Q&A

PURPOSE

THE PERFORMANCE OF GAP

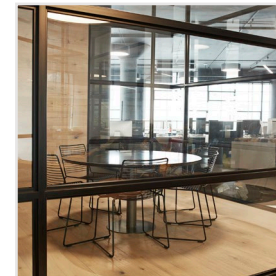

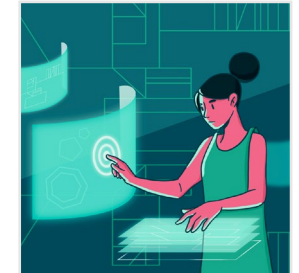

PURPOSE OF GAP HUB

Strengthen the GAP program and increase efficacy.

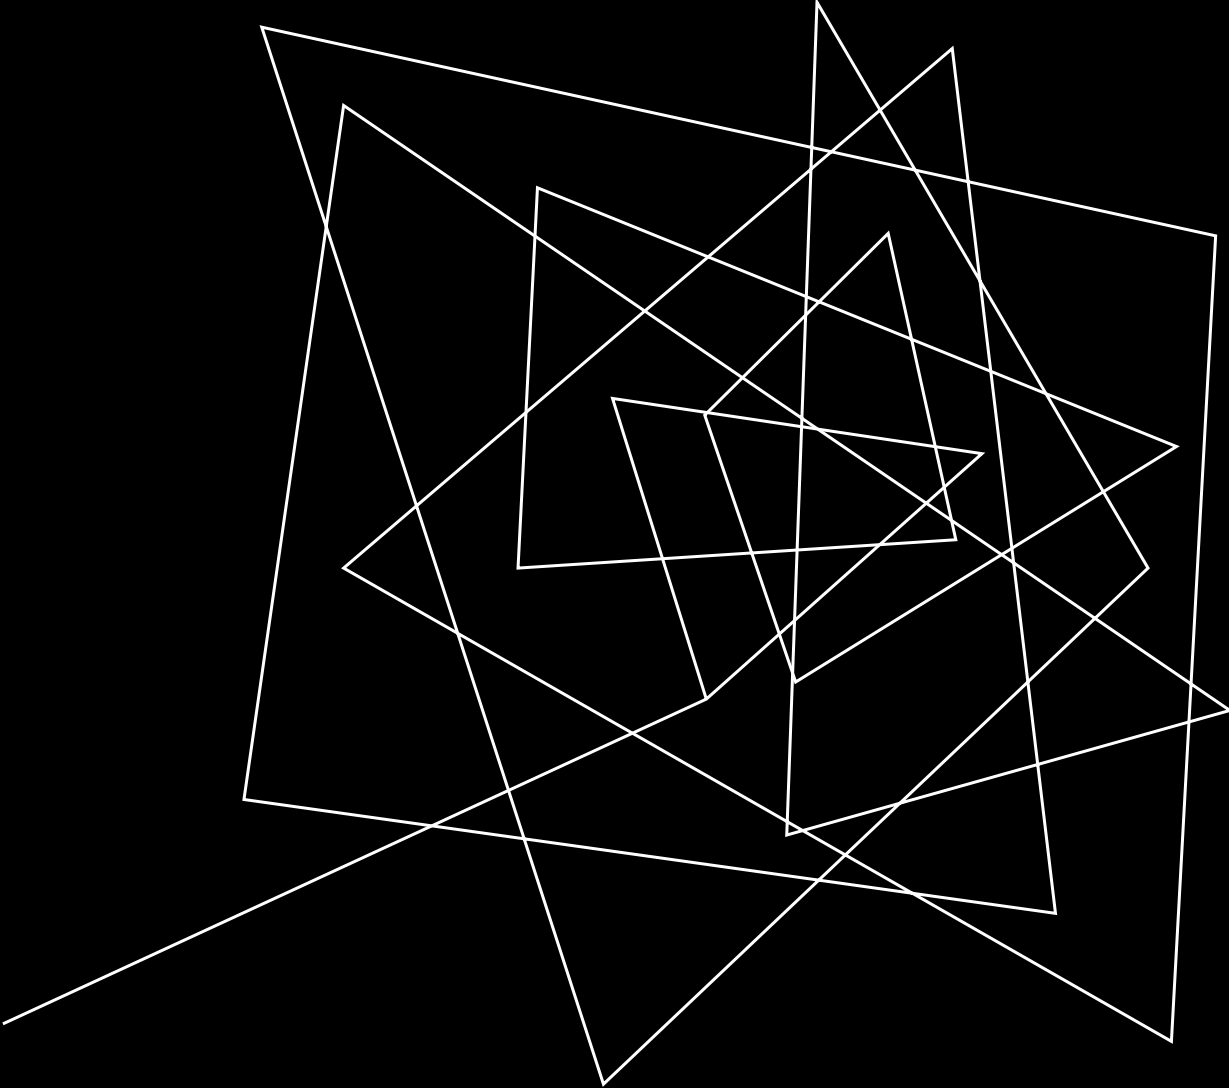

Where has there been progress in building tribal environmental capacity?

Where is tribal environmental capacity being projected?

Where is environmental capacity being lost or rebuilt?

ENTERING DATA

EPA Regional GAP/PPG POs:

- Entering information that Tribe provides

EPA AIEO Staff:

