EPA National Environmental Justice Community Engagement Call

December 7, 2021

1

2

Housekeeping

Please join by phone or computer, not both

You are on mute, please enter questions and comments into the Q&A pod

If selected to speak during dialogue, please limit comment to 1 minute

Recording and transcript will be available online in the near future

3

En Español

Tenemos interpretación en español disponible para aquellos que prefieren escuchar en español.

- Cómo cambiar el canal de audio en español
- Las personas pueden agregar preguntas en español al módulo de preguntas y respuestas
- Los materiales de la reunión estarán disponibles en español.

Spanish-language interpretation is available for those who prefer to listen in Spanish.

- How to switch to Spanish language audio channel*
- Individuals can add questions in Spanish to the Q&A Pod*
- Meeting materials will be made available in Spanish.*

Leadership Updates

Matthew Tejada

DIRECTOR, EPA OFFICE OF ENVIRONMENTAL JUSTICE

7

What Is – and Isn't – Justice40 (J40)

- Justice40 is the Biden-Harris Administration's goal to deliver at least 40% of overall benefits from certain federal investments to disadvantaged communities (Section 223 of EO 14008).
- There is no specific Justice40 funding and it is not a grant. The goal is on the benefits from certain federal investments.
- The goal of 40% is not for any one agency or program.
- This interagency initiative is collectively led by the White House Environmental Justice Interagency Council (IAC). The IAC is convened by the White House Council on Environmental Quality (CEQ).
- CEQ and USDS are developing the CEJS Tool. We haven't received the tool, so we don't know how it will work yet.
- Answers to J40 questions may be found in the [OMB Interim Guidance](#).

8

HHS and Justice40 Implementation

Dr. Sharunda Buchanan

December 7, 2021

9

OASH

What is Justice40?

- **Justice40** is a whole-of-government effort to ensure that Federal agencies work with states and local communities to make good on President Biden's promise to deliver at least 40 percent of the overall benefits from Federal investments in climate and clean energy to disadvantaged communities.
- This interim guidance includes a set of actions required of *agencies* that manage covered **Justice40** programs.
- This interim guidance provides implementation direction to an initial set of *covered programs* under the **Justice40**.

10

Mission

The mission of the U.S. Department of Health and Human Services is to enhance the health and well-being of Americans, by providing for effective health and human services and by fostering sound, sustained advances in the sciences underlying medicine, public health, and social services.

11

Rationale for Environmental Justice

- HHS recognizes that people of color, disadvantaged, vulnerable, low-income, marginalized, and indigenous peoples, are disproportionately burdened by environmental hazards.
- These populations and communities are exposed to environmental threats that drive health disparities, underserved, and surrounded by social inequities.
- The combination of environmental risks and social inequities create a cumulative, disproportionate impact that hinders optimal health and environmental justice for these populations.

12

Executive Order 12898

Executive Order 12898, *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations*, directs federal agencies to “make achieving environmental justice part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority, low-income, and indigenous populations (1994).

13

Executive Order 14008

President Biden further directed HHS to make achieving environmental justice part of its mission by developing programs, policies, and activities to address the disproportionately high and adverse human health, environmental and climate-related and other cumulative impacts on disadvantaged communities (2021).

14

Justice40 Guidance and Implementation

- Engaging Stakeholders
- Interim Definition of Disadvantaged Communities
- Covered Programs
- HHS Pilot Covered Programs
- Benefits of HHS Pilot Covered Programs
- Metrics and Maximizing Benefits
- Applying Lessons Learned

15

Engaging Stakeholders

- Keeping with the principles of Environmental Justice, community partnership and engagement is key.
- We want to hear and understand community perspectives and incorporate feedback into the work we do to meet the goals of the J40 initiative.
 - **Virtual National Webinars**
 - **Regional Virtual Townhalls**
 - **Grantee Meetings**
 - **National and Regional Conferences**
 - **Social Media Engagement**

16

Disadvantaged Communities

- Empowerment Zones, Enterprise Communities, and Renewal Communities
 - Federally designated geographic areas characterized by high levels of unemployment, poverty, and economic distress
 - Businesses and local governments may be eligible to receive federal grants and tax incentives
- Opportunity Zones and Historically Underserved Communities
 - Zones designed to spur economic development and job creation in low-income communities
 - Population sites that are members of disadvantaged groups who live in areas near hazardous waste or in communities at risk of exposure to contaminated properties
- Low-income and Socially Vulnerable Communities
 - Households in communities categorized by Federal Poverty Guidelines (FPG)

