EPA-R5-2017-011924	Lisa R. Hook		9/29/2017 13:09	I am concerned that the property I am renting through a federally funded homeless assistance grant has contaminated well water with a high lead count and also possible asbestos, toxic mold and radon. My carbon monoxide detector and smoke ionization detectors go off and the landlord tells me I am paranoid. He has had to shut the well off numerous times and has told me to use bleach when washing the dishes and bathe in the chlorinated pool at times. I have two school age children and a pet. The housing agency says they do not inspect or test for contaminated water. I also need to know if this property is doing business as an adult day care center without my knowledge or consent ... I am not in need of such service.

EPA-R2-2017-011852	Kayo Mullins	Waters & Kraus LLP	9/27/2017 17:09	<p>We are requesting a document referenced in the links below. This was an internal report titled &quot;Operation Bootstrap&quot; distributed by the Hooker Chemicals Corporation regarding their Niagara Falls facility. The report was conducted in 1975 but then appears to be distributed in 1979. The EPA had a copy of this report which is what we are requesting. Operation Bootstrap, a 1975 company management study of the Niagara Plant documenting obsolete equipment, substandard environmental conditions and massive discharging of waters into sewers leading to the Niagara River. &quot;The 1975 Report, called 'Operation Bootstrap', was prepared by internal engineers and doctors for the Hooker Chemicals and Plastics Corp., a subsidiary of Occidental Petroleum.&quot; https://www.newspapers.com/newspage/160831662/ The 1975 report, called "Operation Bootstrap," was prepared by internal engineers and doctors for the Hooker Chemicals and Plastics Corporation, subsidiary of Occidental Petroleum. It was obtained by The New York Times, television station WKBW in Buffalo and Michael Brown, an environmental writer, from a supervising engineer who was dismissed two years ago, allegedly for complaining about unsafe emissions from the plant. According to Michael J. Bayliss, the former supervising engineer for plant efficiency who released the report, it was Hooker company policy "not to tell workers the dangers of the chemicals they worked with." He said he had told Federal safety officials about the problems but had not yet given them a copy of the report. EPA-R6-2017-011643	Alison Grass	Food & Water Watch	9/19/2017 20:09	On September 14, 2017, a joint ProPublica-Texas Tribune publication noted that the U.S. Environmental Protection Agency (EPA) took air samples around a Valero Energy refinery, after Hurricane Harvey came through and residents complained of rotten stench. The EPA did not release any specifics to the public, but said "concentrations of several toxic chemicals, including the carcinogen benzene, met Texas health guidelines." Thus, pursuant to the Freedom of Information Act (5 U.S.C. § 552), I hereby request all records related to EPA's benzene air sampling conducted in the atmosphere surrounding the Valero Energy refinery following Hurricane Harvey. There is only one Valero Refinery in Houston, and the address for it is: 9701 Manchester St, Houston, TX 77012. I also request a copy of the benzene air sample test results. The date range I am interested in is August 26, 2017 to the present. I would like these records in a searchable and analyzable electronic PDF format, if that is feasible.

				<p>I am writing to narrow the scope of my request EPA-R6-2017-011641, in order to speed up its processing time.</p> <p>I am only asking for the data points for benzene. In other words, I am requesting:</p> <p>The EPA air monitoring data referenced in this EPA press release from September 8, 2017: https://www.epa.gov/newsreleases/epatccqcity-houston-harvey-update. The data were gathered by EPA's mobile laboratory ("TAGA"), on September 5 and September 6, 2017, in the neighborhood next to the Valero refinery in southeast Houston. The requested data were represented on two EPA-released maps, but the maps do not show individual data points or measurements. I am requesting all of the available air-monitoring data associated with the benzene measurements taken over those two days, including but not limited to the date and time of each benzene measurement; the measured concentration of benzene in each measurement; the unit(s) the benzene concentrations are measured in (e.g. ppb or micrograms/cubic meter); the wind direction; the wind speed; the duration of each measurement; the detection limit of each measurement; and the geographic coordinates of where each measurement was taken. The fields listed in the previous sentence are representative of the data associated with a typical air monitoring dataset—if there are additional fields included in the data, please include them as well. I am simply requesting all of the benzene data associated with the cited TAGA runs on September 5-6, 2017.</p>

