EPA-HQ-2018-011882	Christine Schozer		Thanks, Christine Hi, I would like to request the following data: 1) The date of first construction for all coal-fired and gas-fired generating units in the United States. Under the 1970 CAA and 1977 CAAA New Source Review Requirements, power plants were governed by different emission standards depending upon the date on which construction for a generating unit began. Presumably, these construction dates must have been reported to the EPA so that the EPA could ensure that the unit was regulated under the correct standard (EIA reports beginning in 1985 list the standard under which a unit was regulated, but not the date on which construction began). If possible, I would like these dates. Although ideally this information would be provided as a spreadsheet with information for each generating units producing the individual permits for each plant would also be useful. Thank you for your help and please let me know if you have any questions.	9/27/2018

Re: FOIA Request

I am writing on behalf of Baker Botts, LLP to request U.S. Environmental Protection Agency (EPA) records pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552.

This request is for documentation relating to applications or other information submitted to the EPA on or after April 1, 2018 relating to the construction and operation of deepwater ports regulated or licensed under the Deepwater Port Act, 33 U.S.C. § 1501 et seq., or other permitting or Maximum Achievable Control Technology (MACT) determinations relating to deepwater ports.

This request excludes any documentation submitted by Kinder Morgan, Inc. relating to the Crude Offshore Loading Terminal (COLT) project, but includes any documentation submitted by others regarding the COLT project.

Please produce these records as soon as they are available and on a rolling basis. If you have any questions or concerns about this request, please contact me immediately by phone or email.

If responsive information or documents include information exempt from production under FOIA and non-exempt information, please provide the portions of the document that are not specifically exempt from disclosure.

Baker Botts defines records broadly to include all documents, email correspondence, notes, letters, computer files, and other information bearing on Baker Botts' request. The term correspondence includes all information maintained electronically (including computer databases and e-mail), on paper, and/or otherwise maintained. Baker Botts understands that it may incur certain charges as a result of this request, and Baker Botts hereby agrees to reimburse EPA for any such reasonable charges. Please notify me if the related charges will exceed \$100. Further, please notify me if it would be efficient for us to provide data storage devices to facilitate production of responsive materials.

EPA-HQ-2018-011816	Claire Palandri		I am a PhD student at Columbia University, working on a joint research project on drinking water quality violations in the US that occurred in 2006-2016. I want to estimate, for each county, the share of the county's population that was subjected to Total Coliform violations during the periods of non-compliance. The current SDWIS platform only provides the most recent population served levels of water systems. To estimate the exposed population share for past violations (going back to 2006), I need to know what were the population served levels in the past. These levels should be available in the SDWIS/FED freezes that have been performed quarterly. I am therefore requesting list of all SDWIS water systems, with PWS ID, PWS Name, PWS Type, Activity Status and Population Served Count, FOR EVERY QUARTER FROM 2006Q1 TO 2016Q4, in the form of a comma-separated values (CSV) file. I am at your disposal for any additional information you may need. Best regards, Claire Palandri.	9/26/2018

Pursuant to The Freedom of Information Act (FOIA), 5 U.S.C. Â§ 552., kindly provide copies of the following public records:
-any and all documents, work product, papers, letters, tapes, photographs, films, sound recordings, data processing software, applications, receipts, cellular/telephone records, scheduling notes, emails, text messages, internal correspondence, court files or other material, regardless of physical form, characteristics, or means of transmission, created, sent or received since 1999 pursuant to law or ordinance or in connection with the transaction of public business by and/or with EPA, Metropolitan Council and the USDOJ regarding the St. Paul MN Metro Plant Solid Waste Incinerators.
Specifically sought of first concern is any information exchanged between the EPA, the Metropolitan Council and the United States Attorney office regarding USDC-MN Civil Action No.99-CV-1105.
If there are fees for searching or copying these records, advise in writing if the cost will exceed \$100.00. A waiver of all fees is requested in that the disclosure of the requested information is in the public interest and will contribute significantly to the publicâ€™s understanding of construction industrial complex fraud upon the Federal court, public employee racketeering, professional malpractice, ethic violations, engineering malfeasance, civil rights due process violations against concerned citizens, and governmental false claims against taxpayers.
The information gathered is to be shared with news media and this request is related to citizen whistleblower reporting. This information is not being sought for commercial purposes and electronic copies are preferred. If you deny any or all of these requests, please cite each specific exemption and legal right that justifies the refusal to release public information and provide notification of the appeal procedures available under the law.
A copy of these FOIA records is requested to be sent to Mary McAuliffe.

			To whom it may concern,	
			We, Terracon, consulting engineers and scientists, are currently conducting a Phase I Environmental Site Assessment (ESA) of a 4.6-acre parcel located at 200 Burns Street Dayton (Parcel ID: R72 01913 0006). Part of the Phase I requires us to contact local governmental agencies to check for any available knowledge or records relative to potential environmental-related concerns or complaints related to hazardous substances or petroleum products on or near the site. Would your office happen to have any knowledge of response/spill records, etc. that may provide an indication of environmental concern on or near that property?

Dear FOIA Office,

This is a request under the Freedom of Information Act (5 U.S.C. Â§ 552). My name is Ellie Potter, and I am a reporter with S&P Global Market Intelligence.

I request that an electronic copy of the following documents be provided to me: any emails, documents, meeting notes and meeting schedules, recorded meetings or phone calls and any other communications that may have occurred within the U.S. Environmental Protection Agency's office, specifically the office of former Administrator Scott Pruitt that contained the word "Morocco" as well as all correspondence and documents that were sent to and received from Richard Smotkin and ambassador Lalla Joumala from October 1, 2017, to February 28, 2018.

I am requesting a fee waiver for these documents. As a member of the media I believe the release of these documents is in the public interest, and the documents will contribute significantly to the public's understanding of federal agency activities. I wish to use my abilities as a journalist and the strong platform that S&P Global offers to better inform the public with the resulting stories I intend to write. I intend to disseminate this information through S&P's news page, as well as through a free link on our Twitter accounts, which are widely viewed by the public.

I am willing to pay the appropriate fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first. You can reach me at 703-373-0660 or by email at ellie.potter@spglobal.com.

Thank you for your time.

Sincerely,

Ellie Potter

Re: Freedom of Information Act , Annual Summary of Adverse Events, Year 2017

Dear Sir/Madam:

The Hartz Mountain Corporation, Secaucus, New Jersey is requesting the 2017 annual summary of the adverse effects data for the registrations listed in the two attached PDF documents, which were originally in Excel format as previously provided by EPA. (We were unable to upload the Excel format to this web page.)

The company is requesting the data to review its current product offering of EPA registered products for use on pets versus its competition. The company is prepared to pay any fees associated with the request. If there are any questions concerning the request please contact me at jconti@hartz.com or at 201.271.4800 ext. 7377 or my cell phone 551.697.0608.

Hi,
I'm looking for toxicity information for the chemical 2,4-dimethylphenol and there are 2 documents regarding water quality criteria for this, one dated 1980 and another as a DRAFT for 1993.
The DRAFT 1993 document is titled "Ambient Aquatic Life Water Quality criteria for 2,4-dimethylphenol" with the EPA document number of EPA-822-R-93-025. Was this document (1993 water quality) ever progressed from DRAFT form and issued as a final version? If so, it would be much appreciated if a copy of this final version is attached in a return email.