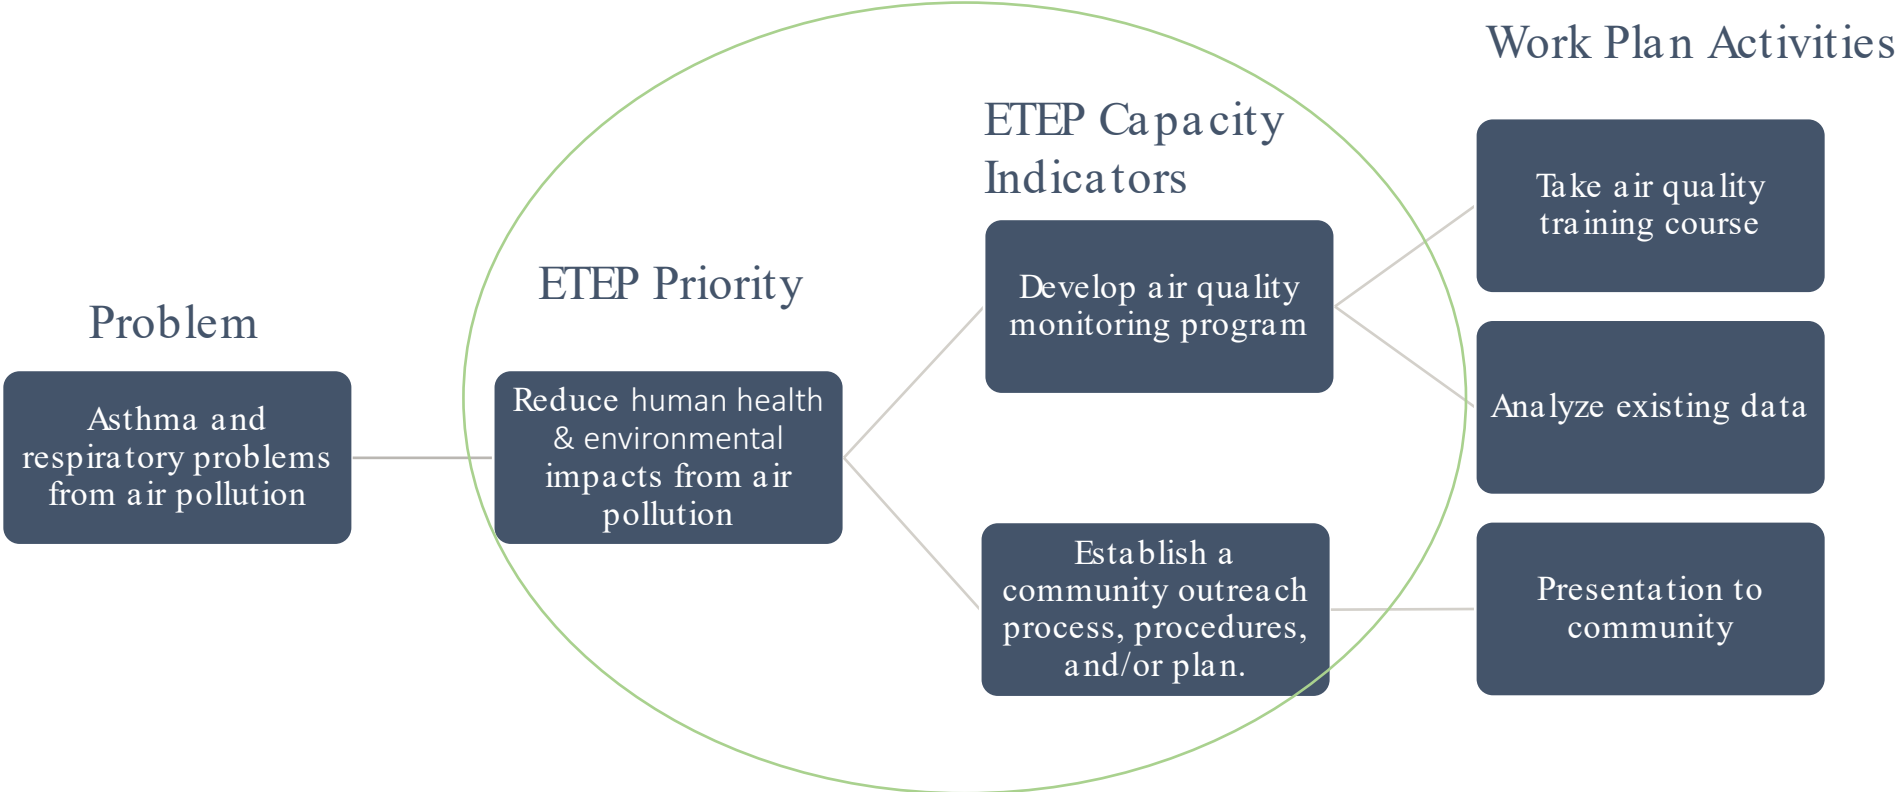

- Aggregating data, compiling reports, sharing information, etc.

Tribal Staff:

