If the volume of documents you identify pursuant to this request is considerable and copying would prove to be unduly burdensome and costly we would like to arrange to review the documents at your offices to identify and select specific records for duplication. EPA-HQ-2018-005260	Anthony Lacey	Inside EPA	3/8/2018 22:03	<p>Seeking any and all records (including but not limited to internal EPA memos, emails, letters, etc.) concerning EPA Administrator Scott Pruitt and any use of federal funds for buying/replacing/upgrading/restoring either a single door or doors -- whether at his home residence, his EPA office, or any other location in Washington, DC, or elsewhere. It is possible that such work may have been performed by Conquest Solutions LLC, but I do not want to limit my request to references to that company. Dear FOIA Officer: Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552 et seq ("FOIA"), I request copies of (or access to) documents (hereafter known as the Records), specifically: (1) Any agency records identify members of the Senior Executive Service within the Department who were reassigned to different jobs or different geographic locations during the period from Jan. 20, 2017, to the present. The records should include all reassignments where members of the Senior Executive Service within the Department moved to different positions or different geographic locations within the Department or outside of the Department. The records should also include all reassignments where members of the Senior Executive Service outside of the Department moved to different positions or different geographic locations within the Department (ie. the Records should include individuals who moved to, from and within the Department.) I am a reporter for The New York Times, an accredited and recognized newsgathering organization. I request the Records to inform the public about matters of public concern. FOIA requires that your agency respond to this request within 20 business days. This request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. Under federal law, if you choose to withhold any such parts of the records from disclosure, you must specify in a written response the factual and legal basis for withholding any part of the Records. I am further requesting that the Records be provided to me on computer files in the same format as they are currently maintained at the agency, pursuant to *Burka v. Dept. of Health & Human Svcs.*, 87 F.3d 508 (D.C. Cir. 1996). As you know, providing documents electronically is cheaper than mailing hard copies.

Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552 et seq ("FOIA"), I request copies of (or access to) documents, pertaining to the progress of your agency’s Regulatory Reform Task Force, specifically: (1) The report and any related documents that the regulatory reform task force has provided to the head of the agency to meet the requirements of section 3(g) of Executive Order 13777, detailing the progress of the task force. On February 24, 2017, President Trump signed Executive Order 13777, “Enforcing the Regulatory Reform Agenda,” which established a federal policy “to alleviate unnecessary regulatory burdens” on the American people. Section 3(a) of the EO directs federal agencies to establish a Regulatory Reform Task Force. Section 3(g) directs federal agencies to, within 90 days of the date of the order, and on a schedule determined by the agency head thereafter, have each Regulatory Reform Task Force provide a report to the agency head detailing the agency’s progress.

(2) All electronic calendars or calendar entries for Samantha Dravis, Ryan Jackson, Byron Brown and Brittany Bolen, including any calendars maintained on behalf of these individuals (for example, by an administrative assistant) from January 20, 2017 to the present. For any calendar entries in Outlook or similar programs, the documents should be produced in “memo” form to include all invitees, any notes and all attachments. Please do not limit your search to Outlook calendars. I request all electronic calendars, whether on government-issued or personal devices, used to track, coordinate or otherwise schedule how these individuals allocate their time on agency-related business. (3) All logs or other records tracking incoming and outgoing telephone calls made or received by any of the following individuals: Samantha Dravis, Ryan Jackson, Byron Brown and Brittany Bolen, from January 20, 2017, to the present. Freedom of Information request relating to Investigation of West Virginia Chemical Incident.

Request for documents related to the United States Environmental Protection Agency's investigation into actions with respect to the manufacture, testing, storage, distribution, spill, dispersion and cleanup of chemicals known as "crude MCHM" and "PPH" in connection a release of those chemicals that occurred on or about January 9, 2014.