17

Covered Programs

- Covered programs provide overall benefits from Federal investments in the following areas to disadvantaged communities:
 - Climate change
 - Clean energy and energy efficiency
 - Clean transportation
 - Affordable and sustainable housing
 - Remediation and reduction of legacy pollution
 - Critical clean water and waste infrastructure
 - Training and workforce development (related to climate, natural disasters, environment, clean energy, clean transportation, housing, water and wastewater infrastructure, and legacy pollution reduction, including in energy communities)

18

HHS Pilot Covered Programs

- HHS manages two **Justice40** pilot programs:
 - **Administration for Children and Families (ACF) Low Income Home Energy Assistance Program (LIHEAP)**
 - **National Institute of Environmental Health Sciences (NIEHS) Environmental Career Worker Training Program (ECWTP)**
- HHS' EJ Unit provides technical assistance to ACF and NIEHS to ensure that the objectives of Justice40 are met.
 - **Will apply "lessons learned" to other potential covered programs.**

19

NIEHS Environmental Career Worker Training Program

- HHS' NIEHS Environmental Career Worker Training Program (ECWTP)
 - **Implements training and workforce development that builds careers related to climate, natural disasters, environment, clean energy, clean transportation, housing, water and wastewater infrastructure, and legacy pollution reduction.**
 - **Provides grant funding to nonprofit organizations and institutions of higher education that enables delivery of both pre-employment and life skills training.**

20

ACF Low Income Home Energy Assistance Program

- Administration for Children and Families (ACF) Low Income Home Energy Assistance Program (LIHEAP)
 - **The LIHEAP provides federally funded aid in managing costs associated with home energy bills, energy crises, weatherization, and energy-related minor home repairs.**
 - **LIHEAP assists individuals and families through interventions that reduce the risk of health and safety problems that arise from unsafe heating and cooling practices. The LIHEAP does not provide direct grants to individuals, but instead funds state, tribal, and territorial governments.**

21

Benefits of HHS Covered Programs

- Collective benefits of HHS covered programs resulting from Federal investments include, but are not limited to the following:
 - **Households served with heating/cooling assistance**
 - **Weatherization/weather proofing**
 - **Reduced energy consumption/energy efficiency**
 - **Students/workers trained**
 - **Student placement into jobs**
 - **Technical skills and certifications gained**
 - **Life skills gained**
 - **Hiring earnings and long-term financial stability**
 - **Reduced recidivism and reduced reliance on public benefits**
 - **Use of skills to support communities in terms of environmental remediation, construction and building trades, health education, and other fields**

22

Metrics and Maximizing Benefits – NIEHS ECWTP

- ECWTP meets the threshold of **100% benefits** flowing into disadvantaged communities as defined in the interim guidance:
 - **PROMOTE** wrap-around/supportive services which includes receiving life skills training, food, housing, transportation, legal support, child and elder care, career and other counseling.
 - **FACILITATE** program sustainability technical assistance by leveraging support from other federal, state, local foundations and using advisory boards.
 - **HIGHLIGHT** program evaluations and assessments including accomplishments reports, sharing of best practices, economic impacts or return on investments.
 - **CONNECT** to apprenticeship programs – ECWTP is designated as a pre-apprenticeship program (graduates get direct entry into formal apprenticeships).
 - **EXPAND** training into niche and growing industries, including green jobs (wind, solar, geothermal, utilities, hazmat transportation).

23

NIEHS Career Working Training Program (ECWTP)

Accomplishments: Trained over 13,000 people in more than 30 communities across 25 states with nearly 70% employment since 1995.

Focus: Changes lives and builds careers through job and life skills training, mentoring, and social support.

Environmental Justice (EJ): Develops skilled workers and leaders from EJ communities to help with cleanup and recovery efforts.

