UECA ENVIRONMENTAL COVENANT

This Environmental Covenant ("**Environmental Covenant**") is made and entered into as of the 19 day of December, 2017 by Target Corporation, Minnesota corporation, whose address is 1000 Nicollet Mall, Minneapolis, MN 55403 (hereinafter referred to as the "Grantor" or "**Owner**"), and LSI Corporation, an Avago Technologies company (hereinafter referred to as the "Grantee" or "Holder"), whose principal business address is 1320 Ridder Park Drive, San Jose, California 95131.

The Environmental Protection Agency, Region III, whose address is 1650 Arch Street, Philadelphia, PA 19103 (hereinafter referred to as the "**EPA**") also joins in this Environmental Covenant.

This Environmental Covenant is executed pursuant to the Virginia Uniform Environmental Covenants Act, § 10.1-1238 et seq. of the Code of Virginia ("**UECA**"), and the EPA shall be the ("**Agency**") as defined therein. This Environmental Covenant subjects the Property identified in Paragraph 1 to the activity and use limitations in this document.

1. Property Affected. Property Affected. The Owner's property affected ("**Property**") by this Environmental Covenant is part of the former Lucent Technologies Richmond Works facility ("**Former Lucent Facility**") located at 4521 South Laburnum Avenue, Richmond, Virginia 23231. The Property is legally described in **Exhibit "A"** which is attached hereto and incorporated herein.

2. Description of Contamination and Remedy.

A. The Administrative Record pertaining to this Environmental Covenant is located at:

EPA, Region III
Land and Chemicals Division
RCRA File Room

1650 Arch Street
Philadelphia, Pennsylvania 19103

B. The Property is subject to the Corrective Action Program under the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act ("**RCRA**") of 1976, and the Hazardous and Solid Waste Amendments of 1984, 42 U.S.C. §§ 6901 et seq.

i. In approximately 1972, Western Electric Co., a division of American Telephone & Telegraph ("**AT&T**") constructed a manufactured printed circuit board facility on the Former Lucent Facility. During its manufacturing operations, AT&T used and stored chlorinated solvents at the Former Lucent Facility.

ii. In 1986, during the repair of a fire main, AT&T discovered releases of chlorinated solvents at the Former Lucent Facility. The soil surrounding the fire main was excavated, pipes were replaced and a sump in the former solvent recovery area of the plant was repaired. In 1989, the large-scale storage and use of methylene chloride ("**MEC**") and 1,1,1 trichloroethane ("**1,1,1-TCA**") at the Former Lucent Facility was discontinued when it was discovered that the groundwater beneath the Former Lucent Facility was contaminated with various hazardous wastes which included MEC; 1,1,1-TCA; and 1,1-dichloroethane.

iii. Subsequently, on June 28, 1991, EPA issued a RCRA Record of Decision in which it selected a corrective measure for the Former Lucent Facility. EPA subsequently modified the selected corrective measure by three Explanations of Significant Differences issued on February 13, 1992, December 11, 1992 and May 16, 2011, respectively. EPA's selected corrective measure for the Former Lucent Facility, including the Property, as modified, provides for the installation, operation and maintenance of a groundwater treatment system as well as implementation and maintenance of institutional controls which are described in Paragraph 3, below.

iv. The groundwater treatment system is intended to contain and reduce the area of the contaminated groundwater plume ("**Plume**") beneath the Former Lucent Facility, including the Property. EPA's selected corrective measure, as modified, requires that the Plume be monitored by the collection of groundwater samples twice per year.

v. In September 24, 1996, EPA under the authority of Section 3008(h) of RCRA, 42 U.S.C. Section 6928(h), issued an Initial Administrative Order, which became final on October 24, 1996 ("**Order**"), to Lucent Technologies, Inc. ("**Lucent**"), a wholly-owned subsidiary of AT&T. The Order requires Lucent to

operate and maintain the groundwater remediation system.

vi. While Lucent remains the named Respondent under the Order, and is, therefore, responsible for complying with all terms and conditions of the Order, sometime in 1996, Lucent sold the Former Lucent Facility to Viasystems Technologies Corporation (“Viasystems”). Viasystems ceased manufacturing operations at the Former Lucent Facility sometime in June, 2001. In February, 2001, Lucent created a new company named Agere Systems Inc. (“Agere”). Agere contractually agreed to perform the operation and maintenance of the groundwater remediation system on behalf of Lucent. On April 2, 2007, Agere was acquired by LSI Corporation (“LSI”). As part of this acquisition, LSI agreed to continue the operation and maintenance of the groundwater remediation system on behalf of Lucent. Currently, LSI operates the groundwater remediation system under the oversight of EPA and the Virginia Department of Environmental Quality (“DEQ”).