- Proposing new GAP indicators

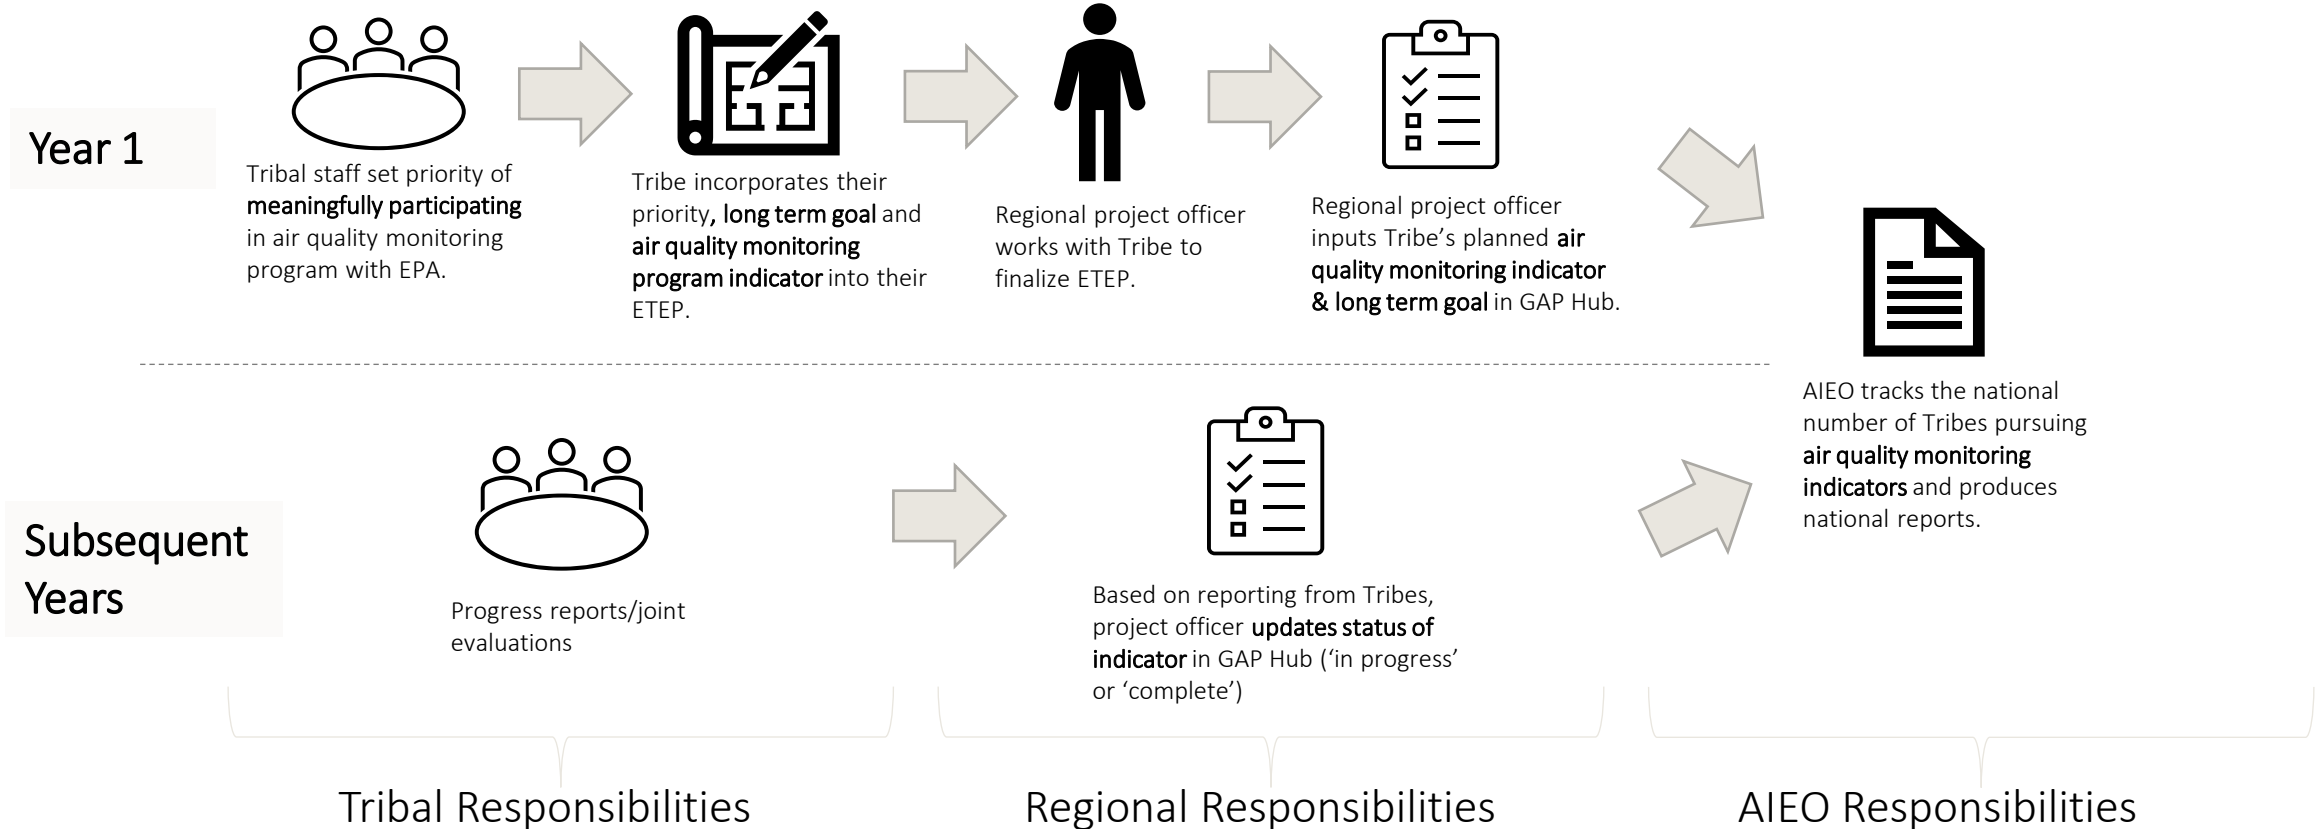

GAP HUB USERS

