I am looking for any EPA documents into its investigation in the Texas City Refinery for BP regarding BP's maintenance plan of asbestos or its pipe inspection maintenance in 2000's. This Texas City Refinery was likely investigated after the explosion in 2005. It was sold to Marathon and I believe the address is 502 10th St S, Texas City, TX 77590. I am unsure under which Act or Acts the EPA investigated BP; however, as I indicated, I would like to better understand the findings of EPA regarding thermal insulation and corroded piping.

â€¢ I would like all information available publicly;

â€¢ I do not need a denial log at this time;

â€¢ I will not need PBI at this time

â€¢ I am agreeable to the limit of \$100

Dear Chief FOIA Officer:

This is a request under the Freedom of Information Act. I request records of and relating to air monitoring conducted by EPA and/or its contractors on October 21, 2016, in Atchison, Kansas. On that day, EPA and/or its START Contractor conducted air monitoring, including through use of MultiRAE detectors, to monitor for the presence of chlorine at or near Atchison, Kansas, including the MGPI Processing facility.

I request all records in EPA's possession related to the above referenced monitoring. The materials I request include, but are not limited to, the following:

- data collected by the MultiRAE detectors;
- any other air sampling or air monitoring results;
- communications regarding air sampling or air monitoring results.

I am willing and able to pay reasonable fees incurred in collecting responsive materials. My contact information is included in this request. Please let me know if you have any questions.

Sincerely,
Jessica Merrigan

Performing a Phase I ESA and would like information regarding the site of interest.
The address for the property does not jive with the location of interest. I have added a map to show the location of the site and the address which is not exact.
The address of the site as per HCAD: 4403 LA PORTE FWY
PASADENA TX 77503. However when I search on the FOIA the location shifts to a more north location.
The provided address by the company is: 4403 A Pasadena Freeway - Hwy 225 W

My sister Jacklyn Susan Marie Opp worked for the Obama administration in Washington D.C. as an Intern at the E.P.A. for 6 months during the Summer of 2016 and she delivered illegal recordings of me through her work from the time I was a small child for decades afterwards. The footage will show many forms of abuse and attempts to murder me. I do not know the exact mechanism she used to transfer the data, whether they were physical recordings or digital but looking into things transferred from the E.P.A. to others in the E.P.A. & other departments (including the D.O.E.) may reveal the material .

She is only 3 years older than me and so it was not her prerogative at a young age to film - but she participated in the recordings and at the behest of others abused me while we were both filmed in childhood and into adulthood. While many were involved my grandparents are in particular connected - my father's mother Louise Watkins and my mother's mother Linda Dale Harris are good places to look. My mother was also heavily involved but I do not know if she would be cooperative.

There were many involved - and it involved a religious element as I was born on May 13 1982 - and exactly 1 year before that to the day Pope John Paul II was shot 4 times and nearly assassinated - as bizarre as it may sound the actions taken against me may have been a revenge for that act due to the timing of my birth.

As one example out of many I could give - I was brought as a young teen to a dangerous river with sharp rocks at the bottom and asked to jump into it from a cliff- while I did jump in I didn't jump from the cliff and as a result I lived (barely). This event tho I never told a single soul about it was joked about to me a decade later by people with no connection to me or awareness of it. "For cameras" - a show about my death - when the Pope died in 2005 they had me switch jobs - well there's too much to say with so little room. I hope you'll take this seriously and look.

The FOIA request is for all documents related to the Ringwood Mines Superfund Site, Ringwood New Jersey. The requester requires all documents the USEPA has in files regarding correspondents between the USEPA and the USEPA National Remedy Review Board. This includes all written and electronic documents, e-mails and exchanges of any form. The date range for the request is January 1, 1995 and May 10, 2019 any documents, testimony, phone logs, reports or deliverables regarding the Ringwood Mines Superfund Site. The specific agencies involved are the USEPA Region 2, Headquarters Washington, DC and National Remedy review board. The requestor wants the entire administrative record as it pertains to materials presented to or in the possession of the USEPA National Remedy Review Board and its members during the requested years. Documents, e-mails and other deliverables related to the Ringwood Mines Superfund Site. Since this site was the first and only Superfund Site listed, delisted and relisted again the documents for this request cover both submissions by the USEPA and NRRB including those of Region 2, Washington D.C. Headquarters and the of the Washington NRRB. The requester wants the entire and complete administrative record related to the NRRB and the USEPA proposed plans for the site wide cleanup. This includes all remedial and removal work on the site, Peters Mine, O'Connor Disposal Area, Cannon Mines and Ringwood Municipal Landfill. All power point deliverables as well as significant public comments within these records and this request covers the release of the entire NRRB files for both times the site was listed on the NPL. This also includes digital photos, sampling results and stakeholder packages submitted by the USEPA on behalf of the public and other parties and is not subject to any restrictions as there is no deliberative process or other reason to withhold any part of the FOIA request.

Dear Sir/Madam,

I am an academic researcher at the University of Mannheim, Germany. For my research purpose, I am interested in archived frozen data snapshots from Enforcement and Compliance History Online (ECHO) system at the end of each fiscal year 2000 - 2018 (or whenever is available to the agency). I require the frozen yearly snapshots as the weekly snapshot that is available misses important time series variation in the facility level data that is crucial for research outcome.

It will be really helpful if you can kindly provide me the data. As an academic researcher, I declare that I will not use this data for any commercial purpose. Additionally, I am committed to disseminate the final data and the result of my research findings to the general public. I can also provide EPA a consolidated ECHO data file out of my research exercise which the agency can use in any way they seem appropriate.

Please provide all Documents related to Colorado's 2018 monitoring data subject to certification under 40 CFR 58, and Appendix A to the same. This includes all data collected by Federal Reference Method, Federal Equivalent Method, and Approved Regional Method monitors at any State and Local Air Monitoring Stations or Special Purpose Monitor stations that meet the criteria in Appendix A, from January 1, 2018 through December 31, 2018. This includes any ambient concentration data and the quality assurance data submitted to the Air Quality System (AQS) by Primary Quality Assurance Organization 0240, Colorado Department of Public Health and Environment, Colorado Air Pollution Control Division, or the Colorado Air Quality Control Commission (the Subject Matter). The data sought is exclusively ozone related.

For the purposes of this FOIA request:

Documents means:

(1) any certification letter submitted by Colorado for the 2018 data year; (2) any attachments to that certification letter; and (3) a download of associated information submitted by Colorado to the AQS database for the annual certification between January 1, 2018 - December 31, 2018 that is related to the Subject Matter of this Request.

The requester is entitled to a fee waiver because she is a member of the news media, and because this request for records concerns activities or operations of the government. Disclosure of the requested records will likely increase public understanding of government operations since the requester has the ability and the intention, through the means described below, to effectively convey information contained within the requested records to a broad public audience. Requester is a journalist who works with the Food & Environment Reporting Network and frequently writes about pesticides and their impacts on the environment.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

EPA-HQ- 2019- 005593	Steve VanderGriend	ICM Inc.	<p>Rafal Sobotowski and Aron Butler, both from EPA's OTAQ, National Vehicle and Fuel Emissions Laboratory located in Ann Arbor MI have presented data in 2018 and 2019 from a specific vehicle study conducted by EPA. Testing was conducted using six GDI vehicles testing 6 E10 fuels. Testing included both FTP and US06 drive cycle data and some testing done at lower temperature. The Urban Air Initiative (UAI) is requesting all vehicle emission and fuel data from this testing. Testing data was likely generated in 2017 since modeling data was first noted by UAI in March of 2018. Attaching a presentation given in March of 2019 which presents just a small fraction of total emission data typically generated. UAI is also requesting speciation data which is noted in this presentation as also being collected.</p>	5/8/2019

This is a request under the Freedom of Information Act, 5 U.S.C. Â§ 552, as amended (â€œFOIAâ€) from E&E News, an independent environmental news service.

E&E requests records of the following type in the possession, custody, or control of the U.S. Environmental Protection Agency (â€œEPAâ€) for the time period starting from Sept. 28, 2017, through the present: All emails, text messages, faxes, voice mails, and other form of communications from, or to, EPA Regional Administrator Peter Lopez that mention "Limetree Bay," "Hovenssa," or "Arclight Capital."

If possible, I would prefer to receive the largest number of records or documents in electronic form. Please produce the documents on a rolling basis.

FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance.

If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination.

EPA-R2-2019-005578	Corbin Hiar		As required by FOIA, I look forward to hearing from your office within 20 days in response to this request. If you have any questions about the nature or scope of this request, please call me at 202-446-0438 or email me at chiar@eenews.net. Thank you for your consideration of this request.	5/8/2019

I am writing on behalf of the Democratic National Committee to request from the Environmental Protection Agency the following records:

• Copy of all calendars, agendas, or any other record of the schedule of Andrew Wheeler from October 1, 2018 to March 31, 2019. The records requested should be fully expanded to show the date, time, place, attendees and purpose or subject of each meeting, event, speaking engagement, conference, phone call, business meal or other calendar item.