My organization would like to request copies of the attached MRID reports and any associated Data Evaluation Records or Reports (DERs) for the pyrethroids listed (fenpropathrin, fluvalinate, fenvalerate, gamma-cyhalothrin, tefluthrin). We really mostly need the original MRID studies AND their associated DERs (we need to review both the original study plus the DER for our purposes). Not all of the studies in the list have MRID numbers listed. If this is a problem, please let me know and I can try to track down the numbers. We are requesting these reports for work on behalf of the Agency for Toxic Substances and Disease Registry (ATSDR)/Centers for Disease Control. The project contact at ATSDR is Henry Abadin, phone: 770-488-3321, e-mail: Hga0@cdc.gov. Please find attached affirmations for non-multinational status individuals who may see the documents. If anyone else needs to see the document we will send additional non-multinational status affirmations as needed to Mr. Earl Ingram (Ingram.Earl@epa.gov). Please contact me with any questions. EPA-HQ-2018-002866	Kevin Bogardus	E&E News	12/22/2017 17:12	<p>I request copies of any and all emails concerning official EPA business that were sent to or from EPA Administrator Scott Pruitt's personal email account(s) from Feb. 17, 2017 to the date that this FOIA request is processed. Other past senior administration officials, such as former Secretary of State Hillary Clinton, former Defense Secretary Ash Carter and former EPA Administrator Gina McCarthy, have been found to have used a personal email account for government business. In the cases of former Secretary Clinton and former Secretary Carter, some of those instances not only ran counter to their departments' policies but could have led to the potential exposure of classified information. In response to worries over their use of personal email for government business &not;-- and also litigation in former Secretary Clinton's case &not;-- both former Secretary Clinton and former Secretary Carter released thousands of pages of their personal emails that were used for government business. EPA has also released former Administrator McCarthy's personal emails that were used for government business. Further, a recent court ruling found that agency officials should expect that work-related emails in their personal email accounts to be subject to the Freedom of Information Act. In Competitive Enterprise Institute vs. Office of Science and Technology Policy, D.C. Circuit Senior Judge David Sentelle wrote in the U.S. Court of Appeals for the District of Columbia Circuit's opinion that "an agency cannot shield its records from search or disclosure under FOIA by the expedient of storing them in a private email account controlled by the agency head." Administrator Pruitt should follow the example of other past administration officials as well as court precedent and release all of his personal emails that were used for EPA business.</p>

On May 5 2012 Debbie Cenziper wrote an article in the Washington Post on aftermarket motorcycle parts. In the article EPA officials was quoted on aftermarket parts. I would like copies of Ms. Cenziper request, inter-office email and letters, phone recorders and the name of EPA technical experts how wrote the response.

http://www.washingtonpost.com/investigations/some-after-market-motorcycle-parts-dont-meet-safety-or-environmental-standards-experts-say/2012/05/26/gJQAgQezsU_story.html

EPA officials said any after-market part that alters the air-fuel ratio in an engine probably will affect emissions. The agency declined to comment on specific parts advertised online and in catalogues, saying it needs test data to determine emission increases.

“EPA is aware that some manufacturers and suppliers may be selling after-market motorcycle parts that could increase air pollution,” the agency said in a written statement. “EPA takes this issue seriously and will investigate and take action as appropriate to address potential threats to air quality.”

EPA-HQ-2018-005358	Abrahm Lustgarten	ProPublica	3/12/2018 19:03	Pursuant to FOIA, would like to request copies of all correspondence, including letters, emails and voice recordings not already published or made available on the EPA website concerning the EPA's evaluation of the health risks of exposure to the contaminant RDX, (https://cfpub.epa.gov/ncea/iris/iris_documents/documents/subst/0313_summary.pdf) from January 1, 2000 to Oct. 31, 2016. The response should exclude comments formally submitted to the EPA as part of the IRIS review process, and which are otherwise available online, as well as any other documents and information already published on the EPA's IRIS website. It should include all other internal and external communications no previously published for the public on the EPA website. I'd like responsive materials delivered on a rolling basis as they become available, and sent to me on a DVD via mail, as download of materials from the FOIAonline website is unreliable and frequently does not work. This request is a refiling of a previously withdrawn request, EPA-HQ-2017-000877 made to include my request for a fee waiver. Since substantial research has already been completed to answer the original request, it is my hope this new request can receive a response quickly.
EPA-HQ-2017-010289	Abrahm Lustgarten	ProPublica	8/8/2017 13:08	Pursuant to FOIA I'd like to request all documents and correspondence concerning the issue of penalties for, or the calculation of penalties for federal facilities between Jan. 20, 2017 and August 8, 2017. I'd like to request that responsive materials be delivered on a rolling basis as they become available.
EPA-HQ-2017-008423	Abrahm Lustgarten	ProPublica	6/14/2017 18:06	I'd like to request copies of all correspondence between the office of the Administrator, Scott Pruitt, and any entity outside of the USEPA concerning the management, modernization or prioritization of the Superfund program between Feb 16, 2017 and the present.
EPA-R3-2017-008427	Abrahm Lustgarten	ProPublica	6/14/2017 18:06	In May, 2011 the EPA conducted a multi-media inspection at the Radford Army Ammunition Plant in Radford VA, EPA RCRA ID No. VA1210020730 ; CWA NPDES Permit No. V A0000248 ; CAA Title V Permit Nos. 5112100006 and 5112100082. For EPA Region III. In December, 2014 EPA conducted a compliance investigation of the same facility, NEIC Project No.: VP1068. For EPA Region III. Pursuant to FOIA I'd like to request copies of all correspondence, memos, reports or presentations regarding the findings or the conduct of both of these inspections and investigations, including what to do about them. I'd also like to request copies of any and all enforcement actions taken as a result of these inspections, including notices of violation or formal citations or warnings issued to the U.S. Army or its tenants at the Radford facility over the violations identified in these reports, as well as all records documenting the remedy of identified violations and return to compliance with the applicable laws and facility permits.
EPA-HQ-2017-004816	Abrahm Lustgarten	ProPublica	3/13/2017 13:03	Pursuant to FOIA I'd like to request copies of all correspondence originating from or involving member of the EPA press office mentioning "Abrahm Lustgarten", "ProPublica" or regarding a press inquiry made by either entity since Sept. 1, 2016.