Kind regards,

Katrina Maller

EPA-HQ-2018-011548	Billy J Watkins		As a child I was given pizza laced with sedatives so that men could rape me and these activities were filmed and used in part as blackmail against the individuals. There were many other crimes committed against me as well including brainwashing, and chemical experimentation. These tapes were delivered through the E.P.A. during a 6 month internship of my sister during the summer of 2016 by my sister: Jacklyn Susan Marie Opp, and she currently works for Colorado State University as a Professor of Political Science. She may have used the handle SusieQOpp and the tapes from the E.P.A. may have been picked up through the D.O.E. which I believe is where many illegal recordings were piled together since you can't FOIA it. But since these tapes are of me and were sent through the E.P.A. that means they should be available through just this request. EPA-HQ-2018-011547	Zhengyan Li		EPA releases Toxic Release Inventory data to the public every year. I am trying to get two pieces of information about the TRI data. First, I am trying to find out the exact dates when the Toxic Release Inventory data were first made available to the public every year from 1989 to 2018. From other sources, I knew the dates for the first a few years: 6/19/1989, 4/30/1990, 5/15/1991, 5/27/1992, 5/25/1993, 4/19/1994. Can you provide me with the dates when the information was first made available to the public for other years? Second, I am trying to find out the dates when the TRI National Report Analysis were published every year from 1989 - 2018. I could access the historical reports from EPA's website back to 2000. From the reports, I have found out the month/year when the reports were published. Can you provide me with the dates (if not possible, month/year) when the TRI national reports were published for 1989-2018?	9/17/2018

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

All email correspondence between EPA officials and the Michigan Governor's office and Michigan Department of Environmental Quality between January 1 2014 and present day with the word "PFOA" (and/or related terms Perfluorooctanoic acid and/or PFOAs) in the subject line or text of the email.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

EPA-R7-2018-011360	Christen Commuso		<p>I am writing to inquire about a document entitled, Materials Management Plan: West Lake Landfill Operable Unit 1 (attached). In the document it describes a 2006 plan to bring in fill in anticipation of the 2008 ROD. I cannot locate any information as to if/when/which agency allowed this plan to move forward. I do believe, however, in the more recent FS it is mentioned that additional fill was, in fact, added to OU-1. Can you please provide the documents giving the go ahead on this plan? It is very concerning to me as the current proposed final remedy indicates excavation would be confined to a depth of 16 feet starting at 2005 ground levels. I think it is necessary to determine the extent of added fill in order to properly excavate this material. It's also important that the public be made aware.</p> <p>It is troubling, according to the plan, that this fill came from the surrounding area. I would like to see documented proof showing this fill had been tested. I understand that Region 7 sticks to the notion that contamination has never left the landfill property, but two peer-reviewed independent studies indicate otherwise. It would be a huge disservice to the public and our health if contaminated material was used.</p> <p>The document also indicates that coal bottom ash was to be used. According to NRDC, "bottom ash is the coarser component of coal ash, comprising about 10 percent of the waste. Rather than floating into the exhaust stacks, it settles to the bottom of the power plant's boiler. Bottom ash not quite as useful as fly ash, although power plant owners have tried to develop beneficial use options, such as structural fill and road-base material. This isn't a good idea, because the bottom ash remains toxic when recycled. On a Virginia golf course in 2007, for example, a hill composed of coal ash leaked heavy metals into the groundwater."</p> <p>I look forward to your response.</p> <p>Thanks, Christen Commuso</p>	9/11/2018

			<p>It was my understanding based upon the attached documents that solicitation number 68HE0818Q0063 (Hazardous Waste Disposal - USEPA Las Vegas) was a competitive bid. Based upon that information Environmental Enterprises, Inc. (a qualified small business concern) submitted a bid. In an attempt to determine who was awarded the bid I contacted the Contracting Officer, Mr. William Sahli, he indicated that it was a sole source bid. I subsequently sent a follow up letter to Mr. Sahli requesting documentation to show that it was a sole source and a determination as to why Environmental Enterprises, Inc. (EEI) was not given the opportunity to bid this solicitation or the basis as to why EEI was disqualified. I have had no response. This request is to obtain documents or amendments to this solicitation which show that it was a sole source and the information on who the award was given to and the rationale for that award. As a member of the media and someone who has been covering this case closely for the readers of my newspaper, the Greenfield Recorder, I, Joshua Solomon, am requesting all documents both between the Environmental Protection Agency and the South Deerfield Water Supply District, and documents related to, but not necessarily direct between the South Deerfield Water Supply District. The date range of my request is of the past year, Sept. 1, 2017 to Sept. 1, 2018. As a member of the media, I am requesting any fees related to this request be waived given the level of interest among the public and the fact it is in regard to the district's drinking water, but if necessary, I am willing to pay up to \$25 in fees. If there is any confusion regarding my request and the documents I am seeking, please feel free to reach out to me at 413-772-0261, ext. 264 or by email, jsolomon@recorder.com. Thank you for your assistance.

Langan Project No. 170540601

☐
Dear Sir or Madam:

Pursuant to the Federal Freedom of Information Act (5 U.S.C 552 et seq.) dealing with the examination and duplication of documents maintained by public agencies, Langan is requesting any information or copies of files regarding environmental conditions on the above property, such as environmental permits, notices of violations, spill/discharge incidents, storage or disposal of hazardous substances, Underground Storage Tanks (USTs), Leaking Underground Storage Tanks (LTANKS), asbestos abatement, and any other environmental reports that your department may have.

The Subject Property is located at 1037 Beach 21st Street in Queens, New York according to the NYC Department of Buildings records. The Subject Property consists of two lots identified as Queens Borough Tax Block 15705, Lots 69 and portion of Lot 59. The Subject Property is located mid-block, on the city block bordered by Beach 21st Street to the east, Cornaga Avenue to the south, Beach 22nd Street to the west, and Mott Avenue to the north. The site is rectangular shaped with a frontage of about 304 feet along Beach 21st Street. The northern portion of Lot 59 is not included in the Subject Property.

Please contact me at 212-479-5631 with any questions or send your response to my attention at eburgess@langan.com or at the below address:

Dear FOIA officer,
Pursuant to my rights under the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I ask to obtain a copy of the following, which I understand to be held by your agency: ÆCAny and all written correspondence/communication, including but not limited to email correspondence or hard-copy letters between the EPA and NantEnergy, NantWorks or Patrick Soon-Shiong between January 1, 2010 and the day this request is processed.
I came across one letter related to this, already available online here: https://www.epa.gov/sites/production/files/2018-07/documents/nantenergy_inc_minor_new_source_review_permit_application-07-03-2018.pdf but am hoping to get more documents as I outlined above, if they exist.

I would like these records in electronic format transmitted via email or another digital format. Please refrain from sending paper copies of the records.

Eagle Point Landfill, Northwest Forsyth County- 600 feet from the Etowah River.

Our citizens group "Stop Trashing Forsyth and The Etowah" has been in contact with Congressman Doug Collins's office in Gainesville, GA. We have met with his office staff and Dan Mel has been working with me. Through their help other members previously emailed you regarding our concerns over the major modification expansion permit application. We are also providing a copy of the EPD's Notice of Violation on Eagle Point Landfill, and a copy of Advanced Disposalâ€™s reply to the violation.

Evidence has been provided on issues with the Clean Water Act and leachate overflows on the side of the Etowah and wetlands. Surface water was contaminated by uncovered waste, due to the 10' workforce slide.

We would appreciate receiving copy of any and all reports furnished to your agencies by the EPD concerning this May 17, 2018 incident at Eagle Point.

When available, I request the full response and all documents or materials that make up the response to the following FOIA requests:

EPA-R9-2018-010755,

Request from Jason Fagone on 08/20/2018:

I would like to request a copy of all EPA records related to Treasure Island, San Francisco (former Naval Station Treasure Island), including but not limited to emails, memos, letters, reports, meeting minutes/notes, PowerPoint presentations, and other written or electronic communications from January 1, 2008 through the date this request is fulfilled.

EPA-R9-2018-010756,

Request by Jason Fagone on 08/20/2018:

I would like to request a copy of all EPA records since 1980 that evaluate or discuss the possibility of adding Treasure Island, San Francisco (former Naval Station Treasure Island) to the National Priorities List under the Superfund program.

I request that responsive documents be produced on a rolling basis as they are found. I prefer to receive the records in an electronic format such as a PDF or Word file. If unavailable, any other non-proprietary electronic format is fine.

