

Stormwater Funding and Financing Approaches Webinar Series

Funding for Stormwater Operations and Maintenance

September 21, 2021, 2:00 – 3:00 PM EDT

The third in a series of EPA webinars, this event will highlight approaches to funding stormwater operations and maintenance (O&M) activities.

Presenters:

Matt Rea

Strategic Partnerships Manager, OptiRTC

Mr. Rea will introduce Opti's platform for stormwater management and his experience forming funding partnerships with communities, non-profit organizations, and private entities to finance O&M activities.

Nadia Vogt

Senior Project Manager, Milwaukee Metropolitan Sewerage District

Ms. Vogt will provide an overview of and lessons learned from Milwaukee Metropolitan Sewerage District's public-private partnership (P3) for green infrastructure O&M.

Julia Hilengas and Paul Harris

Executive Director, PowerCorps PHL

Superintendent of Mechanical Maintenance, Buffalo Sewer Authority

Ms. Hilengas will present on PowerCorps PHL's collaborative model for engaging young adults in community service careers, including stormwater infrastructure O&M. Mr. Harris will share his experience with implementing this collaborative model in Buffalo, New York.
