As a follow up to the March 2nd Principals' meeting on the President's Infrastructure Initiative, we will be gathering in EEOB 472 at 2:00 p.m. on March 15th. The purpose of the meeting is to lay out in more detail how we plan on organizing this effort and the data gathering and policy coordination it will entail. This will be the first of many meetings as we try to pull together an integrated approach to infrastructure.

Attached please find an agenda for the meeting and list of participants (if you would like to add a participant, please contact Austin first as space is limited), the memo and presentation handed out at the Principals' meeting on March 2nd, some background on FPISC, and an Executive Order on high-priority projects.

In terms of your involvement, we would like to hear any ideas you have that fall into 6 categories outlined in the attached memo. This meeting will not be long enough for us to discuss any ideas in depth.

Instead, I would prefer to have you just give the group bullet points on potential avenues of exploration; so we are able to develop some synergy as a group.

If you have any questions, please reach out to Austin at

Ryan – I'm reaching out on behalf of my boss, Congressman Garret Graves (LA-6). He would like to get on the phone with the appropriate person at EPA to discuss the attached letter we sent to Administrator Pruitt on March 7. Local refiners, oil marketers, convenience stores and gas stations are heading into the summer months facing a mandate to lower the Reid Vapor Pressure (RVP) of gasoline. For the past 2 years the industry has been required to implement the lower RVP by the state DEQ. It can however be waived, and has been done so in several areas around the country (info below). EPA can provide the flexibility for the state to eliminate the requirement, and that is our ask. As summer is fast approaching, timing is of the essence. I have cc'd our scheduler who can provide the Congressman's cellphone number and otherwise handle logistics of setting up a quick call. Thank you very much for your help on this.

Ian

BACKGROUND

- * Today, Reid Vapor Pressure (RVP) limits provide minimal benefit to ozone air quality because of improvements in vehicular emission equipment and the inability to blend ethanol lower than 8.8 RVP. These combined factors result in very few to no measurable benefits for ozone reduction.
- * Producing different RVP grades creates higher production costs for the refiner and these costs are passed on to the consumer (up to \$0.10/gallon).
- * Having different standards of RVP requires additional inspection and enforcement efforts.
- * RVP limits will not likely be considered an effective method to reduce ozone in the future, since the EPA recently strengthened the National Ambient Air Quality Standards (NAAQS) to 70ppb.
- * The 7.8 RVP requirement has been eliminated in other areas such as: Denver and Boulder, CO; Grant Parish, LA; Florida; Raleigh, Durham, and Chapel Hill, NC; Greensboro, NC; Winston and Salem, NC; High Point area in North Carolina; Jefferson and Shelby counties (Birmingham area) in Alabama; and Mecklenburg and Gaston counties in North Carolina. The EPA is currently considering eliminating the RVP requirement in Pittsburgh, PA, a city very similar to Baton Rouge, LA.

Ryan,

Coming to you first, and wanted to see if you have time to meet in the next week or so or if you could point us in the right direction for a meeting at EPA, especially on RCRA.

Our client Bloom Energy, a fuel cell manufacturer that runs its fuel cells on natural gas, has tried to work through EPA regulations and we would like to come in and discuss. Here is the short version: Bloom uses a de-sulfurization unit to extract sulfur from natural gas as it enters the fuel cell stacks. In doing so, the units capture a trace amount of benzene, a regulated chemical.

We'd love to talk to you or someone on your staff about this and can bring their General Counsel either next week (the 20-24) 27th or after April 4th. Let me know what works on your end.

Thanks,

Location Acadiana Restaurant / 901 New York Ave., NW

Show Time As Busy

All – Happy St. Patrick's Day! I know that I've spoken to some of you about pulling together a monthly COS lunch. My thinking was that it could benefit all of us to meet in a less formal/structured setting to talk policy, personnel, management, etc. To that end, I have reserved a room at Acadiana Restaurant (details below) for Friday, March 31. My thinking is that we could establish a standing lunch date (i.e. last Friday of the month) and go from there.

Ryan-
Congratulations on being awarded the best job in town. Of course also one of the most demanding. Any chance a few of my Chamber colleagues and I can get some time on your schedule this week or next? We don't have any asks, just looking to outline what we are doing and can do in support of Administrator Pruitt's agenda. Thanks in advance. -christopher

Subject: A brief call between Mr. Jackson & NYS DEC Commissioner Seggos

Hi Aaron,

I appreciate you taking a moment to speak with me a moment ago. As I mentioned the New York State Dept. of Environmental Conservation Commissioner, Basil Seggos, would like to speak with Secretary Pruitt's Chief of Staff regarding the Hudson River NRD.

I am, hoping to find a time that works for both the COS and Commissioner to speak for about 10 mins either later today, tomorrow, or Wednesday morning. If you'll recall the Commissioner will be travelling tomorrow extensively in the Adirondacks and cell service isn't always a sure thing which will limit his availability. That said I can safely offer the following:

Today, 4/10 – 5:15 to 5:45p;
Tomorrow, 4/11 – 8:30 to 10:00a; 2:30 – 3:00p; and
Wednesday, 4/12 – 9:00 to 10:45a

Side note, there is a chance that our Director of Federal Relations to

the Governor, Alexander Cochran, may join as well if timing works. Please let me know if you have any further questions. I look forward to hearing back from you.

Regards,
Justin

Ryan,

Sorry to bother you again. Just an FYI that in the transition confusion we accidentally sent the below meeting request to the wrong scheduler. The mistake has now been corrected. Just wanted to send a heads up in case you had a free minute to inquire about it and it wasn't there. Thanks and apologies again for adding to an already overfilled inbox. Best,
Mitch

Ryan,

Congratulations on your new position. Sorry to bother you as I understand you have been so busy you haven't had time to pack up your old office. That said, I wanted to flag the below/attached meeting request as I believe it may be a model example to promote the theme the Administrator has raised about the benefits of delegating appropriate issues to states when they are best positioned to undertake a project or initiative. Anything you might be able to help with as far as shepherding this proposal through the process would be greatly appreciated. Congratulations once again and please don't hesitate to reach out with any questions.

Best,

Mitch

Subject: Meeting Request to Administrator Pruitt

Dear Ms. Jenkins

Attached is a letter requesting a meeting with Administrator Pruitt regarding the Hudson River Superfund Site. This letter was sent by

Federal Express for delivery Thursday, March 30th.

I will be in Washington D.C. April 6th and 7th and would ideally meet with him at that time if his schedule permits. I will be attending Administrator Pruitt's address at the Environmental Commissioners of the States (ECOS) Friday the 7th -- one potential opportunity for a meeting. I will make myself available to accommodate Mr. Pruitt's schedule during this or a future trip.

With thanks,

Ned Sullivan

Somehow, we managed to let our Acting Deputy Administrator's birthday pass by without recognition. To make up for it, please come down to the Deputy's office at 12:30 today to sing the birthday song for the sake of Mike's embarrassment, and let's all eat a cookie together.

AND Shhhhhhhh! Keep it quiet. He told me he didn't want me to do anything, but I know he was lying.

		Sharnett, we have an additional participant for the meeting on Monday (May 15) at 3:30 pm. Her is the full list:	
		* Steve Berry, Volvo	
		* Brian Mormino, Cummins	
		* Paul Feenstra, PACCAR	
		* Sean Waters, Daimler	
		* Jed Mandel, EMA	
		* Jason Quaranto, Navistar	

Hello Sharnett. Hope you are doing well. We are preparing for our meeting with Ryan Jackson for Monday, May 15th at 3:30 pm. 3 questions:

1. We understand that Mandy Gunasekara will also join the meeting which is great. Will anyone else from EPA attend?
2. Can you provide details on where we will meet?
3. Do you need information from us on attendees or anything else?

Thanks for your help. See you soon!

 Subject: Commercial Vehicle Manufacturers Mtg Request - April 19

Ryan, I hope you are doing well with your transition to the EPA. I will be visiting Washington, DC with several of my colleagues in the commercial vehicle industry and hope that you could meet with us on Wednesday, April 19th.