ECWTP 25th Anniversary page:

<https://tools.niehs.nih.gov/wetp/index.cfm?id=2595>

ECWTP Fact sheet:

https://www.niehs.nih.gov/careers/assets/docs/ecwtp_factsheet_1.pdf

24

ECWTP: Success and Best Practices Report

- Increases sustainable employment opportunities, addresses health disparities, and advance environmental justice.
- Transforms the lives of trainees, families, and communities.
- Provides significant contributions to environmental justice by providing training and increasing job opportunities.
- The ECWTP -- serves a model intervention in classic public health.

ECWTP: Guidance on How to Achieve Successes and Best Practices Report:
http://tools.niehs.nih.gov/wetp/public/hasl_get_blob.cfm?ID=10040

25

Metrics and Maximizing Benefits -- LIHEAP

- Home energy program whose purpose is to assist households with low incomes, in meeting their immediate home energy needs.
- The federal LIHEAP grant is awarded to the same entities each year for the most part. The amount of the grant is determined through a statutory formula that involves estimated data related state expenditures on heating and cooling costs by low-income households.
- There are no federal requirements for how each grantee (state/tribe/territory) must allocate the funding across communities, counties, etc. The closest federal statutory requirement is that the grantee must provide the highest amount of benefits to the households with the greatest home energy burden.

26

Metrics and Maximizing Benefits (LIHEAP)

- LIHEAP aggregates grantee-reported data across service areas
 - **Performance data – shut-offs avoided; service restorations; repaired home energy equipment**
 - **Household services – heating/cooling assistance; crisis assistance; weatherization**
- Plans to Maximize Benefits
 - **Provide technical assistance, data, and funding from the American Rescue Plan Act**
 - **Address barriers or constraints to maximizing benefits**
 - ✓ Digital divide and lack of access to IT resources by target communities
 - ✓ Lack of awareness/understanding about the program and how to apply
 - ✓ Lack of staffing and IT resources in remote intake areas
 - **Conduct a national social media campaign with Facebook, Twitter and web postings related to extreme weather events, such as winter storms, heat waves/heat stress**
 - **Gather information, analyze and visualize data about LIHEAP activities and their relationships within our internal and external environments**

27

Thank you for your time!

Speakers

Dr. Tony Reames

Senior Advisor on
Energy Justice
Office of Economic
Impact and Diversity
Department of Energy

Monisha Shah

Justice40 Fellow
Office of Economic
Impact and Diversity
Department of Energy

31

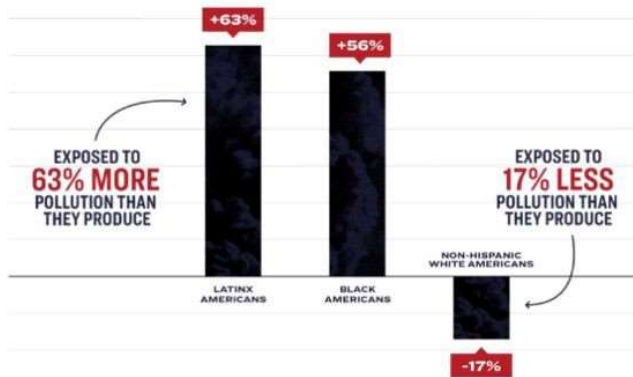

Our Energy
System Is
Inequitable

32

Black and Latino Communities are Exposed to More Pollution Than They Produce

POLLUTION EXPOSURE BY POPULATION (2003-2015)

Source: Christopher W. Testum et al., "Inequity in consumption of goods and services adds to racial-ethnic disparities in air pollution exposure," Proceedings of the National Academy of Sciences (March 2019)