The Democratic National Committee is not a commercial requester. We understand that there might be costs associated with this request. We would request a waiver of fees and ask for you to contact us by e-mail at researchinfo@dnc.org before incurring charges if this request will be in excess of \$50.

Our preferred reproduction format is an electronic file e-mailed to researchinfo@dnc.org. If this is not possible, we request that you provide access to these records electronically via an FTP site, or mail electronic copies of the records to us on removable media, such as a CD or flash drive. If none of these delivery methods are feasible, we request that you mail paper copies of the records to us at the following address:

Democratic National Committee
Attn: Research Department

Re: Freedom of Information Act Request

Dear Freedom of Information Act Officer:

This is a request under the Freedom of Information Act.

I request a copy of documents containing information on the calendar or calendar entries of EPA Chief of Operations Henry Darwin from April 1, 2019, to April 30, 2019.

These documents could include, but not be limited to, itineraries, scheduling documents, or correspondences detailing meetings in person, over the telephone, or online including a list of each meeting's attendees and any correspondences on what was discussed. For calendar entries included in Outlook or similar programs, please produce the records in memorandum form to include all invitees, notes, and attachments.

In order to help to determine my status to assess fees, you should know that I am a reporter with Bloomberg Environment, and this request is made as part of news gathering and not for a commercial use.

I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first. Please contact me if you have any questions.

Thank you for your consideration of this request.

Sincerely,

Abby Smith

Request a copy of the RMP*National Database without OCA Data through April 2019 to use with RMP*Review. This request should be directed to the Office of Emergency Management. The request is made on behalf of the Ammonia Safety and Training Institute (ASTI), which is a non-profit organization devoted to improving the safe handling and use of ammonia. The material will be used for public presentations on accidental releases to prevent future incidents, and further the purposes of Federal legislation under the CAA of 1990 and EPA regulations on chemical safety (RMP). The information will also be used for a June 2019 safety day presentation in cooperation with EPA Region 5.

The listings specify that the SEMS case was not placed on the National Priority List and was deferred to RCRA. The RCRA cases status indicates that the site underwent a RCRA Facility Assessment and it was determined that a RCRA Facility Investigation was not necessary. The OH UNREG LTANKS listing (incident # 18937600) indicates that a release was confirmed at the site. No further information on the release was given in the records that I have. Does the R5 office have any further information on the incident(s)? I contacted Ohio EPA and they said there are formal closure events for the site in early 1980s and the regulatory authority was US EPA and not Ohio EPA. The closure plan was approved but there's no indicator showing if the closure was completed. Ohio EPA referred me to R5 for more information.	4/30/2019

I would like all emails pertaining to the EPA website page changes regarding cell phone and wireless radiation. The page used to be this page at least until Fall 2018.
<https://web.archive.org/web/20181115201441/http://www3.epa.gov/radtown/subpage.html?scene=The+Burbs>

Then the EPA updated the site and removed this.
 Now the current pages are

1. "Where can I get information about electromagnetic radiation from cell phones?"

Any and all documents concerning EPA's reevaluation of the regulatory process for states to restrict pesticide uses beyond the federal label under Section 24(c) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) dating from January 2017 to the present. 4/29/2019

The version of Rule 15A NCAC 2Q.0525 which was submitted to EPA on July 29, 1998. This should be in the docket NC-T5-2001. It is referenced in 66 Fed. Reg. 31,575, 31,577 3rd column (June 12, 2001) which says:

North Carolina made several additional program changes after EPA granted interim approval on November 15, 1995. The operating permit application processing schedule in Rule 15A NCAC 2Q.0507(f) was deleted and replaced with a new application processing schedule in Rule 15A NCAC 2Q.0525. The new schedule established time frames for the State to complete various aspects of permit issuance, including acknowledging receipt of the application, the completeness check, the technical review, mailing the public notice, and holding a public hearing if one is requested. Rule 15A NCAC 2Q.0525 was initially submitted to EPA on March 23, 1995 and then the State amended it to ensure that final action on permit applications would be taken within 18 months of being deemed complete, as stipulated in 40 CFR 70.7(a)(2). The amended rule was submitted to EPA on July 29, 1998.

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

During the past few elections, numerous states have had issues with humidity causing ballot scanners/tabulators to stop working (<https://qz.com/1449303/midterms-2018-how-humidity-affects-voting-machines/>). Scientists have indicated that with climate change, humidity will increase (<https://e360.yale.edu/digest/global-warming-could-cause-dangerous-increases-in-humidity>). Thus, I am requesting all materials on or related to the impact of climate change on elections and ballot processing due to humidity. Materials include, but are not limited to, the following:

• Emails from November 2018 to the present containing the keywords "ballot scanner," "ballot tabulator," "ballot," "humidity," "elections," and/or "climate change"

• Studies and/or reports on the impact of climate change on elections

• Any policy directives, guidance documents, memorandum, training materials, or similar records

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Under the Freedom of Information Act, 5 U.S.C. subsection 552, I am requesting any and all communication sent and received by Dr. Michael Honeycutt since January 1, 2018 relating to his work on the EPA's Science Advisory Board.

Communication includes, but is not limited to, emails, memos, letters and text messages. For emails, at a minimum, EPA must do a search for the following terms: "science advisory board", "SAB", "board", "advisory", "MATS", "mercury", "hydrochloric acid", "ethylene oxide", "IRIS", "biogenic", "BAF", "chloroprene", "particulate matter," "PM2.5", "PM", "PM10" and "smog."

I am only requesting publicly available information. Please exclude confidential business information.

Grist Qualifies as a Representative of the News Media

Founded in 1999, Grist is an independent, non-profit publication that pursues in-depth stories on under-covered topics like clean energy, sustainable food, livable cities, environmental justice, and a better economy. We elevate solutions, expose inequity, and give our readers the context, knowledge, and tools to make a difference.

If this request is denied in full or in part, please cite the exemptions pursuant to 5 U.S.C. Â§ 552(b) that justify the denial. If an exemption applies, however, please consider exercising the agency's discretionary release powers to disclose the records. Additionally, please release all reasonably segregable portions of the records as they are collected. If you have any questions about handling this request, please don't hesitate to call me at the following number 917-593-6683 or email me at nsadasivam@grist.org

Re: Gowanus Framework/Gowanus Neighborhood Planning Study

☐

Dear Sir or Madam:

After reviewing the Department of City Planning's website re: Gowanus Framework/Gowanus Neighborhood Planning Study, I learned about various neighborhood studies that were conducted regarding this project; however, none of the studies were available online.

Pursuant to the Federal Freedom of Information Act (5 U.S.C 552 et seq.) dealing with the examination and duplication of documents maintained by public agencies, I would like to request a copy of all the studies, plans and reports related to the Gowanus Framework/Gowanus Neighborhood Planning Study. The Subject Project is Brooklyn, New York.

I was advised by DEC that EPA is the leading agency for this project and would be the best agency to gather this information. Please contact me at 212-421-2150 with any questions or send your response to my attention at nduncan@sprlaw.com.

Thank you in advance for your cooperation.

Sincerely,

Natoya Duncan

I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.</p> <p>Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.</p> <p>Sincerely,</p> <p>Taylor Amarel Scott</p> <p>Update 7/11/19: If its acceptable, you can limit the search to the following search terms: "liberals", "kushner", "Giuliani", "Mastroianni", "Elliott Broidy", "Mark Siffin", "EB-5", "George Nader", "Erik Prince", or "whistleblower". You may also limit it to only emails that were sent by Susan Bodine.</p> <p>Update 8/7/19 I am willing to restrict the search further, however, it is worth noting: 1.) Almost all other Federal Agencies have been able to respond to such requests for emails identified by key-strings; 2.) The keystings are the topics of information that I am requesting and also the key to conduct a text based search; 3.) Government employees, through their regular work, routinely search emails by key-strings, therefore it is not a complex or burdensome task to complete. With that in mind, I am willing to limit my request to the following key-strings and timeframe: -Key-Strings: "Giuliani", "Mastroianni", "Elliott Broidy", "Mark Siffin", "EB-5", "George Nader", "Erik Prince"; Timeframe: 1/1/16 to 1/1/17</p>	4/22/2019

Re: FOIA Request

I am requesting, under the Freedom of Information Act (FOIA), records for the following property:

12500 North Professor St. Oberlin, OH 44074
(Lat: 41.303262, Lon: -82.226779)

Please provide the following information for the above property:

Any records pertaining to past or present: environmental matters; alleged or confirmed compliance issues; hazardous materials use or storage at this property; alleged or confirmed releases on this property; environmental complaints, investigations, or violations; environmental liens, use or activity restrictions; and/or building or demolition permits, approvals or records, records of storage tank (underground or aboveground) installation or removal.

In order to help to determine my status for purposes of determining the applicability of any fees, you should know that I am affiliated with a private corporation and am seeking information for use in the company's business.

I am willing to pay fees associated with this request but request to be advised of estimated costs prior to any such costs being incurred.