EPA-HQ-2017-011562	Michaelangelo C. Hamilton		9/18/2017 22:09	<p>This letter is a request in accordance with the Freedom of Information Act ("FOIA"), 5 U.S.C. 552. And the corresponding department/agency. The request is made by myself, Mr. Michaelangelo C. Hamilton, behalf of the public domain and for noncommercial purposes. In summation, this request seeks all records relevant to current U.S. strategy to combat anthropogenic climate change and all Executive Orders made by President Donald J. Trump in this regard. Background The media has reported extensively on the policy rollbacks and Executive Orders President Donald J. Trump made days after Inauguration. As the Washington Post reported on February 20th, 2017, "President Trump is preparing executive orders aimed at curtailing Obama-era policies on climate and water pollution, according to individuals briefed on the measures." The American people have the right to know more about the United States' strategy to handle climate change and the official scientific and logical rationale for these decisions being made by the Trump administration. Pursuant to FOIA, 5 U.S.C. &sect; 552 et seq., I hereby request that the Environmental Protection Agency produce the following within twenty (20) business days: Requested Records For the purposes of this request, the term "record" shall apply to all information qualified under 5 U.S.C. 522, including but not limited to, any unedited scientific findings, charts, logs, memorandums notes, writing of any kind, policies, procedures, guidelines, agendas, handouts, reports, transcripts, video, audio recordings, photos, or other material. The term also includes all related information formed, stored, received, or delivered in any digital or electronic form, including but not limited to, electronic mail, instant messaging, or Facebook messaging, iMessages, text messages, or any other form of communication in relation to U.S. strategy on climate change under the Trump Administration. Thank you for your consideration</p> <p>Dear EPA: I request copies of records under the Freedom of Information Act (5 U.S.C. 552) containing data that refers to and/or describes the dispersal of materials in the atmosphere visible over Monterey County, California on September 16, 2017, including but not limited to, the composition(s) of the materials dispersed and the quantities of each material dispersed. On information and observation, I have probable cause to suspect that the materials dispersed include at least Welsbach and Welsbach-like materials (such as the oxides of metals), coal ash, and materials characterized by frequency-dependent emissivity. In my considered opinion, a search of your electronic files using the names of these materials as search terms will likely result in records responsive to my request. On further information and observation, I have probable cause to suspect that at least some of the materials dispersed in the atmosphere are dispersed from aircraft flying to and from Fort Hunter Liggett in southern Monterey County. The attached photo was taken this afternoon at 1:53 p.m. PDT and shows dispersal of material in the atmosphere. In order to help you determine my status for the purpose of assessing fees, you should know that I am an individual acting on my own behalf and on behalf of Spirit and Life on Earth and I have no intention of using the information commercially. I have included a telephone number at which I can be reached if necessary to discuss any aspect of my request. EPA-R4-2017-011494	Yvonne Hegney		9/14/2017 20:09	Yvonne Hegney	Unbeknownst to me, the electric company sprayed 2 acres on my property with both Rodeo and Polaris. Within 24 of the spraying, I was on the acreage, dressed in only shorts, halter top, and flip flops, taking pictures and physically contacting all the foliage. I didn't know to bathe or change clothes, either. I've read about the 48 hour re-entry time for imazapyr, as well as the time to re-enter after treatment with glyphosate. I became very ill the next day after exposure, continue to feel unwell three months later, and I would like to know what I'm dealing with as far as the inert ingredients in both of these products. If I know what the inert are, I might be able to locate a medical treatment to counter this illness. Thank you so much for your help.

The 'matter' is based on a Notice of Intent to file Administrative Complaint, which is attached to this request. My old firm, Jacobs Stotsky PLLC, represented Creation Farm in the initial stages of the enforcement matter. My old firm was the attorney of record for Creation Farm. Jacobs Stotsky PLLC was dissolved on Feb. 17, 2017. I am requesting records which show or establish that Jacobs Stotsky PLLC is no longer the attorney of record for Creation Farm, and the date or dates on which this occurred. Providing me with the requested records cannot reasonably be expected to cause harm under any of Exemption 7's six subparts. EPA's possession of a record it did not create or compile for law enforcement purposes, but rather received as part of a pre-filing enforcement matter and containing no evidentiary value, is not subject to Exemption 7. Notices of attorney representation are filed in due course all the time. Had Region 5 elected to file a complaint in this matter, the notice of attorney representation would reside in the Regional Hearing Clerk's docket, and be available for public inspection. Thank you.

EPA-R5-2017-011267	Alexis Mapes		9/8/2017 0:09	My basement flooded and the cost to repair it is well beyond our means. Our plumber informed us that we are on a common sewer and heavy rain falls caused that common sewer to back up and flood our basement. Initially the city of Elgin told us they would cover the difference not covered by our home owners insurance because they were at fault due to common sewers. Their insurance company contacted us later stating that we were not on a common sewer and that they were refusing all claims filed in the city of Elgin. The sewers at this address have not been dug up or worked on in 34 years. They've done it in surrounding areas, but not here. Our street floods and everything when it rains. Now we are just seeking information confirming that our sewer is a common sewer, so that we can use this to pursue reimbursement. As a result of this damage our home owners insurance has now dropped us. Thank you, very much time for your time and consideration.

(whether sent or received via email, fax, postal mail) during the last six months, as well as any transcripts of meetings or phone calls between the parties during the last six months. I'd like to get responsive records emailed to me as PDFs at rdunklin@ap.org or, if another request is already being processed and records are being produced in another format, I will accept records in that format in order to expedite release of records to the AP and lessen the workload on your staff. If records exceed 50 pages, I ask that they be made available to me on a rolling basis, meaning as they become available for release after any FOIA review process, rather than delaying release until the last document is ready. I also ask that you communicate with me by email or phone to expedite the FOIA process. I also request expedited processing, because this is a matter of public interest since the Crosby plant had chemical emissions, after flooding, catching fire and exploding in the last week, and it is important to understand what preparations for flooding may or may not have been identified as necessary there. Because of the furtherance of public knowledge, and because I work for a news gathering organization, I also request a fee waiver. Thank you.