33

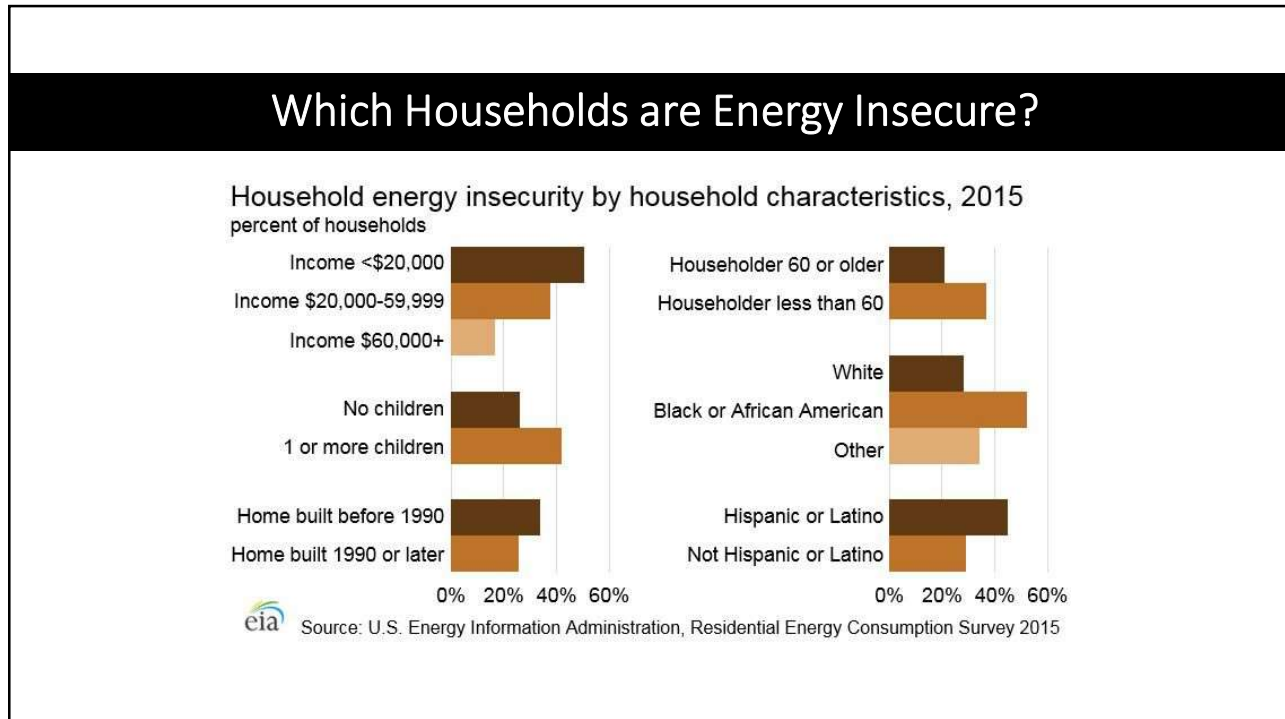

Energy is Also a Financial Burden on People of Color

FIGURE ES1. National energy burdens across subgroups (i.e., income, race and ethnicity, age, tenure, and housing type) compared to the national median energy burden