The following is a re-filing of a FOIA request previously submitted to EPA Region 4, but which seems to be more appropriately handled by EPA HQ: The original FOIA # is EPA-R5-2017-003467 I am requesting copies of all releasable files relating to the permitting of, conduct of, or investigations into, the company U.S. Technology, based in Canton OH, and its handling of hazardous materials, between the years 2000 and 2017. It is my understanding that U.S. Technology is the subject of investigations or enforcement actions in both EPA Region 4, and in EPA Region 6, and perhaps elsewhere. It is information regarding the company's conduct and operations in these specific regions which I am requesting information about. In addition I request copies of all correspondence, including emails and letters received from or addressed to parties outside of the U.S. EPA concerning U.S. Technology, as well as any releasable intra-agency correspondence. I understand that my original request was forwarded to EPA Region 5 because the company in question is based there, But to reiterate, this request specifically concerns actions in R4 and R6. Also, I was advised previously that Region staff did not know or have enough information to know where to begin their search. To clarify my request, because this concerns a hazardous waste handling issue and an enforcement issue, I would suggest beginning with the RCRA enforcement offices and the criminal investigations divisions of these regional offices.

However I do not know that responsive records would be limited to those offices, and therefore would like the request considered more broadly.

I request a copy of the following technical report currently being cited in the EPA's IRIS review of RDX, and with the EPA HERO ID# 2919533: Determination of the chronic mammalian toxicological effects of RDX: Twenty-four month chronic toxicity/carcinogenicity study of hexahydro-1,3,5-trinitro-1,3,5-triazine (RDX) in the B6C3F1 hybrid mouse (Volumes 1-3) The report was originally produced by the U.S. Army Medical Research and Development Command, but is a central document in the EPA's current toxicological review. The report is not classified but is not made available through a hyperlink the way most other citations relied on for the IRIS review are on the IRIS website. Thus I am requesting a copy of the EPA's version of this technical report.

EPA-HQ-2017-001866	Paul M. Whatling	FMC Corporation	12/7/2016 18:12	<p>This is a request or files cited by EPA in its draft human health risk assessment for malathion, or for study data evaluation records that have we have submitted to EPA in support of the registration of malathion in the United States. The first attached file requests the Agency's data evaluation records for studies submitted to support the registration of malathion. The second attached file requests copies of documents that EPA has cited in its draft human health risk assessment, which has a comment period that ends on December 21, 2016. These documents are needed in order for the registrant and the public to fully understand the ecological, endangered species and human health risk assessments that the agency has posted for public comment. Since the Agency has established regulatory deadlines for commenting on these risk assessments, time is of the essence for the EPA to comply with our request to provide the requested documents. Based on this, we request a fee waiver. And, we request expedited processing because of the urgency to inform stakeholders and the public about the reasons for the conclusions of the EPA's draft human health risk assessment. This is especially important given that malathion is an important tool used to control mosquitoes that spread diseases like the zika virus.</p>