The participants in the meeting would be the President of the Truck and Engine Manufacturers Association (EMA) and executives from the major manufacturers – Cummins, Navistar, Paccar, Daimler and Volvo. Our intent is to discuss industry regulatory issues including the Phase 2 Fuel Efficiency and Greenhouse Gas regulations and the potential for a future low NOx rule.

We can be flexible on the timing for a meeting on April 19th. We are hoping that you would also invite other leaders in the Agency that could contribute to the discussion.

Please let me know what time would work and thanks for your consideration,

Brian

Subject: Following up on your conversation with Susan Bodine
Mr. Jackson,

I wanted to follow up with you regarding your conversation with Susan Bodine and on outreach efforts on my behalf from Marcus Peacock about assisting the Agency with the Water portfolio in some way.

Would very much appreciate the opportunity to talk with you at your earliest convenience. If you wish to contact me the best number to reach me on is my cell at (b) (6) or by email. If you would like to meet with me in person I will do whatever is necessary to adjust my schedule to make myself available to a time that works for you.

If you have any further questions please just let me know.

Respectfully,
Lee

The exercise, as you'll see below and attached, is now set for 11:45 a.m. – 1:15 p.m. Fri., 6/23, at a FEMA National Response Coordination Center (NRCC) facility here in southwest DC (rather than 2:30 p.m. next Mon., 6/12, at the White House complex, as designated most recently). We're told that the scenario and the background materials are not likely to change, so the pre-briefing held for Mike yesterday (Mon., 6/5), as well as the excellent EPA briefing paper, should continue to serve for 6/23.

Subject: Esri Meeting Request
Ryan,

Wanted to follow up on the previous conversation you had with Rich. Esri, the world's leading geographic information system company, wanted to come in and have a brief meeting with you next week. The afternoon of the 28th is wide open and I think we can find some time in the afternoon on the 26th or 27th if that works better for you.

Please let me know what works best for your schedule and if you need any further information from me. Also including a link below to a map

they did for House Natural Resources just to give you a specific sense of what they do.

Sharnett,

I appreciate the phone call just now. Let's make Friday (tomorrow work!!!)

As I said, I am trying to find a 15min window for a phone call between Eileen Stuart, SVP of Government Affairs for Mosaic and Ryan.

Eileen's #:
850-766-9747 <tel:(850)%20766-9747>

Please let me know a time when Ryan will be calling on Friday?

This will be in reference to a follow-up on their meeting in April on a couple of issues Ryan asked Eileen to follow-up directly and a possible

visit to FLA from the Administrator in which Eileen will want to speak with Ryan about directly.

Thank You -

JH

The enviros deadline for a response is July 11th and then they are taking their stay request to the court. I don't feel compelled to respond, but want to flag this for everyone. Happy to organize a call tomorrow morning. Does 10 am work for a call?

Subject: RE: Petition for stay of ozone designations delay action

Below is a summary of the petition. Thanks to Karen Bianco. If you have further questions, please let us know.

Several environmental groups filed a petition with the Administrator on July 5, asking that the Agency immediately stay, pending judicial review, the effectiveness of EPA's extension of the deadline to promulgate initial area designations for the 2015 ozone NAAQS. The petitioners allege that the Agency's decision to delay designations does not comply with Clean Air Act requirements and is irrational. The petitioners present a 4-part analysis of why a stay of the designations delay is warranted, specifically because (1) they are likely to prevail on the merits in an underlying challenge to the designations delay; (2) they will suffer irreparable harm without a stay; (3) a stay will not substantially harm other parties; and (4) the public interest favors a stay.

First, the petitioners state they are likely to prevail on the merits on a challenge to the Agency's 1-year delay of the deadline to make initial area designations because our rationale for delaying designations "is untethered from statutory considerations, unexplained, and baseless." Petitioners argue that the only factors relevant for EPA to justify an extension of the designation deadline relate to information about air quality conditions and areas that contribute to harmful quality, yet EPA did not cite these factors in justifying the delay. Petitioners allege that the factors EPA does cite (ongoing consideration of the 2015 standard, further analysis of background and international contributions to ozone pollution, analysis of exception events demonstrations) do not relate to the statutory standard of having "insufficient information" to proceed with initial area designations. Petitioners also argue that EPA has not explained how the information the Agency has is insufficient to make designations, noting in particular that international transport and background ozone relate to implementation of the standard, not designations, and such lack of explanation makes the delay arbitrary. Petitioners make additional allegations, including that EPA has not explained why it needs a full year delay (as opposed to a shorter delay) and why it cannot make designations for some areas, even if information is insufficient to designate parts of the country (e.g. locations most strongly influence by background ozone).

Second, petitioners explain that they will be irreparably harmed if the

delay in designations is not stayed because a delay in designations results in a delay of pollution controls, state planning, and attainment deadlines, all of which will result in myriad adverse health and environmental impacts. Third, petitioners allege that granting a stay will not harm other parties because EPA, states, and industry cannot be cognizably harmed by having to comply with the ozone implementation program Congress enacted. Fourth, petitioners attest that the public interest favors staying the designations delay because EPA has projected (in the rulemaking setting the 2015 ozone NAAQS) that compliance with the 2015 standards will realize significant health benefits.

The petitioners state that they intend to file a petition for review of our final action in the D.C. Circuit shortly and to seek a stay from the Court, and accordingly ask that we respond to their request by 6:00 p.m. on July 11, regarding whether the Agency will grant their requested stay.

 Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday’s planning and resource discussions. Wednesday’s sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive an invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Thank you, Robin

Subject Senior Leadership Council Meeting - Day 2
Location WJC-N 3rd Floor, The Green Room
Show Time As Busy
 Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions. Wednesday's sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive an invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Ryan,

I write to request a meeting on behalf of our client Ameresco in regards to the proposed 2018 volume requirements under the Renewable Fuel Standard program for cellulosic biofuel.

Ameresco <<http://www.ameresco.com/solution/biogas>> is a member of the Coalition for Renewable Natural Gas <<http://www.rngcoalition.com/>> . The Coalition's member companies generate cellulosic biofuel under the Renewable Fuel Standard and produce a predominant share of D3 RINs. Biofuel from RNG Coalition members comprised more than 90 percent of D3 RINs generated under the RFS in 2015 and 2016.

Ameresco and the Coalition for Renewable Natural Gas would greatly appreciate the opportunity to meet with you to discuss the proposed 2018 RVO. Should it be useful, we have attached copies of the Coalition's comments submitted to the EPA and OMB earlier this year.

I hope you had a great 4th and we look forward to seeing you soon.

Stratton

Ryan, Mandy,

We have Nick Bridge, the Foreign Sec's Special Representative <<https://www.gov.uk/government/people/nick-bridge>> , and Pete Betts, the UK's Director for International Energy and Climate, in the US next week (20th and 21st). Nick is a new appointment, previously the UK's ambassador to the OECD, and this is his first senior visit to the US.

They have a helpful overview of the UK's position and would be excellent contacts for the EPA. I suspect a meeting with the Administrator may be a push at this notice. They've very keen to meet senior advisors in the EPA to develop an understanding of the Administrator's direction on environmental protection, energy and climate issues.

I think you both met Archie Young, who works for Pete, in the margins of the G7 Environment Ministerial. I know Archie thought you would be good contacts for them to meet. It would be helpfully timed ahead of any potential visit from the Administrator to the UK.

Please let me know if you are available on Thursday or Friday next week. Mandy, I know we can't meet until the week after, but any time you can make would be welcome.

Thanks,

Alex

Christian: thanks so much for your assistance. I am glad I asked!

Aaron and Sharnett: As mentioned below, Congressman Young is hoping to schedule a brief, less than 15-minute phone call with Ryan Jackson. They are old colleagues from when they both worked in the Senate, so my boss wanted to reconnect and discuss glider kits. Does Mr. Jackson have any availability this coming Monday, July 24th? Congressman Young has wide availability 11a-12p or after 2:00p.

Thank you,

Sierra

 Ryan,

Attached is a letter I'd like 15 minutes on your schedule to chat with you about when you return on Monday. This woman's husband has permanent change of station (PCS) orders from the Army and her career managers are forcing her to quit EPA rather than working wither her to keep her job and her family together. As a former active duty U.S. Army officer, I'm appalled at how they're treating her and would like to chat with you to see what we can do.

