

AGENDA

ESA FIFRA Interagency Working Group: Public Listening Session January 27, 2022

A federal interagency working group (IWG) is holding an online public listening session on January 27, 2022, to hear stakeholder perspectives on improving the Endangered Species Act (ESA) section 7 consultation process for federal pesticide decisions. This document contains the meeting agenda, guidelines and technology tips for the meeting, and list of speakers for the public comment sessions. *For all speakers, please review the order in which your name appears and be prepared to speak when it is your turn.*

Through an Eventbrite email, EPA has sent the Zoom webinar link and call-in number for the meeting to all registered attendees.

(Times are EDT)

1:00 – 1:15 Introduction and Opening Remarks
IWG representatives and moderator

1:15 – 2:00 Public Comment Session 1: Implementing Mitigation
How could pesticide mitigation measures for ESA species be adopted and implemented in a timely and effective manner?

Comments from 28 speakers, with 1.5 minutes per speaker

2:00 – 2:42 Public Comment Session 2: Other ESA-FIFRA Topics
What are other priority actions the IWG should consider pursuing to improve the pesticide consultation process?

Comments from 27 speakers, with 1.5 minute per speaker

2:42 – 2:58 Public Comment Session 3: Future Stakeholder Engagement Ideas
What future opportunities, if any, should the IWG consider for stakeholder engagement?

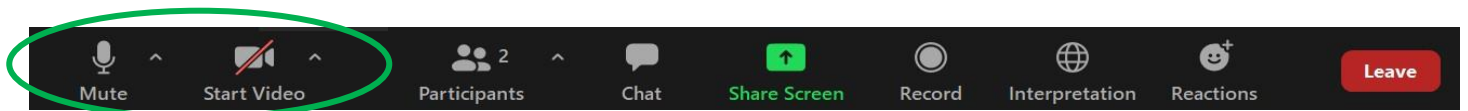

Comments from 16 speakers, with 1 minute per speaker

2:58 – 3:00 Closing Remarks
IWG representatives and moderator

GUIDELINES AND TIPS FOR THE MEETING

- For Attendees Sharing Comments:

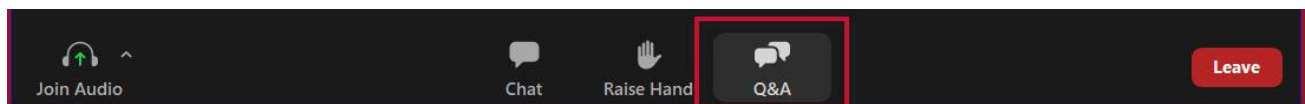

- If you indicated interest in sharing comments when you registered for the event, you will be promoted to a 'panelist' in Zoom shortly before you are scheduled to speak. This will allow you to turn your camera and microphone on. When you are called on (but not before) activate your camera and microphone using the buttons on the Zoom navigation panel as pictured below.

- To reduce background noise and distractions please do not have your camera or microphone on unless you are speaking and turn them off as soon as you are finished.
- To maximize the quality of your Zoom connection, minimize the number of apps or programs running at the same time as the Zoom webinar.
- Keep all other devices away from the device you are using to connect to the Zoom webinar.
- Pause for 3-5 seconds before starting to speak and speak slowly and clearly.
- Speakers will have 90 seconds to speak during the first two sessions, and one minute for the third session. Please practice your comments prior to the event to ensure that you do not go over time.

- For Attendees not Sharing Comments:

- Your microphone and video will be disabled throughout the meeting.
- If you have a question or comment to add to something that was said during the webinar, please write it in the Q&A box. To activate the Q&A box, click the Q&A icon on the Zoom navigation bar as picture below.

- There is no official docket because this is a listening session. Comments submitted via the Q&A will not be considered official, and we may not be able to address the comment or question during the webinar. However, we will read comments submitted and they will be included in the record of the listening session.
- If you have additional comments after the session, please submit them to ocsppquestions@epa.gov. While there is no official docket, and the IWG will not respond to additional comments, all comments will be included in the record of the listening session and shared with the IWG for their consideration.
- If you have audio/video issues, 'Leave' the meeting and then re-enter. We have also provided a dial-in number to use if you prefer to call in through a telephone line.
- CART services for this webinar will be provided at the following link: <https://www.streamtext.net/player?event=EPA-335415>

LIST AND ORDER OF SPEAKERS

Below are the lists of speakers who registered to make public comments by the January 20, 2022 deadline. Speakers are listed in the order in which they will speak. Please be ready to speak when your turn comes up, and please strictly adhere to the time limit for each session. During your speaking session, there will be a countdown clock to help you track your time.

Public Comment Session 1: Implementing Mitigation

Time limit: 1.5 minutes (90 seconds) per speaker

	First name	Last name	Organization
1.	Chiara	Accolla	Waterborne Environmental
2.	Reuben	Baris	Corteva AgriScience
3.	Todd	Baughman	Oklahoma State University
4.	Angela	Beehler	Benton County Mosquito Control
5.	Mark	Bernards	Western Illinois University
6.	Beth	Berry	Advanced Turf Solutions
7.	Jody	Bickel	Creekbank Associates
8.	Richard	Brain	Syngenta Crop Protection
9.	Scott	Bretthauer	National Agricultural Aviation Association
