

Waukegan Harbor AOC Boundary, U.S. EPA Great Lakes National Program Office

Shapefile

Tags

Illinois, Environment, Remediation, Great Lakes, Area of Concern, 020:057

Summary

The main use of the delineated AOC boundaries is for EPA and State governments to locate those sites listed on the U.S. Area of Concerns list in the Great Lakes Water Quality Agreement, or other sites that are in close proximity or may have contributed to the pollution within each AOC. These analyses are completed on a relatively small scale of the areas in and around each AOC. Attributes only include the AOC name and the predominant state in which the AOC is located. The locations of features and boundaries shown on this map are approximate and are intended for planning and visualization purposes only. This is not intended for survey, statistical, engineering, or legal purposes.

Description

This shapefile provides a polygon boundary for the Waukegan Harbor AOC in northeastern Illinois. In general, the following steps were taken in developing the shapefile:

1. The previous AOC shapefile was obtained from EPA.
2. Shoreline data from NOAA, called Continually Updated Shoreline Product (CUSP), was downloaded for the full extent of the AOC.
3. A narrative of the AOC was obtained from the AOC webpage (see narrative below).
4. The AOC shoreline of the previous shapefile was updated using the data from Step #2.
5. The extent of the AOC was determined from the narrative in Step #3 as well as the extent from the previous boundary and applied.
6. Slight updates to the extent were made following aerial imagery.

Narrative: EPA AOC Webpage, 9/12/2022. "The originally designated Waukegan Harbor AOC is bounded by:

- Government Pier to the south
- Canadian National Railway to the west
- North Ditch to the north
- Lake Michigan shoreline to the east

Following adoption of the AOC, the Illinois EPA and the Waukegan Harbor Citizen's Advisory Group (CAG) met and developed what is known as the Waukegan Harbor Extended Study Area (ESA) to address some of the additional known areas of contamination and National Priority List sites that could impact the original AOC and Lake Michigan's coastal water. The Extended Study Area is bound by:

- Dead River in Illinois Beach State Park to the north
- Bluff line parallel to Sheridan Road to the west
- South boundary of the former U.S. Steel Property at 22nd St. in North Chicago to the south
- Nearshore waters of Lake Michigan to the east"

Representatives of both EPA and IDNR reviewed and approved the boundary.

Credits