To Whom it May Concern: I would like to request any and all documents that were sent from the White House to the
 EPA regarding a change to the Renewable Fuel Standard Point of Obligation. As the media has widely reported,
 discussions between Carl Icahn and outside private parties in the oil and renewable fuels industry occurred in late
 Feb/early March regarding the White House's consideration of moving the Point of Obligation from refiners/importers
 to some point further down the fuel distribution chain. In addition to any point of obligation package or memo, I
 would also request any other documents that were sent that pertained to other changes that might be considered as
 part of a package to move point of obligation: this list may include things like the E15 Reid Vapor Pressure waiver, or
 review of MOVES and other models, but my request list is not limited to these. I believe this package was likely sent
 from the White House to the EPA the week of Feb 27-March 5, but those dates are not exact. This package may
 include documents from other White House officials to Administrator Pruitt including Gary Cohn. Thank you.

Correspondence between EPA Administrator Pruitt and Senator James Inhofe sent between & including the dates of 2-17-2017 and 3-13-2017. Correspondence between EPA Administrator Pruitt and Justin Savage or any other attorneys at Hogan Lovells US LLP (located at 555 Thirteenth Street, NW, Washington, DC 20004) sent between & including the dates of 2-17-2017 and 3-13-2017. Correspondence between EPA Administrator Pruitt and the RMP Coalition, consisting of the American Chemistry Council, The American Forest & Paper Association, the American Petrochemical & Fuels Manufacturers, the American Petroleum Institute, the Chamber of Commerce of the United States of America, the National Association of Manufacturers, and the Utility Air Regulatory Group – and/or between EPA Administrator Pruitt and any of these individual organizations – sent between & including the dates of 2-17-2017 and 3-13-2017. — These documents are of public interest as they will contribute to public understanding of the decision to reopen a previously concluded EPA rule-making process, thus delaying the effective date of a public safety regulation designed to prevent catastrophic industrial accidents and to protect communities and emergency first responders. The rule applies to approximately 12,500 facilities in the U.S. that, according to the EPA, have had on average one serious safety "incident" every other day for the past 10 years. Understanding the decision to delay implementing this safety, measure previously approved by the EPA is a matter of urgent public interest.

 1. All “hardship” waivers issued by the EPA since January 1, 2013 to oil refiners exempting them from compliance with the Renewable Fuel Standard. 2. I am also requesting any written justification or analysis for any such waivers that the EPA has granted. Please see attached document.

Please provide the following records in a digital format:

1. All records related to agency travel requests submitted to the White House for designation as "White House Support Missions" (or "White House Mission Designations") from January 1, 2016 to the present. This request includes, but is not limited to:

- a. Records pertaining to the dates and itinerary of trips that were submitted.
- b. The formal request sent to the White House (usually to the Assistant to the President for Cabinet Affairs).
- c. Records related to the justification(s) for each request, such as the estimated cost of a requested flight and the estimated costs of alternatives.
- d. Records of response(s) to each request.
- e. Records indicating whether the trip was in fact taken, and the make/model of aircraft it was taken in. (As this may differ from the make/model of the aircraft requested.)

I certify to be true and correct to the best of my knowledge and belief, that there is widespread and exceptional media interest and there exist possible questions about the government's integrity, which affect public confidence. As travel costs from various federal agencies come to light, there is growing public concern about the government's integrity as it spends taxpayer dollars. This subject has already led to the resignation of a cabinet secretary, which has further undermined public confidence in the ability of the government to wisely spend the taxpayers' money. As the use of military planes for travel follows different procedures and has different implications than the use of chartered planes, it is important that such travel be differentiated from other trips as quickly as possible.

EPA-HQ-2017-005962	Jennifer Dlouhy		4/10/2017 19:04	<p>I request records of communications between EPA employees/affiliates and employees/affiliates of the Oklahoma Bar Association regarding the grievance against Administrator Scott Pruitt known as "Grievance against Edward Scott Pruitt, DC-17-70" ("the Records"). Please consider any e-mails, attached documents, voice mail logs or transcriptions, letters, memorandums, text messages, voice/video recordings and other documented forms of communications as responsive Records to my request. This request is ongoing, and I am requesting that the records be provided to me on computer files or, if not maintained on computer files, in the same format as they are currently maintained at the EPA. FOIA requires that your agency respond to my request for expedited treatment within 10 business days. In the event your agency denies my request for expedited treatment, whether through your agency's affirmative denial of the request for expedited treatment or through your agency's failure to respond to the request for expedited treatment, then FOIA requires that your agency nonetheless respond to the underlying request for information within 20 business days of receipt of this letter. This request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. Under federal law, if you choose to withhold any such parts of the records from disclosure, you must specify in a written response the factual and legal basis for withholding any part of the Records. Please contact me if I may assist in your office's response to this request. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone or email, rather than by mail, if you have questions regarding this request.</p>