3. Activity & Use Limitations.

A. The Property is subject to the following activity and use limitations, which shall run with the land and become binding on Owner and any successors, assigns, tenants, agents, employees, and other persons under its (their) control, until such time as this Environmental Covenant may terminate as provided by law:

i. The Property will not be used for residential purposes unless it is demonstrated to EPA that such use will not pose a threat to human health or the environment and EPA provides prior written approval for such use;

ii. The Property will not be used in a way that will adversely affect or interfere with the integrity and protectiveness of EPA’s selected corrective measure, including, but not limited to the groundwater treatment system and associated wells and piping;

iii. Groundwater underneath the Property will not be used for any purpose other than to implement the selected corrective measure, as modified, unless it is demonstrated to EPA that such use will not pose a threat to human health or the environment or adversely affect or interfere with the selected corrective measure, as modified, and EPA provides prior written approval for such use;

iv. No new wells will be installed on the Property unless it is demonstrated to EPA that such wells are necessary to implement the selected corrective measure, as modified, and EPA provides prior written approval to install such wells;

v. No new structure will be constructed, unless a vapor barrier designed to prevent vapors emanating from the Plume at levels presenting an unacceptable risk to human health, is installed in the new structure or unless it is demonstrated to EPA that a vapor barrier is not necessary to protect human health or the environment and EPA provides prior written approval for construction without a vapor barrier; and

vi. No earth moving activities, including soil excavation and drilling, will be conducted below the water table unless it is demonstrated to EPA that such activities will not pose a threat to human health or the environment or adversely affect or interfere with the selected corrective measure, as modified, and EPA provides prior written approval to conduct such activities.

EPA anticipates that the activity and use limitations listed in Paragraphs 3.A.v. and 3.A.vi. will not be needed in the future as a result of the continued operation and maintenance of the groundwater treatment system. These activity and use limitations can be terminated as provided in Paragraph 7, below.

B. The Property boundary is depicted in **Exhibit "B"** and a table of the geographic coordinates (in decimal degrees, WGC84) of the legal description of the Property is provided in **Exhibit "C"**, both of which are attached hereto and incorporated herein.

4. Notice of Limitations in Future Conveyances. Each instrument hereafter conveying any interest in the Property subject to this environmental covenant shall contain a notice of the recorded location of its environmental covenant.

5. Access. In addition to any rights already possessed by EPA, DEQ, and the Holder, this Environmental Covenant grants to EPA, DEQ, the Holder, the immediate, intermediate, or ultimate corporate parents of Holder, Holder's subsidiaries and affiliates, and their respective successors and contractors a right of reasonable access to the Property in connection with implementation, inspection, or enforcement of this Environmental Covenant.

6. Recording, Proof and Notification.

A. Within ninety (90) days after the date of the Agency's approval of this Environmental Covenant the Owner shall record, or cause to be recorded, this Environmental Covenant in the Clerk of the Circuit Court of Henrico County, Virginia. The Owner shall likewise record, or cause to be recorded, any amendment, assignment, or termination of this Environmental Covenant with the applicable Clerk (s) of the Circuit court within ninety (90) days of its execution. Any Environmental Covenant, amendment, assignment, or termination recorded outside of these periods shall be invalid and of no force and effect.

B. Owner shall send, or cause to be sent, a file-stamped copy of the recorded Environmental Covenant, and of any amendment, assignment, or termination, to the Holder, EPA and DEQ, within sixty (60) days of recording. Within that time period, the Owner also shall send, or cause to be sent, a file-stamped copy to the chief administrative officer of each locality in which the Property is located, any persons who are in possession of the Property who are not the Owner(s), any signatories to this Environmental Covenant not previously mentioned, and any other parties to whom notice is required pursuant to the UECA.

C. Within thirty (30) calendar days after the transfer of the Property or a portion thereof, the then current owner of the Property shall submit to EPA and DEQ, written notification of such transfer.

- i. Notices required to be sent to EPA shall be sent to:

Land and Chemicals Division
Office of Remediation (3LC20)
U.S. EPA Region III
1650 Arch Street
Philadelphia, PA 19103

- ii. Notices required to be sent to DEQ shall be sent to:

Department of Environmental Quality
Office of Remediation Programs
629 East Main Street
Richmond, Virginia 23218

7. Termination or Amendment. This Environmental Covenant is perpetual and runs with the land unless terminated or amended (including assignment) in accordance with UECA. In accordance with § 10.1-1246 of the Code of Virginia, upon the request Owner, or its successor in title, EPA, Holder and Owner, or its successor in title, will remove the activity and use limitations listed in paragraphs 3.A.v. and 3.A.vi., above if the Property is no longer within 100 feet of the contaminated groundwater plume.

8. Enforcement of Environmental Covenant. This Environmental Covenant shall be enforced in accordance with § 10.1-1247 of the Code of Virginia.