I am specifically interested in any information related to whether The Seattle Times Company was a PRP and, if so, the basis for their inclusion. I understand that approximately 325 PRPs were initially identified and sent notice letters in 1983, and that approximately 190 of them formed a group that contributed cleanup money through a trust fund. I also understand that a database was created by Techlaw/Intera to track PRPs and their involvement with the site. I would like to obtain copies of records such as lists of PRPs and the trust fund group members, PRP notice letters, and the PRP database, either as specifically relates to The Seattle Times Company, or as a data set that I can search through. If there is a file specifically for The Seattle Times Company within the Western Processing site files, I would like to review and/or obtain a copy of that. All documents relating to EPA's evaluation of SCST's proposal in response to Solicitation SOL-HQ-14-00022. This includes: a. any and all documents (including preliminary evaluation documents and written communications, including emails, among evaluation members) in which EPA evaluators considered SCST's acquisition of Sullivan International Group, Inc., as reflected in the attached (1) Novation Agreement, and (2) Asset Purchase Agreement in which the EPA and U.S. Government, as represented by the Department of Justice, assured SCST of all "rights privileges and assets," and all liabilities, to the beginning of the contract. b. All past performance questionnaires considered by EPA in its evaluation of SCST's proposal 2. All documents reflecting EPA's consideration of the aforementioned Novation Agreement in connection with the evaluation of any other offeror under Solicitation SOL-HQ-14-00022. Unfortunately the Town of Poca has denied ownership or control of its own storm water system. We have recently added the Putnam PSD to our litigation but in as much as the system discharges into a navigable waterway, it appears that there should be reports filed relating to those discharges. The Town of Poca denies that it has records regarding the location of the storm drain system and so it is possible that this is a combined sanitary sewer and storm sewer system. Please allow this communication to serve as our request pursuant to the Freedom of Information Act that you provide this office with copies of any report filed by any person or entity relating to storm water discharge from waters originating from the area now encompassing the Town of Poca, WV into the Kanawha River or its tributaries. Also please provide a copy of any permit, authorization of similar document regardless of date which authorized the Town of Poca or other entity to discharge storm water runoff from the area now encompassing the Town of Poca into the Kanawha River or its tributaries.

However, please notify me prior to your incurring any expenses in excess of that amount. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the currently pending renewal of air pollution permits issued to APES and ORRCC that is of current interest to the public because both plants have been named in hundreds if not thousands of odor complaints submitted by neighbors of their North Portland facilities since 2000. This information is being sought on behalf of Cascadia Times for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. This information will inform the public about air pollution emitted by these facilities and help citizens formulate comments on currently pending air pollution permits. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. EPA-HQ-2017-010335	Abigail Dillen	Earthjustice	8/8/2017 20:08	I hereby request, under FOIA, a copy of all correspondence between TERA, and/or Michael Dourson, and EPA, over the past five years, concerning:TCE, Perc, pigment violet 29, NMP, HBCD, carbon tetrachloride, asbestos, 1,4 dioxane, and 1-bromopropane. Thank you, SK On January 11, 2017 the United States District Court for the Northern District of West Virginia ordered EPA to submit a § 321(a) evaluation of the coal industry and other entities affected by EPA rules and regulations no later than July 1, 2017. Two days before the evaluation was due the U.S. Court of Appeals for the Fourth Circuit vacated the District Court's order. Given that the Court of Appeals decision was released on June 29, 2017, merely two days before the section 321 report was due to the District Court, CATF believes that the section 321 report was in fact prepared by the Agency but never submitted to the Court or otherwise made public. CATF therefore requests: 1. Any and all reports, memoranda, or evaluations prepared in response to the District Court's Jan. 11, 2017 Order (Attach A); and 2. The underlying data supporting any report or evaluation. I request all correspondence between Dr. Nancy Beck and the American Chemistry Council, from Dr. Beck's arrival at the EPA, with the Pruitt administration, through August 8, 2017. EPA-R5-2017-010153	Tyler McGeary	ERM	8/3/2017 18:08	Hello There, I am looking to acquire the most recently up to date RCRA info data files that is available for public through EPA. We have been using the data files from the ftp site for some time - ftp://ftp.epa.gov/rcrainfodata/rcra_flatfiles/ But the most recent updates, the files have significant errors in the fixed lengths comparing to what is mentioned in the V6 RCRA Info Flat files documentation. Without the proper explanation of the fixed lengths, it is not possible to use the .txt files available in the ftp site. (For example, "HREPORT_UNIV.txt" file has clarification till fixed length 1052 but the actual file has 1219 fixed length) I was wondering if someone from your division could provide me the files in an alternative format (e.g MS Access) where the fixed length issue can be easily solved. Please give me call at 416-510-5204 ext 43627 if you have any questions. Thanks, Shadman Karim

