

MUNIPAY DATA REQUEST FORM

Updated For Model Version 2019.0.0 (March 2019)

FINANCIAL DATA

MUNIPAY runs its affordability analysis on financial data, which typically concerns the Governmental Funds of a municipality. This corresponds to the "City/Town/Village" selection under the "entity type" entry. But for a Clean Water Act or Safe Water Drinking Act case, the relevant data (and corresponding entity type selection) probably concerns a municipality's Enterprise Fund, which accounts for municipal activities that operate more like a business (i.e., levying charges upon users in relation to services consumed).

If a Clean Water Act or Safe Water Drinking Act case involves a regional authority not tied to any single municipality, then select the Enterprise Fund type, but enter a zero for all the fields related to the General Fund. (Note that such an independent and publicly owned utility is not the same as a privately owned yet publicly regulated utility, for which no EPA screening model exists.)

For Superfund cases, a municipality will sometimes have an Enterprise Fund that accounts for the operations of its municipal landfill. For RCRA cases, a municipality will sometimes have an Enterprise Fund that accounts for activities related to the violation. Both of these situations are fairly rare, and even if such an Enterprise Fund exists, an analysis of the municipality's Governmental Funds may be more relevant.

For other types of local and regional governmental jurisdictions, contact the U.S. EPA Helpline at 888-326-6778 for guidance on MUNIPAY's applicability.

In addition to the data items below, the municipality should provide the following for the last three years: annual audited financial statements, bond prospectuses, and budgets (especially for the anticipated General Fund expenditures). Financial statements and bond prospectuses may also be available for many cities from municipality websites or even commercial providers.

Instructions for pulling U.S. Census Bureau Data.

Go to www.census.gov and click on "American FactFinder" under Data (or try going directly to www.factfinder.census.gov) and choose "Advanced Search." Specify the municipality name under "State, County, or Place" and then search for the table codes listed below. For the 2000 tables, the Dataset in the final column should be "2000 SF3 Sample Data." For the 2017 tables, the Dataset should be "2017 ACS 5-year estimates."