If you deny any part of this request, please cite each specific reason that you think justifies your refusal to release the information. Please notify me of appeal procedures available under the law.

Re: FOIA Request

I am requesting, under the Freedom of Information Act (FOIA), records for the following property:

1090 East Union Street, San Luis, AZ 85349
(Lat: 32.498751, Lon: -114.773874)

Please provide the following information for the above property:

Any records pertaining to past or present: environmental matters; alleged or confirmed compliance issues; hazardous materials use or storage at this property; alleged or confirmed releases on this property; environmental complaints, investigations, or violations; environmental liens, use or activity restrictions; and/or building or demolition permits, approvals or records, records of storage tank (underground or aboveground) installation or removal.

In order to help to determine my status for purposes of determining the applicability of any fees, you should know that I am affiliated with a private corporation and am seeking information for use in the company's business.

I am willing to pay fees associated with this request but request to be advised of estimated costs prior to any such costs being incurred.

If you deny any part of this request, please cite each specific reason that you think justifies your refusal to release the information. Please notify me of appeal procedures available under the law.

Responses may be emailed (to amy@RMAgreen.com) or mailed directly to our office. Thank you for your prompt attention to this matter.

On behalf of the Houston Chronicle, I request all correspondence between staff of certain EPA's Region 6 offices (those are: the regional administrator and staff, the deputy regional administrator and staff, the compliance assurance and enforcement division, and the superfund division) and any employee of KMCO from 4/1/2019 and 4/18/2019 regarding any violations, site inspections, compliance requirements, investigation, flood risks, flood control, flood prevention, flooding, enforcement actions, regulatory oversight, emergency response, hazardous waste disposal, accident planning or prevention related, and the decision making process regarding how to proceed with the situation created by KMCO's explosion and fire at its 16503 Ramsey Road in Crosby, Texas (EPA facility identifier 100000118623). I request only publicly available information. The correspondence should include anything whether sent or received via email, phone text messages, fax or postal mail. I'd like to get responsive records emailed to me as PDFs to my email address or, if another request is already being processed and records are being produced in another format, I will accept records in that format in order to expedite release of records to the Houston Chronicle and lessen the workload on your staff. If records exceed 50 pages, I ask that they be made available to me on a rolling basis, meaning as they become available for release after any FOIA review process, rather than delaying release until the last document is ready. I'd like to get responsive records emailed to me at [REDACTED] I agree to the release of records on a 30-day rolling basis. I also ask that you communicate with me by email or phone at 602 295 0384 to expedite the FOIA process. Thank you.

We request the following records that are in the possession of the Environmental Protection Agency (EPA). Each of the following requests is made in the context of any projects undertaken in Colorado by any of the following entities, which together will be referred to as "Developers": Mile High Wetlands Group, LLC; Farmers Reservoir and Irrigation Company; Henrylyn Irrigation District; Burlington Ditch Reservoir and Land Company. Specifically, we request the following records:

- (1) Any and all Records of Permits granted by EPA to Agencies or Developers with respect to the Mile High Wetland Bank project that was initiated on or about August 1999 in Colorado.
- (2) Any and all Records of Permits granted by the Agencies with respect to other Projects undertaken by the Developers between January 1, 1999 and the present in Colorado.

For purposes of this request, "Permits" means any permits, permit modifications, or other approvals granted under or related to the Clean Water Act, including any applications or requests therefor.

For purposes of this request, "Records" means information of any kind, including writings (handwritten, typed, electronic or otherwise produced, reproduced or stored), draft documents, letters, memoranda, correspondence, notes, telephone conversations, telefaxes, e-mails, documents, data bases, drawings, graphs, charts, photographs, minutes of meetings, electronic and magnetic recordings of meetings, and any other compilation of data from which information can be obtained.

I hereby request the following records: 1. All correspondence (written, e-mails, and the like) exchanged between EPA Region 10 and the industry group known as "Save Family Farming," including its affiliate "Yakima Family Farmers," a/k/a "Eastern Washington Family Farmers." Please also include any correspondences exchanged between EPA Region 10 and any official representative of the aforementioned industry trade groups. Please search for records from January 1, 2018 to the present. 2. A complete copy of the records produced to Jay Gordon, Washington State Dairy Federation, in response to FOIA EPA-R10-2019-002479. Please include any decision reached by EPA on whether to grant or deny the fee waiver request made by Mr. Gordon and the Dairy Federation. This is intended to be a narrow FOIA request. This request does not seek responsive records concerning or related to the "What's Upstream" program. It does not seek records created, exchanged, or produced in the official course of implementation and compliance with Administrative Order on Consent, SDWA-10-2013-0080, including records that are transmitted to this law office by Mark Larsen, Anchor QEA, or the respondents to the Administrative Order on Consent. I will be readily available to modify this request, narrow its scope, or discuss search terms, should such efforts become necessary. Electronic records are preferred. If the size of the records exceeds 100 MB, please contact the undersigned about production on a CD, DVD, USB thumb drive, or other electronic media. 1. Official representative expressly includes Gerald Baron. It should also be construed as including any representative contacting EPA directly on Save Family Farming's behalf.

**It is May 20, 2019 and I have not received any response from EPA to this request as required by law. Please respond to this request. I am looking for copies of the FTTS database or FTTS database reports for any state or region that EPA has. I have tried requesting copies of reports for certain states from the Regions and have been unsuccessful. I have the capability of converting Paradox databases to current database formats, so any previous database files or reports made from those older databases would be useful. I am hoping that the PCB or TSCA programs may have old copies. Please contact me with questions. Thank you very much for your help with this.

Subject: Corrosivity Characteristic - Final Determination on Tentative Denial - 2016 FR Publication

Hello Mr. Helms,

Mike Williams with Golder Associates here.

We are researching a tentative denial federal register publication and you were listed as the contact at that time. Thus I was wondering if you could shed any additional light on the final determination, if any from EPA on the Tentative Denial that was published in the Federal Register on April 11, 2016 (page 21295) for a proposal to revise the RCRA Corrosivity Hazardous Characteristic. See 2016 link below.

After you have a chance to get back up to speed on it, could you please advise on what you can find or if I need to forward to another party, please advise.

Thank you.

I represent hundreds of property owners. The property owners sustained major flood and contamination damage to their homes and property, during and after Hurricane Harvey in 2017, when Phillips 66 Company blocked public waterways, pumped water from its plant and released water from its reservoirs at its Sweeny, TX complex into the surrounding community. Pursuant to 5 U.S.C. Â§ 552, the plaintiffs have a right to access government records and public information. We are only seeking public information. We do not need a log of withheld information and do not wish to substantiate PBI.

Please allow this letter to serve as a request for all documents, information, memos, reports and any other materials related to reports, inquiries and investigations into releases by Phillips 66 Company, Chevron Phillips Chemical Company, LLC and Chevron Phillips Chemical Company, LP during or immediately after Hurricane Harvey, specifically, from August 17, 2017 to December 1, 2017:

1. All documents regarding contamination, oil spills, leaks or other reportable incidents at the Phillips 66 Company, Chevron Phillips Chemical Company, LLC and Chevron Phillips Chemical Company, LP facilities in Sweeny, TX.
2. All correspondence with Phillips 66 Company, Chevron Phillips Chemical Company, LLC and Chevron Phillips Chemical Company, LP regarding contamination, oil spills, leaks or other reportable incidents at their Sweeny, TX facilities.
3. All reports relied on or created by the EPA regarding complaints and incident reports related to contamination, oil spills, leaks or other reportable incidents at the Phillips 66 Company, Chevron Phillips Chemical Company, LLC and Chevron Phillips Chemical Company, LP facilities in Sweeny, TX.
4. All citations, warnings or fines issued to Phillips 66 Company, Chevron Phillips Chemical Company, LLC and Chevron Phillips Chemical Company, LP regarding contamination, oil spills, leaks or other reportable incidents at their Sweeny, TX facilities.

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

A copy of all communications, memos, environmental impact reports, and plans or proposals regarding the storage and disposal of nuclear waste at the Yucca Mountain Nuclear Waste Repository from 2014-2019.

I would also like a copy of all communications and documents regarding the plan to store nuclear waste at the Skull Valley Goshute Indian Reservation from 1992-2006. Please be sure to include any communications sent to or from employees/representatives of Private Fuel Storage, LLC in your search. In addition, if there are any responsive documents from files retained from the now-defunct Office of the United States Nuclear Waste Negotiator,

I request that I be properly classified as a news media requester. I am an intern for MuckRock, and I am requesting this information in that editorial capacity. MuckRock is widely known for its investigative work as well as historical pieces based on public records requests.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Re: Freedom of Information Act Request

Dear Freedom of Information Act Officer:

This is a request under the Freedom of Information Act.

I request a copy of documents containing information on the calendar or calendar entries of EPA Administrator Andrew Wheeler from March 1, 2019, to March 31, 2019.