Please communicate with me by telephone (917-771-8249) or e-mail (robin.respaut@reuters.com). I am happy to work with you to minimize the work involved, and I look forward to your response.

Hello, My name is Kevin Stark, and I'm a reporter working with ProPublica Illinois. I'm writing with a Freedom of Information Act request for the following: * Any deliberative documents shared between EPA and HUD offices of lead hazard control in healthy homes between March 2016 and October 2017 Some background information: I'm preparing to file a story with ProPublica Illinois based on a review of HUD and EPA data that show the majority of National Priority List Superfund sites -- or proposed sites -- are within a mile of low income housing in Illinois. For this story, I performed a proximity analysis for the state's Superfund sites and found that 63 percent are nearby public housing complexes, buildings, HUD-assisted multi-family homes, or census tracts where Section 8 voucher holders reside. The idea for this story came after I reported on a lead crisis in East Chicago, Indiana. I understand from speaking with HUD officials that a 2017 EPA and HUD memo created a process for HUD and EPA to help residents in these circumstances. (You can find that memo here: https://www.hudexchange.info/resources/documents/Memorandum-of-Understanding-between-HUD-and-EPA-Regarding-Improving-Communication-About-Certain-Public-and-HUD-Assisted-Multifamily-Housing-Near-Superfund-Sites.pdf) Thanks so much, and please reach out with any questions. This is a request under the Freedom of Information Act.

On behalf of the Activist Journal, a non-governmental media organization, I am requesting a copy of the emissions reported by the Exxon Mobil Corporation to the U.S Environmental Protection Agency in the years of 2015, 2016, 2017 and 2018.

In order to help to determine my status to assess fees, you should know that I am affiliated with a non-profit organization; the Activist Journal.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government as it pertains to the EPA and its enforcement of the Clean Air Act as well as other regulations, and is not primarily in my commercial interest, as I represent a non-profit group with no commercial interests.

Thank you for your consideration of this request.

Dear Sir or Madam,
Good day for you.

This is Emily Tian from REACH24H Consulting Group. Recently we are planning to apply for a pesticide registration under EPA. Our pesticide product is similar to Maxforce FC Roach Killer Bait Gel F.0 (EPA registration number 432-1460), which contains 0.05% Fipronil (CAS No. 120068-37-3). Could you please send us the data matrix document for the product so that we could know which data we will cite in our pesticide registration? Thank you very much and looking forward for your feedback.

Kind regards,
Emily

Union Electric-Ray Avenue Site MOD981126428. Submitted a FOIA request regarding this site on March 10,2010 Request #07-FOI-00223-10, and received a response in the form of a CD dated April 5, 2010, containing interim data submittal report dated February 22, 2010. Now requesting information since that time that will at the least bring up-to-date as the technical and regulatory status of the site. A number of years ago, there was a related Settlement Agreement and its last specified item of work was the RSE report which concluded that site conditions are such that theoretical risks do not exist. To properly plan property maintenance, we need a copy of EPA's Notice of Completion of Work required by the Settlement Agreement.

Good afternoon,

We are performing a Phase I Environmental Site Assessment of a proposed development to be located at 2726 South Main Street in Kennesaw, Cobb County, GA. We are looking for any files associated with the Sardis Road Creosote Site (Site ID: 406635, EPA ID# GA0001878719), specifically if there is a No Further Action letter and/or the current status of the property within the EPA.

Please let me know if there is any additional information I can provide.

<p>Since the EPA-lead removal action was completed, the South Carolina Department of Health and Environmental Control (the Department) performed and is performing various additional response actions at the Starmet CMI (Starmet) facility, 365 Metal Drive, Barnwell, SC and will soon be seeking involvement of potentially responsible parties (PRPs) in conducting decommissioning activities. To assist the Department with identifying and negotiating with PRPs, the Department requests electronic copies of all settlements, administrative orders, etc., with any parties associated with the Starmet facility. The Department believes these parties to be Alaron Corporation, Cameco Corporation, United States Department of Energy, United States Department of Defense, United States Department of the Army, United States Department of the Navy, and USEC Inc., f/k/a United States Enrichment Corporation (a private entity). However, the Department requests that EPA's search not be limited to these identified PRPs.</p> <p>The Department also seeks any equitable factors used by EPA and/or the PRPs in calculating or estimating allocated volume of waste assigned to all PRPs at the Site.</p> <p>If EPA requires, please accept this request as a Freedom of Information request. Please let me if I should direct my request to someone else or if you have any questions, please let me know. It may assist deliver by mail by adding my division within DHEC to include above 2600 Bull Street: Site Assessment, Remediation & Revitalization Division. We would appreciate emailed response to save postage and receipt delay if that is possible.</p>

			<p>I am requesting the ability to inspect the below cited documents in person at the region 1 headquarters in Boston. Please reach out with any questions or concerns regarding the scope of the requested documents or method of inspection. I am seeking the entirety of the documentation that the EPA has on a project called "Century Brass", located at 12 Scovill Street, New Milford, CT 06776. It is possible, in congruence with Connecticut DEEP, that the file is also referred to as "Scovill" or "Aspetuck" by the EPA. The requested documentation includes, but is not limited to, any and all: emails sent or received by Region 1 PCB Coordinator Kim Tisa and other EPA staff regarding this project; documents submitted to the EPA or CT DEEP; any internal documents and/or correspondence between EPA employees relating to this project; handwritten notes; and any other documents within the EPA's file kept for this project. The project has to this point gone through three phases. The first two phases started in the late 1990s and continued through the early 2010s, while the third phase started in 2014 and is still open. We are seeking documentation on all three phases, so from the 1990s through current.</p>	
			<p>9/12/18 Phone Conversation w/ Mr. Moller: He confirmed that the above-referenced info request concerning the "Century Brass" "Scovill" or "Aspetuck" project is NOT INTENDED to be a request for any of the enforcement-related files pertaining to the TSCA/PCB action for penalties commenced in June 1992 and resolved in May 1997. During the course of the conversation, Mr. Moller expressed an interest only in docs dating from 1998 forward.</p>

This request is for all public information in whatever media it may be kept and in whatever form including, but not limited to, any book, paper, letter, document, e-mail, Internet posting, text message, instant message, other electronic communication, printout, photograph, film, tape, microfiche, microfilm, sound recording, map, and drawing and a voice, data, or video representation held in computer memory in the possession, custody or control of EPA Region 6.

In this request, the term "documents" means the following: all reports, lists, interagency memoranda, intra-agency memoranda, data correspondence, opinion letters, ledgers, studies, investigations, schedules, photographs, sound reproductions, ledger books, graphs, catalogues, statements or any other handwritten, typewritten, printed, recorded or graphic material of any kind or description whatsoever.

We are requesting that EPA Region 6 respond within twenty (20) business days of receipt of this request, as specified in 5 U.S.C. § 552(a)(6)(A).

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. Please also release all non-exempt portions of otherwise exempt material. If costs exceed \$250, please contact me at 713-980-1715 or jmuir@bakerwotring.com.

Hello, my wife and I are considering buying a home in North Carolina. We are concerned about the environmental damage caused by the 'Ward Transformer' company in the 1970s. We did some research, but could not find the exact information we were looking for. Supposedly there were 14 counties in North Carolina that were polluted with oil, but we can not find out which counties those were. Also what the soil and water dangers are today in different parts of North Carolina, specifically due to the damage caused by 'Ward Transformer'. Thank you.

