FROM: David A. Bloom, Acting Chief Financial Officer

This purpose of the memorandum is to provide OCFO's [Technical Guidance for the FY 2023-2024 National Program Guidances](#). The FY 2023-2024 NPG development process begins now and extends through October with early engagement with our state, territory, and tribal partners.

The FY 2023-2024 Technical Guidance supersedes the FY 2022-2023 Technical Guidance issued in June 2020, and provides milestones, instructions, and templates for guidance development. For FY 2022, the National Program Managers will use regular channels to communicate their program priorities related to the FY 2022 Congressional Justification and other initiatives to regions, states, tribes, and territories to inform FY 2022 grant work planning.

The FY 2023-2024 NPGs will be issued in Spring 2022 and will communicate programs' operational priorities, strategies, and performance measures. This schedule enables alignment of the FY 2023-2024 NPGs with Administration priorities in the FY 2022-2026 EPA Strategic Plan and FY 2023 Congressional Justification. In addition, in Spring 2023 NPMs may issue a FY 2024 Addendum to their respective FY 2023-2024 NPG to reflect changes that occurred after issuance of the two-year guidance.

Thank you for your continued commitment to strengthening the EPA's collaboration internally and with our state and tribal partners. If you have any questions, please contact me or Kathy O'Brien at obrien.kathy@epa.gov or (202) 564-1167.
