

## **Solid Waste Workgroup Agenda**

Hello workgroup: for this meeting we thought we'd try something new and focus on one larger topic rather than a few. We'll focus on Tribal Solid Waste Codes and Ordinances. We hope this way we will be able to take more time to hear about each other's experiences.

1. Welcome/Announcements: Upcoming trainings, funding opportunities, rulemakings, etc.
2. Crowdsourcing: At each Workgroup meeting we give time for people to raise concerns or good ideas or share anything new about their work.
3. Happy Earth Day! Did your tribe offer any earth day programs or outreach this month that you'd like to share?
4. **Discussion: Tribal Solid Waste Codes and Ordinances**
  - Does your tribe have a Solid Waste Code? Are you planning to have one? Why or why not? (Not all tribes have solid waste codes and ordinances, for a variety of reasons.)
  - Are you working on a new Solid Waste Code or an updated Code? How is that going? Are you experiencing any roadblocks?
  - If your tribe has a Solid Waste Code, how is it working? Do you have any compliance challenges? Are there ways in which your Code could be more useful?
  - Do you sense that your community and tribal council know the code and want it implemented? Is your most current code posted on the web and/or other tribal information platforms?
  - What other compliance and enforcement issues would you like to share?
5. Any Action Items, Final Thoughts
