, and all other communications or records of communications and other documents created, received, or retained by EPA.</p>
EPA-R5-2018-000038	Elizabeth Hubertz		10/3/2017 0:10	<p>Good Day, Our company has an Exclusive Master Distributor Agreement (copy attached) with the following company; Virox technologies inc., Company Number: 074559 2770 Coventry Road Oakville, Ontario L6H 6R1. We would like to get copies of any Notice of Arrival (NOA Form 3540-1) documents from Virox relating to the two products covered in our agreement, being 'Rescue' and 'Intervention' brands of various formats (1gallon, 5 gallon etc)for the timeperiod from July 2015 through present time. The reason we are asking is that early this year we found out that Virox had shipped product around us without our knowledge (a violation of our agreement) and most importantly since July 01, 2017 they have cut us out of the Distribution chain almost entirely. Given that this is over \$5M a year in business to us this is a significant and damaging hit to us. This is a business that we grew from the ground up over the last 7 years and invested approximately \$1.7M in while doing the difficult job of building it. 				We are looking for records regarding wastes (e.g., lead slag) left in place at the RSR Corporation Superfund Site in Dallas, TX. In particular, we would like to review records related to the landfills within OU-3, Site 4, and any remaining impacts to soils and groundwater within or surrounding the landfills. We want to find out if there are any engineering controls (i.e., landfill caps) or institutional controls within the boundaries of a particular parcel of land that is located within the boundaries of OU-3, Site 4. We also want to find out what contaminant concentrations remain in place on the parcel in question. Therefore, documents that may be of particular interest would be any IC's/deed notices; Landfill Cap O&M Plans; Final Groundwater Monitoring or Investigation Reports, and the Remedial Investigation for OU-3, Site 4. If possible, electronic documents would be preferred over a review of hard copy files, but if necessary, we can do a file review in Dallas. Please feel free to contact me for further clarification of this request. Thank you.

EPA-HQ-2018-002245	Scott H. Daniska		12/1/2017 19:12	<p>Hi, My name is Scott Daniska and I was exposed to an extremely toxic substance called hydrazine via inhalation while working in an academic lab at Yale University (no longer employed there). Exposure occurred on August 10th and I have still been suffering symptoms on a daily basis. Symptoms include shortness of breath, extreme fatigue, mental fog, tingling in hands, abdominal tightness, dizziness, etc. I have seen dozens of doctors and have had all sorts of tests including blood work, urine analysis, neurotransmitter testing, EEG, brain MRI, chest xrays, EKG, cardiosonigram, abdominal ultrasound, chest CT and sleep studys. So far all of the tests are coming back normal, with the exception of postural orthostatic tachycardia reported. I have tried different medications such as pyridoxine supplements which initially helped but now just make me more tired, modafinil to decrease GABA which just made me more tired, and dexamethasone to stimulate the production of monoamine oxidase which has caused extreme fatigue. My symptoms are ongoing and I have been suffering with no end in sight. I have contacted reporters, doctors, hospitals, the CDC, poison control, professors, etc and no one is able to do anything to help me. While I can speculate some level of mechanism of the toxin via online publications, nothing has helped me. All I want to do is to get better so that I can get back to work in my doctorate program in biology. Because hydrazine is a controlled and limited substance, there are hardly any reports of hydrazine exposure in the past decade. The only recent reports I can find are twelve airmen exposed in May of 2016 at the Homestead Air Reserve Base, six members of the national guard exposed at the 177th Fighter Wing treated at AtlantiCare Regional Medical Center in August of 2016, and 7 workers at the N.J. nuclear reactor building in April of 2017. I have tried to get in contact with anyone and everyone involved and no one will speak to me in the matter.</p>

To complete the original FOIA, we approved the exclusion of these documents from the request and asked that a new FOIA be opened directed at these 68 documents under review. The original request seeks: Any and all records related to the EPA's proposal to promulgate a Federal Implementation Plan to address air emissions from oil and natural gas operations within the Uinta and Ouray Indian Reservation of Utah. This proposal has been docketed as EPA-R08-OAR-2015-0709. We request all records related to this proposal specifically, as well related broadly to any proposal to promulgate a Federal Implementation Plan to address oil and gas air emissions within the Uinta and Ouray Indian Reservation. For purposes of this request, records include, but are not limited to, electronic mail messages, maps, draft documents, photos and/or videos, recorded voicemails, GIS data, GPS data, handwritten notes, meeting or phone conversation notes, applications for permits to drill, reports, and any other records of correspondence. We do not request any records that are already publicly available online on an EPA website that is not subject to alteration or elimination, whether temporarily or permanently. Date range for records sought is July 1, 2016 to March 12, 2017. Exclude 68 email correspondence needing review from HQ OEX. A supplemental request will be submitted to respond to these items.

				Advanced Economic Solutions has 3 specific FOIA requests: 1. Advanced Economic Solutions wishes to identify the “small refineries” that have been granted an annual exemption from its annual RVOs for calendar years 2016, 2017 and 2018. 2. Additionally, Advanced Economic Solutions would like to identify the small refineries that have petitioned for an exemption from its annual RVOs for calendar years 2017 and 2018. 3. In addition to identifying the small refineries that have been granted or petitioned for an annual exemption from their annual RVOs, Advanced Economic Solutions would like to identify their respective refining capacities (as estimated by EPA or EIA). Under EPA’s Renewable Fuel Standard (RFS) program, a small refinery may be granted a temporary exemption from its annual Renewable Volume Obligations (RVOs) if it can demonstrate that compliance with the RVOs would cause the refinery to suffer disproportionate economic hardship. The RFS regulations define a small refinery as one with an average crude oil input no greater than 75,000 barrels per day (bpd) crude in 2006. Additionally, the small refinery may not have an average aggregate daily crude oil throughput greater than 75,000 bpd in the most recent full calendar year prior to submitting a petition, and cannot be projected to exceed the 75,000 bpd threshold in the year or years for which it is seeking an exemption. Advanced Economic Solutions is an independent consulting firm, based in Omaha, Nebraska, that specializes in assisting food companies with supply chain risk management and other economic and commodity issues. EPA-HQ-2018-003718	Emma Howard	Unearthed	1/24/2018 17:01	Dear FOIA Officer, This Freedom of Information Act ("FOIA") request is directed to Environmental Protection Agency. Unearthed is interested in obtaining the below information relating to the Volkswagen fix. I hereby request copies of all records containing the following information: Data on all Volkswagen vehicles tested on the road (PEMS data) for NOx emissions before and after the fix Information in regard to how the tests were done: for example, the engine temperature at the start of the test any details regarding the route, composition (urban, rural, motorway split) and the ambient conditions on the day of the test. Details about the vehicles themselves: engine size, model year, mileage, body type and emissions technology Any other documents such as keys or guides that are necessary to interpret the data appropriately I would like the data in xls format if possible. Disclosure of this information is demonstrably in the public interest – Volkswagen were caught rigging emissions tests and breaking the law. This fix has been promoted as one of the key solutions to the problem. The public has a right to know what impact it is having on emissions. It will also allow the global public to understand how the fix affects emissions in different countries. If you deny all or any part of this request, please cite each specific exemption that you believe justifies your withholding of information. Please be sure to notify me of appeal procedures available under the law in the event of any denial. If you deny my request for a fee waiver, please inform me before processing my request. I look forward to receiving your response within the twenty day statutory time period. Thank you for your consideration of this request.