I'd like a copy of any documents, meeting notes and meeting schedules, recorded meetings or phone calls and any other communications that may have occurred to or from the administrator of the U.S. EPA Scott Pruitt that mention the word "coal"; between February 17, 2017 and February 24, 2017. I would prefer to receive these documents in electronic form, if possible. I'm a financial coal reporter for S&P Global Market Intelligence, formerly known as SNL Financial, an online trade publication covering energy and this request is made as part of news gathering and not for a commercial use. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. The knowledge of the relationships between the head of the U.S. EPA and the coal industry is exceedingly important to the public. I intend to disseminate this information through SNL Energy's news page, as well as via free link on my Twitter accounts, which are widely viewed by the public. EPA-HQ-2017-005963	Catherine M. Rahm	Natural Resources Defense Council	4/10/2017 19:04 I request records of communications between EPA employees/affiliates and employees/affiliates of the Oklahoma Bar Association regarding the grievance against Administrator Scott Pruitt known as "Grievance against Edward Scott Pruitt, DC-17-708" (the "Records"). Please consider any e-mails, attached documents, voice mail logs or transcriptions, letters, memorandums, text messages, voice/video recordings and other documented forms of communications as responsive Records to my request. This request is ongoing, and I am requesting that the records be provided to me on computer files or, if not maintained on computer files, in the same format as they are currently maintained at the EPA. FOIA requires that your agency respond to my request for expedited treatment within 10 business days. In the event your agency denies my request for expedited treatment, whether through your agency's affirmative denial of the request for expedited treatment or through your agency's failure to respond to the request for expedited treatment, then FOIA requires that your agency nonetheless respond to the underlying request for information within 20 business days of receipt of this letter. This request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. Under federal law, if you choose to withhold any such parts of the records from disclosure, you must specify in a written response the factual and legal basis for withholding any part of the Records. Please contact me if I may assist in your office's response to this request. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone or email, rather than by mail, if you have questions regarding this request.

			This is a request under the Federal Freedom of Information Act (FOIA), the First Amendment to the United States Constitution, the common law of the United States, the Privacy Act (5 U.S.C.) section 552a, and any statute providing for public access to government information: I request that I be sent copies of the following documents or, if there is a large number, be permitted to inspect the following documents: Please send any and all communications between the Office of the Administrator (including, but not limited to, Administrator Pruitt and his chief of staff) and EPA's Ethics Office related to lawsuits Scott Pruitt brought against the EPA while serving as Oklahoma's attorney general. If possible, I would prefer to receive the largest number of records or documents in electronic form. The Freedom of Information Act requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance. Do contact me by telephone or e-mail if you have any questions regarding this request or recommendations on how to streamline or revise it. If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Please provide copies of any logs, internal tracking numbers or other file-tracking device or system of documents in existence but denied disclosure. EPA-HQ-2017-005032	Jarrod Sharp		3/17/2017 13:03 Pursuant to the FOIA, provide any and all records, including e-mails, which refer and/or relate to the encrypted messaging application named Signal that were sent or received by any HQ EPA employee/agent after November 1, 2016 to present.
			I request all communications records sent to and/or from David Schnare -- including emails sent to and/or from his EPA email account, schnare.david@epa.gov, and from any other non-official email accounts associated with Schnare that were used for official purposes as well as text messages sent to and/or from Schnare -- during the time period of Nov. 9, 2016 to March 17, 2017. I request copies of all of Schnare's communications records because after his March 15, 2017 resignation from EPA, he alleged that he left the agency because of EPA officials' "misuse of federal funds, failure to honor oaths of office, and a lack of loyalty to the President [Trump]" (please see "Questions trail agency critic's exit," Kevin Bogardus, Greenwire, March 16, 2017 http://www.eenews.net/stories/1060051580). Please consider any emails, letters, memorandums, text messages, voice and video recordings as well as other documented forms of communication sent to and/or from Schnare as responsive records to my request. Correspondence between EPA Administrator Pruitt and Senator James Inhofe sent between & including the dates of 2-17-2017 and 3-13-2017. The rule applies to approximately 12,500 facilities in the U.S. that, according to the EPA, have had on average one serious safety "incident" every other day for the past 10 years. Understanding the decision to delay implementing this safety, measure previously approved by the EPA is a matter of urgent public interest.

EPA-HQ-2017-004822	anthony grasso		3/13/2017 18:03	In a recent interview, Scott Pruitt, Administrator of the EPA, said the following, "I think that measuring with precision human activity on the climate is something very challenging to do, and there's tremendous disagreement about the degree of impact, so no, I would not agree that it's a primary contributor to the global warming that we see." I would like to know the names of each and every study, scientist or source that Mr. Pruitt is referencing when he said, acting as the head of the EPA, that there is disagreement in the scientific community. Please provide the names of studies, scientists, or reports that contradict the finding that human activity is a primary contributor to global warming. My sincere thanks as a citizen.

			Almost a year ago, a report assessing the cancer risk of the active ingredient, glyphosate, in Monsanto's Roundup herbicide appeared on EPA's website. EPA quickly retracted the report, only to post it again a few months later. Not long after EPA's retraction of the report, the chair of the committee that authored the report left EPA. This FOIA request seeks records related to that cancer risk assessment report, including any and all communications between EPA and Monsanto and any internal EPA communications concerning the chemical glyphosate. When a pesticide is proposed for registration or re-registration, EPA's Office of Pesticide Programs reviews studies to evaluate the pesticide's potential for causing cancer. The Cancer Assessment Review Committee (CARC) then reviews these results and recommends a cancer classification. This FOIA request includes all documents and communication regarding the CARC of glyphosate. In September 2016, EPA posted the 2015 CARC Final Report to its Glyphosate Registration Review Docket. This FOIA request includes all documents and communication regarding the 2015 CARC Final Report of glyphosate. This FOIA request further includes any and all communication, information, and documentation concerning glyphosate including, but not limited to records referring or relating to the CARC report on glyphosate, records from January 1, 2015, through the date of the request between Monsanto officials and EPA that discuss or relate to glyphosate. I request this information to be assimilated and distributed electronically via electronic mail in order to limit cost and stimulate efficiency.

