

GOLD KING MINE INCIDENT VENDOR LISTING - Updated 10/15/15

The following list has been compiled to identify vendors and contractors interested in doing business related to the Gold King Mine Incident.

PLEASE BE ADVISED: Inclusion on the list does not constitute endorsement of any listed vendor/contractor. EPA offers no guarantee of any kind as to the vendor's qualifications, responsibility, socio-economic status, technical capability or past performance history, nor the validity of any technical claims. EPA has not evaluated, prequalified or certified these interested firms in anyway for any future procurements supporting the Gold King Mine response effort.

Clean Water Tech, LLC	820 N. Garden Avenue	Timothy G. Coakley, Managing Partner	575-513-0201	www.cleansaltwater.com	Point of origin - waste water remediation services	Remediation of hazardous mining wastes to include: Heavy Metals, VOC, BETEX, H2S, Total Organic carbon. 100% remediation of all bacteria, Aerobic and Anaerobic. Containment of flocculated and precipitated metals and other waste products. CWT's goal would be to remediate the mine waste to the point of being discharged to the Animas river. CWT NAICS: 562910,238990,562219,333318,221310.	Waste remediation of hazardous mining wastes. Produced water and Flowback waters cleaned to a point of reusability. CWT is a mature Nano technology employing multi-stage ozonation as one primary focus of the system's process. 100% of the waste water entering the CWT rig is remediated. No liquid or dry chemistry is required. Heavy metals and other contaminants are moved from in-solution to in-suspension and are routed to and collected in a 40 yard de-water dumpster behind a 5 micron diaper for proper RICRA disposal.	Disabled Veteran, majority owned and managed, HUB economically disadvantage business emphasis area.	
Del Mar Environmental & Construction Services, Inc.	629 Del Mar Ave. Chula Vista, CA 91910	Alan Rico	Email: arico@dmeccservices.com, Phone 619-254-9962	www.dmeccservices.com	Environmental Remediation/Consulting, Stormwater Management/ Erosion Control, & Demolition HAZWOPER Certified Personnel	NAICS: 562910, 541620, 238910 CERCLA / RCRA Investigations, site assessment, soil/groundwater remediation, soil sampling, water sampling, spill response, hazardous waste removal, monitoring wells, UST removal, demolition, decommissioning, erosion control, bmp installation, stormwater management, revegetation, habitat restoration	Soil, groundwater, stormwater, hazardous waste	8(a) Certified	
Federal Engineers and Constructors, Inc. (FE&C)	3240 Richardson Road, Richland, WA 99354	John Reilly, Manager Business Development	Email: jreilly@feandc.com, Phone 703-869-8964	www.feandc.com	Environmental Remediation of hazardous substances and contaminants	Federal Engineers & Constructors, Inc. (FE&C) is a full-service international remediation, construction, demolition and technical services company specializing in complex, very high risk and very high hazard work. Capabilities: Hazardous and Nuclear Remediation Specializing in working in alpha contaminated environments (but not limited to): Plutonium, Beryllium, Polychlorinated Biphenyls (PCBs) Mercury, Pyrophoric Uranium, Chromium, Petroleum Products, Acids, Lead, Ordnance Disposal Deactivation, Decontamination, Decommissioning & Demolition (D4 or D&D), Government and Industrial Construction, Engineering & Technical Services NAICS Codes: 541620,562910, 233310, 233320, 234110, 234120, 234910, 234920, 234990	FE&C focus has been on performing work at CERCLA sites since 2002. Most of the sites FE&C has remediated have been from cold war nuclear production facilities and contained both radio nucleotides and chemical contamination. FE&C has remediated sites ranging from chemical spills and releases to excavating and sorting of nuclear reactor hardware for disposal including spent nuclear fuel. FE&C has vast experience with handling highly hazardous materials and chemicals and a safety EMR rating of .60 - among the lowest in our industry.	Small Business	
Ecosystem Management, Inc.	3737 Princeton Dr. NE, Suite 150 Albuquerque, NM 87107	Mike Tremble	Telephone: (505) 884-8300 E-mail: miket@emi-nm.com	http://www.emi-nm.com	Environmental Services, NAICS codes: 541620, 541690, 541990, 541930, 562910 and 924110			Ecosystem Management Inc. is a Native American owned, Veteran owned small disadvantaged business. Water Tectonics, Inc.	6300 Merrill Creek Parkway, Suite C-100	Eric Bradley	Phone: 503-509-9345, Email: eric.bradley@watertectonics.com	www.watertectonics.com	1. Wastewater Treatment systems for permanent and temporary applications in mine cleanup and environmental remediation.	Products: Water treatment systems to achieve project-specific water quality and operational goals. Systems can be mobile or permanent, use standard or alternative power sources, real-time water quality monitoring to control discharge automation, remote monitoring and control capabilities. Water treatment systems capacity from 1 - 10,000+ gallons per minute. Services: Treatability Testing, Pilot Testing, Design, Manufacture, Installation, Field Service, On-site Operations, Remote Monitoring & Operations, Capabilities: WaterTectonics works primarily in the U.S. with some international projects in mining and oil & gas. WaterTectonics executes successful projects with a multi-disciplinary engineering team, project R&D lab, and field services group. 221310, 333318	: WaterTectonics has expertise to use over 24 different water treatment and filtration technologies. Our primary focus is on electrocoagulation, a broad-spectrum treatment process that uses electricity to remove Heavy Metals, Total Suspended Solids, Bacteria, and many other contaminants. We are also experts in value engineering projects, again leveraging our electrochemical technology to build treatment systems that are not dependent on consumables with high operating costs.	WT was established in 1999 and has over 60 employees