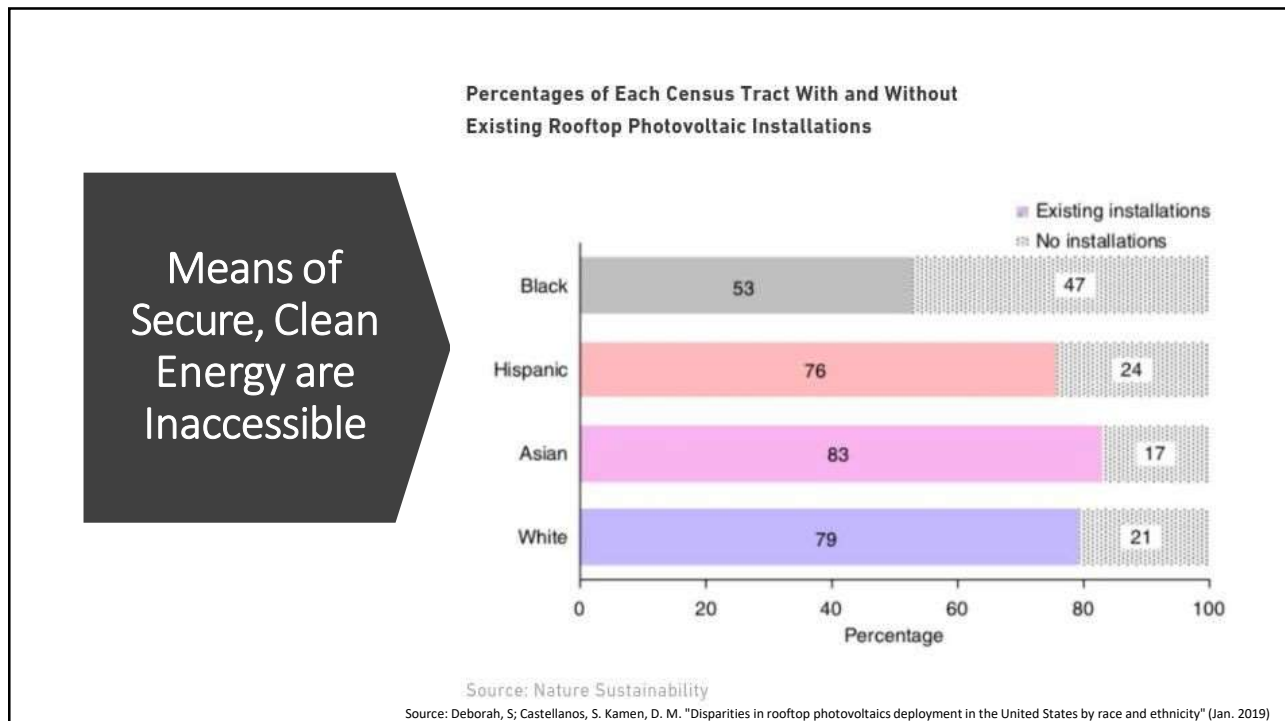

Source: "How High are Household Energy Burdens?" (Sep. 2020) - American Council for an Energy Efficient Economy

34

35

36

What is Energy Justice?

Energy justice refers to the goal of achieving **equity** in both the **social** and **economic** participation in the energy system, while also **remediating** social, economic, and health **burdens** on those historically harmed by the energy system (“frontline communities”).

Energy justice explicitly **centers** the concerns of frontline communities and aims to make energy more accessible, affordable, clean, and democratically managed for all communities.

Initiative for Energy Justice (2019).

37

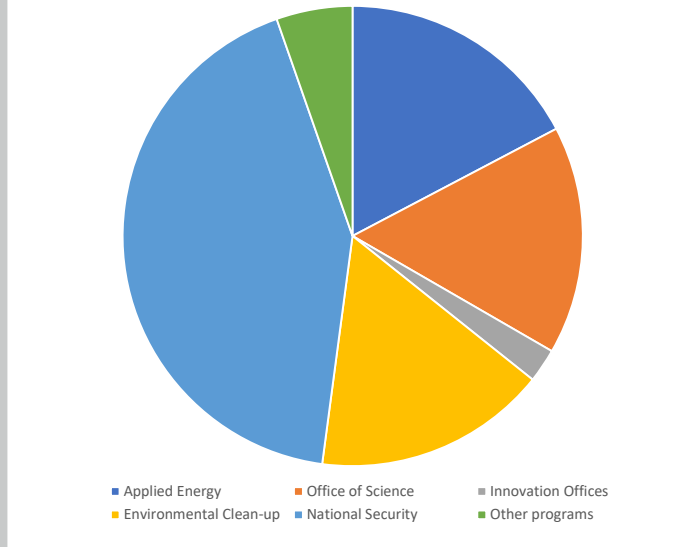

How do we simultaneously transform our energy system while ensuring the it becomes more equitable and just?

38

- Innovation Offices
- Sustaining Investment in Environmental Clean-up
- Ensuring the Nation's Nuclear Safety