I'll leave a hard copy with your secretary as well and talk with her about getting 15 mins with you on Monday. Thanks for your consideration.

Best,
 Joe

Hi Wendy,

As Sarah mentioned, I'd like to follow-up and chat about the auto and fuel imports issues we discussed at lunch a while back. Are you available for a quick chat sometime this week?

Best,

Hi Wendy,

Hope you're well. I wanted to touch base on some of the issues discussed at dinner a few weeks ago, especially as we look at planning our Japan trip. I've also attached the one-pager we discussed on Mercury issues. I'd love to chat when you have a few minutes.

Also, Mandy will likely be getting in touch with you soon on the automobile executive order.

Hi Everyone- Thanks in advance for making this time work later today. I will join the call for the first thirty minutes, but then will leave folks to finish the second half without me as I need to be on a different call with outside folks. Maddie, if you could circulate or have someone who is in the office circulate the sample days/weeks that we can walk through on the call that would be great.

Thanks,

Kevin

WELCOME REMARKS – Sam Coleman, Acting Regional Administrator

WEATHER/STORM FORECAST –

NOAA tracks the storm and up-to-date information is available at <http://www.nhc.noaa.gov/>.

MANDATORY EVACUATION UPDATE –

Update of local jurisdiction Reports

FUEL AVAILABILITY UPDATE –

Update of State Reports

STATE/TRIBAL FEMA ASSISTANCE REQUEST STATUS –

As of today, FEMA has not received any assistance requests from the states of Texas or federally recognized tribes. Texas Governor Abbott has declared state of disaster for 30 counties. Louisiana Governor John Bel Edwards declared a state of emergency for the entire state of Louisiana in anticipation of severe weather as a result of Hurricane Harvey.

EPA READINESS/PREPAREDNESS –

While EPA has not been formally tasked by FEMA at the request of impacted states or tribes, EPA is

SUPERFUND NPL SITE STATUS –

In preparation for severe weather impacts, EPA assesses conditions at the NPL Superfund sites in the storm's pathway to identify potential impacts and countermeasures. Following the storm and receding floodwaters, EPA conducts rapid assessments to identify damage at sites and initiate cleanup plans if necessary.

PRIMARY INDUSTRIAL FACILITIES –

In preparation for severe weather impacts, EPA assesses conditions at the major industrial facilities in the storm's pathway to identify potential impacts and countermeasures. Following the storm and receding floodwaters, spills and releases are reported to the National Response Center. NRC notifies US Coast Guard or EPA based on preapproved jurisdiction boundaries. EPA conducts follow up inspections and damage assessments in response to reports within EPA jurisdiction.

PUBLIC WATER SYSTEM STATUS –

About 300 Public Water Systems are in the path (red zone) of Hurricane Harvey in Texas. Water systems often have problems due to flooding or loss of power during Hurricanes. Region 6 has developed a tracking system for us to identify systems in the storm's pathway. Both Texas Commission on Environmental Quality and Louisiana Department of Hospitals have uploaded their potentially impacted systems into Response Manager which enables planning for rapid assessments to restore water systems after the storm passes and flood waters recede.

EMERGENCY FUEL WAIVER STATUS –

The typical emergency fuel waiver request follows a path something like the following. An industry member will identify a failure in the fuel distribution system or at a refinery and raise it to Kurt, DOE and/or the state and Region. Since gas stations typically take deliveries two to three times per week, we normally have 24-72 hours before the system failure will lead to a retail shortage. In that time, the EPA/DOE team will hold calls with the potentially impacted state and industry to validate the issue and confirm relief is justified. Once an issue has been identified, the state air director on behalf of the governor will make a request for specific relief. The OECA team drafts a letter granting the relief for the Administrator's signature. DOE and OAR give concurrence on the letter and it is sent to the Administrator for signature. The signed waiver is quickly then disseminated to the impact states and industry members. The EPA press team will also issue a press release to increase awareness of the actions being taken to address potential fuel shortages.

COMMUNICATIONS UPDATE –

DHS Public Affairs initiated the National Incident Communications Conference Line on Thursday, August 24 and calls continue daily. The NICCL is a standing conference line designated, maintained, and supported by DHS Public Affairs as the primary means for interagency incident communications information sharing during an incident requiring Federal coordination. DHS Public Affairs provides guidance to Federal interagency public affairs headquarters staffs and affected authorities through the NICCL.

When: Thursday, August 31, 2017 3:00 PM-4:00 PM (UTC-05:00)
Eastern Time (US & Canada).
Where: Cordell Hull, EEOB 208

The National Economic Council will be hosting a Deputies Meeting on the Permitting Section of the President's Infrastructure Legislative Proposal on Thursday, August 31st at 3:00pm in Cordell Hull, EEOB 208. The purpose of this meeting is to discuss significant policy provisions in the permitting section of the President's infrastructure legislative package. The permitting legislative principles build on the Executive Order the President signed on August 15th and include proposed reforms to laws and policies that unnecessarily hamper infrastructure permitting, funding, and delivery. The permitting

section has been developed with staff across the Executive Branch, and this meeting will ensure Agency Deputies are informed regarding these proposals before the infrastructure package is released in September.

Please let me know if your deputy is able to attend. Each deputy is able to bring a +1.

If you are able to attend and need to be cleared into the building, please use the link below:

Subject: Halliburton Meeting Request

Ryan – hope all is well with you and you have had some time to enjoy the Summer along with the 24/7 work schedule you are keeping. I was writing to see if you might have time to sit down with members of the Halliburton iMPACT group which will be holding its DC Fly-in on Sept 27th .

The iMPACT group is comprised of the next generation of leaders within our company. These men and women are all high potential employees and represent a diverse segment of Halliburton's product service lines and the U.S. regions/district locations where we operate (OK, Houston, Denver, North Dakota). This year, 10 individuals will be participating in the Fly-in representing our production enhancement, cementing, landmark digital oil field, completion technologies, supply chain and consulting and project management service lines. They will be visiting with senior administration officials and members of Congress during their time in D.C.

The Halliburton team would welcome an opportunity to sit down with you and discuss the political and regulatory matters EPA is addressing along with your thoughts on ways iMPACT and Halliburton can assist in advancing the energy and environmental protection policy

objectives of the Trump administration.

The group's itinerary is fairly open but we are able to meet with you anytime late morning Wednesday, Sept 27th until the early afternoon that day. I hope that your schedule will allow us an opportunity to visit. Jessica Franks copied on this email can work with your staff in finding a date and time that works for you.

Hope all is well and look forward to seeing you. Please give me or Jessica a call if you need more info or have questions.

Bob

Hi Bill,

I wanted to see if you would have a couple minutes today to talk about some potential questions and themes that you would like majority members to question you on. We have an idea of these but of course what your input.

Please let me know when you have some time to talk today and we will give you a call.

Thank you!

Agency deadline is September 30!
IMPORTANT REMINDER
JUST 3 CALENDAR DAYS ARE LEFT

FOR CAREER & NON-CAREER EPA EMPLOYEES, CONTRACTORS, AND GRANTEES TO COMPLETE THESE SESSIONS

Make it a Priority to Get These Completed Today!

Have you completed all your mandatory training?

- * According to our latest daily tracking reports, nearly 100 career and non-career employees in AO have hardly started or have not started at all to complete these sessions.
- * You do not have an option as to whether or not you take these online courses and there will be no extensions given!
- * Later this week, we will be sending the list of names (who have yet to complete the sessions) to AO managers and supervisors so that they can personally follow-up with staff who must still complete these sessions.
- * Help keep AO high-performing and avoid disruption in your network access by completing these trainings before the deadline.
- * Are there consequences?? There are some consequences for not completing these sessions on time (e.g., you could lose access to the LAN if the Info Security Awareness Training is not completed on time). In addition, as we are coming up on the end-of-year performance discussions, this is likely something you would not want to discuss with your supervisor during the discussion.