EPA-HQ-2018-010750	Kevin Bogardus	E&E News	I request "readiness assessments" prepared by and submitted by EPA regional and program offices as part of the deployment of the EPA Lean Management System. These assessments help EPA's Office of Continuous Improvement understand where to focus training for the office and have been described in several internal agency-wide emails. I request the "case study" done by Deputy EPA Administrator Andrew Wheeler related to the secure phone booth installed for the use of EPA Administrator Scott Pruitt in his office at EPA headquarters in Washington, D.C. This case study is described in the following excerpt of "Transcript of E&E News' interview with Andrew Wheeler," Robin Bravender and Kevin Bogardus, E&E News PM, July 13, 2018 (https://www.eenews.net/stories/1060089083): Have you used the secure phone booth? Have I used it? No, I have not used it yet. What are your plans for it? Do you have any plans for it yet? Have you given it any thought? It's there. It would be expensive to tear it apart, I don't see any sense in tearing it apart. And in this day and age, I don't know what the assessment was for the need of it. I did look into the cost of the booth after I got here. Administrator Pruitt asked me to look over the expenses for his office and in doing that I decided the best way would be to pick a case study and take a look at it to see how the decisions were made. So I looked at how the decisions were made on the spending for the booth.	8/20/2018

* This email is not a government email, but Mr. Del Toral systematically uses this email to circumvent his FOIA requirement to the point that Virginia Tech's Marc Edwards has said it is a "golden rule" not to out Miguel Del Toral's use of his private email and involvement in their activities. Nonetheless, Professor Edwards did out Mr. Del Toral's involvement in Virginia Tech affairs in the past two weeks. I have discussed this matter with Region 5's associate counsel Robert L. Thompson who acknowledged this note and stated that these documents would be placed under litigation hold. I request, for the sake of timeliness, that any emails from thedeltorals@sbcglobal.net that are responsive to this request which involves the scope of his service with the EPA be produced as well. EPA-R2-2018-010476	Mr. Nick Bayack	Nick Bayack	Hello again, I am looking for information on one of Mark Ford Farms properties...Located on Slaughter and Stage Rd Middletown NY 10941. I am looking for the results of any investigations including soil tests and/or fines against the landowners. The landowners filled in parts of the wetland area with different types of fill. Will any of this be removed from this property? When I pulled up the EPA's FRS facility detail report online I did not see this property on the report. When this landowner was backfilling his land with local fill some of the same trucks that brought illegal garbage from the city to his other site were bringing fill to the Slaughter road location years ago. Me and some neighbors are curious about what was contained in it. Please let me know if I should be breaking these questions up into separate FOIA requests. Thank you again for your time,	8/13/2018

			<p>Hello,</p> <p>I am looking to get the information on the environmental cleanup plans for the Mark Ford Farms property (Formerly Hidden Brook Farm) located on Stony Ford Road Middletown NY 10941. I am looking for results of the investigations including tests on the soils. Any fines incurred and any charges that are still pending. Basically any public information that you can provide. The landowner was shut down for illegal dumping and I would like some information on everything in writing.</p> <p>I will submit a separate request for the property located on slaughter road.</p> <p>If this needs to be a separate FOIA request please let me know. I would like to know the estimated extent of the cleanup operations including what environmental controls will be used to keep the coal ash from blowing onto neighboring properties and the roadway.</p> <p>Thank you for your time,</p>

Regarding Arkansas 2016 303(d) list of impaired waters:

Save the Illinois River, Inc., (STIR) requests copies of all correspondence between U.S. EPA Region 6 and the Arkansas Department of Environmental Quality relating to the March 10, 2016 EPA Region 6 request that ADEQ provide "...detailed rationales for removing segment/pollutant combinations from their previous 303(d) lists in the record of decision for the list."

The letter is from Stacey B. Dwyer, P.E., Associate Director NPDES Permits & TMDL Branch, EPA Region 6 to Mr. James Wise, Water Division, Arkansas Department of Environmental Quality, North Little Rock, Arkansas.

The letter requesting documentation from ADEQ is in response to Arkansas' failure to list Osage Creek and Spring Creek as impaired in the 2016 303(d) list given EPA. Page 5 of the letter states: "Until new data indicate that the segments are no longer impaired, Osage Creek and Spring Creek need to be listed on Arkansas's 2016 303(d) list."

The documents STIR is requesting include those from Arkansas ADEQ in response to EPA Region 6's request for "new data" as well as subsequent correspondence from Region 6 to ADEQ on the 2016 Arkansas 303(d) list.

The facility is "University of Rochester" (Facility DEC ID: 8269900059), and is located at 390 Elmwood Avenue Rochester, NY 14323. Conditions 1-5 through 1-8 of the State Facility Permit reference two separate "NOx Monitoring Plans" for facility boilers (Boiler Nos. 9 and 10), Emission Unit: B-OILRN, Emission Sources: BLR10, OBLR9. I am requesting copies of the NOx Monitoring Plans that were submitted to and approved by NYSDEC and/or EPA. The State Facility Permit notes that a NOx Monitoring Plan needed to be submitted for facility Boiler No. 10, and references an existing NOx Monitoring Plan for Boiler No. 9 ("Boiler No. 9 NOx Monitoring Plan", dated September 2007). Given that the State Facility Permit was issued in March 2016, I am assuming that each plan could be made available. Please feel free to contact me if you have any questions regarding this request. We are developing a data analysis project in order to size the market of the use of steam and heat exchangers, in order to come up with an energy efficient solution we can offer to our customers and develop new ideas towards energy conservation.

Our organization would like to have information about steam users in every state of your regional offices, as well as any information available on their boiler registration, process and heat exchangers.

Please do not hesitate to ask if you have any questions regarding our request

For details of my request please see below:

1. The range of records requested will be the most recent data available needed, anything from 2012-2018 will be recent enough.
2. Fee commitment: please let me know if our request requires you a significant amount of time in your organization. We understand and appreciate the use of EPA's time.
3. Details of information we are looking for. Example below:

Re: Freedom of Information Act Request

Dear Sir or Madam:

Pursuant to the Freedom of Information Act (FOIA), as amended, 5 U.S.C. §§ 552, et seq., and the United States Environmental Protection Agency's (EPA) rules issued thereunder, 40 C.F.R. Part 2, COGENCY GLOBAL INC., hereby requests from EPA the sanitized Premanufacture Notice (PMN) for Case P-16-0510, (chemical name Oxirane, 2-methyl-, polymer with oxirane, bis[2-[(1-oxo-2-propen-1-yl)amino]propyl]ether; Chemical Abstracts Service (CAS) Registry Number (RN) 1792208-65-1) as well as the following sanitized reports: Chemistry, SAT, Engineering, Exposure, Health, and Focus, related to P-16-0510.

Documents responsive to this request likely will be maintained by the Office of Pollution Prevention and Toxics. These offices are identified solely to assist EPA in responding to this request and the identification of these offices is not intended to limit the scope of this request in any way. Documents responsive to this request may be maintained by other EPA offices and divisions and any such documents expressly are included within the scope of this request.

If for any reason you determine that portions of the requested information are exempt from disclosure under FOIA, please delete the allegedly exempt material, inform us of the basis for the claimed exemption, and furnish us with copies of those portions of the information that you determine not to be exempt. COGENCY GLOBAL INC. consents to such deletion at this time to facilitate your prompt response and in no way waives our right to appeal any determination that you may make regarding the applicability of any FOIA exemptions to the requested documents and information.

EPA-HQ-2018-010268 Joanna McCall COGENCY GLOBAL INC.

COGENCY GLOBAL INC. requests that you provide us with accurate copies or a complete and accurate account of the information requested.

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request all travel and expense records for Region 9 Administrator Mike Stoker.

This should encompass:

- Requests for travel submitted by Mr. Stoker or anyone acting on his behalf, responses to those travel requests, travel authorizations or other documents related to those travel requests.
- Expense reports, reimbursement requests or voucher claims for travel and non-travel expenses submitted by Mr. Stoker or anyone acting on his behalf, including for vehicle rental, vehicle mileage, air travel, accommodations, meals and any other expenses, as well as copies of receipts or other documentation submitted in relation to those requests.
- Any other documents pertaining to Mr. Stoker's travel or expenses, including schedules or itineraries and other records detailing the reason for the travel or expense.

I request these records for the period of May 18, 2018 to the date EPA commences its search for these records.