EPA-HQ-2018-000896	Reese Dunklin	The Associated Press	10/23/2017 14:10	<p>Emails that Dr. Tina Bahadori sent to or received from the email address domains of @arkema.com and @americanchemistry.com from Aug. 1, 2017, to Oct. 23, 2017. While I have previously requested emails from certain EPA staff that involve Arkema Inc., this request is distinct and different from those. Should you be releasing the emails requested in this request as part of my prior ones, please let me know and we can discuss whether I modify or withdraw this one. Should you release some or all of these emails as part of another request submitted by another requestor, I ask that you notify me and provide the same documents to me, rather than making me wait out the 20-day timeframe or until my place in the FOIA queue is up. I ask for copies in electronic format sent to me at rdunklin@ap.org. I will take responsive records on a rolling basis. I do not seek confidential business information, or personally identifying information like SSN or DOB.</p>

On behalf of the Associated Press, I request all correspondence between certain EPA staff at EPA headquarters (those are: the EPA administrator, his acting deputy administrator, his chief of staff and his chief of operations; the acting assistant administrator over OCSPP; and the assistant administrator over OECA) and any employee of the Texas Commission on Environmental Quality, the Texas governor's office or the Federal Emergency Management Agency from 8/1/2017 to 9/15/2017 regarding any violations, site inspections, compliance requirements, flood risks, flood control, flood prevention, flooding, enforcement actions, regulatory oversight, emergency response, hazardous waste disposal, accident planning or prevention, air quality testing or sampling, water quality testing or sampling related to the facility located at 18000 Crosby Eastgate Road in Crosby, Texas (EPA facility identifier 100000124457) and presently owned by Arkema. The correspondence should include anything whether sent or received via email, fax or postal mail. And to be clear, this request is different and distinct from my request numbered EPA-R6-2017-011509 in that it seeks information from personnel working from headquarters, and I do not wish to consolidate this request with EPA-R6-2017-011509. I am requesting publicly available information, not confidential business information. I'd like to get responsive records emailed to me as PDFs at rdunklin@ap.org or, if another request is already being processed and records are being produced in another format, I will accept records in that format in order to expedite release of records to the AP and lessen the workload on your staff. I agree to the release of records on a 30-day rolling basis. I also ask that you communicate with me by email or phone at 972 502 7571 to expedite the FOIA process. Thank you.

EPA-HQ-2017-011511 Reese Dunklin The Associated Press

9/15/2017 15:09

On behalf of the Associated Press, I request all correspondence between the EPA administrator and his staff and any employee of Arkema Inc. (whether sent or received via email, fax, postal mail) during the last six months, as well as any transcripts of meetings or phone calls between the parties during the last six months. I'd like to get responsive records emailed to me as PDFs at rdunklin@ap.org or, if another request is already being processed and records are being produced in another format, I will accept records in that format in order to expedite release of records to the AP and lessen the workload on your staff. If records exceed 50 pages, I ask that they be made available to me on a rolling basis, meaning as they become available for release after any FOIA review process, rather than delaying release until the last document is ready. I also ask that you communicate with me by email or phone at 972 502 7571 to expedite the FOIA process. I also request expedited processing, because this is a matter of public interest since the Crosby plant had chemical emissions, after flooding, catching fire and exploding in the last week, and it is important to understand what preparations for flooding that EPA may not have identified as necessary there. Because of the furtherance of public knowledge, and because I work for a news gathering organization, I also request a fee waiver. Thank you.

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request: all Ethics recusal or counseling memos issued by the agency since Jan. 20, 2017. I would like to receive the information in the following format: electronic. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. This information is being sought on behalf of ProPublica, an independent non-profit news organization, for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities, specifically the determination of potential conflicts of interest of federal employees with decision-making authority over public policy, and the resolution of these conflicts by Designated Agency Ethics Officials. As a non-profit journalistic entity, ProPublica does not have the same commercial interests of other news organizations. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. I also ask that this request be expedited under terms of the Freedom of Information Act. Expedited processing is allowed for requests that show a "compelling need," and ProPublica is primarily engaged in disseminating information, with an urgency to inform the public concerning federal government activity.

