Re: Clean Air Act, Section 112(l) Delegation  
Requests dated June 30, 2003 concerning 20  
NESHAPs and July 3, 2003 concerning the  
Secondary Lead Smelting NESHAP

Dear Pam:

Enclosed are copies of the 112(l) delegation requests and supporting documentation that you requested.

Regarding the secondary lead smelting NESHAP, in adopting this NESHAP, Indiana incorporated more stringent requirements that existed in the state lead smelting rule that is part of Indiana's lead state implementation plan (SIP). We submitted a request to Region V for a revision to the lead SIP for the lead smelting rule on February 2, 2002. John Summerhays is reviewing the SIP revision request. Processing of the SIP revision request depends, in part, on approval of the 112(l) delegation request. Susan Bem is our contact for the secondary lead smelting rule and SIP revision request.

Sincerely,

Pat Troth, Chief  
Rules Section  
Office of Air Quality