EPA-HQ-2017-003625	Abraham Lustgarten	ProPublica	2/6/2017 19:02	The following is a re-filing of a FOIA request previously submitted to EPA Region 4, but which seems to be more appropriately handled by EPA HQ: The original FOIA # is EPA-R5-2017-003467 I am requesting copies of all releasable files relating to the permitting of, conduct of, or investigations into, the company U.S. Technology, based in Canton OH, and its handling of hazardous materials, between the years 2000 and 2017. It is my understanding that U.S. Technology is the subject of investigations or enforcement actions in both EPA Region 4, and in EPA Region 6, and perhaps elsewhere. It is information regarding the company's conduct and operations in these specific regions which I am requesting information about. In addition I request copies of all correspondence, including emails and letters received from or addressed to parties outside of the U.S. EPA concerning U.S. Technology, as well as any releasable intra-agency correspondence. I understand that my original request was forwarded to EPA Region 5 because the company in question is based there, But to reiterate, this request specifically concerns actions in R4 and R6. Also, I was advised previously that Region staff did not know or have enough information to know where to begin their search. To clarify my request, because this concerns a hazardous waste handling issue and an enforcement issue, I would suggest beginning with the RCRA enforcement offices and the criminal investigations divisions of these regional offices. However I do not know that responsive records would be limited to those offices, and therefore would like the request considered more broadly.

			The Pyrethroid Working Group (PWG) is an industry-based group that works together on regulatory issues associated with uses of Pyrethroids as pest-control agents used in crop protection, residential settings and public health. The group comprises six companies who are basic manufacturers and primary registrants of a number of Pyrethroid insecticides. Since the PWG was assembled, over 200 study data reports have been submitted to the EPA in order to satisfy Agency requirements. However, it has become apparent that while these data have been provided to the EPA, EFED has not responded similarly with transmitting data evaluation records (DERs) back to the PWG. Currently the Pyrethroid active ingredients are undergoing Registration Review and the EPA preliminary risk assessment (PRA) has been posted for public comment. While the number of data submissions for which the PWG does not have DERs is extensive, there is a priority list which is important to positioning the PWG's Pyrethroid PRA response correctly. The PWG is hereby requesting that these priority DERs be sent to the task force in an accelerated timeframe so that they are able to draft a response appropriately. The list also includes a number of Open Literature Review Summaries (OLRS) which are critical for the PWG to draft their PRA response. The provided spreadsheet lists the 106 DERs that the PWG is requesting with the top 52 (i.e. rows 2 – 53) considered top priority. The provided Word document lists the OLRs's that the PWG is requesting with the top 18 considered top priority (highlighted in blue). If you have any questions or comments about the FOIA request, please contact Dick Collier or myself at the following phone numbers or email addresses: (229) 251-2818 & (229) 548-2802 or dcollier@landisintl.com & aporges@landisintl.com, respectively. This includes communications via social media, email, etc. I'm requesting Communications from Trump transition team, or Trump's administration to the EPA, and any resulting memo to EPA employees. The &quot;landing team&quot;; is the Trump transition team officials that are working directly with EPA: Myron Ebell, David Schnare, David Kreutzer, Austin Lipari, David Stevenson, and George Sugiyama. EPA is aware of the members of its own transition team, but to cover all the bases, the head of EPA's transition effort is Shannon Kenny. EPA has made minimal information about the transition available to the public, and the communications between EPA and the landing/transition team are impossible to obtain unless through FOIA. To make clear: this request includes all materials generated by EPA as well as all materials generated by the transition and/or landing team and sent to EPA.</p> <p>12/14/2016 17:12</p> <p>12/13/2016 21:12 See attached document</p>

				<p>This is a request or files cited by EPA in its draft human health risk assessment for malathion, or for study data evaluation records that have we have submitted to EPA in support of the registration of malathion in the United States. The first attached file requests the Agency's data evaluation records for studies submitted to support the registration of malathion. The second attached file requests copies of documents that EPA has cited in its draft human health risk assessment, which has a comment period that ends on December 21, 2016. These documents are needed in order for the registrant and the public to fully understand the ecological, endangered species and human health risk assessments that the agency has posted for public comment. Since the Agency has established regulatory deadlines for commenting on these risk assessments, time is of the essence for the EPA to comply with our request to provide the requested documents. Based on this, we request a fee waiver. And, we request expedited processing because of the urgency to inform stakeholders and the public about the reasons for the conclusions of the EPA's draft human health risk assessment. This is especially important given that malathion is an important tool used to control mosquitoes that spread diseases like the Zika virus.</p>

EPA-HQ-2017-001307	Gregory Alcorn		11/16/2016 14:11	Pursuant to the Freedom of Information Act, I am requesting access to historical pesticide registration information currently maintained by the U.S. Environmental Protection Agency (EPA). As means of background, the Federal Insecticide, Fungicide, and Rodenticide Act of 1947 (FIFRA) required companies to register pesticides with the U.S. Department of Agriculture (USDA). In 1972, the Federal Environmental Pesticide Control Act (FEPCA) transferred pesticide registration responsibilities from USDA to EPA. It is my understanding that copies of the historical pesticide registration records maintained by USDA were also transferred to EPA in 1972. I am specifically requesting information on where historical pesticide registration records are currently located, as well as access to these records. I am a private researcher, not connected to a government agency. As such, I understand that EPA may charge reasonable research fees associated with this request. I authorize up to \$500 in such fees; if the fees will exceed this amount, please contact me for additional authorization.

