Dear Mr. Moore:

I have received the National Environmental Justice Advisory Council's report titled *Youth Perspectives on Climate Change*.

I appreciated the NEJAC's feedback on how the U.S. Environmental Protection Agency can better engage with youth regarding climate change. It is important that our youth have a meaningful say in environmental protection and regulation.

Thank you for your leadership on this important advisory committee. I am grateful for your thoughtful advice as we work together to protect the health and environment of our most vulnerable and overburdened communities.

Sincerely,