I request these records in electronic format. If they are not held electronically, I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$25. However, please notify me prior to your incurring any expenses in excess of that amount.

As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. This information is being sought on behalf of Los Angeles Times for dissemination to the general public.

Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I also expect you to release all segregable portions of otherwise exempt material.

I am requesting all material that EPA region 3 office has on the Khian Sea - a waste barge that left loaded with Philadelphia incinerator ash in 1986. After EPA notice, the barge was turned down by the Bahamas and from then on started its search for a dumping ground until 1988. I am particularly interested in the communication between EPA and US State Department on the Khian Sea as well as between EPA and the respective governments of the Bahamas, Haiti, Guinea, Guinea-Bisseau and the other ports that the Khian Sea attempted to land.

Dear Sir/Madam,

This is a request under the Freedom of Information Act. I request that a copy of the following document(s) be provided to me:

1. All political appointees who currently work at the Environmental Protection Agency, as well as all political appointees who started after April 20, 2018.

Date Range: April 20, 2018-present

I look forward to your reply within 20 business days, as the statute requires. Please send this information in electronic format wherever possible.

As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone or email, rather than by mail. If you would like to discuss the scope of this request, or have any other questions, I can be reached at 202-626-7248 or at RLeber@motherjones.com. Thank you for your consideration of my request.

Mittal Steel/Arcelormittal Plate, LLC 139 Modena Road Coatesville, PA 19320 This request is being made under the authority granted by the Freedom of Information Act (FOIA) and the assumption that no fee(s) will be assessed in its fulfillment. Please disregard this letter if payment is required to perform a records search or make the files available to us.	7/20/2018

Dear FOIA Officer:

Pursuant to 5 U.S.C. Â§ 552 et seq. and 40 C.F.R. Â§ 2.100 et seq., I am requesting that you forward to my attention all Renewable Fuel Standard attest engagements of the following companies, for the past five (5) years: (i) Castleton Commodities International (possibly filed under Rolympus in previous years), (ii) Vitol, (iii) Trafigura, (iv) Gunvor, (v) Metroplex, and (vi) Tethys. The engagement reports for these companies are required by Environmental Protection Agency regulations, and therefore should not be considered confidential.

I agree to pay reasonable fees for the documents requested, including actual costs up to \$250. If you estimate that actual costs will exceed \$250, please contact me so that I may arrange for payment. If documents are withheld entirely, please provide a justification for withholding the information pursuant to 5 U.S.C. Â§ 552(a)(6) and 40 C.F.R. Â§ 2.104(h).

Please contact me at 202-654-6209 or LeAnnJohnson@perkinscoie.com, if you have any questions about this request.

Very truly yours,

Perkins Coie LLP

LeAnn M. Johnson

EPA-HQ-2018-009704	Dr. Iain Weatherston	J&T Associates LLC	The request is made on behalf of Brandt Consolidated Inc., Springfield, IL and a subsidiary company, Brandt iHammer, Powell, OH. These companies are respectively the registrants of Brandt GlucoPro, EPA Registration No. 48813-3 which was registered on March 23, 2018 and Technical Alpha Methyl Mannoside, EPA Registration No. 91428-1. Even although both products were registered 4 months ago, the Agency has not approved the final label of the GlucoPro product, stating that since the label format was changed to a booklet label after the registration issued, a full review of the booklet label would be necessary. Brandt does not believe that this is necessary and their are examples of BPPD treating other registrants differently. We have also requested access to the DER's for both registrations and have been told no DER's were prepared, a situation which I believe to be highly irregular. These products are biopesticides and it is, I believe, normal for BPPD, the relevant registration issuing division, to prepare a Biopesticide Registration Action Document (BRAD) for new biopesticide registrations. Requests for the BRAD documents have gone unanswered with no explanations being given. At this time I am requesting that I be sent copies of the complete registration files for registrations 91428-1 and 48813-3 in order to decide what action the registrants wish to take at this time. Sincerely, Iain Weatherston, Authorized Agent to Brant iHammer & Brandt Consolidated Inc. I would like files for the following facility: Zahn and Matson Inc 10838 Main Street N. Collins NY 14111. EPA-R8-2018-009656	Stanley Tromp	Journalist	In early July, the news media reported that frustrated U.S. representatives on a commission tasked with protecting the quality of water flowing across the Canada/U.S. border went public with claims that Canadian commissioners are refusing to accept scientific data that shows an increase in selenium pollution from B.C.'s Elk Valley coal mines. Two U.S. commissioners on the International Joint Commission released a letter to the U.S. State Department that says Canada's three representatives on the commission will not endorse a recent report that shows risks to aquatic life and humans from selenium pollution from five Teck Resources Ltd. coal mines. The polluted water, which leaches from massive amounts of waste rock at Teck's metallurgical coal mines, flows into the Elk and Fording Rivers in B.C., then into the Koochanusa Reservoir which straddles the border and finally into the U.S. Kootenai River before curling back up into Canada at Creston. Teck's five metallurgical coal mines are all upstream of the transboundary Koochanusa Reservoir. (The LETTER OF JUNE 20, 2018 - https://www.scribd.com/document/383221661/US-IJC-Commissioners-Letter-to-Dept-of-State-on-Selenium-Report) Please send me your records on this issue, from Sept. 1, 2017 to the present day the pollution, effects on fish, and the political dispute.	7/16/2018

Pursuant to the Freedom of Information Act (FOIA), the Environmental Law & Policy Center ("ELPC") requests copies of all correspondence (including emails and letters) between the United States EPA Region 5 and both the Ohio EPA and the State of Ohio in regard to Ohio's 2018 Integrated Report and Clean Water Act ("CWA") Section 303(d) list.

Please email, mail, or make arrangements to supply copies of all requested records as soon as possible to ELPC. As ELPC is a non-profit conservation organization dedicated to promoting the public interest by protecting natural resources, ELPC respectfully requests that you waive all fees in connection with this request as provided by 5. U.S.C. § 552(a)(4)(A)(iii). ELPC has no commercial interest in the requested information. The disclosure of the requested information will benefit the public interest by improving the public's understanding of EPA's actions with respect to its oversight of the water quality of Ohio's waters, and the information is not otherwise attainable by the public.

In the event that EPA denies a fee waiver for this request, ELPC will pay the required fees up to \$50.00. In the event that the expected cost of this request exceeds \$50.00, please call me at (614) 569-3827. Please note that the request for a fee waiver should not be construed as an extension of the 20-day limit for replying to this request under 5 U.S.C. § 552(a)(6)(A)(i) & (ii)(I).

If you determine that any of the requested records are exempt from required disclosure under FOIA, please disclose them anyway in order to serve the interest of educating citizens. Should you invoke a FOIA exemption, please include sufficient information for ELPC to appeal the denial, including basic factual material about each withheld item (e.g. originator, date, length, subject matter, and location), and reasons for denial.

Dear Sir or Madam:

In accordance with the Freedom of Information Act, I am writing to request copies of the following public records:

1. Any e-mails or paper letters the office of the Administrator of the EPA received from Susan Hutchison from January 1, 2017 through July 16, 2018.

2. Any e-mails or paper letters the office of Don Benton and Doug Ericksen received from Susan Hutchison from January 1, 2017 through July 16, 2018.

I am willing to pay up to \$100 for your office to fulfill this request. If the cost of fulfilling this request will exceed that amount, I requested that you provide me with a written estimate prior to incurring any costs.

My preferred reproduction format is an electronic file e-mailed to me at (b) (6). If this is not possible, I request that you provide access to these records electronically via an FTP site, or mail electronic copies of the records to me on removable media, such as a CD or flash drive. If none of these delivery methods are feasible, I request that you mail paper copies of the records to me at the address provided above.

If your office decides that any information is exempt from the FOIA, please provide me with any segregable portions that are not exempt by redacting the specific exempt information.