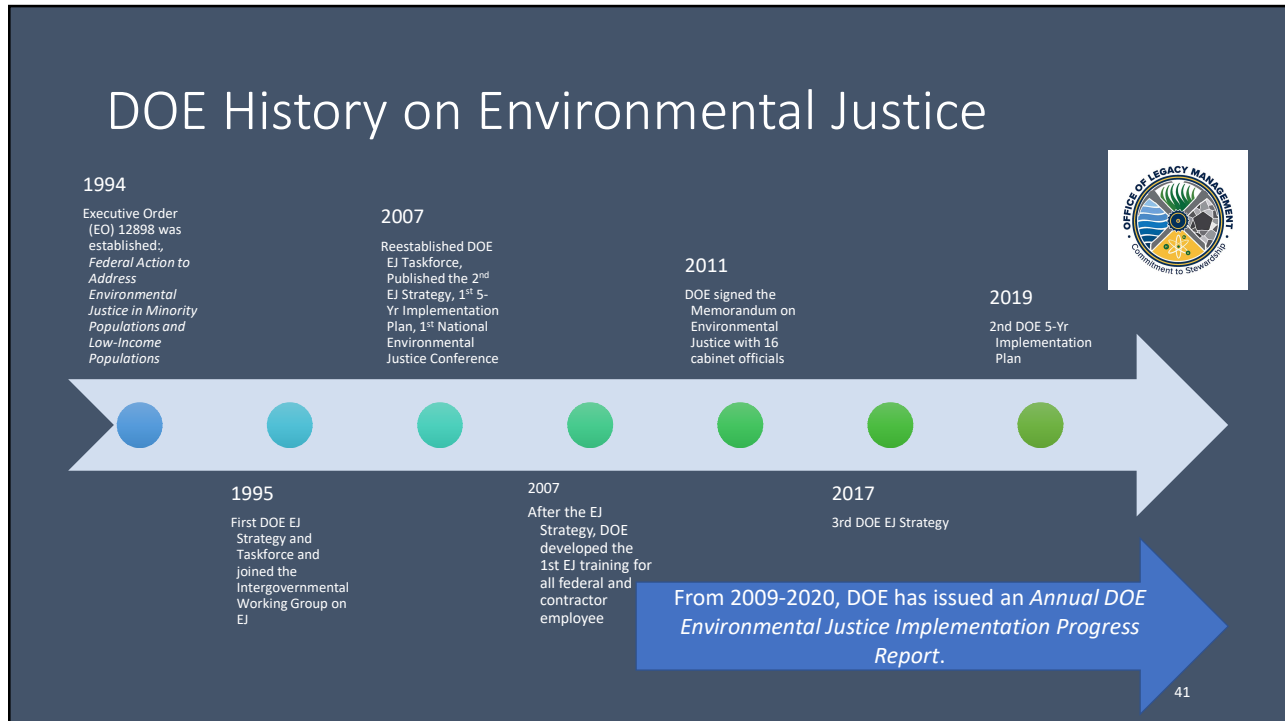

FY22 Budget Request, \$46B

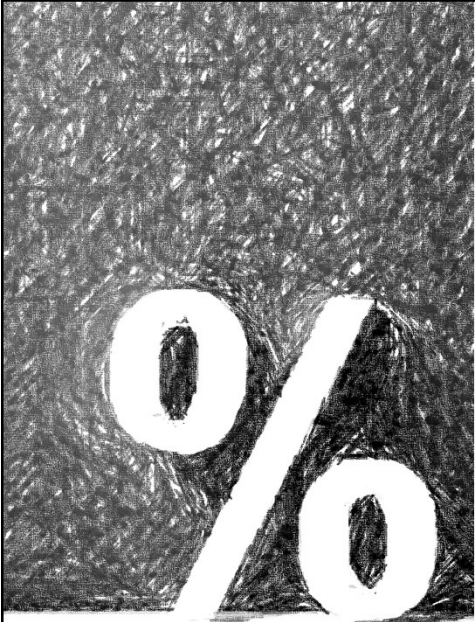

39

40

41

What is Justice40?

40% of the overall benefits of certain Federal investments—including **investments in clean energy and energy efficiency; clean transit; affordable and sustainable housing; training and workforce development; the remediation and reduction of legacy pollution; and the development of clean water infrastructure**—must flow to disadvantaged communities.

42

U.S. DEPARTMENT OF **ENERGY** | Office of Economic Impact and Diversity

Primary Elements of DOE Justice40

40% of overall benefits → of certain Federal investments → must flow to disadvantaged communities

How do we measure and track the benefits of J40 investments? ← How do we define J40 investments? ← How do we define disadvantaged communities (DACs)?

Interim Implementation Guidance for the Justice40 Initiative. <https://www.whitehouse.gov/wp-content/uploads/2021/07/M-21-28.pdf>

43

U.S. DEPARTMENT OF **ENERGY** | Office of Economic Impact and Diversity

Justice40 Interim Guidance

By December 17th, DOE must report benefits methods and calculations of:

- % of benefits received by DACs, % received by non-DACs or the % unknown direction
- For programs that do not target benefits geographically, the data provided should reflect the common characteristics of communities receiving benefits at the narrowest level that does not raise privacy concerns
- Amount of Program Funding Received in Disadvantaged Communities

44

WHAT IS A DISADVANTAGED COMMUNITY?

Community:

- Group of individuals living in geographic proximity to one another, or
- a geographically dispersed set of individuals (such as migrant workers or Native Americans), where either type of group experiences common conditions.