			Dear FOIA Officer: Pursuant to the Freedom of Information Act, 5 U.S.C. 522, et seq., I am writing to request the disclosure of documents within the control of your agency. I hereby request copies of any narrative responses to the CERCLA Section 104(e) Request (or Supplemental Request) for information letters sent to potentially responsible parties in the Duwamish 104(e) Request, received by EPA after March 7, 2013. On March 7, 2013, I received a disk from EPA with all narrative responses received up to that date. (Index attached) We are now requesting any additional narratives received after that date. In the event that any requested documents are not disclosable in their entirety, we request that you release any material that can be reasonably segregated. Should documents within the scope of this request be withheld from disclosure, we request that you provide us with a "Vaughn index" that (1) identifies each and every document that is withheld, and (2) states with specificity the statutory exemption claimed for each document and an explanation of how disclosure of a particular document would damage the interest protected by a particular exemption. We are willing, of course, to pay all reasonable costs incurred in locating and duplicating these materials. If the volume of documents you identify pursuant to this request is considerable and copying would prove to be unduly burdensome and costly we would like to arrange to review the documents at your offices to identify and select specific records for duplication. If you have any questions regarding this request, please contact me at 206-359-3497. David Weeks

EPA-HQ-2016-009485	Kevin Bogardus	E&E News	8/17/2016 17:08 I request copies of any and all emails concerning official EPA business that were sent to or from EPA Administrator Gina McCarthy's personal email account(s) from July 18, 2013 to the present day. Other senior administration officials, such as former Secretary of State Hillary Clinton and Defense Secretary Ash Carter, have been found to have used a personal email account for government business. Both of those instances not only ran counter to their departments' policies but could have led to the potential exposure of classified information. In response to worries over their use of personal email for government business and also litigation in former Secretary Clinton's case and former PerfluoroClinton and Secretary Carter released thousands of pages of their personal emails that were used for government business. Further, a recent court ruling found that agency officials should expect that work-related emails in their personal email accounts are subject to the Freedom of Information Act. In Competitive Enterprise Institute vs. Office of Science and Technology Policy, D.C. Circuit Senior Judge David Sentelle wrote in the U.S. Court of Appeals for the District of Columbia Circuit's opinion that "an agency cannot shield its records from search or disclosure under FOIA by the expedient of storing them in a private email account controlled by the agency head." Administrator McCarthy should follow the example of other administration officials as well as court precedent and release all of her personal emails that were used for EPA business.
EPA-HQ-2016-009479	Kevin Bogardus	E&E News	8/17/2016 17:08 I request a copy of the first email(s) sent by EPA Administrator Gina McCarthy from any and all personal email accounts that she uses for agency business. Please conduct a comprehensive search of her email account(s) that are used for agency business in response to my FOIA request. Several agency leaders have been found to have used more than one email account for agency business, including personal email accounts. Moreover, Administrator McCarthy has been said to have used a personal email account for agency business, according to a May 27, 2016 letter from EPA Chief Information Officer Ann Dunkin to Sen. Ron Johnson (http://www.eenews.net/assets/2016/08/17/document_gw_08.pdf).

EPA-HQ-2016-002780	Sebastian Blanco	AutoblogGreen	1/14/2016 17:01	I previously requested communication documents between the EPA and VW from August and September 2015, as that was when I thought the EPA became aware of VW's "defeat device."; I would still like those documents, but the lawsuit filed by the DOJ this month show that the EPA was first aware of questions about VW's diesel emissions in late 2014. Therefore, I would also like to request any communications between the EPA and VW that took place in May and June 2014 regarding questions about the automaker's diesel emissions. It appears from the lawsuit that the vehicles that initially caused questions to be raised were a 2012 Jetta and a 2013 Passat that were being tested by the Center for Alternative Fuels, Engines & Emissions at West Virginia University and the California Air Resources Board. These two organizations came to the EPA with their findings and the EPA went to VW. Therefore, I am also requesting the initial communications from WVA and CARB to the EPA regarding questions about VW's diesel emissions. These should also have taken place in May 2014. This request is being made pursuant to the Freedom of Information Act (5 U.S.C.§ 552) for articles that will be made available to the public via my website AutoblogGreen as well as potentially other means. Both physical and digital copies of the requested files will be accepted.

EPA-HQ-2016-002375	Anne Passino	Southern Environmental Law Center	12/28/2015 20:12	PLEASE SEE ATTACHED LETTER FOR FULL DESCRIPTION. 1. All communications from January 2010 to the present between the U.S. Environmental Protection Agency ("EPA") and the Tennessee Department of Environment and Conservation ("TDEC") relating to the Tennessee Valley Authority ("TVA") - Kingston Fossil Plant Solid Waste Disposal Facility, Class II Landfill, Tennessee Permit No. IDL73000211 (the "Peninsula Landfill") and/or any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2. 2. All communications from January 2010 to the present between EPA and TVA relating to the Peninsula Landfill and/or any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2. 3. All documents discussing the meaning or interpretation of the following terms used in EPA's rule governing the Disposal of Coal Combustion Residuals from Electric Utilities ("CCR Rule"): new landfill, existing landfill, and lateral expansion. 4. All documents discussing whether the Peninsula Landfill and/or any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2 is understood by EPA, TDEC and/or TVA to be a "new" or "existing" landfill under the CCR Rule and/or whether any phase of the Kingston Landfill is understood to be a lateral expansion of an existing landfill. Due to the massive coal ash spill at the Tennessee Valley Authority - Kingston Fossil Plant ("Kingston Plant") on December 22, 2008, we recognize that EPA likely possesses a substantial number of records generally relating to the Kingston Plant and coal ash. To be clear, we are not seeking records related to that spill and its subsequent clean-up. Rather, we are only requesting records related to the Peninsula Landfill and any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2, which obtained a state solid waste permit in 2007 and a major modification in 2015.