Please feel free to contact me by e-mail if you have any questions about my request. Thank you in advance for your assistance.

Sincerely,

Brian Nichols

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request all calendars and/or schedules, including but not limited to travel itineraries, meeting schedules, appointments, phone call schedules or other records of official engagements, of EPA Region 9 Administrator Mike Stoker. I request this information from May 18, 2018 to the date EPA commences its search for these records. I seek records of Mr. Stoker's calendar entries and/or schedules on EPA accounts as well as any others containing records related to EPA business. This should include records of all meetings and appointments, who they were made or completed with, the subject of those meetings as well as any notes or any other material attached calendar or schedule entries. I request these records in electronic format. If they are not held electronically, I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$25. However, please notify me prior to your incurring any expenses in excess of that amount. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. This information is being sought on behalf of Los Angeles Times for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I also expect you to release all segregable portions of otherwise exempt material.

EPA-HQ-2018-009607	Mr. Billy J Watkins		My Sister Jacklyn Susan Marie Opp filed illegal tape recordings of me during her internship at the E.P.A. during the Summer of 2016. She worked in Washington D.C. She brought her husband Christopher Opp and children Victoria and Alex- I filed a police report with the Fort Collins Police Department in May. My sister was only at the E.P.A. for a single summer and I believe she sent the recordings through to the D.O.E. where bad actors were amassing material through the various agencies in a place that can't be FOIA'd. I have gone into detail about what happened to me on this page. https://acchat40.com/phpBB3/viewtopic.php?f=164&t=132667 I also have went into further detail on this twitter account. https://twitter.com/watkins_2 I can give any additional information required but given her small time spent in D.C. and large size of the files I am confident that it should be as easy as looking through what she was doing to find an extraordinary crime that needs to be investigated ASAP. She may have used the handle SusieQOpp as a reference to the Q-Security Clearance that is at the top of the D.O.E. This crime wasn't just committed in a small time frame it was from birth, I was born in Hahira Georgia and they kept me at the hospital for much of my first 5 years where through guise of an ear infection they experimented one me, possibly related to this https://www.ncbi.nlm.nih.gov/pubmed/4044133 There's a lot more but I only have limited space so I hope this finds someone of able mind that is uncorrupted by D.C. to actually look into my claim this time.	7/13/2018

I request disclosure from the EPA the following records:

I request a copy of each email (TO, FROM, CC, etc.) EPA senior official Andrew Wheeler during the two day period July 5, 2018 through July 6, 2018, based on electronic retrieval of email.

Reasonably Foreseeable Harm. The FOIA Improvement Act of 2016 amended the FOIA as follows (5 USC 552(a)(8)):

(A) An agency shall

(i) withhold information under this section only if

(I) the agency reasonably foresees that disclosure would harm an interest protected by an exemption described in subsection (b); or

(II) disclosure is prohibited by law; and

(ii) (I) consider whether partial disclosure of information is possible whenever the agency determines that a full disclosure of a requested record is not possible; and

(II) take reasonable steps necessary to segregate and release nonexempt information. . . .

EPA should not fail to meet the requirements of Section 552(a)(8) when processing my request and release responsive records to me in full or at least in part.

Please provide any and all public information, particularly within Superfund and RCRA programs regarding Woodward Industries, aka East Texas Wood Treating, Nacogdoches, Texas. Associated administrative identifiers include: EPA Superfund TXD026868323 EPA RCRA TXD000719757 and state agency numbers RN105167035 and CN601168123. There is no date range limitation on the records requested. I request any and all means all programs and their respective enforcement components, and I specifically highlighted Superfund and RCRA to suggest that those programs should be searched as a higher priority, if there is a need on EPA's part to provide an incremental response. To avoid undue production costs beyond search time, I am willing to conduct an in person review, if non- electronic (physical) documents are identified.

EPA-R9-2018-009486	Mr. Gary Gertzweig		<p>On behalf of 600 homes destroyed and emotional trauma & financial loss suffered by the families displaced by the lava eruptions at Leilani Estates on the Big Island of Hawaii, as well as loss of a marine sanctuary and farmlands, and loss of the community of Kopoho, this request is for the EPA to reveal any documents which give insight to the management decisions in the operation of PGV (Puna Geothermal Venture) owned and run by Ormat Technology, as well as the Governmental oversight documents regarding drilling wells and pumping fluids through pipes deep into the active Volcano system, that may have contributed to the initial eruption outbreak being half a mile from the Geothermal site. The area continues to pose a hazard to the community through high SO2 levels and continuing lava flow, and yet there is no mention by USGS or any public official of the proximity of the plant to the new eruptions started on May 3, 2018 and so I began doing research and eventually spoke with ex-US Department of Energy employee, where I discovered that magma had gone up the wells.</p> <p>He writes: "On the proximity of magma at depth to the reservoir, I believe I mentioned on the phone that the KS 13 well hit dacite magma which came up the well. With the amount of new magma intruded at depth, it is likely that the reservoir was impacted. It may be gone completely. We don't really know at this point, but PGV investors would be gambling to assume nothing had changed." It appears that Ormat Technology, by their wells, breached the reservoir, where magma came up their pipes. While Gvmt Agencies have reported this was triggered by an event at the Summit of Kilauea, some 10+ miles away up the rift zone, out of a sense of caution, any reasonable conclusion would need to rule out the PGV plant as a cause. It is important to note that the wells became coated with silica from the brine, and new wells were drilled. We wish to see documents detailing how many wells drilled and were they all permitted?</p>	7/11/2018

This request includes but is not limited to email, text messages and other electronic communications. The term "representative" includes consultants, lawyers, including Region 10 Office of Regional Counsel. I am not requesting internal EPA documents, unless those documents were shared with the Kalispel Tribe or Ecology. The temporal scope of this request includes all written communications issued or received by any EPA Region 10 employee or representative between January 1, 2014 and the date of your response.</p> <p>This is a request under the Freedom of Information Act.</p> <p>I. Background Information</p> <p>Former EPA Administrator Scott Pruitt's last day at the agency was on Friday, July 6, 2018. That same day, the agency deactivated Pruitt's official Twitter account, @EPAScottPruitt, which was used to promote EPA work and priorities. Thus, records pertaining to official federal government functions are set to be deleted. According to Twitter, "You can restore your Twitter account if it was accidentally or wrongfully deactivated for up to 30 days after deactivation."</p> <p>The Office of Public Affairs likely manages EPA administrator social media accounts. They were involved in another FOIA request on this Twitter account (https://www.muckrock.com/foi/united-states-of-america-10/scott-pruitts-blocked-followers-38939/).</p> <p>II. Description of Records Sought</p> <p>I hereby request the Twitter archive for the @EPAScottPruitt Twitter account under the Freedom of Information Act. You can get the archive by going to https://twitter.com/settings/account and clicking "Request your archive." Alternately, you can go to https://twitter.com/settings/your_twitter_data. In both cases, the @EPAScottPruitt account must be restored first.</p> <p>III. Record Retention and Delivery</p> <p>I prefer my request be filled electronically, by e-mail attachment if available or CD-ROM if not.</p> <p>If you determine that portions of the records requested are exempt from disclosure, I request that you segregate the exempt portions and deliver the non-exempt portions of such records. If the EPA denies all or part of this request, please cite the specific exemptions you believe justify your refusal to release the information.</p> <p>Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 10 calendar days, as the EPA's FOIA regulations require for expedited requests.</p>	7/11/2018

EPA-HQ-2018-009057	Ms. Jenna Lorence		<p>Hello,

 On June 26, 2012, the EPA issued Interim Guidance on the Non-Availability of Compliant Fuel Oil for the North American Emission Control Area. The Interim Guidance explains how the U.S. Government will implement the fuel oil availability provisions contained in Regulation 18 of the International Convention for the Prevention of Pollution from Ships (MARPOL), Annex VI. The Interim Guidance described how persons who cannot obtain compliant fuel oil may make a fuel non-availability claim through the submission of a Fuel Oil Non-Availability Report (FONAR).