Disadvantaged:

- Low income, high and/or persistent poverty;
- High unemployment and underemployment;
- Racial and ethnic segregation;
- Linguistic isolation;
- High housing cost burden and substandard housing;
- Distressed neighborhoods;
- High transportation cost burden and/or low transportation access;
- Disproportionate environmental stressor burden and high cumulative impacts;
- Limited water and sanitation access and affordability;
- Disproportionate impacts from climate change;
- High energy cost burden and low energy access;
- Jobs lost through the energy transition ; or
- Access to healthcare.

45

U.S. DEPARTMENT OF ENERGY | Office of Economic Impact and Diversity

The DOE definition of disadvantaged communities

ENERGY BURDEN (4)

- Transportation Burden
- Energy Burden
- Power outages
- Duration of outages

VULNERABLE POPULATIONS (20)

Housing burden	Renters*
Food desert	No internet
Job access (-)	Uninsured
Park access (-)	Disability
Commutes > 30 mins*	Incomplete plumbing
No vehicle*	Single parents
Racial Segregation*	Mobile homes
Low Income*	Unhoused
No GED*	Age over 65*
Linguistic Isolation*	Unemployed

ENVIRONMENTAL/ CLIMATE HAZARDS (10)

- Lead paint
- Diesel particulates
- Cancer
- Traffic volume
- Water discharge
- NPL sites
- RMP facilities
- TSD facilities
- FEMA climate risk
- PM 2.5

* Denotes that these variables are not inherently negative, but increase the vulnerability of the population to climate, environmental, and energy hazards

46

U.S. DEPARTMENT OF
ENERGY

Office of Economic
Impact and Diversity

What is covered in Justice40?

Covered Program

A Federal Government program that makes investments in one or more of the following seven areas:

- ✓ Climate change
- ✓ Clean energy and energy efficiency
- ✓ Clean transportation
- ✓ Affordable and sustainable housing
- ✓ Training and workforce development (related to climate, environment, clean energy, clean transportation, housing, water and wastewater infrastructure, and legacy pollution reduction, including in energy communities)
- ✓ Remediation and reduction of legacy pollution
- ✓ Critical clean water and waste infrastructure

Covered Investment

A Federal investment in one or more of the following categories:

- ✓ Federal grant and procurement spending (including discretionary budget authority, direct/mandatory spending, and formula funding);
- ✓ Financing (including credit, loans, and guarantees);
- ✓ Programmatic Federal staffing costs (e.g. federal pay for staff that provide technical assistance)
- ✓ Direct financial benefits (including provision of goods and services); and
- ✓ Additional federal investments under covered programs as determined by OMB.

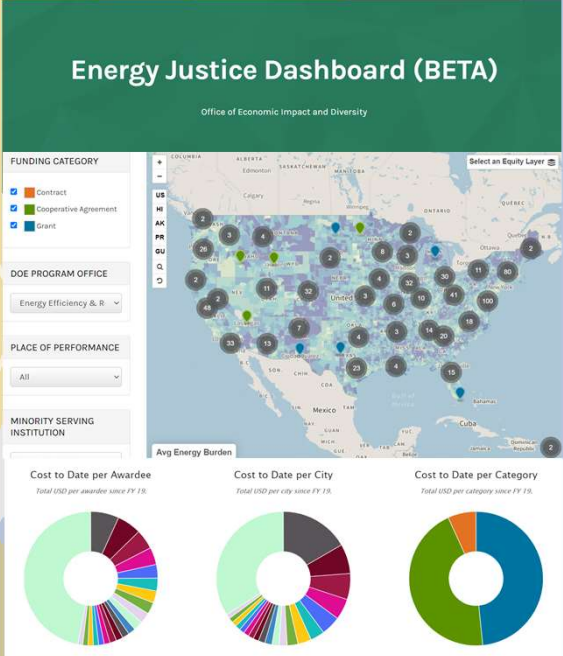

47

Accountability & Transparency

Energy Justice Dashboard (BETA)

A tool to measure and track DOE progress toward Justice40 and see investments in real time.

