Hi Janene,
Thank you for sending these GIS files. Your email mentioned comments but I did not see a separate attachment with comments on the dropbox. Please let me know if there were separate comments. Thanks, Jen

Jen,

Please see our comments on the attached memo as well as a link below of the shape files of the Township's Storm Sewer/Outfalls, Township Owned Properties, Drainage Areas, etc. on behalf of Franconia Township. Please let me know if you need anything additionally. Note that the link will expire in 30 days.

Subject: Indian Creek Stakeholder Meeting to Discuss Existing Sediment Loads - Follow Up

Greetings,

Thank you to everyone who attended the August 3rd stakeholder meeting to discuss sediment TMDL development and existing sediment loads within Indian Creek watershed. As promised, EPA is providing the meeting notes in the first attachment and the presentation in the second attachment. Please let me know if there are any updates needed on the meeting notes. EPA plans to provide modeling files and other information requested during the stakeholder meeting via a website which will be sent separately.

The third attachment is a draft report for your review called "Preliminary Draft TMDL for Sediment in the Indian Creek Watershed, Montgomery County, PA – Existing Loads." This preliminary draft report was shared with the stakeholder group on July 31, 2017 and describes the existing sediment loads in the Indian Creek watershed. EPA is requesting feedback on this preliminary draft report by August 31, 2017.

EPA is planning the next stakeholder meeting on possible allocation scenarios to be held in late September 2017 within the Indian Creek watershed. Thank you to representatives from Lower Salford who offered their meeting space. We will work with Lower Salford on possible dates and request your availability in a future email.

Please let me know if there are any questions. Thanks, Jen

Jennifer Sincock