 I request copies of all FONARs submitted to the EPA, including both the forms and supporting documentation. This includes all FONARs submitted both before and after the EPA implemented its Electronic Fuel Oil Non-Availability Disclosure Portal (FOND). EPA-R3-2018-009030	Jessica Skillman		Paul Ruge of the EPA investigated Roof Right Inc on July 14, 2015 for violation of lead safe work practices at my home, 905 Adana Road, Baltimore, MD 21208. The EPA found Roof Right Inc non-compliant after an interview and investigation of records of 7 projects done in the past year. Specifically, Roof Right neglected to give owners EPA lead safe renovator pamphlet and produce records required by federal law to show lead safe work practices were taken. Linda Standiford was notified of the finding of noncompliance in a letter dated 3/21/2016. Roof Right was required to respond within 30 days, to Annie Hoyt indicating actions they take to ensure future compliance with the requirements of the RRP Rule. My prior FOIA request only included a redacted version of what was publicly available. I specifically request information regarding Roof Right's letter to Annie Hoyt. I specifically request a copy of the complaint I filed and signed. I request any and all documents in the EPA's possession, custody or control that relate in any way to the above investigation. I request any information regarding Roof Right's lead safe practice company policies or protocol in place at the time of the investigation. I request any and all communications with Roof Right or anyone acting on behalf of these entities and at any time. I request any and all documents memorializing Complaints filed against Roof Right at 905 Adana Road 21208, my residence. This information is necessary to provide evidence supporting the litigation I have regarding non-compliance with lead safe practices and recovering costs we incurred to clean up extensive lead contamination of our property. In addition, small children lived at this home and I want to make sure that no one is exposed to this dangerous type of work in the future. EPA-R8-2018-008964	John Blodgett		I seek a reporting of a review conducted by Paul Felz, Region 8 Audit Coordinator, related to EPA Grant Number V96803401. The review resulted from a letter dated May 18, 2016 that was sent by Mike Cole, chairman of the Lincoln County (Montana) Commission, and addressed to Rebecca J. Thomas and Cinna Vallejos of EPA Region 8. I'm interested in receiving any documentation -- whether email, letter, report, etc. -- describing the conclusion of his review. I also seek copies of any email correspondence between Paul Felz and EPA Region 8's Martin Hestmark from May 18, 2016, to Dec. 31, 2018 that relate to Paul Felz's review of EPA Grant Number V96803401. Further, I seek the list of payments made to R. Allan Payne that accompanied the aforementioned May 18, 2016 letter signed by Lincoln County Commissioner Mike Cole regarding EPA Grant Number V96803401.	6/22/2018

EPA-HQ-2018-008922	Emma Best		Copies of all drafted, submitted or received SF-311 forms (https://www.archives.gov/files/isoo/security-forms/sf311.pdf) produced in the year prior to the receipt of this FOIA request. SF-311 forms may also be identified as Agency Security Classification Management Program Data. I am a member of the news media and request classification as such. I have previously written about the government and its activities, with some reaching over 100,000 readers. As such, as I have a reasonable expectation of publication and my editorial and writing skills are well established. In addition, I discuss and comment on the files online and make them available through non-profits such as the Internet Archive and MuckRock, disseminating them to a large audience. While my research is not limited to this, a great deal of it, including this, focuses on the activities and attitudes of the government itself. As such, it is not necessary for me to demonstrate the relevance of this particular subject in advance. Additionally, case law states that "proof of the ability to disseminate the released information to a broad cross-section of the public is not required." <i>Judicial Watch, Inc. v. Dep't of Justice</i> , 365 F.3d 1108, 1126 (D.C. Cir. 2004); see <i>Carney v. U.S. Dep't of Justice</i> , 19 F.3d 807, 814-15 (2d Cir. 1994). Further, courts have held that "qualified because it also had plans to publish a number of . . . document sets" concerning United States foreign and national security policy. Under this criteria, as well, I qualify as a member of the news media.	6/21/2018

This should include any such records generated by EPA, including any generated or exported from the AirTrax database. We ask for these records going back to 2007 or the earliest fiscal year available in a consistent electronic format. Please provide records with a breakdown of SIP actions annually by type, including but not limited to the following data fields: Full Approval, Conditional Approval, Disapproval, Limited Approval/Disapproval, Partial Approval, Partial Approval/Disapproval, Withdrawals, Total Actions Taken. Please also include any charts or spreadsheets, lists, charts, reports other documents with a breakdown of how many final SIP actions annually were backlogged versus non-backlogged. If available, please include a breakdown of SIP actions annually by state. I would like to receive the information in electronic format, such as a database or spreadsheet. I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$25. However, please notify me prior to your incurring any expenses in excess of that amount. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. This information is being sought on behalf of Los Angeles Times for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I also expect you to release all segregable portions of otherwise exempt material.	6/21/2018

EPA-HQ-2018-008786	Emma Best		To Whom It May Concern: Pursuant to the Freedom of Information Act, I hereby request the following records: Lists, indices or other records that describe or enumerate any historical studies produced or commissioned by the agency's historical staff or various offices/subdivisions. These documents will be used, among other things, to identify individual histories that are of interest to the public, which will then be requested in a separate FOIA request. I am a member of the news media and request classification as such. I have previously written about the government and its activities, with some reaching over 100,000 readers. As such, as I have a reasonable expectation of publication and my editorial and writing skills are well established. In addition, I discuss and comment on the files online and make them available through non-profits such as the Internet Archive and MuckRock, disseminating them to a large audience. While my research is not limited to this, a great deal of it, including this, focuses on the activities and attitudes of the government itself. As such, it is not necessary for me to demonstrate the relevance of this particular subject in advance. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Sincerely, Emma Best	6/19/2018

EPA-2018-008705	David Swain	Scientific & Regulatory Consultants, Inc.	We would like to receive 6a2 (adverse events) submissions regarding hypersensitivity or other human reactions as required in the 2007 preamble to the 158 Rule for Microbial pesticides. Specifically, the preamble to the rule on data requirements for microbial pesticides (40 CFR Part 158 data requirements for microbial pesticides, amended in 2007), includes a rationale for requiring a dust/mist filtering respirator (refer to The Federal Register, Vol. 72, No. 207, Friday, October 26, 2007, page 60997: Notice, Pesticides: Data Requirements for Biochemical and Microbial Pesticides). The Agency expects that many microbial pesticides may be respiratory sensitizers, although there are no consistently reliable laboratory tests for this endpoint. Therefore, in general, the Agency requires protective equipment to lessen exposure to microbial agents for applicators with a high likelihood of repeated exposures.	6/15/2018

EPA-HQ-2018-008723	Adam Carlesco	Public Employees for Environmental Responsibility	On June 13, 2018, in an interview with WZFG-AM 1100, Administrator Scott Pruitt stated that EPA's 2009 endangerment finding on greenhouse gases was simply transferred to the agency from the United Nation's Intergovernmental Panel on Climate Change (IPCC), and was not the product of EPA research. We request the following: 1. The documents that Administrator Pruitt relied upon in making these statements; and 2. Any EPA agency records that demonstrate EPA did not conduct its own studies regarding the endangerment finding. 3. Any EPA agency records that support the conclusion that the endangerment finding relied solely upon research and studies transferred to EPA from IPCC. 4. Any EPA agency records that support the conclusion that there was a breach of process with regard to EPA's endangerment finding	6/15/2018