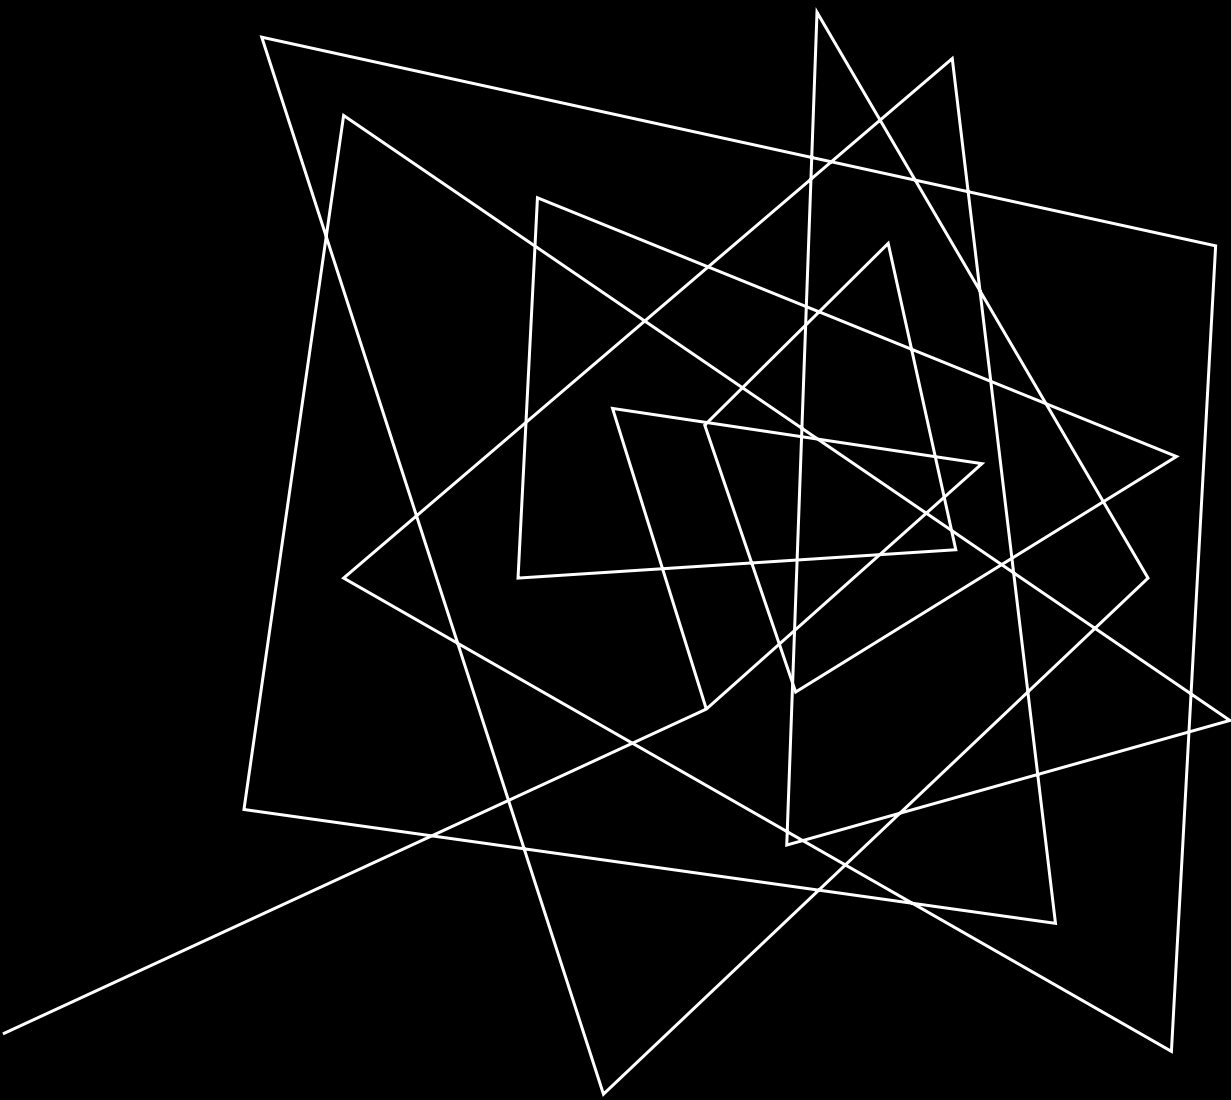

EXISTING DATA: WHAT GOES INTO THE HUB?

EXAMPLE: PATHWAY OF A CLEAN AIR INDICATOR

Indicator: Recipient is establishing an air quality monitoring program.

