<sup>1</sup> All AFOs with numbers of animals above the size thresholds set out for large CAFOs are defined as CAFOs under the NPDES federal regulations. In some cases, such as Arkansas and Louisiana, the numbers have not yet been confirmed by the State.

<sup>2</sup> The NPDES CAFO regulations require CAFOs that discharge to have NPDES permit coverage (40 CFR 122.23(d)(1)). As a consequence, the portion of CAFOs in each State that need NPDES coverage can vary from State to State.

<sup>3</sup> Status indicated reflects current plans. In some cases, plans are still under discussion.

\* 29 facilities covered under Regional Board 7 permits; 108 facilities covered under Regional Board 8 permits; other 3 CAFOs covered by IPs.