Authors from the EPA and authors under contract to EPA published the article "Relationship between arsenic concentrations in drinking water and lung and bladder cancer incidence in the U.S. counties" by Mendez WM et al. in the Journal of Exposure Science and Environmental Epidemiology (2017 May;27(3):235-243). I request that the data be sent as a spreadsheet that I can analyze in excel and in STATA. I do not use SAS or SPSS. All the underlying information has been collected by federal governmental agencies and belong in the public domain. How EPA personnel and contractors have organized and used that information using federal funds also belongs in the public domain. This information does not fall within the nine exclusions, including the ninth exclusion on geological information on wells. I am requesting information on the water that comes from the wells and on either the geological nature of the well or the geographical coordinates of the well. The underlying data on the arsenic contents of the waters of the wells has already been publicly released by the USGS. I am requesting the EPA data from the aggregation of the USGS data. I request a fee waiver and expedited processing on the bases explained in the attached copy of my complete FOIA request.</p>

It was obtained by The New York Times, television station WKBW in Buffalo and Michael Brown, an environmental writer, from a supervising engineer who was dismissed two years ago, allegedly for complaining about unsafe emissions from the plant. According to Michael J. Bayliss, the former supervising engineer for plant efficiency who released the report, it was Hooker company policy "not to tell workers the dangers of the chemicals they worked with." Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request copies of and access to all emails Environmental Protection Agency (EPA) employees sent to or received from Atlantic reporters Elaina Plott and Robinson Meyer from January 1, 2017 through April 5, 2018. The Atlantic, an online news outlet, reported on April 3, 2018 that EPA Administrator Scott Pruitt used a loophole in the Safe Drinking Water Act to give pay raises to two of his top aides – Sarah Greenwalt and Millan Hupp – who were political appointees for Pruitt when he was an attorney general in Oklahoma. The Atlantic relied on anonymous EPA employees for sourcing in the report. I would like to receive the information in searchable PDFs via email or thumb drive. I would prefer to receive them via CD or digital dropbox if PDF versions are unavailable. I would prefer they be released on a rolling basis as documents become available, rather than as one large file. I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest. If my request is denied, then please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law. Reports from The Atlantic, The New York Times, and The Washington Post about EPA Scott Pruitt’s travels and housing expenses, which have relied heavily on anonymous sources within the EPA who were initially employed by former President Barack Obama’s administration, have been topics of significant public interest. The information will be used in articles by The Daily Caller News Foundation, a non-profit news outlet based in Washington, D.C. The Daily Caller News Foundation has reported extensively on reports about administrator Scott Pruitt’s first class flight travels.