Here is how to access the sessions:

* Go here to take the courses: Everyone, including career and non-career current employees, contractors and grantees will find the courses they are to take in the “View Learning Plan & Mandatory Training” section on the EPA eLearning site <<http://go.usa.gov/xKZFd>>

* YOUR user name and password are required to access the EPA eLearning site. All FY 2017 mandatory courses, including those for new employees are also listed on the EPA University SharePoint site: https://usepa.sharepoint.com/sites/OARM_Community/EPAU/SitePages/Mandatory%20and%20Elective%20Trainings.aspx <https://usepa.sharepoint.com/sites/OARM_Community/EPAU/SitePages/Mandatory%20and%20Elective%20Trainings.aspx>

* The Six Courses to be Completed by Career and Non-Career EPA Employees are:

- o FY 2017 Information Security Awareness (takes 45-60 minutes)
 - o 2017 Continuity of Operations (COOP) Awareness (takes 30 minutes)
 - o Freedom of Information Act (FOIA) Awareness (takes 30 minutes)
- (Note: if you have yet to start this class, please take FOIA 2 as this is the most current version of the course)
- o FY 2017 Annual Records Management (takes 30 minutes)
 - o Domestic Violence (takes 30 minutes)
 - o Working Effectively with Tribal Governments (takes 30-45 minutes)

* Checking your training course status is easy:

1. From the One EPA Workplace intranet page, click on the eLearning icon
2. Access the eLearning site by logging in using your LAN ID and password
3. Click “Upcoming” under My Tasks if you have mandatory training yet to take
4. You can also click on the Learning Plan icon to see your status for all FY17 mandatory training courses

Note: The status of a green circle means you’ve completed it, a half circle means it’s been started but not completed, and a dashed circle means it hasn’t yet been started.

* INFO for EPA’s New Employees: All new employees receive a Welcome to EPA eLearning email containing instructions for accessing training courses in the EPA eLearning site within two weeks of their employment. New employees are required to complete specific courses within their first 90 calendar days of employment. Otherwise, all courses are to be completed within 6 months. (See Second Attachment).

* QUESTION – Do New and Existing Agency Contractors and SEE Grantees have to Complete Some of These Sessions? Those contractors and SEE Grantees with an EPA e-mail account must complete the Information Security Awareness Training and the Domestic Violence training. The annual Records Management training

is required for those Contractors who are required to complete it based on the specific contract language.

* COR Employees Receive 1 CLP for each Course Completed!

If you have any questions or need additional assistance, please contact me.

Regards!

Ryan –
I just learned that Cong Cole had to move his meeting with Burns to 3:30pm, so that reduces our window on Wed afternoon somewhat. Ideally, would now like to meet @ 4:15pm or 4:30pm if convenient for you, but otherwise on thus morning. Just let me know, and thanks again. Regards.

Hi Ryan,

I'm free all day on Monday the 13th, but I can make Tuesday work, too. The hearing is Tuesday morning and I should be available in the afternoon until about 4pm. I can easily change my flight if Wednesday works better.

Thanks,

Erin

Location Training for Active Shooter Preparedness
Show Time As Tentative
AO Colleagues,

Please plan on attending EPA's Active Shooter Response Training on Thursday, December 7th in WJCN 2530 starting at 9:00 AM.

It's important to prepare for a possible active shooter situation by locating the primary and alternate exits closest to you and walking through your work area to identify:

* Potential hiding places that provide cover (ballistic protection) and concealment (shooter cannot see you).

- * Items nearby that could improve cover/concealment.
- * Ordinary office items you could use to defend yourself against an attacker/active shooter.

You are strongly encouraged to review the Occupant Emergency Plan (OEP) for the building where you work; please visit the HQ Security in the Workplace <<http://intranet.epa.gov/oa/smd/hqsecurity/oep-index.htm>> intranet site to access the OEPs for Headquarters buildings. More information can be found on the Active Shooter Response and Preparedness <<http://intranet.epa.gov/oa/smd/activeshooterresponse/training.html>> intranet site.

Remember, during an Active Shooter event, you have three options based on where you are when you hear shots fired:

1. RUN: evacuate.
2. HIDE: seek cover and concealment.
3. FIGHT: take aggressive action.

If you have questions, please contact Bill Bellerose, HQ OEP Program Manager, at 202-566-2191 or bellerose.william@epa.gov <<mailto:bellerose.william@epa.gov>> .

Subject: Infrastructure Cabinet Chiefs Meeting: Tuesday, December 19, 2017

Infrastructure Cabinet Colleagues,

As discussed at this week's Cabinet Chiefs meeting, we will be holding the inaugural Infrastructure Cabinet Chiefs meeting next Tuesday, December 19, 2017, from 2:00 to 3:30 PM in the EEOB Secretary of War Suite (Room 230A). In order to make the meeting as productive as possible, the attendees from your department or agency at the meeting should be you, your comms director, and policy director.

With respect to the Department of Defense, we are simply requesting that an appropriate representative from the Army Corp of Engineers attend the meeting—there is no need for the DoD chief, comms director and policy director to attend the meeting.

In addition, we ask that you and your team submit the following information to Matt Flynn of Cabinet Affairs by Friday, December 15, 2017, at 5:00 PM so that we can prepare the agenda for the meeting:

* Calendar of infrastructure-related events (planned and proposed opportunities to engage with industry, the public, and other stakeholders, with a particular emphasis on opportunities for WH involvement through the 1st Quarter of 2018)

* End-of-Year Scorecard of what agencies have accomplished to date on infrastructure in this Administration with an emphasis on items that align with Administration's infrastructure goals (success stories on accelerated infrastructure project delivery/regulatory reforms, time savings, cost savings, red tape cut; impacts to quality of life, health and safety; innovation, etc.)

* Stakeholder lists/contact information that we can use for infrastructure events and for email distributions.

* Potential Surrogates (people or groups who can help amplify the Administration's infrastructure message).

Matt Flynn is copied on this email for your convenience. We will be discussing these topics at the meeting so your timely submission is greatly appreciated. Thank you in advance for your help.

Kindly confirm your team's attendance by emailing Emily McBride.

Please do not hesitate to contact me with any questions.

Best,
Bill

William J. McGinley
Cabinet Secretary
The White House

ALBANY, N.Y. (AP) — New York officials said Thursday they'll sue if the U.S. Environmental Protection Agency certifies General Electric Co.'s \$1.7 billion Superfund cleanup of the upper Hudson River is complete. Gov. Andrew Cuomo and Attorney General Eric Schneiderman, both Democrats, said the PCB dredging of a 40-mile stretch of river wasn't sufficient to protect public health and the river. The lawsuit would seek further cleanup work.

Under the legal action, New York also would withdraw from the 2002 agreement with EPA that guided the cleanup if the certificate is issued. Boston-based GE completed removal of 2.75 million cubic yards (2.1 million cubic meters) of polychlorinated biphenyl-contaminated

sediment from the river in 2015. An EPA review this summer found, based on data so far, the cleanup will protect human health and the environment long term and no more dredging is needed, although it could take 55 years or more before fish are clean enough to eat once a week.

Critics pushing for a broader cleanup have noted that a large amount of PCB-contaminated sediment remains in the river. The state Department of Environmental Conservation spent \$2 million to do its own testing of PCB levels in the river over the summer.

"The data is clear: The job is not done and the EPA cannot declare that this remediation is complete," Cuomo said in a statement that called the lawsuit announcement the second proposal of his 2018 state of the state agenda.

GE spokesman Mark Behan said GE has met all of its commitments to EPA and New York state.

"New York state had 16 years to object to this project and did not do so," Behan said. "It in fact endorsed the project when significantly less PCBs were going to be taken out of the river than were ultimately removed."

An EPA spokeswoman said the agency still is working to complete its second five-year review of the project and will not decide on GE's request for a certificate of completion until that review is complete, including responding to comments from the state and others.

She said EPA doesn't anticipate making a final determination by Jan. 3 on GE's request for certification of completion. The agency received GE's request on Jan. 3, 2017, and is supposed to respond within 365 days.

Cuomo's litigation plan is second proposal of his 2018 State of the State

ALBANY — Gov. Andrew Cuomo announced Thursday that he and state Attorney General Eric Schneiderman will file a lawsuit against the U.S. Environmental Protection Agency to force continued PCB-dredging of the Hudson River if the agency determines there is no additional cleanup necessary.