EPA-R2-2018-008664	Nick Bayack		Hello, I am looking for information on the investigation with two Ford properties in Middletown NY please. One of the properties is on Slaughter Road/Stage Road—the other is on Stony Ford Road/Stage Road—Middletown NY 10941 mailing address...Town of Walkkill. I would like to know the results of all soil tests done on both sites. I would like to know the current status regarding the Wetlands violations. I live on Stage Road and was the initial complainant to the EPA against the property owners. I would like to know if there is a Master Plan for the properties and what/when will the soil be removed from the properties. If there is a map that shows this information I would like to look at it please. I would like to see all correspondence between the EPA/DEC and the property owners. I would like to know if/when/how my name was shared with the property owners I complained against. If my name has not been shared yet please let me know when it will be shared. I would also like to see all correspondence between the Town of Walkkill and the EPA. The property owners have many Town of Walkkill employees on their payroll. Walkkill workers and the town supervisors seemed to know about and enable the illegal activities on the site. I would like to know where/when/how my name may have been shared with the Town of Walkkill. I kind of want all information I can get without having to pay any extra fees. (I understand I may get overwhelmed with the volume of information on this)... If I should be phrasing my request in another way please let me know. Thanks so much for your time and help. In addition, this email could be considered "final" statements of policy which have not been published in the Federal Register; or "instructions to staff that affect a member of the public"; but this email was not available in the National Online FOIA Library	6/13/2018

EPA-HQ-2018-008613	Mr. Moss Brennan		Dear FOIA Officer: Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of emails sent or received by Scott Pruitt since 2017 that mention "Freedom of Information Act" or "Public Record" or "Records" or "Destroyed". I would like to receive the information in electronic format preferably in a PDF. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on emails sent or received by Scott Pruitt that mention "Freedom of Information Act" or "Public Record" or "Records" or "Destroyed"; that is of current interest to the public because the public deserves to know if Scott Pruitt is talking about FOIA and if so, what he is talking about with FOIA. This information is being sought on behalf of The Appalachian for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. This is of public interest because it directly involves the American People. If the Scott Pruitt is talking about FOIA in some way or another, the public deserves to know. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. I would appreciate your communicating with me by email or telephone, rather than by mail. Please provide expedited processing of this request which concerns a matter of urgency. As a reporter, I am primarily engaged in disseminating information.	6/13/2018

EPA-HQ-2018-008519	Matt Kasper	<p>To Whom It May Concern: Pursuant to the Freedom of Information Act, I hereby request the following records: Any and all electronic communications between Matthew Z. Leopold, General Counsel, and representatives of the Edison Electric Institute, and Hunton &amp; Williams. According to Mr. Leopold's calendar, he had meetings, speaking engagements, and/or calls with representatives of EEI and Hunton &amp; Williams on May 4, May 3, April 16, March 22, and March 8. This request should include but is not limited to emails, attachments, both sent and received, notes, minutes, event materials, agendas, or handouts. The search for records may be limited to December 14, 2017 and the processing date of the request. Please exclude all press clips. I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest. The organization I work for, the Energy and Policy Institute, is a clearinghouse of information and can qualify as a representative of the news media. There are several examples of public record requests that have been provided to my organization and that were then published on our website to inform the public. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. EPA-2018-008518	Andrew Perez	Maplight	<p>A copy of the EPA's current numbered queue for FOIA requests for records held by Administrator Scott Pruitt's office. As some context, I received a message from Jonathan Newton at the EPA today informing me that my request, #EPA-HQ-2017-010166, is currently 574 in the queue. I am requesting a copy of that queue in its current numbered order and format. I ask that my request be expedited. I am a full-time journalist employed by MapLight, a California-based nonprofit research organization. My reporting is published on our website, MapLight.org, and has often produced in partnership with other news outlets, such as Fast Company and Newsweek Media / International Business Times. Our reporting has been shared by major outlets like CNN, the New York Times and Washington Post. My request concerns federal government activity: the EPA has informed me and other Washington journalists of its FOIA queue. There is urgency to inform the public about this federal government activity -- about how this queue is structured and how its order has been determined -- in light of reports that the EPA is facing an unprecedented number of FOIA lawsuits and that aides to the Administrator are screening requests and delaying responses past the timeframe allowed by law. I ask that your agency waive all fees. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. Please let me know if there is any more information I can provide in order to expedite my request.</p>	6/11/2018
EPA-HQ-2018-008516	Mr. David Kesselring	<p>I read the following quote relating to septic systems on https://www.epa.gov/septic/septic-systems-overview , &quot;The most serious documented problems involve contamination of surface waters and ground water with disease-causing pathogens and nitrates. Other problems include excessive nitrogen discharges to sensitive coastal waters and phosphorus pollution of inland surface waters, which increases algal growth and lowers dissolved oxygen levels. Contamination of important shellfish beds and swimming beaches by pathogens is a concern in some coastal regions.&quot; Please send the &quot;serious documentation&quot; that is stated. Please feel free to email me your response to this request. If you do plan to charge for this request, please send me an estimate of any costs before completing this request.</p>	6/11/2018

We have the risk assessment document in our files but do not have any review comments from EPA staff, any requested revisions, any approval correspondence, nor any Comprehensive Performance Test monitoring results that was required to demonstrate MACT compliance. We are not certain this is even the final version of the approved risk assessment. I am presently evaluating a new risk assessment that IDEM requested as part of a RCRA Part B Permit Renewal Application, and it would be helpful to see what approaches and inputs were previously approved by EPA. We respectfully request copies of all related correspondence specific to the 2002 risk assessment as detailed above. Thank you.</p>	6/6/2018

EPA-R2-2018-008397	Veronica Gonzalez		An October 31, 2017, news release by EPA, regarding Hurricane Maria updates, included the following information: "EPA has completed preliminary assessments at all accessible EPA-led Superfund sites, oil sites, and chemical facilities in both Puerto Rico and the USVI to determine if the sites were affected by Hurricane Maria, and is conducting follow-up actions, such as fence and structure repairs. In addition, EPA is coordinating with the lead federal agencies for two other sites, Culebra and Vieques. However, those assessments and corrective actions have not been made public, to my understanding. I therefore request that documents containing the following information be provided to me: "All documentation of assessments undertaken by EPA at all Superfund sites in Puerto Rico to determine any possible effects of Hurricane Maria or updates in the sites' status following Hurricane Maria and the sites' current status; "All documentation of follow-up actions taken, recommended, or proposed by EPA at these Superfund sites as a result of these assessments; "This request includes all documentation, data, plans, reports, or future projections, internal or otherwise, regarding post-Hurricane Maria assessments and actions at the Former Atlantic Fleet Weapons Training Area in Vieques, Puerto Rico. There is interest, in particular, in any documentation of possible further contamination at these sites, dispersal of munitions or contaminants to surrounding areas, or any other environmental phenomena related to a widening or shifting of the site's toxic footprint.	6/6/2018

EPA-HQ-2018-008369	Mr. Billy Watkins	My Sister Jacklyn Susan Marie Opp filed illegal tape recordings during her internship at the E.P.A. during the Summer of 2016, I filed this FOIA two months ago and only now received the need for clarification. I was held against my will by family who was so terrified of me looking into what my sister did that they kept me away from computers. But I filed a police report with a Micheal McTie at the Fort Collins Police Department so that will correlate my story as well as begin an investigation from a different side of the DOJ. I'm not going to stop! I was filmed my entire life and so were many other people! I can give any clarification that is within my capacity to give and my sister was only at the E.P.A. for a single summer, and these files have to be huge, in the gigabytes of video data therefore with just a small few months and knowing her full legal name as well as my accounts, are you suggesting you need clarification still? How many terabytes of data did she send that makes my videos hard to find? Especially given the files have NOTHING to do with anything remotely in the E.P.A.'s charter. These are illegal tapes of ME. Want more info? How about the other victims? Barbara from San Bernadino whose grandmother was a double agent for trafficking drugs, Jonathan from New York who lived underground in his childhood. Robert from Chicago who was locked in a garage for most of his childhood. Many more! I've met about 20 victims of this and know so much now, I can explain even why people like me and them were chosen as victims because our fathers and grandfathers made powerful people angry. I know the whole scam now! I just need help from ANYONE that is willing to spend a few seconds helping me by looking at what my sister and the people who helped my sister did.	6/5/2018