I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest. If my request is denied, then please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law. Advanced Economic Solutions has 3 specific FOIA requests: 1. Advanced Economic Solutions wishes to identify the number of "small refineries" that, as of March 31, 2018, have been granted an annual exemption from its annual RVOs for calendar years 2016, 2017 and 2018. 2. Advanced Economic Solutions wishes to identify the volume represented by the "small refineries" that, as of March 31, 2018, have been granted an annual exemption from its annual RVOs for calendar years 2016, 2017 and 2018. 3. Advanced Economic Solutions would like to identify the number of "small refineries" that, as of April 1, have petitioned for an exemption from its annual RVOs for calendar year 2018. Under EPA's Renewable Fuel Standard (RFS) program, a small refinery may be granted a temporary exemption from its annual Renewable Volume Obligations (RVOs) if it can demonstrate that compliance with the RVOs would cause the refinery to suffer disproportionate economic hardship. The RFS regulations define a small refinery as one with an average crude oil input no greater than 75,000 barrels per day (bpd) crude in 2006. Additionally, the small refinery may not have an average aggregate daily crude oil throughput greater than 75,000 bpd in the most recent full calendar year prior to submitting a petition, and cannot be projected to exceed the 75,000 bpd threshold in the year or years for which it is seeking an exemption. Advanced Economic Solutions is an independent consulting firm, based in Omaha, Nebraska, that specializes in assisting food companies with supply chain risk management and other economic and commodity issues. WHAT WAS THE PROCESS TO HAVE SMART WAY ADDED TO THE EPA WEBSITE? WHAT IS THE PROCESS TO HAVE SMART WAY DELETED / REMOVED FROM THE EPA WEBSITE? HAS THE EPA CONDUCTED ANY TESTS RELATED TO THE SCIENTIFIC VALIDITY OF THE SMART WAY PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS DELINEATED BY SMART WAY ON THE EPA WEBSITE? SMART WAY CLAIMS THAT IF THE GROUND TRANSPORTATION INDUSTRY FOLLOWS SMART WAY'S PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS SUCH ADHERENCE WILL QUANTIFIABLY REDUCE THE PARTICIPANTS' CARBON FOOTPRINT / REDUCE THE PARTICIPANTS' HARMFUL GHG EMISSIONS. UNFORTUNATELY SMART WAY PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS WILL NOT / ARE NOT ABLE TO REDUCE HARMFUL GHG EMISSIONS IN ANY QUANTIFIABLE MANNER THAT IS ACCEPTED BY INTERNATIONAL AND OR DOMESTIC ACCREDITED & RECOGNIZED GHG REDUCTION VERIFICATION AGENCIES/ GOVERNMENTS / COP 21 PARIS CLIMATE CHANGE AGREEMENT/ MOREOVER THE EPA ITSELF. DID SMART WAY PROVIDE THE EPA ANY THIRD PARTY TESTING AND VERIFICATION THAT SMART WAY'S PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS ARE CORRECT AND VALID? I BELIEVE THE ANSWER IS NO! THE EPA'S CONTINUED SUPPORT OF SMART WAY IS LEADING THE TRANSPORTATION INDUSTRY TO SPEND TENS OF MILLIONS OF DOLLARS ANNUALLY FOLLOWING SMART WAY TO THE LETTER IMPLEMENTING PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS WHICH ACCOMPLISH ZERO. THE EPA APPEARS BY VITURE OF HOSTING SMART WAY IN THE EPA WEBSITE TO 100% SUPPORT LEADING THE TRANSPORTATION INDUSTRY DOWN THE WRONG PATH RESULTING IN ZERO QUANTIFIABLE REDUCTION IN HARMFUL GHG EMISSIONS. I'm requesting all documents and written correspondence between the Office of the Secretary--which includes Administrator Scott Pruitt and all members of his communications staff, including Jahan Wilcox and Liz Bowman--that includes the words "Rose Bowl" between January 1, 2017 and January 31, 2018. The request comes amidst reports that the administrator attended the 2018 Rose Bowl game in Pasadena, California. Reports came from a letter that Democratic Sen. Sheldon Whitehouse sent to EPA's inspector general on April 3. Link: <https://www.cnn.com/2018/03/30/politics/epa-pruitt-travel-whitehouse-rose-bowl-disneyland/index.html> I'm seeking all correspondence regardless of format. The public has an urgent need for information about the Administrator attendance at the game because tax payer provided security detail attended the event with him, and it sheds light on how the administration is operating. I am making this request on behalf of The Hill and the records disclosed pursuant to this request will be used in the preparation of news articles for dissemination to the public. Please waive all fees in connection with this request because the disclosure of the requested information is in the public interest and is likely to contribute significantly to public understanding of the operations and activities of the government. I would appreciate your communicating with me by telephone or email, rather than mail, if you have any questions about this request. I declare under penalty of perjury that the foregoing is true and correct. Executed on April 17, 2018. Sincerely,

Requested Records We request that EPA produce the following communications between it and the Junta de Calidad Ambiental, including but not limited to its governing board members and employees, within twenty business days and further seek expedited review of this request for the reasons identified below. 1. My preference would be to receive publicly available information as soon as possible, but I would like to know if any information is withheld on the basis that it purports to contain CBI or on the basis of any other non-CBI exemptions. For that reason, I would ask that you provide me with an index of withheld CBI information (if any exists) in lieu of substantiation, with the caveat that I might request substantiation at a later time. I would also ask that you notify me if documents are withheld for any other non-CBI exemptions, and briefly describe what the exemptions are, but I do not require a denial log at this time if it will substantially slow down the retrieval and production of documents.</p>

I am writing in regard to the report below, issued on September 16, 2015. I have requested the information below from both Tricia Lynn and Robert Daguillard but have not had a response. 1. On page 9 of the report it says, “Upon completion of the analytical results, the results and their interpretation will be provided in an additional report.” I would like this additional report. If it was never written, I would like to see any correspondence, including emails, explaining why. 2. I would also like the technical documentation related to the fish sampling protocols performed during the fish kill investigation and fish tissue toxicity analytical results. 3. On the top of page 11 there are a few sentences in bold about Malathion. I would like to know if the Malathion's analytical results were subsequently shared with the EPA, and if so I would like those results, as well as EPA's technical opinion on this case. If the results were never provided, I would like to see documentation explaining why. Thank you and please let me know if you require additional information from me.