These documents could include, but not be limited to, itineraries, scheduling documents, or correspondences detailing meetings in person, over the telephone, or online including a list of each meeting's attendees and any correspondences on what was discussed. For calendar entries included in Outlook or similar programs, please produce the records in a memo form to include all invitees, notes, and attachments.

In order to help to determine my status to assess fees, you should know that I am a reporter with Bloomberg Environment, and this request is made as part of news gathering and not for a commercial use.

I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first. Please contact me if you have any questions.

Thank you for your consideration of this request.

Sincerely,

Abby Smith

EPA-R4- 2019- 004665	Chris Bird	ERM, Inc.	I am requesting records regarding the property located at 55 Hamilton St, & 101 2nd St, Somerville, NJ. Specifically, I am looking for records regarding the storage and/or release of hazardous substances or petroleum products, including any incidents involving water or land contamination, hazardous waste manifests, and any permits, registrations, inspection reports, and/or notices of violation. Thank you!	4/1/2019

4/11/2019 - I am interested in any report or study which shows evidence of pollution that can be traced to the PES/Sunoco's refinery in Philadelphia that affects the NJ side of the Delaware River for drinking water used by towns along the river or in the underground aquifer. The time frame is from 2009 to the present.

When I read about the possibility of Pollution in the aquifers and drinking water in NJ alarmed me and I am doing research to find facts relating to this. A report was issued 9/20/2018, authored by Christina Simone, Director of Policy and External Affairs, Kleinman Center for Energy Policy, at the University of Penna, 267-997-7257 (c) 215-573-4096 (o) csimeone@upenn.edu & <https://kleinmanenergy.upenn.edu/>. She has done extensive research regarding the shaky finances of the refinery and the pollution into the air, land and water.

I call your attention to this link of the entire study, which lists the chemicals found in each of the eleven (AOI) Areas of Interest. Please look at this attached report for AOI # 11 and the chart on page 59, as it relates to possible pollution in NJ aquifers, which is my focus:
https://kleinmanenergy.upenn.edu/sites/default/files/proceedingsreports/Beyond-Bankruptcy_0.pdf

As a result of reading this report, I am deeply concerned about what effect this has on the drinking water for the residents of NJ. I request to have all documents, studies, reports, maps, etc. from any and all information that has been conducted by the EPA or any other governmental agency, non-profit, business or any other entity that you have in your records pertaining to the possible pollution of the NJ aquifers and drinking water by this refinery from the Delaware River and its tributaries on the NJ side of the river. The time line is 2009 to Present.

I request that you make available to me the following records:
Pesticide Emergency Exemptions (Sections 18s) granted by the EPA between January 1, 2018 and April 1, 2019.

I am requesting the record listing all of the exemptions (database or record layout). In addition, please include all relevant documentation regarding this data. I will not be using this data for commercial gain, but rather the release of this information will be used in the public interest and will significantly contribute to the public understanding of government operations and activities. Because of this I would like to request a waiver of all fees associated with this request. If a waiver is not granted, please let me know what the cost of the data will be before proceeding with this request.

For the record layout documentation, in keeping with 5 U.S.C. Â§ 552(a)(3)(B), agency FOIA guidelines and presidential directives regarding the release of public data in machine-readable format, I request that these records be provided in an electronic format that can be imported into standard database software. Examples include an Excel .xls or .xlsx file, an Access.mdb or .accdb file, a textbased delimited file (.csv, .txt., .tsv., etc.), a .dbf file or an SQL dump. (This would not include PDFs, which are not readable by database software.)

To Whom It May Concern,

I am seeking copies of assessments and inspection reports related to Naturally Occurring Asbestos in Eastern Sacramento. Specifically, the following:

1. reports that identified asbestos in areas in El Dorado Hills and Folsom.
2. reports identifying asbestos that was found in non-native soils, such as infield mix used on playing fields.
3. records, documents, and or construction records detailing the development of El Dorado Hills, including by not limited to as-builts for utility lines.
4. In addition, any news clippings and research conducted on the history of El Dorado Hills. Specifically, reference to the information found in the report titled, "El Dorado Hills Naturally Occurring Asbestos Multimedia Exposure Assessment..." Preliminary Assessment and Site Inspector Report, where it references that El Dorado Hills was created in by the El Dorado County Boards of Supervisors through resolution 98-62. I'm looking for any other records or research that was used to come up with this information.

EPA-R10-2019-004515	Robert B Barnes		Please provide all EPA Region 10 report(s) regarding State of Washington Pollution Discharge Elimination System, including but not limited to the State enforcement program under the Clean Water Act NPDES Program. I am requesting a copy of records related to the Sundberg Gravel Mine located at 2200 Cooper Point Road NW in Olympia, WA 98501. This site has been used as an unpermitted and unregulated landfill. The site is located only four minutes from the largest toxic waste site in the South Sound. There is evidence that the Port of Olympia may have illegally dumped sediments from the Cascade Pole Site here at one time. I am concerned about potential contamination of groundwater, surface water, and protection of human health in water quality standards under the Clean Water Act. There is a proposal to develop 181 houses on this 50 acre site (Parcel No's 81700000000, 74202900000, 74202500200, and 74202500100) on the former gravel mine and toxic dump. The proposed development is at the headwaters of the last remaining undeveloped area of the Green Cove Creek watershed. This is an extremely critical aquifer recharge area of the Green Cove Basin as indicated on the City and County's 1998 Green Cove Comprehensive Plan. Contamination of the aquifer at this site will affect the groundwater for miles around, threatening individual wells (including mine) that supply 40% of Olympia resident's water. The proposal potentially impacts Federally protected waters, as Green Cove Creek and Butler Creek empty into Eld and But Inlet, respectively. Federal law requires that the responsible jurisdiction conduct thorough testing for toxicity on the proposed site, and an analysis of sediment runoff before any soil can be disturbed. In addition, the National Pollutant Discharge Elimination System (NPDES) of the EPA maintains that a city may be held fully liable for any contamination that enters into the streams and groundwater that enters into Federally protected tidal waters.	3/25/2019

EPA-R6-2019-004509	Chris Jackson	Farmer Environmental Group	Farmer Environmental Group is requesting prior environmental reports (e.g. soil/groundwater sampling reports, remediation reports) regarding the following site in Odessa, Ector County, Texas: Site Name: ODESSA DRUM CO INC Site ID: TXD008012254 Site Address: 2214 ALICE ST, ODESSA, TX The following is a brief summary of what has prompted our interest in the EPA reports: Odessa Drum Co. was a drum reconditioning business that operated between 1962 and 1990. When the business closed, approximately 100,000 drums were abandoned on-site. The business was not permitted to accept waste, but 12,000 drums and five large storage tanks did contain hazardous materials and waste. EPA conducted site remediation in three phases: 1) drum, tank, and waste removal, 2) soil sampling to delineate contamination, and 3) soil excavation and disposal. These activities were conducted between 1990 and 1997. I think we can narrow the timeframe down to the 1990s, unless there is readily accessible information regarding the SEMS-ARCHIVE status (reportedly archived during 2013). I would like to narrow the scope to only documents related to the assessment and remediation activities. I do not need any of the legal/lawsuit information, project funding information, Potentially Responsible Party (PRP) documentation, or information that would require a substantiation process. An example of the type of report that I'm looking for was referenced in data provided by the TCEQ as the "EPA Site Assessment Report" dated 1992.	3/25/2019

EPA-R5- 2019- 004485	Tess Nugent	Arcadis U.S.	I am requesting information regarding the property at 200 South Michigan Avenue, Chicago, Illinois, currently owned by Alliance HSP. Specifically, I would like records regarding the storage and/or release of hazardous substances and petroleum products, as well as environmental permits, plans, registrations, inspection reports, notices of violation, investigations, and related correspondence.		3/22/2019

Looking for reports, sample data, and maps related to the Starvaggi Machine Shop on Potomac Avenue, Weirton, Hancock County, West Virginia, 26062.

The facility is listed in the US Brownfields database; Cooperative Agreement Number: 97384901. The Property was used as a construction vehicle maintenance facility since the 1960s. The facility was historically used as a coal strip mine. A 2011 Phase I Environmental Assessment and 2012 Phase II Environmental Assessment on the approximate 22-acre facility are also referenced. Non-specific institutional controls at the facility are also indicated in the database.

Review of the available online USEPA Brownfield website only indicated soil impacts from polycyclic aromatic hydrocarbons are present at the facility.

I am seeking more specifics on where the samples were collected, specific laboratory results, agency correspondence, and any environmental reports that were prepared for the facility (Phase I and Phase II ESAs).

To Whom It May Concern:

This is a request under the Freedom of Information Act (FOIA). I request all records concerning Kenneth Wagner's schedule from April 2017 to December 2018.

Please include all records that document Wagner's schedule, including but not limited to agenda sheets, appointments, day calendars, itineraries, Google calendars, Outlook calendars, programs and timetables.

If possible, I would prefer to receive the largest number of records or documents in electronic form.

FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance.

If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination.

As required by FOIA, I look forward to hearing from your office within 20 days in response to this request.

