

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
REGION 6  
1445 ROSS AVENUE, SUITE 1200  
DALLAS TX 75202-2733

MAR 07 2018

Mr. Bradley Cooley  
Senior Manager, Environmental Permitting  
Enterprise Field Services LLC.  
1100 Louisiana Street  
Houston, TX 77002

Dear Mr. Cooley:

In accordance with the Clean Air Act (CAA), as amended (42 U.S.C. 7401 et seq.), the U.S. Environmental Protection Agency has reviewed your application for a Synthetic Minor New Source Review (MNSR) Permit for the Lindrith Compressor Station. The EPA proposed both a draft permit for public comment and a notice of opportunity for a public hearing regarding the above application on January 24, 2018.

During the public comment period there were no public comments received from the general public, but in the final permit we have addressed your request to correct the typographical errors for the Serial Numbers in the equipment list for the engines A-01 - A-03 and EMERGEN. After consideration of the pertinent Federal statutes and regulations and additional material relevant to the application contained in our administrative record, the EPA hereby issues the enclosed Synthetic MNSR Permit for Enterprise Field Services LLC., Lindrith Compressor Station. The final permit, basis of decision, technical support document and other key documents relevant to the final permit are also available online at: <https://www.epa.gov/caa-permitting/caa-permitting-epas-south-central-region>

In accordance with 40 CFR § 49.159(a)(3), this Permit becomes effective immediately. If you have any questions regarding this matter, please contact Mr. Jeff Robinson, Chief, Air Permits Section at (214) 665-6435.

Sincerely,

A handwritten signature in black ink, appearing to read "Guy R. Donaldson".

Guy R. Donaldson  
Associate Director for  
Air, Multimedia Division