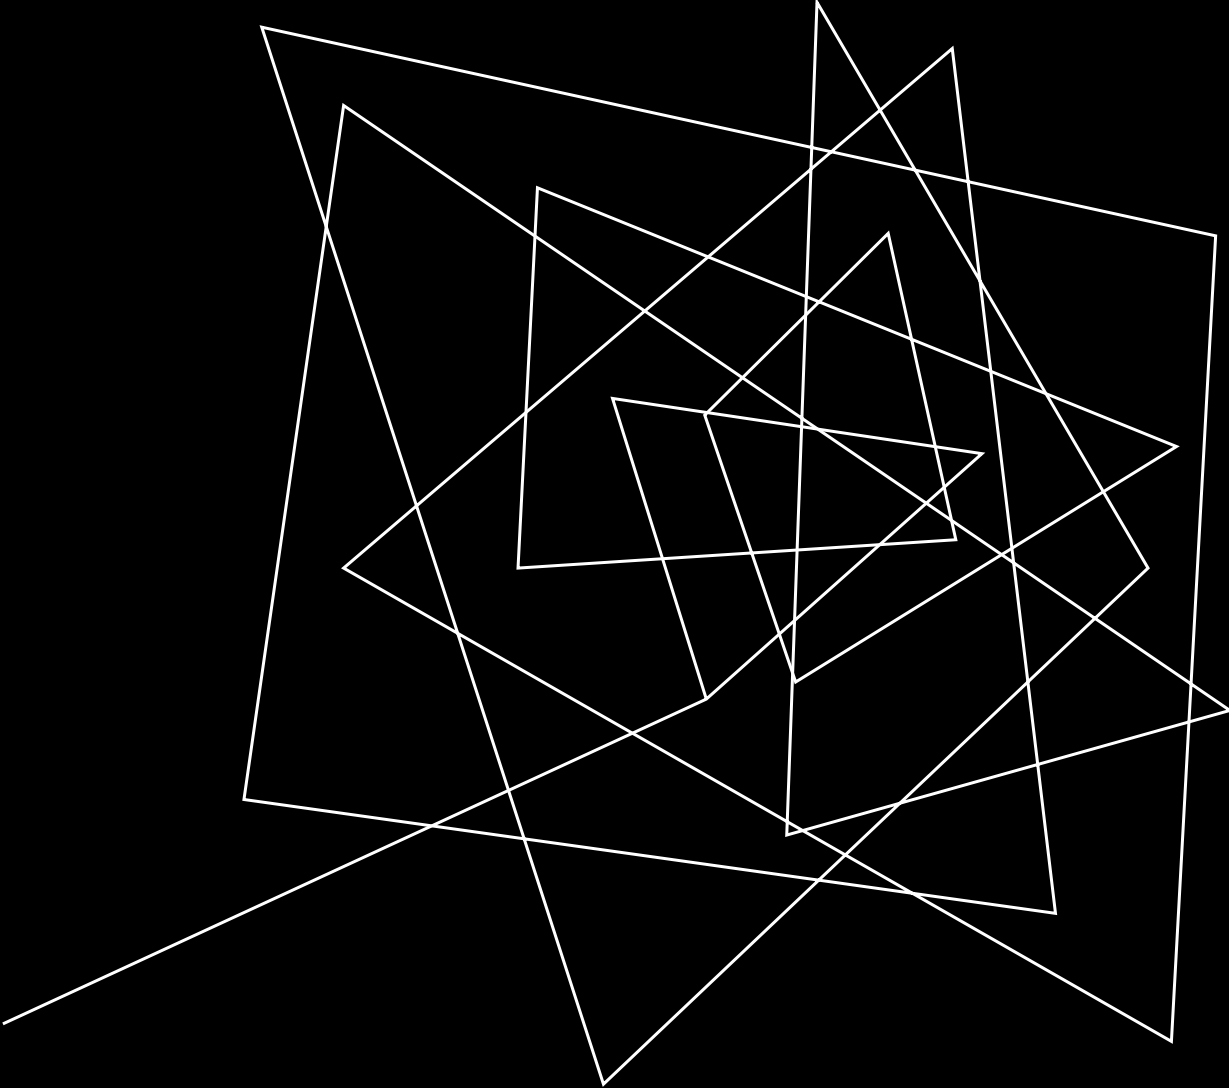

USING DATA

AIEO will use the aggregated data to measure environmental program capacity

Sample report:

ADDITIONAL INFO

GAP Hub Frequently Asked Questions

What is GAP Hub?

- GAP Hub is a new, internal performance management application for EPA's Indian Environmental General Assistance Program ([GAP](#)).
- Its primary purpose is to establish a consistent national GAP performance management system.

Capacity Indicators

- GAP capacity indicators are environmental program capacity milestones that can be achieved with GAP funding.
- In response to Tribal feedback, Tribes may submit a