The state has been pushing
<<http://www.timesunion.com/news/article/Federal-agencies-join-state-in-casting-doubts-on-12173879.php>> General Electric Co. to do more after it completed dredging in a 40-mile stretch of the river between Fort Edward and Troy in 2015. The company has steadfastly claimed that it has met the terms of its 2002 agreement with the EPA to clean up PCBs in the river.

State officials believe otherwise, and the Department of Environmental Conservation this summer spent \$2 million to conduct its own testing of PCB levels in the river.

"The Hudson River is a critical economic engine and environmental treasure and New York will not allow PCB contamination to continue wreaking havoc on this vital resource," Cuomo said in a statement. "The data is clear: the job is not done and the EPA cannot declare that this remediation is complete. If they do, New York will take any action necessary to hold them accountable for ensuring our waterways are protected and properly restored."

Cuomo's announcement was billed as the second proposal of his 2018 State of the State agenda.

Claiming that the seven-year project cost about \$1.7 billion, GE filed a request for a certificate of completion from the EPA last December, and the agency has until Dec. 23 to respond.

The lead lawyer for the environment group Riverkeeper applauded the governor's stance. GE "did a clean up project in the upper 50 miles of the river that was too little and too late, but it continues to do nothing in the lower 150 miles," said Riverkeeper Legal Director Richard Webster. "It also enlisted EPA to help in its effort to escape before the job is done, leaving river residents holding the toxic fish."

Albany Mayor Kathy Sheehan also supported Cuomo's demand.

GE spokesman Mark Behan called the dredging project "a demonstrable success in the first year since dredging was completed."

"All of the PCBs EPA targeted for removal have been removed, and PCB levels have declined at every station where environmental data was collected, as EPA predicted they would," he said in a statement. "New York state had 16 years to object to this project and did not do so. It in fact endorsed the project when significantly less PCBs were going to be taken out of the river than were ultimately removed."

EPA did not offer a response to the governor's statement.

In addition to a lawsuit, Cuomo is pledging that DEC will withdraw its concurrence with the EPA's 2002 Record of Decision with GE, which guided the cleanup. The Cuomo administration claims that EPA relied on flawed modeling for effectiveness of the PCB remediation effort.

In a letter <http://www.dec.ny.gov/docs/remediation_hudson_pdf/hudsonpcbepaltr112217.pdf#_blank> to EPA Administrator Scott Pruitt in November, DEC Commissioner Basil Seggos warned of a possible lawsuit <<http://www.timesunion.com/business/article/State-science-faults-Hudson-PCB-cleanup-12377870.php>> and wrote that the state sampling of the river showed it is up to three times more contaminated than the EPA originally estimated.

"In light of the overwhelming evidence and data that the remedy is not protective of human health and environment, EPA legally cannot certify the PCB remedy for the Upper Hudson River as complete," Seggos wrote.

GE has contended that not only has the dredging served its intended purpose, but that the state was key in decisions related to the project and it oversaw the dredging work.

"There is no dispute that GE met all of its commitments to EPA and New York State," Behan said.

Governor & AG Schneiderman Will Take Immediate Action to Sue the Federal Government if the EPA Deems Hudson River PCB Dredging Complete.

By Long Island News & PR

December 14, 2017

Albany, NY - Governor Andrew M. Cuomo today unveiled the second proposal of the 2018 State of the State and the first part of a comprehensive environmental program: New York will immediately take action against the U.S. Environmental Protection Agency if they accept the Upper Hudson River dredging of polychlorinated biphenyls as complete. Under this plan, Governor Cuomo and Attorney General Eric Schneiderman will sue the federal government to ensure the dredging is completed once and for all. New York is also prepared to withdraw from the 2002 Record of Decision which guided the cleanup and removal of millions of tons of PCB-contaminated sediment from the Upper Hudson River. The EPA's decision is expected to be announced later this month, and indications are they will deem the cleanup complete.

"The Hudson River is a critical economic engine and environmental treasure and New York will not allow PCB contamination to continue wreaking havoc on this vital resource," Governor Cuomo said. "The data is clear: the job is not done and the EPA cannot declare that this remediation is complete. If they do, New York will take any action necessary to hold them accountable for ensuring our waterways are protected and properly restored."

With this proposal and in cooperation with the state Attorney General, New York will file a lawsuit if the EPA, despite data to the contrary, finds that the Hudson River cleanup of PCBs is complete. General Electric filed a request for a Certificate of Completion on December 23, 2016, and EPA has 365 days to respond to the request pursuant to the Consent decree between GE and the EPA.

"The Hudson is one of New York's crown jewels, vital to our environment, our economy, and our communities," said Attorney General Schneiderman. "The law is clear: EPA cannot possibly support a finding that GE's actions have been sufficient to protect New Yorkers' public health and the environment. If the EPA declares mission accomplished, we will sue to ensure New York sees the full, timely cleanup and restoration of the Hudson River that was promised."

In addition, if the Certificate of Completion is issued by the EPA, Governor Cuomo is directing the New York State Department of Environmental Conservation to withdraw its concurrence with EPA's 2002 ROD, which was signed under a previous administration. The ROD guided the cleanup effort and removal of millions of tons of PCB-contaminated sediment from a portion of the Upper Hudson River; specifically, it expected PCB levels in fish would rapidly decline. Unfortunately, EPA's 2002 decision relied on flawed modeling rather than actual sampling data, and their current draft five-year review of the dredging effectiveness, together with fish contamination data and recent DEC sediment sampling, indicates these objectives will not be met. DEC recently sent a letter <http://www.dec.ny.gov/docs/remediation_hudson_pdf/hudsonpcbepaltr112217.pdf#_blank> to EPA Administrator Scott Pruitt outlining these concerns and reiterating that a Certificate of Completion should not be issued for this project.

From the 1940s through the 1970s, General Electric manufacturing facilities in Hudson Falls and Fort Edward dumped well in excess of one million pounds of hazardous PCBs directly into the River. This contamination has impacted the health and livelihood communities along the Hudson River ever since, including the decimation of a once-thriving \$40 million commercial fishery. Governor Cuomo has urged the EPA to conduct a complete and thorough review. In 2016, the Department of Environmental Conservation demanded that the EPA take additional samples of river sediments in order to determine the effectiveness of the dredging. When the EPA refused, DEC led the effort by taking over 1,200 samples in Summer 2017.

DEC Commissioner Basil Seggos said, "Time and time again we have cautioned the EPA that their cleanup was not protective of human health or the environment, and with Governor Cuomo's actions today, we hope they will get the message. The EPA's own analysis indicates that fish species will not reach the levels envisioned in the cleanup plan for more than fifty years absent additional action. That is simply too long and not consistent with the estimates in the ROD. The EPA must evaluate the removal of additional contamination and must not issue a certificate of completion at this time."

New York state plans to sue the U.S. Environmental Protection Agency

if the federal body deems the Hudson River cleanup complete. The state also plans to withdraw from the 2002 Record of Decision, a cleanup plan involving polychlorinated biphenyls (PCBs) removal from the Upper Hudson River, a 40-mile stretch north of Albany. On Thursday Gov. Andrew Cuomo and Attorney General Eric Schneiderman announced the state will sue the EPA if the agency says the PCB removal is finished. The announcement refers to General Electric's request for a Certificate of Completion made on Dec. 23, 2016. The EPA has 365 days from the date of request to respond. GE, the multibillion dollar U.S. conglomerate, has a history of PCB dumping and been cleaning up the river per its agreement with the EPA.

"The Hudson River is a critical economic engine and environmental treasure and New York will not allow PCB contamination to continue wreaking havoc on this vital resource," said Cuomo in a statement.

"The EPA cannot declare that this remediation is complete," Cuomo said. "If they do, New York will take any action necessary to hold them accountable for ensuring our waterways are protected and properly restored."

In a statement Mark Behan, GE spokesman for the Hudson River cleanup, called the dredging project "a demonstrable success in the first year since dredging was completed."

Behan said the state had "16 years to object to this project and did not do so. It, in fact, endorsed the project when significantly less PCBs were going to be taken out of the river than were ultimately removed."