To Whom It May Concern:

This is a request under the Freedom of Information Act (FOIA). I request all records concerning Elizabeth Tate Bennett's schedule from January 2017 to the date on which this request is filled.

Please include all records that document Bennett's schedule, including but not limited to agenda sheets, appointments, day calendars, itineraries, Google calendars, Outlook calendars, programs and timetables.

If possible, I would prefer to receive the largest number of records or documents in electronic form. Please produce the documents on a rolling basis.

FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance.

If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination.

As required by FOIA, I look forward to hearing from your office within 20 days in response to this request.

If you have any questions about the nature or scope of this request, please call me at 202-446-0438 or email me at chiar@eenews.net.

Thank you for your consideration of this request.

EPA-R5-2019-004450	Mr. Carson Colletier	UES Consulting Services, Inc.	I am requesting any CORRACTS related documentation for the facility Vector Packaging located at 102 E Bailie Street in Kentland, Indiana. The EPA ID is IND000708545, NAICS code is 326121. The facility has several CORRACTS listings in 2015, including listings in 1993 and 2014. It is reported that migration of contaminated groundwater is under control, and that current human exposures are under control. This implies that groundwater/soil sampling has been performed, so I am also requesting any environmental reports/assessments, including media sampling/monitoring reports conducted on the property. I am not interested in the large quantity hazardous waste generator (RCRA-LQG) listing, as I have documents related to it from the state. I am performing a Phase I Environmental Site Assessment on the east adjoining property. Thanks in advance!	3/21/2019

This request is for a full copy of the letter sent on January 7, 2019 to the Mountain Valley Pipeline Joint Venture from the U.S. Attorney's Office for the Western District of Virginia. The contents of the letter are believed to include a statement that the U.S. Attorney's Office and the EPA are investigating potential criminal and/or civil violations of the Clean Water Act and other federal statutes as they relate to the construction of the Mountain Valley Pipeline. It is further believed that the January 7, 2019 letter requests the Mountain Valley Pipeline Joint Venture and its members, contractors, suppliers and other entities involved in the construction of the Mountain Valley Pipeline to preserve documents related to the Mountain Valley Pipeline generated from September 1, 2018 to the present.

It is further requested that all correspondence between the EPA and the Mountain Valley Pipeline Joint Venture related to the criminal investigation cited in Mountain Valley Pipeline Joint Venture's SEC filings be released.

On behalf of the Renewable Fuels Association, I request the following under the Freedom of Information Act:

1. Every record embodying a final agency determination from EPA under 42 U.S.C. Â§ 7545(o)(9)(B) that a small refiner or refinery is exempt or not exempt from compliance with the requirements of 42 U.S.C. Â§ 7545(o)(2);
2. Every record embodying the Department of Energy's recommendation for every small refinery exemption extension application pursuant to 42 U.S.C. Â§ 7545(o)(9)(B)(ii), including every record received by EPA entitled "DOE Application of the Small Refinery Scoring Matrix for the [NAME OF REFINERY] Refinery for Exemption as an Obligated Party under the Renewable Fuel Standard";
3. Every small refinery exemption scoring matrix prepared by the Department of Energy and sent to EPA to accompany DOE's small refinery exemption extension recommendation memorandum, referenced in request #2, above; an example of which is reproduced in Ergon-West Virginia, Incorporated v. United States Environmental Protection Agency, 896 F.3d 600, 608 (4th Cir. 2018);
4. Every record relating to "disproportionate economic hardship, viability, or refinery operations being significantly impaired" that was used or created in connection with any final agency determination under 42 U.S.C. Â§ 7545(o)(9)(B);
5. Every record provided by EPA to the Department of Energy or to any Congressional committee, subcommittee, or member office explaining why EPA disagreed with any recommendation from the Department of Energy to approve or deny, partially or fully, any request by a small refiner or refinery for an exemption under 42 U.S.C. Â§ 7545(o)(9)(B) from compliance with the requirements of 42 U.S.C. Â§ 7545(o)(2).

Hello. I live in Jefferson County, Alabama and I am researching the Data Requirements Rule (DRR) for the 1-Hour Sulfur Dioxide Primary National Ambient Air Quality Standard (NAAQS), PA-HQ-OAR-20J3-0711, published August 21, 2015. Under this rule, each air agency was required to submit a list to the EPA by January 15, 2016, that identifies all sources within its jurisdiction that have SO2 emissions that exceeded the 2,000 tons per year (tpy) annual threshold. For each source on the list, the air agency was required to indicate by July 1, 2016, whether it will characterize air quality through ambient monitoring or through air quality modeling. >>>I write to request digital copies of all submissions, indications, correspondence, inquiries, emails, or other records to/from the following organizations and people concerning the implementation of this DRR rule in Jefferson County, Alabama. My air authorities are the Jefferson County Department of Health (JCDH) in cooperation with the Alabama Department of Environmental Management (ADEM). Principal contacts include but are not limited to Corey Masuca, Jonathon Stanton, Jason Howanitz, Mark Wilson, Ronald Gore, Michael Malaier, and Lance LeFleur. Please limit your search between and including the dates August 21, 2015 and July 1, 2016.

To: Emergency Response Office overseeing EPA Region 3, specifically Parkersburg, WV.

My request for information is in regards to the week long fire in Parkersburg, WV that began in October of 2017. My objective is to characterize the composition of the plume, the location of the plume, and the nature of resulting respiratory concerns. The fire was located at: 3819 Camden Ave, Parkersburg, WV 26101. It is my understanding that the EPA conducted a number of air quality tests and completed an incident report after the conclusion of the fire.

I would like to request the following documentation:

1. An EPA summary of incident report for the fire that began on October 21, 2017 at 3819 Camden Ave, Parkersburg, WV 26101.
2. Any EPA air monitoring results immediately before, during or after the fire that began on October 21, 2017 at 3819 Camden Ave, Parkersburg, WV 26101.
3. Any EPA hazardous material/toxicity information pertaining to the plastics burned in the fire that began on October 21, 2017 at 3819 Camden Ave, Parkersburg, WV 26101.

EPA-R6-2019-004263	Tya Antrim	Wright, Lindsey & Jennings LLP	<p>Any and all documentation that the EPA has concerning the "Stump Dump" near or on Trafalgar Road in Bella Vista, Benton County, Arkansas. Time Period for Requested Records: July 1, 2018 to present. Type of Records Requested: Publicly available information only, and excluding proprietary business information. Limited to, Air Quality Test Reports (Preliminary and Final), Site Visit Notes/Reports, Sample Notes/Reports, Communication with Other Agencies/Officials Involved with the Site, Communications with Fire Expert(s), Fire Suppression Reports, and any additional information or documentation regarding the fire. I believe the EPA enlisted the help of technical experts from the Office of Research and Development (ORD) regarding the options for extinguishing the underground fire at the Brown Tree Care Site. The plaintiff's complaint in our case alleges that the EPA conducted air quality monitoring for semi-volatile and volatile organic compounds. As far as the parameters/contaminants we are interested in all of the air quality tests that were performed at the site. Facility ID: BTS Equipment, LLC also known as Browns Tree Care Dump. I am a PhD student in Environmental Epidemiology and will be modeling manganese emissions from Eramet Marietta, 16705 OH-7, Marietta, OH 45750, for the years 2008-2013. The agency facility ID is 684020006, and the EIS facility ID is 8130711. We have downloaded all available public use data files and submitted a previous FOIA for stack and fugitive emissions information, but different data files have either contradicting or missing information. We would like to request a data set (or multiple data sets if the information requested is in different data bases) that includes the following variables for each stack and fugitive release point in operation for one or more of the years 2008-2013.

The variables names from the NEIS and/or OHEPA data sets are:

agency facility id, data set, eis facility id, pollutant code, pollutant desc, rel pt latitude, rel pt longitude, total emissions, emissions uom, agency unit id, eis unit id, unit type, agency release point id, eis release point id, rel pt comment, rel pt description, release point type code, stack diameter (ft), stack height (ft), exit gas flow rate, exit gas flow uom, exit gas temp (F), fugitive height (ft), fugitive length (ft), fugitive width (ft), winter_thr, spring_thr, summer_thr, fall_throu, days_week, weeks_yea, hours_day, hours_yr, throughval, mat_units.

Any help that you can provide will be greatly appreciated.

