

**ONE**  
OUR NATION'S ENERGY  
**FUTURE**

Committed to achieving cost-effective solutions to environmental challenges across the natural gas supply chain.

# One Future Members

As of October 31, 2019

# Our Principles

Natural Gas has a foundational role in a low carbon economy

Efficiency improvement (methane mitigation) needs a value-chain approach

Science-based, transparent and meaningful targets

Program should focus on the outcome – i.e. performance-based

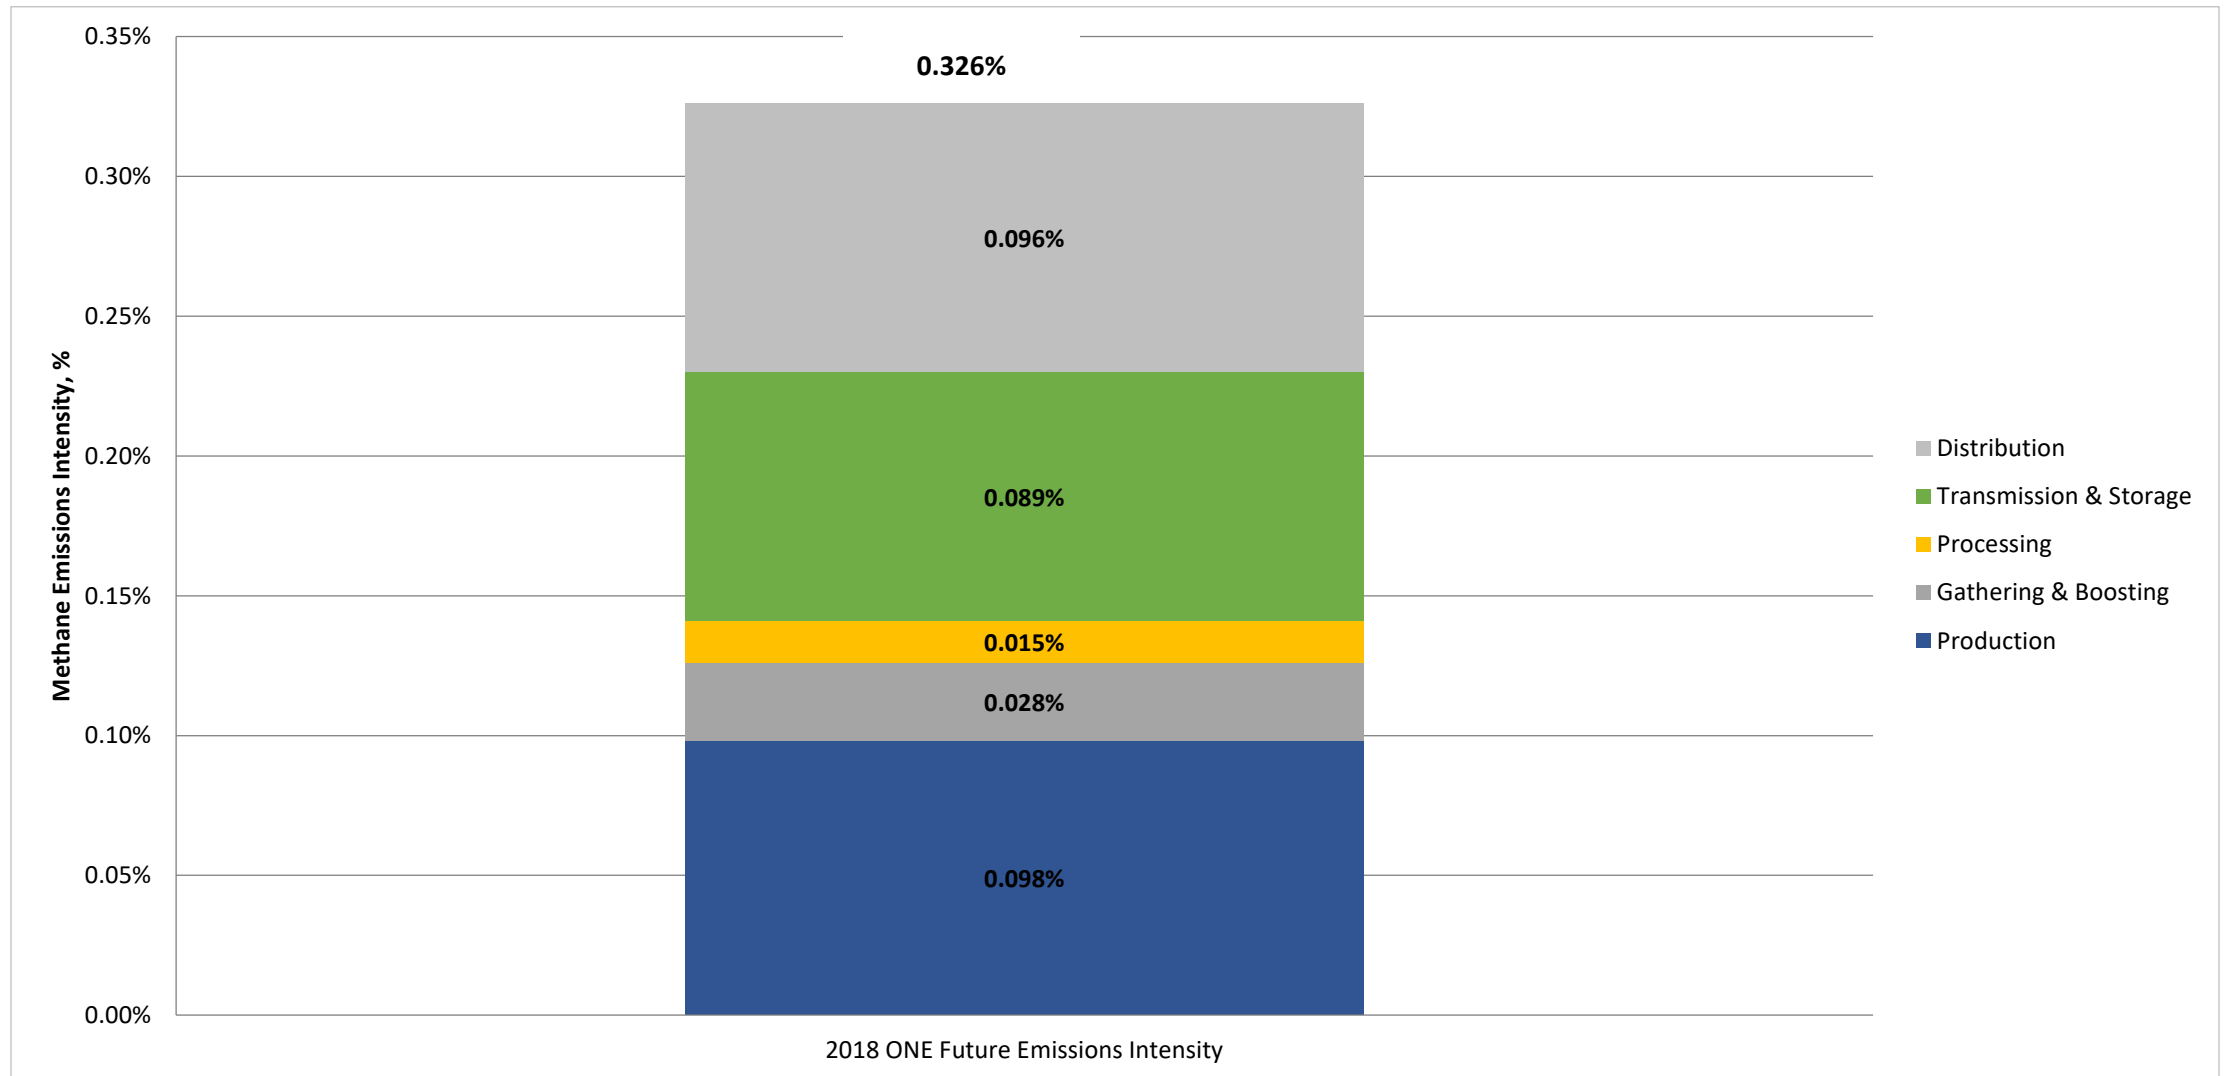

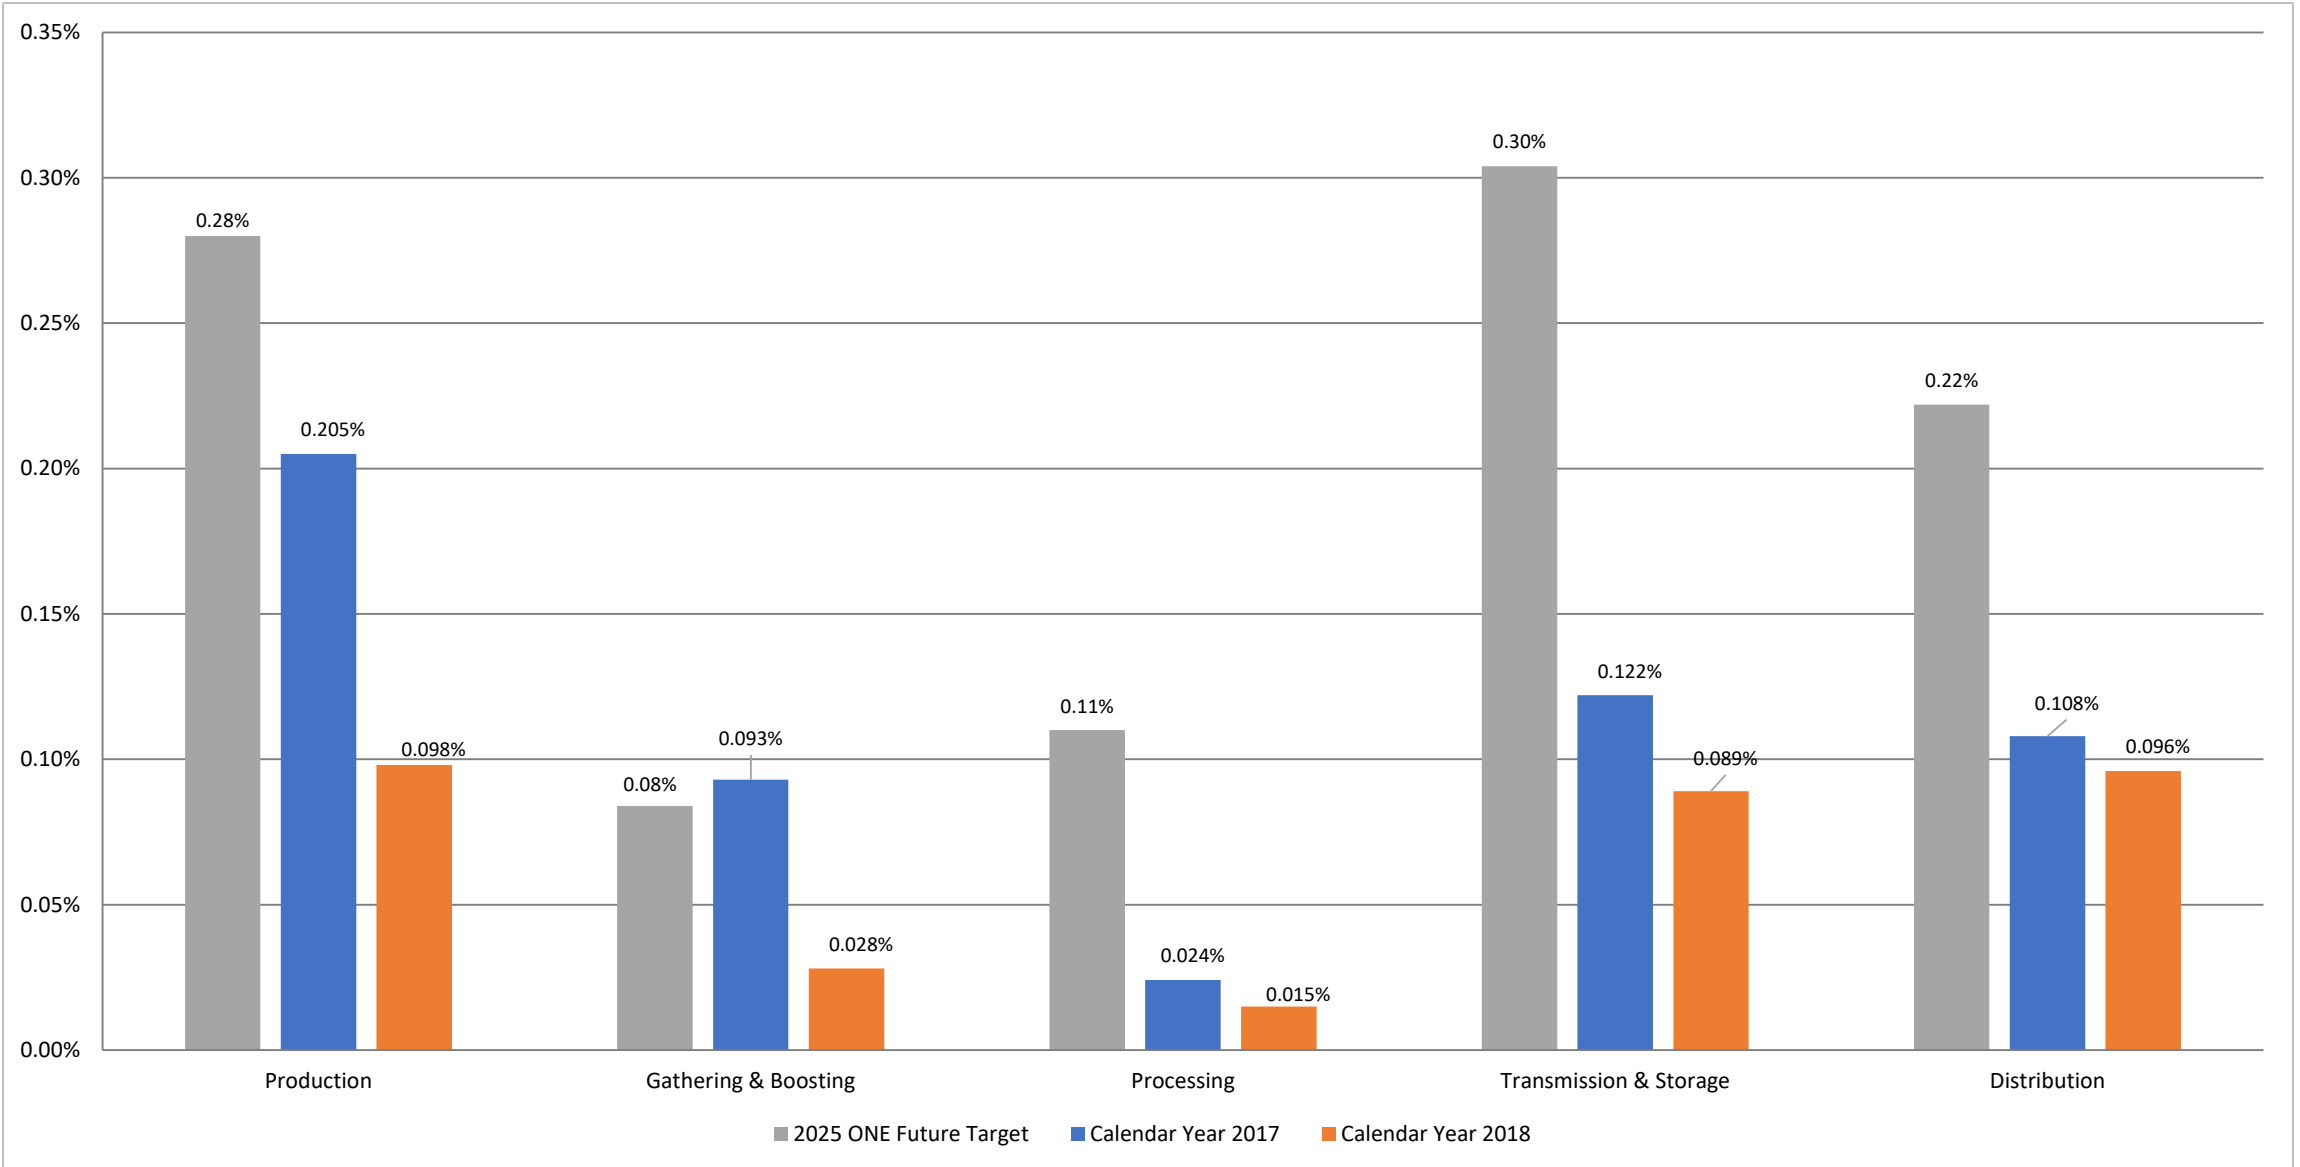

Flexibility is key

Reporting must be transparent and consistent with existing reporting programs
