Technical  
Lake Remediation  
Outreach  
Real Estate  
Future use of PLW site (new – requires  $\frac{3}{4}$  vote)
- 7:50 2012 meeting locations ..... John Soojian  
Reschedule July 4 meeting
- 8:00 Public Comment/Questions on above
- 8:15 BREAK
- 8:25 Open CAG seats (2 Plume Resident seats) – Discussion  
Should we suspend any deadlines and consider applications as they come in?  
How do we make it known and get people interested?
- 8:45 Discussion of agenda topics for February
- Initial thoughts from the Technical Work Group on the RIR documents for the site, and anything that jumps out as a potential problem area.
  - How do we complete the review of the RIR's for the site to minimize the chances we will have to return to evaluating them later in the process?
  - Milestone/timeline chart for the four manufacturing site areas to simplify the monitoring of progress month-to-month

- Review of EPA door-to-door survey results
- Simple presentation format for monthly vapor mitigation systems statistics
- Clarification on vapor mitigation system annual health checks and warranties
- Bioremediation pilot update on next steps (if any)
- Acid Brook sediment sampling results (if available)
- Review of bathymetric survey of Pompton Lake (if available)
- Review of split sample results from the site (if available)
- Results of review on explosives in ground water (if available)
- Update on special health study for Pompton Lakes

9:15 Public Comments / Questions

9:30 Good night