EPA-HQ-2016-000506	Under Agency Review		10/19/2015 13:10	I wish to see the correspondence between the EPA and Volkswagen surrounding the EPA's decision - delivered on around July 20 2015 - to refuse certification for VW's 2016 model year diesels. I understand that the correspondence continued in various forms until September 3, 2015, when VW admitted its misconduct over emissions controls.
EPA-HQ-2016-000485	Robert K. Wright	Financial Times	10/16/2015 20:10	I wish to see the correspondence between the EPA and Volkswagen around spring 2014 where the EPA first informed Volkswagen about its concerns about emissions from its diesel-powered, four-cylinder engines and VW's reply to those concerns.
EPA-HQ-2016-000484	Robert K. Wright	Financial Times	10/16/2015 20:10	I wish to see any correspondence between the agency and Volkswagen over its plans to introduce to the US market for the first time for the 2009 model year diesel-engine vehicles with Lean NOx Trap (LNT) emissions-control technology. The technology was first introduced on the Jetta in 2008. I am particularly interested in any explanations EPA sought from Volkswagen over how this unique technology would work and any explanations that Volkswagen provided. VW is the only carmaker to have offered emissions control via a Lean NOx Trap on the US market. All other vehicles on the market use some form of the chemical urea to break down the emissions, in a system sometimes known as Selective Catalytic Reduction.

EPA-HQ-2016-000421	Rebecca Perlman	Stanford University	10/15/2015 13:10	To Whom it May Concern, I'm a Ph.D. candidate at Stanford University, and I'm trying to find data on which companies had registrations for a given pesticide in 1996. So for example, I'd like to be able to see which companies had registrations for pesticides containing 2,4-D in 1996 (even if that registration was subsequently cancelled). I would like this information for a little under 90 pesticides. The list of pesticides is attached. Thank you for your consideration. Sincerely, Rebecca Perlman

EPA-HQ-2016-000223	Sheryl K. Reilly	SciReg, Inc.	10/8/2015 19:10	I am requesting a copy of a letter sent to all registrants of pesticide products containing 100% "Diatomaceous earth"; as the active ingredient, and a list of all of the companies to whom the letter was sent, and the dates the letters were sent. It is my understanding the letters were sent this past summer. The letters would have most likely been signed by Richard Gebken or Linda Deluise in the Office of Pesticide Programs' Registration Division, and the purpose of the letter was to notify the registrant that their products' ingredient statements needed to be amended regarding the ingredient statement. If all of the letters were identical, only one copy of the letter would be necessary, with a list of all the registrants/dates sent. Thank you

Part 2, subpart A, I am writing on behalf of my client, Christina D. Storz, to request all correspondence, data and documents related to EPA's September 18, 2015 Clean Air Act Notice of Violation ("2015 NOV") issued to Volkswagen AG, Audi AG, and Volkswagen Group of America (collectively referred to herein as "VW") alleging violations of the Clean Air Act ("CAA"), 42 U.S.C. § 7401-7671q (and related implementing regulations) and § 7522(a)(1) stemming from the alleged installation of "defeat devices" in VW automobiles. Because the specified categories of requested documents is extensive, the entire FOIA request is included in the attached document. The scope of this FOIA request is broad and should be interpreted to cover all of EPA offices nationally, including, without limitation, EPA Headquarters, EPA's Office of Transportation and Air Quality ("EOTAQ"), any EPA Regional office, and EPA's National Vehicle and Fuel Emissions Laboratory ("NVFEL"). It also is intended to request any responsive documents that are otherwise in the possession or control of any EPA officials, employees, consultants, or agents. This request is time sensitive. For that reason, please produce responsive, non-privileged documents as soon as they are available rather than waiting until all the responsive documents have been collected. I have included a copying charge limit of \$3,000 but that is not a firm cap. I would request, however, that EPA contact me if copying charges are expected to exceed that amount before those charges are incurred. And if you have any questions or wish to discuss narrowing this request in some manner, please feel free to give me a call. William J. Moore, III (904) 685-2172 wmoore@wjmlaw.net

This request is ongoing, seeking copies of (or access to) all Records as they are filed with the EPA. I am further requesting that the Records be provided to me on computer files or, if not maintained on computer files, in the same format as they are currently maintained at the EPA. I am a reporter for Bloomberg News, an accredited and recognized news-gathering organization. I request the Records to inform the public about matters of public concern. In the event a fee waiver is not granted, I agree to pay reasonable fees for the Records, including actual costs up to \$250. If you estimate that actual costs will exceed this amount, please contact me so that I may make the appropriate arrangements for payment. FOIA requires that your agency respond to the this request for information within 20 business days of receipt of this letter. This request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. Under federal law, if you choose to withhold any such parts of the records from disclosure, you must specify in a written response the factual and legal basis for withholding any part of the Records. Please contact me if I may assist in your office's response to this request. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone or email, rather than by mail, if you have questions regarding this request.

