

Innovative Financing Strategies for Reducing Nutrients Webinar Series

## **STORMWATER FINANCING SOLUTIONS FOR NUTRIENT REDUCTIONS**

**JULY 24, 2019 at 1:00–2:00 PM ET**

You are invited to attend a webinar co-hosted by EPA and USDA, exploring innovative funding and financing strategies to reduce nutrients in stormwater. Our featured speakers will highlight how to set the stage for innovative approaches to stormwater financing as well as how Virginia and Maryland have used tools, including a county tax and a permit trading program, to finance stormwater nutrient reductions.

This is the fourth in a four-part webinar series featuring case studies of successful approaches from across the country for funding nutrient reductions. For more information on this webinar, please contact [waterfinancecenter@epa.gov](mailto:waterfinancecenter@epa.gov).
