

Grand Calumet River AOC Boundary, U.S. EPA Great Lakes National Program Office

Shapefile

Tags

Indiana, Environment, Remediation, 020:057, Great Lakes, Area of Concern

Summary

The main use of the delineated AOC boundaries is for EPA and State governments to locate those sites listed on the U.S. Area of Concerns list in the Great Lakes Water Quality Agreement, or other sites that are in close proximity or may have contributed to the pollution within each AOC. These analyses are completed on a relatively small scale of the areas in and around each AOC. Attributes only include the AOC name and the predominant state in which the AOC is located. The locations of features and boundaries shown on this map are approximate and are intended for planning and visualization purposes only. This is not intended for survey, statistical, engineering, or legal purposes.

Description

Note: This version of the shapefile is an update to `Approved_2009_IN_AOC_Boundary.shp`. Updates are to the metadata and attribute table only, not the boundary itself.

This shapefile provides a polygon boundary for the Grand Calumet River AOC in northwestern Indiana. The boundary was developed in 2009 by IDEM's Remedial Action Plan Program Coordinator, Danielle Barnett, in consultation with the Citizens Advisory for the Remediation of the Environment (CARE), the AOC public advisory committee. IDEM and the CARE committee had determined that the 2005 boundary (`AOC_IN_GRANDCALUMET.shp`) was submitted to U.S. EPA in error and did not reflect the long-term understanding of CARE members – hence the need for the 2009 correction.

In general, the following steps were taken in setting the 2009 AOC boundaries documented in this shapefile: The western boundary was fixed at the Illinois-Indiana state line and the northern boundary extended 1.5 miles into Lake Michigan, in keeping with the long-term understanding of the CARE Committee. The eastern boundary was set to encompass the Eastern Marquette Lagoon in Gary, which served as the approximate mouth of the Grand Calumet River until it was cut off by sand deposits sometime in the 1860s. Montgomery Street in Gary, which divided Marquette Park from a residential neighborhood to the east, was selected as the easternmost part of the AOC boundary. The boundary then ran along Marquette Drive to Grand Boulevard where it continued to the Tolleston beach ridge line, which marks a historical shoreline of Lake Michigan and was set as the revised southern boundary of the AOC.

According to a 1993 report from the USGS, the Tolleston ridge line marks the approximate groundwater divide between the Grand Calumet and Little Calumet River drainage basins. Thus, this southern boundary was a refinement and northward shift from the previous I 80/94 boundary utilized in the RAP Stage 2.5 document, circa 1998, and was designed to reflect an ecosystem approach – including all the groundwater flowing to the Grand Calumet River, Indiana Harbor Ship Canal, or Lake Michigan.

Narrative: Michael Spinar, IDEM, 10/15/2021. "The AOC area, which is 94 square miles in total,

encompasses portions of the cities of Gary, East Chicago, Hammond, and Whiting, Ind., and is defined by:

- The Indiana/Illinois state line to the west
- Grand Avenue around Marquette Park lagoons in Gary to the east
- The southern boundary extending to the Tolleston Beach Ridge
- The northern boundary on Lake Michigan which includes a 1.5-mile buffer out into the lake"

Representatives of both U.S. EPA and IDEM approved the revised boundary in September 2009.

Credits

The USGS study documenting the groundwater divide on which the revised southern AOC boundary was based: Fenelon, Joseph M., Watson, Lee R. "Geohydrology and Water Quality of the Calumet Aquifer, in the Vicinity of the Grand Calumet River/Indiana Harbor Canal, Northwestern Indiana." U.S. GEOLOGICAL SURVEY Water-Resources Investigation Report 92-4115 (1993). Available online at: <https://pubs.er.usgs.gov/publication/wri924115>.

Michael Spinar (IDEM) provided the rationale for the 2009 boundary update that is provided under Description (Abstract).