				The purpose of this letter is to make a formal request pursuant to the federal Freedom of Information Act for documents, both hard copies and electronic in form (including emails) pertaining to the decision of the U.S. Environmental Protection Agency in 2003 that greenhouse gases were not pollutants within the meaning of the federal Clean Air Act. More specifically, I am interested in documents relevant to the Agency's decision making between January 1, 2001, and August 28, 2003, when EPA formally denied a petition seeking regulation of greenhouse gas emissions from new motor vehicles under the Clean Air Act, extending to the Agency's defense of that decision before the U.S. Court of Appeals for the D.C. Circuit and the U.S. Supreme Court. I am seeking access to these documents in support of my research on the history of a Supreme Court case, Massachusetts v. EPA, decided by the Court in April 2007. For this same reason, I would like to request a fee waiver for the associated costs. The exclusive purpose of my research is in support of an academic publication, most likely a book for a general audience, that I believe will be of significant interest and value to the public. The Massachusetts case is one of the most significant environmental law decisions handed down by the U.S. Supreme Court. And my aim is to tell the story of that case in a manner that highlights for the public the challenges of both environmental lawmaking and Supreme Court advocacy. I have published significant scholarship on similar topics. See http://www.law.harvard.edu/faculty/rizarus/index.html .
EPA-HQ-2015-007071	Richard J. Lazarus	Harvard Law School	5/13/2015 19:05	Please also know that I would be pleased to speak with anyone in your office or any relevant office at EPA about possible ways to make the processing of my request easier and more convenient for those involved. I can certainly travel to DC to review documents in person if that would be helpful and expedite matters.

In most cases buildings of less than 5,000 sf in size are not eligible to receive the EPA's ENERGY STAR building score. The EPA's documents which describe the technical methodology for these building types state this restriction, but provide no evidence or justification to back it up. This is the case for the following models: office/finance/courthouse, hotel, K-12 school, medical office, retail, supermarket/grocery, and warehouse.

In technical documents for these buildings the only justification offered is the statement "analytic filter -- analysis could not model behavior for buildings smaller than 5,000 sf."

I am requesting to receive copies of any documents, memos, reports, and/or emails that address this issue and provide any evidence to support this claim for each of the building models that include this restriction.

Dear FOIA Officer,

Pursuant the federal Freedom of Information Act, 5 USC 552, I request access and copies of the following information:

- 1) The initial Freedom of Information requests filed by Earthjustice, the Natural Resources Defense Council and the Pew Charitable Trusts pertaining to records on confined animal feeding operations (CAFOs) across the United States, as well as animal feeding operations (AFOs). These records, to my knowledge, were initially requested in October of 2012.
- 2) All correspondence from EPA officials to representatives from Earthjustice, NRDC and Pew Charitable Trust regarding the initial records request, including any requests for extension or clarifications from EPA FOIA staff regarding those records in question. This would include any assessment of fees and final official letters honoring the aforementioned request.
- 3) All records submitted by EPA to representatives from Earthjustice, NRDC and Pew Charitable Trust concerning those FOIA requests from the three non-governmental organizations.
- 4) Any and all correspondence --- including email and memos ---- concerning those FOIA requests among EPA staff, including correspondence involving the following individuals: Nancy Stoner, acting assistant administrator for water; Bob Perciasepe, acting administrator; and Lisa Jackson, former administrator.
- 5) All FOIA requests pertaining to the CAFO records from the National Cattlemen's Beef Association and the National Pork Producers Council, including all correspondence between representatives from those organizations and officials from EPA regarding the requests by Earthjustice, the Natural Resources Defense Council and the Pew Charitable Trusts. This would include letters sent to EPA from the group
Pursuant to the Freedom of Information Act, I am requesting copies of the Data Evaluation Reports (DERs) for thirty-eight (38) studies pertaining to the active ingredient, Terbutryn. The MRID Numbers and associated information for the studies in question are listed in the attached document. No data are being requested; therefore, FIFRA Section 10 (g) does not apply. (1) Acetamiprid, imidacloprid, dinotefuran, thiacloprid, and thiomethoxam were all conditionally registered and EPA required the registrants to submit supplemental data. Please provide all records that were submitted to EPA to support the registration of each of those listed pesticides (including the date that they were submitted to EPA) and all accompanying Data Evaluation Records for each of the pesticides based on the data required for the conditional registration. The attached supplemental document lays out the specific data that EPA required and to which this request is limited. NRDC seeks the studies and DERs themselves, not just the MRID numbers.

(2) Please provide all decision documents that reflect EPA's decisions about the status of the registration for each of the following pesticide active ingredients: acetamiprid, imidacloprid, dinotefuran, thiacloprid, thiomethoxam and clothianidin.

(3) Please provide all studies submitted to EPA relevant to evaluating potential impacts to bees or other pollinators with each of the following pesticides active ingredients: acetamiprid, imidacloprid, dinotefuran, thiacloprid, and thiomethoxam.

(4) Please provide all cumulative and aggregate assessments conducted that include one or more of the following pesticide active ingredients: acetamiprid, imidacloprid, dinotefuran, thiacloprid, thiomethoxam and clothianidin.

(5) Please provide all records regarding the registration of nithiazine and Nitenpyram.