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552 et seq., I request copies of the following records: All entries for the digital calendar of Acting Regional Administrator Alexis Strauss for the dates between 05-01-2016 and the date which this request is fulfilled These entries are what Ivan Lieben has referred to as the “underlying entry for each calendar item.” Please see attached emails for more information. I request these records in their native digital format, and not printed out, or converted to PDF files, or otherwise processed in a manner that would decrease the quality, quantity, or accessibility of the original information the records represent. A daily, weekly or monthly summary of the calendar would not be responsive to this request. Acceptable native formats typical of digital calendar output would include, but are not limited to, CSV, ICS and XLSX. If you determine that any fields in the requested data are exempt from disclosure, please redact those fields, specify the statutes that exempt them, and release all other segregable parts. I am comfortable working with very large databases in many standard formats, including SQL, CSV, XML, and Access. Upon request, I would be happy to provide a USB thumbdrive or external hard drive to facilitate the release of these records. Under the FOIA Improvement Act of 2016, agencies may withhold information “only if . . . disclosure would harm an interest protected by an exemption” or if “disclosure is prohibited by law.” If you withhold any of these records, I request as required by the FOIA that you identify the reasonably foreseeable harm that would result from the release of the records. I am a journalist at BuzzFeed News. The requested records will inform my reporting, and I intend to use these records to inform the general public. Accordingly, I request to be categorized as a representative of the news media, per 5 U.S.C. § 552(a)(4)(A)(ii).

Below is a list of lab results that show concentration levels (vinyl chloride) for Well#3 have exceeded the federal and state guidelines since April 2012. Even though ILEPA through a consent decree required Sauk Village to install air stripping for our wells to control levels of vinyl chloride and dichloroethylene, air stripping is not working. The following list of lab results that show levels of contamination are well above state and federal guidelines. I am requesting any information as to what Sauk Village IL is doing and required to keep contamination levels in check. I'm sure there was research into how DEF is more beneficial to the environment compared to all of the negatives involved with it (energy to produce, plastic containers, plastic DEF tanks, lower efficiency diesel engines, more waste based off of lower engine life..etc). I don't think there is any way you can justify DEF as being better for the environment overall, as there is a lot more pollution involved with requiring DEF. Thank you. Statistics are easily faked or altered to give an end of results. Please send all research to justify an overall basis, with references to actual research/data taken on the matter.

HSG is currently preparing a Potentially Responsible Party (PRP) Search Report for the U.S. National Park Service (NPS) regarding two right of ways (ROWs) known as CARI-01328 and CACA-00390. These ROWs deliver water and electrical service to the Goldome Mill site (EPA ID: CAN000908600), which had a removal action completed. I have reviewed the Administrative Records for the Goldome site available online at https://cumulis.epa.gov/ . Are there other files (including confidential, sensitive, privilege, other) for the Goldome Mill site that the U.S. Environmental Protection Agency could provide to HSG, as a government contractor, or directly to the U.S. NPS (i.e., David Burdette, NPS Project Manager) as relevant information regarding the target ROWs could potentially be included with the Goldome Mill files. For example, if excavation work was completed at the Goldome Mill, underground services may have been located, documented, etc. If further information is needed, please do not hesitate to contact me. Thank you, Lindsay Garner

In an effort to determine a safe threshold level of airborne manganese, Dr. Erin Haynes at the University of Cincinnati is undertaking a project investigating the historic levels of manganese pollution in Marietta, OH. I am gathering data for this analysis, and attempted to access the Emissions Inventory System, although this database appears to be closed to the public. For our analysis, we need the manganese (or manganese compound) emission report for Eramet Marietta Incorporated. The address of this industry is 16705 OH-7, Marietta, OH 45750. An ideal data set would include monthly and annual emissions data for this point source from January 1999 to December 2013. All supplementary information in the report about stack diameter, stack height, gas temperature, etc. is important for our analysis. The reports for each individual stack at the refinery at each time point, as well as the fugitive emissions reports at each time point, are necessary. I am requesting these emissions reports for our public health research.