Dredging occurred 24 hours a day, six days a week, seven months a year for six years and removed 80 percent of the PCBs in the Upper Hudson, said Behan. The company spent \$1.7 billion to date on the cleanup, which has said vast majority was spent on dredging and manpower that involved roughly 500 employees.

Potential impacts

The state's announcement comes at a critical juncture for one of the most high-profile environmental cleanups in modern history.

If the EPA issues a certificate this means the agency is "letting GE off scott-free for a failed clean up," said Ned Sullivan, Scenic Hudson's president, in an earlier interview

<<http://www.poughkeepsiejournal.com/story/news/2017/11/30/groups-urge-epa-withhold-clean-up-certificate-ge/905606001/>> . Sullivan said taxpayers could also then bear the cost of any future clean up.

From the 1940s through 1970s, General Electric manufacturing facilities in Hudson Falls and Fort Edward dumped over a million pounds of PCBs into the river. In 2015 the company completed dredging based on its agreement with the EPA.

In addition, the EPA is completing the draft of the second Five-Year Review Report for the Hudson River PCBs cleanup, which is expected to be completed before the end of the year. The EPA is expected to make their stance on the state of cleanup in that report.

The state's Department of Environmental Conservation also concurs the cleanup is not complete.

DEC Commissioner Basil Seggos said, "Time and time again we have cautioned the EPA that their cleanup was not protective of human health or the environment, and with Governor Cuomo's actions today,

we hope they will get the message.”

Seggos urged the EPA needs to review the removal of additional contamination and a certificate of completion shouldn't be issued now.

Environmental groups including Scenic Hudson and Riverkeeper lauded the state's announcement.

“I think we have an opportunity for a win-win here for New York state and the federal government to find common ground here and unite to ensure a clean and healthy river resulting from additional remediation,” said Scenic Hudson's Sullivan. “I think the governor has now clearly articulated New York State's decision and EPA is on notice about that.”

In the strongest statement to date about the need for additional dredging in the Hudson River, Gov. Andrew Cuomo announced Thursday afternoon that he was ready to sue for a “full, timely cleanup” of the PCBs dumped into the river decades ago by General Electric Co.

Cuomo warned that the EPA should not decide that GE has completed the cleanup. GE has asked for a certificate of completion, and EPA has until Jan. 3 to make a decision.

EPA officials said they are taking the announcement and other comments about dredging into consideration before making a decision. At this point, they said they don't think they'll make a decision on time.

The answer should be no, according to the governor.

“The data is clear: The job is not done and the EPA cannot declare that this remediation is complete. If they do, New York will take any action necessary to hold them accountable for ensuring our waterways are protected and properly restored,” Cuomo said in a press release. He specified that he wants more dredging, saying he would sue “to ensure the dredging is completed once and for all.”

The state did its own tests of the river this year to check the contamination levels, and found that some areas were three times as contaminated as they were expected to be after the dredging.

The most contaminated area is just south of Fort Edward, from the Thompson Island Dam through Lock 6 to the Northumberland Dam, in Washington County.

Fort Edward Supervisor Mitch Suprenant said Cuomo's statement convinced him that GE should do more dredging to remove the PCBs.

“They should do it,” he said. “I'm going out of office, so I can say that.” Suprenant is retiring at the end of the year.

He added that he hadn't expected Cuomo to go so far to get more dredging.

“I'm very surprised that he's taken such a strong stance, but there must be strong evidence,” he said.

In Schuylerville, which is just south of the most contaminated area, Mayor Dan Carpenter also wants more dredging.

“I am pleased to hear that Gov. Cuomo is ready to take action to protect the Hudson River and the communities that run along it,” he said.

He was very interested in the state's sampling of the original canal segment that runs through Schuylerville and often overflows onto the nearby ballfields.

EPA didn't include the canal as part of the dredging project, which Carpenter called a "huge mistake."

"The fact that the DEC stepped in and proved a month ago that there are elevated levels of PCBs (in the canal) means that EPA did not do its job," Carpenter said. "If the original canal, which we now knows has elevated levels of PCBs, is not dealt with now, and it is left to the review of the floodplains as a 'standing water area,' the village and our children may not see a resolution for a decade."

But not everyone welcomes more dredging.

Julie Wilson, who lived next to the 24-hour-a-day PCB sediment dewatering plant in Fort Edward, was stunned to hear about Cuomo's announcement.

"Oh, God. Oh, no," she said. "What is wrong with their heads? They worked so hard and the outcome was not worth the money it cost."

Wilson was deeply unhappy with the noise, dust and other problems that came with the dredging plant. But she also feels that the results – with higher-than-expected contamination and the news that fish won't recover for 55 years or more – prove that the dredging had no useful effect.

"I believe GE and the team that worked on that project were sincere," she said. "Obviously, there is not any technology available today, any method, for a successful dredge of a moving river."

However, officials from GE, the state Department of Environmental Conservation and EPA all agree that PCB contamination in the fish has lessened since the dredging. Dredging also reduced contamination in the water and sediment.

"The EPA's latest report shows PCBs have already declined by more than 70 percent," said Mark Behan of Behan Communications, which was hired to speak for GE on this issue and issued a statement last month after DEC demanded more dredging. "EPA found the dredging remedy is functioning as intended and will protect human health and the environment. EPA is not recommending additional dredging."

But it has not reduced PCB contamination enough, DEC officials argued when they began talking about more dredging a year ago.

Cuomo agrees.

"The Hudson River is a critical economic engine and environmental treasure and New York will not allow PCB contamination to continue wreaking havoc on this vital resource," he said. "If the EPA declares mission accomplished, we will sue to ensure New York sees the full, timely cleanup and restoration of the Hudson River that was promised."

 All:

On the heels of our very successful Regional Administrator Forum, it occurred to me that the new group of Assistant Administrators have not gotten to meet our Regional Administrators. There has been great interest in getting this esteemed group of colleagues together, and there is no time like the present!

I am happy to invite you to a private dinner including the nine (9) Regional Administrators, the Assistant Administrators from Air, Water, OGC, OECA and their plus one invite (DAA or counsel at their discretion). Additionally, Nancy Beck will represent OCSPP, Richard Yamada will represent ORD and Kell Kelly will represent OLEM along with several other select senior staff.

The dinner will be held on Monday, January 29 at 7:30p, at Robert's Restaurant that is located within the Omni Hotel where the SES Meeting is being held.

This will be a great opportunity to get to know your colleagues and build relationships in an informal setting. We held a similar RA dinner in Dallas and it has proven invaluable for creating a strong working team to accomplish the Administrator's priorities.

Please RSVP to Robin (Richardson.robinh@epa.gov <mailto:Richardson.robinh@epa.gov>) so that we can get a proper headcount and estimate the individual costs.

Respectfully,

Ken

Directions for Guests: EPA's address is 1200 Pennsylvania Avenue, NW. Please enter through the William Jefferson Clinton South building. If you are coming by taxi/vehicle, you want to be dropped off on 12th Street NW, between Pennsylvania and Constitution Avenue. The entrance is almost exactly halfway between the two avenues next to the Federal Triangle Metro sign and with the Trump Hotel across the street. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your right. This is the South Lobby entrance to the William Jefferson Clinton building. If you are coming by Metro, exit at the Federal Triangle Metro station, go up the escalators and the South Lobby entrance will be on your left as you exit at the top of the escalators.

Once inside the building, security will prompt you to scan all items such as bags, coats etc.. Please let the guards know that you were instructed to call Shanita Loving at 564-4728 or Ethel Bailey 564-5149 to escort you to Susan Bodine swearing in ceremony. Security will have the visitors passes for everyone.

Allow for 10-15 minutes to get through the process.

Subject: Meeting request

Hi Ryan,
I have a request- we once again have executive's coming to town from
John Crane February 28th and March 1st. As Chris and I work to
promote the good work happening in DC with the broader John Crane
team, we thought once again hearing about the plans at EPA could be
very beneficial.

When John Doniatello was here in September he was very impressed
with the work being done at EPA. John has since shifted roles within
John Crane. Our new VP or product marketing, Patrick Thompson, will
be joined by Director, Eric Johnson, for their first visit to DC to have
meetings with Chris and me.