EPA-R6-2019-004065	Sharon Lerner		I am writing to request a complete list of attendees at the November 8, 2018 meeting with Andrew Wheeler at EPA Region 6 Offices in Dallas, Texas. (Please see attached document.) I am interested in the visitor logs for November 8, 2018 (note not 2019). It would be sufficient for EPA R6 to search for responsive records in your possession involving HQ. At this time, I do not need this FOIA request to be referred to EPA HQ for EPA HQ Wheeler staff to search for records. In addition, I am requesting any notes or summaries of the meeting as well as any communications including emails, letters or planning documents associated with the meeting produced between 6/1/2018 and 3/1/2019. I am not interested in planning information for the Nov. 08, 2018 meeting as it relates to IT logistics, supplies, room reservations/set-up "essentially those emails related to ensuring the meeting room logistics are functional or operational. Finally, I am requesting any EPA Region 6 staff communications regarding the Martin Lake Steam Electric Plant from 1/1/2018 through 3/1/2019. Regarding the last part of my request "for any EPA Region 6 staff communications regarding the Martin Lake Steam Electric Plant" I am requesting an IT email search of the staff of the Compliance Assurance and Enforcement Division using the following key terms: "Martin Lake" AND any of the following: SO2, Nonattainment, Luminant, OR Sierra Club. This is for communications from the period 1/1/2018 through 3/1/2019.	3/8/2019

Hi,

I'd like copies of all studies you have on the effects of Jet fuel, Jet Exhaust, Motor Vehicle Gas on people working in environments where they're used, stored, maintained, exposed to, etc...

I ran a flight deck on a helicopter carrier and for two years and daily was exposed to long periods of jet and motor gas fuel by vapor and directly on my skin in closed spaces, on the flight deck, as well as to exhaust from jet engines directly and indirectly as residue on the ship. At that time I developed symptoms, which I didn't discover until recently were consistent with exposure to these fuels and exhaust. The symptoms being neurological damage, autoimmune disease, headaches, audio dyslexia. I've come across some studies which support the claim I'm making to the VA. But I'm looking for more studies to support my claim, which have stronger validity for the VA.

Thank you,

Kevin Yancy

<p>Dear Madam, dear Sir,</p> <p>In he context of a research project, I am interested in the assessments conducted by the EPA of the quality of data in the Federal Safe Drinking Water Information System (SDWIS/FED) database.</p> <p>I found 3 publications on the results of EPA's triennial reviews of data quality in SDWIS/FED (based mainly on data verification audits): respectively, the reports EPA 816-R-00-020, EPA 816-R-03-021 and EPA 816-R-07-010. These publications covered data only up to 2004.</p> <p>According to the EPA OIG's 2017 report No. 17-P-0326: "Prior to 2013, the EPA conducted program reviews in each state every 3 to 4 years using a contractor, who evaluated the implementation of National Primary Drinking Water Regulations. The EPA referred to these contractor-led reviews as data verifications. According to EPA staff, these data verification reviews ended when funding ceased, at which point EPA staff assumed the program review function."</p> <p>This implies that such assessments should be available up to 2013. However, I cannot find any such publications regarding data after 2004 (neither through a web browser nor through the National Service Center for Environmental Publications -NSCEP- catalog). The last one I could find was EPA 816-R-07-010, published in 2006 and covering data between 2002 and 2004. I am therefore requesting access to the results of the program reviews conducted up to 2013, and to any publication published after 2006 containing an assessment of the quality of the data in SDWIS/FED.</p>

Hello, I am writing to initiate a FOIA request for a file (spreadsheet if possible) that contains grants awarded during FY2018 with a recipient type of "Private higher education" or "State controlled institution of higher education" with the following fields.

Requested Fields: Name of the Principal Investigator, Federal Award ID, Title, Funding Amount, Obligation Date, and the Start and End Dates for FY-2018 grants. For your reference the same request was made and completed last year for FY2017 grants and was assigned EPA-HQ-2018-004152.

These fields are all available at [usaspending.gov](https://www.usaspending.gov) except for the Principal Investigators name which is the primary reason for this request. In order to help to determine my status to assess fees, you should know that I am affiliated with a private corporation and seeking information for use in the company's business.

Thank you for your consideration of this request.

Sincerely,
Tara Adams

My daughters health is a Environmental Auto Immune ; loss of eyesight in one eye and other severe illnesses. During the rebuild of my home, by RBBC hired a man from the Malbro Construction company working in this program to crush my cesspool illegally spilling 1,200 gallons of human waste <fesses > on my property after the demolition ticket in the NYC Buildings Department was closed. My daughter witnessed this and took a video of this cat digger actually filling my whole property < sand > with waste spill and neither companies will and HPD Denied my request and will not have the descenty to Properly And Professionally have the sewage removed and chemical clean up.</p> <p>The whole point is that they were never going to replace my cesspool during construction stage only replacing covers and not put a new Septic System in the ground. The got caught in this whole illegal situation and still no remorse since June 19,2018.As a Homeowner and legal Rep for my disabled daughter My Developer and HPD are the ones that defaulted on the Homeowner.in the Agreement Docutation please understand what this has done to my own health of infectious disease trying to clean up myself.This is a serious health issue</p> <p>Please look into this and I can not afford to have a private lab test done. They are covering up and legal issue.</p> <p>Thank You</p>	3/1/2019

EPA-HQ-2019-003909	Ms. Sarah D OBrien	Sustainable Purchasing Leadership Council	<p>On behalf of the Sustainable Purchasing Leadership Council, a not for profit association that works to support institutional purchasers' integration of sustainability requirements in their procurement, I am requesting release of documents related to the EPA ecolabel assessment project - specifically:</p> <ol style="list-style-type: none"> 1) The latest draft of the Assessment Process Manual developed and used during the project 2) The latest draft EPA Guidelines generated following the pilot project, including any changes made since the current version was posted online (https://www.epa.gov/greenerproducts/final-pilot-assessment-guidelines-epas-recommendations-standards-and-ecolabels) 3) The independent assessments made by EPA and EPA's contractor(s) of the product categories addressed directly by EPA/contractor <p>My organization's interest in these documents derives from our role as the primary convening organization for North American sustainable procurement professionals, whose practices may be informed and improved by the detailed work carried out by EPA in this project. Rather than launch a separate ecolabel recommendation system, we wish to build on the detailed frameworks and work done by EPA and their contractors on this ecolabel assessment project, so that a wide range of public and private purchasers can understand and use ecolabels rated in a way consistent with EPA recommendations for a wide array of additional product categories beyond those addressed so far in the EPA project. By so doing, we believe we can help institutional purchasers aggregate demand and send clear market signals to suppliers as to which are the most meaningful and credible ecolabels they should leverage to demonstrate their sustainability performance to institutional purchasers. This is in service of the public interest in environmental sustainability, human health and reductions in carbon impacts, and in service of creating a transparent and accountable marketplace for more sustainable products and services.</p>	3/1/2019

Baker & Wotring LLP hereby requests the prompt production and disclosure of any and all memoranda, lists, correspondence, and other documents and records, whether draft, preliminary, interim or final, as well as any other related documentation in electronic format, in the possession, custody or control of United States Environmental Protection Agency (EPA), including EPA Region 6, identifying, evidencing or related to Texas Gulf Terminals, Inc. (TGT), the TGT application for a Deepwater Port License (Docket No. MARAD 2018-0114), and any other related documents. My request is not limited to EPA Region 6. During the processing of the first 3 requests I have received conflicting information as to whether EPA Headquarters may have responsive documents. Therefore the request EPA-R6-2019-003842 is intended to request documents from both Region 6 and EPA Headquarters. This request is for all information in whatever media it may be kept and in whatever form including, but not limited to, any book, paper, letter, document, e-mail, Internet posting, text message, instant message, other electronic communication, printout, photograph, film, tape, microfiche, microfilm, sound recording, map, and drawing and a voice, data, or video representation held in computer memory in the possession, custody or control of EPA Region 6 and EPA HQ. The date range of records requested is November 23, 2018 to March 6, 2019. To avoid any confusion, I am not requesting documents that have been produced in response to FOIA Requests EPA-R6-2019-001627 and EPA-R6-2018-010861. I also want to include in the request all denial logs produced by EPA Region 6 for FOIA Requests EPA-R6-2019-001627 and EPA-R6-2018-010861. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. Please also release all non-exempt portions of otherwise exempt material. If costs exceed \$125, please contact me at 713-980-1715 or jmuir@bakerwotring.com.

Pursuant to the Freedom of Information Act (FOIA) (5 U.S.C. Â§ 552), and EPA's freedom of information regulations, I am writing to request information regarding the chemical substance, 2-Cyclohexene-1-octanoic acid, 5(or 6)-carboxy-4-hexyl-, with Chemical Abstracts Service Registry Number (CASRN) 53980-88-4. Specifically, we request information for this substance, as follows:

(1) The Toxic Substances Control Act (TSCA) (15 U.S.C. Â§ 2601 et seq.) Inventory Reporting forms (either "Form A" or "Form B" or "Form C" or "Form D" or "Form PMN" or any such forms) that were used to report this substance for the TSCA Chemical Substance Inventory ("TSCA Inventory");

(2) A Chemicals in Commerce Information System (CICIS) (or equivalent) printout for this substance; and

(3) The number of companies, if any, who reported this substance for the TSCA Inventory but who claimed their identity as confidential.

With respect to item (1), please note that we are requesting copies of the original TSCA Inventory form(s) reporting this substance, not, for example, a computer printout indicating receipt of reporting form(s). We are also not requesting any TSCA Inventory Update Rule or TSCA Chemical Data Reporting Rule forms submitted for this substance.