48

 U.S. DEPARTMENT OF ENERGY Office of Economic Impact and Diversity	
DOE Pilot Programs	
OFFICE	PROGRAM
Office of Energy Efficiency and Renewable Energy (EERE)	Weatherization Assistance Program
EERE's Solar Technologies Office	National Community Solar Partnership
EERE's Vehicle Technologies Office	Technology Integration (Clean Cities)
EERE's Advanced Manufacturing Office	Industrial Assessment Centers
Environmental Management	Los Alamos

49

 U.S. DEPARTMENT OF ENERGY Office of Economic Impact and Diversity	
DOE Justice40 Policy Priorities	
<ol style="list-style-type: none"> (1) Decrease energy burden in DACs. (2) Decrease environmental exposure and burdens for DACs (3) Increase parity in clean energy technology (e.g., solar, storage) access and adoption in DACs. (4) Increase access to low-cost capital in DACs. (5) Increase clean energy enterprise creation (MBE/DBE) in DACs. (6) Increase the clean energy job pipeline and job training for individuals from DACs. (7) Increase energy resiliency in DACs. (8) Increase energy democracy in DACs. 	

50

51

U.S. DEPARTMENT OF ENERGY | Office of Economic Impact and Diversity

Challenges and Considerations

- Characterize R&D Benefits for DACs
- Are non-localizable benefits relevant for Justice40, e.g., GHGs?
- Consider the supply chain and lifecycle impacts of clean energy development on communities
- Acknowledge historic burdens
- Assess the negative impacts of energy transitions and R&D,D,D
- Collect qualitative information and feedback from communities
- Tracking benefits requires resources and data
- Ground truth data and impacts with communities

52

U.S. DEPARTMENT OF
ENERGYOffice of Economic
Impact and Diversity

Justice40 Path Forward

- Submit benefits estimates for 70+ covered programs by mid-December
- Determine how to use geographic definitions of disadvantaged communities in DOE program design and execution
- Continue to engage with the public and disadvantaged communities on DOE Justice40 efforts
- Institutionalize Justice40 into DOE programs and practices, especially with FY22-23 and BIL

Upcoming Engagement and Training Opportunities

57

Upcoming Engagement Opportunities

EPA Tools and Resources Webinar Community and Citizen Science – Making Your Data Count

- **December 15, 3 p.m. to 4 p.m.:** learn about the tools and practices used in these exciting community and citizen science projects and how EPA, states, and tribal governments can better support these efforts
- **Register here:**
https://usepa.zoomgov.com/webinar/register/WN_synLsFAeSKCXcLPecuI5jQ

NEJAC Public Meeting

- **January 5 at 1 p.m. to 4 p.m. Eastern:** The meeting will focus on the business of environmental justice and civil rights compliance elements in EPA's next multiyear strategic plan draft, as well as other aligned efforts and plans of the agency. Individual registration is REQUIRED.
- **Register here:**
https://usepa.zoomgov.com/webinar/register/WN_OD0qXKXJRICCRpBZ2X2-og

58

Upcoming Engagement Opportunities

Superfund Redevelopment Mapper Tool and Training Webinar

- **January 26, 1 p.m. to 3 p.m. Eastern:** EPA is launching a new GIS-based tool to help local, state and tribal governments, community development organizations, developers and community members explore reusing and redeveloping land on or near Superfund sites.
- **Register here:** <https://clu-in.org/conf/tio/superfund-redevelopment/>

EPA Webinar Series National PFAS Roadmap – Update for Tribes & Indigenous Peoples

- **January 18, 2:30 p.m. – 4:00 p.m. Eastern.** This session will include information about the sources of PFAS and how tribal and indigenous communities may be impacted.
- **Register Here:** https://usepa.zoomgov.com/webinar/register/WN_DOaSGEL9SD2AFcLwyz42xA

59

Closing

- ❑ **Next National EJ Community Engagement call:**
 - January 25, 2022, at 2 p.m. Eastern
 - <https://www.epa.gov/environmentaljustice/national-environmental-justice-community-engagement-calls>
- ❑ **Subscribe to EPA's Environmental Justice listserv** for up-to-date information about EJ funding opportunities, events, and webinars:
 - Send a blank email to: join-epa-ej@lists.epa.gov
- **Follow us on Twitter:**
 - @EPAEnvJustice
- ❑ **Send follow-up questions or comments to:**
 - Environmental-Justice@epa.gov

60