Daniel, I don't believe we've had the opportunity to meet yet, but I've
been friends with Ryan, Troy and Mandy for some time. I was
previously with API before joining Smiths, the parent company for
John Crane, a manufacturer of mechanical seals for the oil and gas
industry as well as water, chemical and others. We noticed you are
involved in the Global Methane Conference coming up in April and
other methane conferences coming this year we may also be involved
in. I've included a one-pager on our Life Cycle Cost Calculator, a tool
John Crane along with Fluid Sealing Association (FSA) have available to
assist the o&g industry with making decisions for lowering emissions
on centrifugal compressor units.

If you all have time available February 28th or the morning of March
1st, we would appreciate the chance to come in to discuss your
outlook for the industry in the coming year, thoughts on the
conferences coming up, as well as our work with our customers in
industry.

Hope to see you all soon-- Hi Troy and Mandy!

Thanks,
Lisa

Hello Richard, Brittany, and Nancy,

Ryan asked that I put some time on our calendars to discuss potential topics for the upcoming Spring SAB face-to-face meeting (date TBD). Specifically we want to discuss topics that may be ready for a briefing/consolation for the Board. We have a couple of potential items we can discuss including the war on lead, PFAS cross agency activities, and formaldehyde. In addition to discussing these potential topics, we would like your opinion on what other topics maybe

ready/worthy for a Board briefing.

 Update: Read-ahead documents attached. Thanks!

All,

This meeting is a follow up to the meeting convened on March 5th, by Chief of Staff Kelly to discuss challenges facing the Corps of Engineers relative to both permitting of non-Corps projects and development of Civil Works projects. Attendees of the March 5th meeting included Secretaries Pruitt, Perdue and Esper, as well as Mr. James, Assistant Secretary of the Army for Civil Works, and Mr. Gary Cohn, Ms. Emma Doyle, Mr. DJ Gribbin. As discussed, Mr. Cohn and NEC was asked to lead an interagency policy improvement process.

This first meeting is being convened to discuss the Corps permitting processes for Non-Corps projects to include section 408 permissions. The initial framing will involve a "quick look back" on how larger challenges have arisen in the permitting processes and a discussion about how challenges can be addressed moving forward. Participants are expected to think outside of the box in putting forth ideas on how to resolve recurring challenges including streamlining duplicative efforts. A similar meeting to review Civil Works project challenges will be scheduled separately.

Prior to the meeting a document that summarizes challenges will be provided. All guests are allowed a plus one.

 Update: Read Aheads for tomorrow's meeting attached. Thanks!

The purpose of this meeting is to further our discussion relative to modernizing the Corps permitting of Non-Corps projects. We are compiling the input received and expect to provide a document that summarizes opportunities for quick wins, as well as areas requiring additional focused interagency action. Anticipating that we will quickly begin to move out in a prioritized way, please ensure your policy lead also participates in this meeting.

Subject: Re: Updates for POTUS RFS Meeting

Team, frankly I'm confused. It seems several independent conversations happened last week on RFS. The President also called me Tuesday night <x-apple-data-detectors://4> and asked me to bring him a solution on the RFS issue. Then yesterday, I receive an email from Shahira, with attached proposed Presidential Memoranda prepared by EPA.

I spent this past week listening to voters in Ohio, Michigan and Kentucky so I come to our meeting with the President having heard directly from some of the President's most loyal supporters. They are scared for their livelihoods, and extremely anxious about their future. Personally, they want to support the President in his agenda, but the reality of their dire situation is gripping them. Frankly, I fear that the cumulative effect of trade disputes and a change in RFS policy could threaten their future political loyalty. Honestly, they were struggling with farm income before these issues.

Several things have changed over the past few months that I believe need to inform my recommendation to the President: 1) trade actions have substantially increased anxiety among farmers and rural voters to which we need to be sensitive; 2) the EPA has granted an unprecedented number and gallons of RFS waivers to refineries for 2016 and 2017 that have significantly reduced the RFS RVO; 3) RIN prices have been falling since October of last year and; 4) I have heard from members of Congress, the ag community, as well as big oil that they want Congress to fix this issue.

I think everyone is aware of the anxiety among farmers on trade and their concern about retaliation. Politically, now would not be the time for the President to take any action that they would perceive as undermining demand. I am literally concerned that the cumulative effect of the retaliatory actions on AG trade, in conjunction with a change in RFS policy could undermine the strong rural and AG support the President has enjoyed. I can, have and will defend the administration's action regarding China's unfair trade practices, especially IPT. However, it would be extremely difficult to defend a change in policy over RFS which many in the AG sector will view as betrayal.

Also, concern has been mounting in recent weeks in the ag community and on Capitol Hill about the number of RFS waivers the EPA has granted that directly reduce the volumes under the RFS; farmers and farm state lawmakers feel that EPA's actions are directly undercutting the President's pledge to support the RFS. For the 2016 compliance year, EPA has granted 20 waiver requests totaling 790 million gallons. We are still awaiting the 2017 information, which some believe to be approaching a billion gallons.

Based on all these factors, and most strongly the political factors at work, my recommendation is that the President direct EPA to grant a RVP Waiver for E15 to allow sales year-round. Both corn and petroleum industries agree that this action would help reduce RIN prices, especially over the medium-term. He also could say that we will be closely monitoring RIN prices and if these actions don't bring results in the next year we will look at other options. The President also has the opportunity to point out that Congress is working on RFS legislation and call on them to complete their work to provide certainty for all market participants.

I think right now we have to help the President keep the big picture in mind and not add to the concerns of our farmers and rural voters. I view my role as USDA Secretary to be the President's ambassador to the Ag voters, as well as to be their ambassador to him. I am attempting to the best of my ability to do both.

Respectfully, Sonny Perdue

All,

We are scheduled to meet with the President on Monday at 2:45 PM to discuss the best way to bring closure to the RFS/RINs issue. Below is an update of where we stand. By noon tomorrow, can everyone on this email please provide recent updates or concerns so everyone can enter the meeting fully informed?

* On March 29, the NEC hosted a principals' call to discuss the RFS policy options that were developed during stakeholder meetings with USDA and EPA (options attached). Principals agreed these were the options on the table, but there was no consensus about which option to pursue.

* A POTUS meeting was scheduled for April 9 to try to bring closure to the issue in a way that removes the President from the middle of this political debate.

* Since then, we understand that POTUS has had additional discussions. In addition, WHCO received two draft Presidential Memoranda from EPA (attached). The idea of a PM was not previously on the table (nor was an agreed upon RIN price cap). We understand EPA plans to bring these PMs to the meeting on Monday.

If needed, we can huddle before or after the cabinet meeting to get on the same page before we discuss this with the President.

Thank you,

Shahira Knight

Deputy Director

Subject: A special celebration for Mike

Hi – Robin, Nancy and I are hosting a dinner party to celebrate with Mike and his wife on April 12th. It will be at my place which is very near the Court House metro. It is the usual DAA/DRA crowd. It would be great if you both can join. We usually ask folks to contribute to the cost of dinner (it will be catered) and is generally around \$30pp. Please let me know if you can make it.

Directions and Visitor Entry Procedures (PLEASE READ PRIOR TO ARRIVAL):

Please send Hema Subramanian (Subramanian.hema@epa.gov <mailto:Subramanian.hema@epa.gov>) a list of names of non-federal visitors two days prior to the meeting, and arrive 15 minutes prior to your appointment to allow time for security screening and escort to the meeting room.

EPA address is 1200 Pennsylvania Avenue, NW.

Metro stop: Federal Triangle

Although our street address is 1200 Pennsylvania Avenue, the main entrances for visitors are not along Pennsylvania Avenue. Enter the William Jefferson Clinton South building via doors to the left of the Federal Triangle Metro exit escalators (when exiting the Metro and facing Woodrow Wilson Plaza). For more details and a map:

<https://www.epa.gov/aboutepa/visiting-epa-headquarters>

If you are coming by taxi/vehicle, you want to be dropped off on 12th Street NW, midway between Pennsylvania and Constitution Avenue. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left side near the escalators going down to the metro. This is the South Lobby entrance to the William Jefferson Clinton building.