This is a request under the Freedom of Information Act. I request that a copy of the following documents, or documents containing the following information, be provided to me:

Any and all correspondences between the Environmental Protection Agency's compliance division employees and Ford Motor Co. employees and/or representatives referring to or related to Ford's process for U.S. emissions certification concerning road load between Feb. 18, 2019 and present. Representatives should include but not be limited to employees working for Sidney Austin LLP on Ford's behalf.

Any and all correspondences among the Environmental Protection Agency's compliance division employees referring to or related to Ford's process for U.S. emissions certification concerning road load between Feb. 18, 2019 and present.

Please provide email documents in native digital format and postal mail correspondence as scanned PDFs.

I am willing to pay fees for this request up to a maximum of \$200. If you estimate that the fees will exceed this limit, please inform me first. I request a waiver of all fees for this request.

In order to help to determine my status to assess fees, you should know that I am a journalist with The Wall Street Journal and this request is made in the public interest as part of news gathering. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest.

If all or a part of this request is denied, I request that I be provided with a written statement of the grounds for denial. If some portions of the requested documents are determined to be exempt from disclosure, please provide me with the portions that can be disclosed. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act.

I am seeking a CSF for our product BromiCharge.

The registration was transferred to my company, Bromitron Corporation, from ICL (EPA # 8622-69-73578) last year. We were originally the sub-registrant and are now the owner of the registration with the new EPA number 73578-1. I am working on filing new state registrations and they are asking for the CSF to show proof the old EPA number transferring to the new EPA number for the product.

After inquiring about the process of getting the CSF I was directed to file this request.

I can be reached at (b) (6) or by email at (b) (6)

Thank you.

I request copies of all EPA requests to the Office of Personnel Management for exceptions from a moratorium for Qualifications Review Board case processing for Senior Executive Service career appointments from July 5, 2018 to the date that this request is processed.

This process is described in the following excerpt of "Guide To The Senior Executive Service," OPM, March 2017 (<https://www.opm.gov/policy-data-oversight/senior-executive-service/reference-materials/guidesesservices.pdf>):

QRB Moratorium

When an agency head leaves or announces the intention to leave, or if the President nominates a new agency head, OPM suspends QRB case processing for SES career appointments until a successor is appointed at the agency. OPM takes this action as a courtesy to the new agency head to afford him/her the greatest flexibility in making executive resources decisions. However, if an agency has a selection it considers urgent, OPM may consider whether to make an exception.

<p>EPA-HQ- 2019- 003688 Mr. Benjamin H Klayman Reuters</p>	<p>Reuters is filing a request for the release of all information under the Freedom of Information Act pertaining to the Feb. 21, 2019, announcement by U.S. automaker Ford Motor Co that it is investigating its process for U.S. emissions certification. A copy of that release is attached to this request. We would like to see all documents pertaining to Ford notifying the EPA of the issue, starting with the company's notifying the EPA on Monday, Jan. 18, as well as all the documents Ford sent to the EPA explaining how the problem occurred. Given the public's right to know how this affects the vehicles they drive and the previous 2015 scandal surrounding Volkswagen's efforts to defeat US regulatory review of its emissions - a case dubbed Dieselgate by the public - Reuters feels this request is reasonable. We would like to see all correspondence and documents pertaining to the issue, including any documents and call logs by Ford group vice president Kimberly Pittel and any other Ford officials involved in case, any paperwork on how the issue was discovered and how the company was then alerted. We would like to see any documents submitted by Ford prepared by the automaker of outside law firms or laboratories hired to run tests on the issue by Ford, as well as any documents added to the file by the EPA and its investigator and administrators. If any questions, you can contact myself - Ben Klayman, Detroit Bureau Chief for Reuters, at 313-600-2277 or benjamin.klayman@thomsonreuters.com - David Shepardson, our Washington transportation reporter, at 202-579-6093 or david.shepardson@thomsonreuters.com.</p>	<p>2/22/2019</p>

EPA-R4-2019-003687	Mr. Joe E Carr	Candidate for Mayor	Due to lobbying by chemical companies, companies haven't been required to report Acetone emissions to the EPA since 1993. Yet a Superfund site for Eastman Acetone Release exists on the EPA's website: https://cumulis.epa.gov/supercpad/CurSites/csinfo.cfm?id=0407320 In the last year of reporting acetone emissions, the Eastman Chemical Company reported emitting 22,200,000 pounds of acetone into the air in 1993 here in Kingsport. It does not even list a location for the release site! Nor does it merit a spot on the National Priority List. I am asking for all information on the Eastman Acetone Release Superfund Site.	2/22/2019

EPA-R7-2019-003656	Mr. Matthew Woolery	Vieau Associates Inc	I would like to request a document associated with the facility "Klinger Paint Co Inc" (EPA ID: IAD000651265). Specifically, the document I am looking for is associated with an investigation lead by the EPA for heavy metal soil impacts at the facility. I am looking for a "Closure Plan Approval Letter" issued by the EPA stating that no further investigation was necessary and the investigation was issued closure. The letter was issued on 5/11/1992 and the document ID number is 3705. Again, I am looking for site closure issued by the EPA, NOT a request for closure.	2/21/2019

This is a request under the Freedom of Information Act.

I request that a copy of the following documents [or documents containing the following information] be provided to me: Correspondence in the previous 12 months between the EPA and directors and/or officers of Ford Motor Company related to the topic of Ford's vehicle fuel economy and testing procedures.

In order to help to determine my status to assess fees, you should know that I am a representative of the news media affiliated with the Financial Times, and this request is made as part of news gathering and not for a commercial use.

I ask that my request receive expedited processing, as this is a matter of widespread and exceptional public and media interest.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding and is not primarily in my commercial interest. However, I am willing to pay fees for this request up to a maximum of \$50. If you estimate that the fees will exceed this limit, please inform me first.

Thank you for your consideration of this request.

EPA-R2-2019-003638	Tyler Anderson		I am gathering the latest data on emissions that is present in the air. In regards to the discussion of climate change, I am looking to analyze trends in why emission rates continue to go up, despite general society making the greatest push yet towards clean energy. So why do emissions rates indicate that they are going up in spite of the "green push." This is for research purposes to determine how to fight effects of climate change before we reach the point of no return, and what it takes to come to a resolution. All I ask for, is data to analyze statistics in emissions presence so I can better determine a solution.	2/20/2019

Re: Freedom of Information Act Request

Dear FOI Officer:

This is a request under the Freedom of Information Act. I hereby request copies of all records from the most recent year containing the following information: which CAFOs in Wisconsin are not meeting NPDES permit regulation requirements set by the EPA (40 CFR 122.42(e)), and whether or not these CAFOs are being shut down for non-compliance.

As the FOIA requires, please release all reasonably segregable nonexempt portions of documents. Please include records maintained at the national headquarters as well as EPA region 5 in your search. I am a Masters student at GWU and this request, made as part of my course work, is an educational request that qualifies for educational fee status. If you have any questions regarding this request, please contact me at (b) (6) and/or

Dear Sir or Madam,

This is a request made pursuant to the Freedom of Information Act. I hereby request:

All information relating to stratospheric aerosol injection, solar radiation management, or any other ongoing programs involving the spraying of particles into the atmosphere by aircraft. This would also include particles that are mixed in to the fuel of aircraft, as well as any general programs involving creating artificial cloud layers.

More specifically, I am interested in what chemicals are being used, what organizations are carrying this out, the purpose of these programs/experiments, and where funding is coming from. Also, if there is any use of "smart dust" in these programs.

I am interested in all programs across the country, but especially interested in programs in western states as well as off the coast and over the Pacific Ocean.

Thank you for your time and effort.

Sincerely,

Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I respectfully request records pertaining to the production and export of highly restricted, banned, and unregistered pesticide products and active ingredients.

Specifically, I am seeking:

Information from all Foreign Purchaser Acknowledgement Statements submitted to the Office of Pesticide Programs in 2018, as well as from 2000-2010, including the exporter, product name, active ingredient, and destination country. I am looking for similar information included in response to an earlier FOIA request with FOIA tracking number EPA-HQ-2017-007921 but for different time periods. The EPA administrator currently involved with processing Foreign Purchaser Acknowledgement Statements is Zoe Emdur - U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW (7506P), Washington, DC 20460.

Information on the number of Foreign Purchaser Acknowledgement Statements claimed to be confidential as FIFRA Confidential Business Information each year between 2010 and 2018.

Â§ 552, I request a transcript of a Thursday, March 2nd, 2006 2:00pm dial-in press conference on EPA's PFOA global stewardship program, with Susan Hazen, acting assistant administrator, office of prevention, pesticides and toxic substances.

I would like to receive the transcript in the form of a digital PDF. If you are unable to provide it in this format, please mail me a hard copy.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material.

I look forward to your determination regarding my request within 20 business days as the statute requires.

Thank you for your assistance.