Non-federal visitors will need to go through metal detectors and provide the security desk:

- your REAL ID Act-compliant identification

- EPA contact information (Hema Subramanian, 202-564-5041)

- destination room (Alm Room)

Security will call us to sign you in and escort you to the room. For details on security and ID requirements, see:

Subject: Speaking with someone Monday about epidemiology and pesticide decisions

I wanted to talk with someone at EPA about how epidemiology is used in pesticide decisions. I have read the attached document.

I wanted to ask questions like

1) How useful is epidemiology in pesticide decisions and why is it important, if you thin it is

2) CropLife in Nov. 2016, see below, filed a petition asking EPA to “halt regulatory decisions that are highly influenced/determined by results of epidemiological studies that do not meet well-defined data quality

standards, and that are not integrated into the health risk assessment in a transparent, well-defined manner.” Any interim or final registration review decision for Phosmet could potentially be impacted by EPA consideration of the epidemiological studies identified in the CLA petition. What ended up happening with this

3) How would the Strengthening Transparency in Regulatory Science proposal impact, if at all, your ability to use epidemiology in pesticide decisions, and if not, why not.

4) I also have questions about organophosphates, including making sure I understand what the 10X debate is about, and what the timeline is for reevaluating this class of pesticides and where the agency stands on health impacts and potential use of epi studies for this effort.

I really hope we can discuss all of this without just getting formal written responses to these questions. Let me know if we can have this conversation on Monday. It could be a mix of on the record and on background.

This is a case where the story is not yet drafted and we want your input in advance to help influence the story.

Thanks in advance

Eric

Location 1152 WJC East Building
Show Time As Busy
On June 15th we will be having a mock hearing for Peter Wright (Nominee for OLEM) and Chad McIntosh (Nominee for OITA) in the hearing room in east building. As in the past with nominees we would like to have our political team play the role of Senators for the hearing and provide feedback after, this will enable the nominees to have a real life experience so they know what to expect on the hearing date, which will be June 20th.

Binders with questions and background research were delivered to your office on June 13th

Please hold Friday, June 15th from 10 am-12:30pm on your calendar if possible, and below I have made a list of who will play which Senator. If you cannot attend please let me know as soon as possible so we can find a replacement. Thank you!

Subject: Speaking with someone Monday about epidemiology and pesticide decisions

I wanted to talk with someone at EPA about how epidemiology is used in pesticide decisions. I have read the attached document.

I wanted to ask questions like

1) How useful is epidemiology in pesticide decisions and why is it important, if you thin it is

2) CropLife in Nov. 2016, see below, filed a petition asking EPA to “halt regulatory decisions that are highly influenced/determined by results of epidemiological studies that do not meet well-defined data quality

standards, and that are not integrated into the health risk assessment in a transparent, well-defined manner.” Any interim or final registration review decision for Phosmet could potentially be impacted by EPA consideration of the epidemiological studies identified in the CLA petition. What ended up happening with this

3) How would the Strengthening Transparency in Regulatory Science proposal impact, if at all, your ability to use epidemiology in pesticide decisions, and if not, why not.

4) I also have questions about organophosphates, including making sure I understand what the 10X debate is about, and what the timeline is for reevaluating this class of pesticides and where the agency stands on health impacts and potential use of epi studies for this effort.

I really hope we can discuss all of this without just getting formal written responses to these questions. Let me know if we can have this conversation on Monday. It could be a mix of on the record and on background.

This is a case where the story is not yet drafted and we want your input in advance to help influence the story.

Thanks in advance

Eric

advice about emissions from liquid terminal operations and how some

of the information being collected today is inaccurate. This is an issue that the previous administration started without any input from the terminal operators and it can provide false information to EPA. I thought that we should ask you for some advice because I suspect we aren't the only folks concerned and that any efforts to address this issue needs to be fully thought through.

	Location	USDA
	Show Time As	Busy
		Good afternoon everyone,
		As Bill mentioned in our Tuesday Chiefs meeting, our next off-campus Chiefs of Staff meeting will be held at USDA. We had originally held 11/27, but will now be holding this meeting at 11:00 AM on Tuesday, December 4.
		Secretary Perdue will kick off our meeting, and at 11:45 AM, lunch will

be served for the group from USDA's dining hall, the Ag Connections Café.

Please RSVP by sending your full name to Lauren Sullivan and Campbell Shuford (cc'd) and me.

Everyone may enter at 1400 Jefferson Drive, SW through the visitors entrance. Please have a photo ID for entry. USDA will have folks downstairs greeting and escorting up to the 3rd floor where the meeting will take place. If you would like to drive, USDA will need the following information: make, model, color, and tag number. Limited parking spots are available.

As usual, I will organize transportation for those attending from the White House – I just ask that you RSVP to me ASAP.

Looking forward to it! I'm always around if you have any questions.

Thanks,

Emily J. McBride

Office of Cabinet Affairs
The White House

2019 EPA African American History Month Observance

On Tuesday, February 26, 2019, from 10:30 a.m. EST to 11:30 am EST, the EPA will hold an observance event in honor of African American History Month. Please mark your calendars and plan to join us for this event!

The theme of the EPA's observance is "Black Migrations" tracking the continuous movement of blacks from the American South to the industrialized North and beyond. This theme focuses not only on the literal migration from the south to the north, but on the changes that have taken place with the emergence of African American leaders across all professional sectors. The event will feature the following panelists discussing the theme:

Milton Brown, MD, PhD - Director of the Inova Center for Drug Discovery and Development and Deputy Director for Drug Discovery for the Inova Schar Cancer Institute. Dr. Brown is a physician scientist who has expertise in the design, synthesis and evaluation of new drugs and is one of only a handful of physician scientists in the United States who holds a PhD. in synthetic chemistry and a MD. Sixteen patent disclosures have been filed on his work.

Judge Leslye M. Fraser (Retired) – Judge Fraser received her bachelor and master of science degrees in chemical engineering from the Massachusetts Institute of Technology <<http://web.mit.edu/>> (MIT), and a Juris Doctor degree, Order of the Coif, from the University of California at Los Angeles School of Law <<http://www.law.ucla.edu/>> . Judge Fraser was appointed an Environmental Appeals Judge for the EPA in 2012. Prior to joining the EPA, Judge Fraser was a research engineer and manager at TRW Space and Technology Group for nine years, then practiced environmental and labor law at a leading international law firm, Gibson Dunn. Judge Fraser holds a U.S. patent for a material she co-invented for spacecraft hydraulic systems.

Jonathan Holifield – Executive Director, White House Initiative on Historically Black Colleges and Universities. Prior to being appointed by President Trump to lead the White House Initiative on Historically Black Colleges and Universities, Mr. Holifield had 20 years of multidisciplinary experience in business and government. Mr. Holifield co-founded ScaleUp Partners, a consulting firm that has provided services to economic development and education organizations and institutions, local and state governments and national membership associations. He is a national speaker and author of the book, *The Future Economy and Inclusive Competitiveness®: How Demographic Trends and Innovation Can Create Economic Prosperity for All Americans*.

The Mistress of Ceremonies and Panel Facilitator will be Benita Best-Wong, Deputy Assistant Administrator, Office of Water.

Sign Language Interpreters will be present at the event. Persons needing reasonable accommodations should contact Kristin Tropp, National Reasonable Accommodation Program, Office of Civil Rights, at 202-559-0006 or tropp.kristin@epa.gov <mailto:tropp.kristin@epa.gov> .

Live streaming will be available via EPAtv <https://epatv.epa.gov/> . A recording of this event will be available on February 27, 2019, via the EPAtv-on-demand site <http://bit.ly/2xzYhf0> . Dear Ryan,

I am reaching out regarding the disclosure referral we sent to the EPA on October 4, 2018. My unit chief, Elizabeth McMurray, and I would like to have a brief call with you next week to follow up on its status and to discuss what we expect from the agency when it comes time to

issue a report. Are you available for a call later next week? Our best availability would be on Wednesday 2/27 between 11:00am and 2:00pm, and we are generally available the morning of Thursday 2/28 as well. It would be much appreciated.

Thank you,

Chris