Sincerely,

Justin Shea

The Property behind our home on Brushwood Lane and the homes on Juniper Lane is owned by Joseph Lipovits (Lipovits Builders, Inc). I have enclosed the information that I sent to U.S. Army Corps of Engineers on there FOIA form. I will also attached the "preliminary" plan for the possible development of this property.

Any and all information will be helpful and would be so appreciated to help keep the only green space left and the buffer between homes.

Thank you so much!!

I am trying to get the universes of facilities that are under the jurisdiction of Clean Air Act, Clean Water Act (NPDES), and Resource Conservation and Recovery Act respectively each year historically.

I am working with data sets downloaded from the Enforcement and Compliance History Online (ECHO) system. I have access to three facility data sets: •Facility/Source Level Identifying Data (ICISAIR_FACILITIES.csv) for air, •Facility (ICIS_FACILITIES.csv) for NPDES, •Facility (RCRA_FACILITIES.csv) for RCRA. These datasets include all the facilities ever existed historically under each program and their current operating status. However, I do not know during what period of time historically each facility was operating or under the jurisdiction of these environmental regulatory programs. Information such as the time when each of the facilities started to operate and shut down will be helpful for me to identify the universes of facilities that are under the jurisdictions of CAA, NPDES, and RCRA, each year historically.

EPA-HQ-2019-003149	Zhengyan Li	Indiana University SPEA	Can you provide me with the information (the open and shut down date for each facility in the three facility datasets mentioned above)? Thanks.	2/1/2019

Re: Freedom of Information Act Request

Dear Freedom of Information Act Officer:

This is a request under the Freedom of Information Act.

I request that a copy of documents containing information on the calendar or calendar entries of Assistant Administrator of the Office of Air and Radiation Bill Wehrum, from January 1, 2019, to January 31, 2019.

These documents could include, but not be limited to, itineraries, scheduling documents, or correspondences detailing meetings in person, over the telephone, or online including a list of each meeting's attendees and any correspondences on what was discussed. For calendar entries included in Outlook or similar programs, please produce the records in memorandum form to include all invitees, notes, and attachments.

In order to help to determine my status to assess fees, you should know that I am a reporter with Bloomberg Environment, and this request is made as part of news gathering and not for a commercial use.

I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first. Please contact me if you have any questions.

Thank you for your consideration of this request.

This is a multi-part request under the Freedom of Information Act. If the above-named agency would like to separate the following into individual requests, I understand. But in the interest of time and through my experience with previous, similar requests that have been combined into a single request by federal agencies, I chose to combine my requests for the following responsive records as follows. For all portions of this request, the time period for which I am seeking records is October 8, 2018 to present.

Part I

I request a log showing all FOIA requests made to the above-named agency, to include date of request, name of requester, subject of request, tracking number and disposition of request. Please note, I am not seeking a copy of every request. Rather, I am seeking a spreadsheet, preferably in Excel format, containing the above-described information.

Part II

I request a copy of the top agency official or Secretary's daily calendar for the above-named agency, preferably in PDF form with optical character recognition having been performed.

Part III

I request copies of all visitor logs for the above-named agency, preferably in PDF form with optical character recognition having been performed.

Part IV

I request a log of any all communications, to include but not be limited to official correspondence on congressional letterhead as well as emails sent from the members of the 115th and 116th Congress or their staffs, between the above-named agency and all members of Congress and their staffs in the time period covered. Please note, I am not seeking a copy of every communication. Rather, I am seeking a spreadsheet, preferably in Excel format, containing the above-described information.

			I would like to receive information on Water Utilities in each region serving more than 10,000 people. My records from the EPA website show that there should be over 4,300 of these. Specifically, I would like to see records of how many slow sand filters are in use in each state/region and what the land footage is of these filtration beds. Additionally, I would like to see records of how much sand is required to be passed through these filters on a yearly basis and the financial implications of this for each utility, preferably split into \$ value per tonne of replaced sand. I have attached a spreadsheet detailing findings so far in terms of how many utilities are in each state/region based on EPA data. If any of the blanks can be filled in it would be much appreciated.

This FOIA requests all available data on loans provided by the federal government through the Clean Water State Revolving Fund. This covers all years (beginning in the earliest year possible) and all loans. It seeks data at the level of an individual loan, rather than state or regional totals. For each loan, this request seeks all available data fields, including: the name and facility number (including the state, authority, and plant component of the number) of the individual wastewater treatment plant that benefited from the loan, the dollar value of the loan, the date the loan was made, the government overseeing the project, the purpose of the project, the duration of the loan, and any other information available for each individual loan. These data are most likely held in the Clean Water State Revolving Fund (CWSRF) National Information Management System, managed by the Office of Water.

EPA-R6-2019-003027	Joshua Smith	Sierra Club	Freedom of Information Act Request for Communications Regarding U.S. Environmental Protection Agency's Texas-Related Clean Air Act Actions. Per requester confirmation on Feb. 12, 2019, requester confirms the following: A. Timeframe for records sought is January 1, 2018 to January 28, 2019; B. Requester agreed to rolling responses with releases every 30 days; C. Requester wants a denial log with appropriate FOIA exemption(s) identified for document(s)/information withheld; D. Requester wants access to Proprietary Business information (PBI - historically aka Confidential Business Information (CBI)). Requester agreed to go through the Substantiation process with the understanding that the process can take up to one year for a determination to be made by the Office of Regional Counsel (ORC); E. Requester discussed with EPA Region 6 the idea of an Index or Indices of all potentially responsive documents which would include the title, date, number of pages prior to review for responsiveness. However, it was understood that an Index/Indices may not be possible to generate at this time; F. Requester agreed that for those prioritized domain names, the entities listed in (1) of the request would not require an additional search for potential responsive records; G. Requester clarified that for each of the prioritized domain names or those non-repeating entities listed in (1), a search will be created for the 4 topics identified in the request; Furthermore, Sierra Club does not agree to waive any rights, including, but not limited to, the right to a timely determination of whether the agency intends to comply with the request, timely compliance with any provisions governing CBI/PBI substantiation, timely fee waiver disposition, a timely final determination, production of reasonably segregable public documents, or any other procedural requirement or right under the FOIA.	1/28/2019

Pursuant to the Federal Freedom of Information Act, 5 U.S.C. Â§ 552, I am writing on behalf of media outlet InsideClimate News to request the following records in the possession of the Environmental Protection Agency:

â€¢ All e-mails sent to or from any of the following staff of the Environmental Protection Agency's Office of Air and Radiation that mention any of the below keywords in the body, subject or attachment. Please include any attachments that were a part of these files, such as word documents, or PDFs or other types of documents. Please also include copies of emails in which any of the following staff were simply â€œcc-edâ€ or â€œbcc-ed.â€

EPA Staff:

â€¢ Bill Wehrum, Assistant Administrator of the Office of Air and Radiation
â€¢ Elizabeth Shaw, Principal Deputy Assistant Administrator of the Office of Air and Radiation
â€¢ Clint Woods, Deputy Assistant Administrator of the Office of Air and Radiation

Keywords:

â€¢ Kigali
â€¢ Kigali Amendment

This request covers June 1, 2018 to the present day.

Because this search involved only three individuals currently within your office, a defined period of time, and a narrow set of keywords, this should be a simple electronic search to conduct.

Hello,

I would like to review the 5-year review document completed for the Pease Air Force Base. I am currently conducting an Environmental Site assessment of a Site located within the base and require the historical information and status of remediation activities. The latest 5 year review conducted in 2014, is not currently available in the superfund Site profile. Please email relevant information to Natalia.galvis@erm.com.

Thanks,

Natalia Galvis

I am seeking staffing levels for the Region 5 office. Want to get the overall staffing numbers for fiscal year 2012, 2013, 2014, 2015, 2016, 2017 and 2018.

I also want to get the number of environmental protection specialists in each of the above years.

Further, I'd like a list of current job openings across the regional office, with title included.

Thank you.

To Whom It May Concern:

I am requesting an opportunity to inspect or obtain copies of the following types of public records received, sent, and/or retained by your Agency that relate to Felter's Mill (later owned and/or operated by Unisorb Technologies) at 22 West Street, Millbury, Massachusetts 01527, from 1973 until present:

- Records of contemplated or actual asbestos abatement, removal, and/or containment work at the facility
- Records concerning any asbestos inspections conducted at the facility
- Records concerning any fines or warnings issued, concerning asbestos at the facility
- Records concerning any reports of actual or possible asbestos or asbestos exposure at the facility
- Records concerning air monitoring relating to asbestos at the facility
- Any correspondence to or from the facility (and/or its owners or agents, including any asbestos contractor) concerning asbestos at the facility

If there are any fees for searching or copying these records, please contact me if the cost will exceed \$250.00. Please advise if the access to the records I am requesting will take longer than usual. Please also contact me with information about when I might expect copies or the ability to inspect the requested records.

If you deny any or all of this request, please cite each specific exemption that justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

Thank you for considering my request.

Dear Sir:

Could I get the list of sites assessed by EPA and received NFRAP (No Further Remedial Action Planned) each year and their respective HRS scores?

The attached high-quality paper mentioned that The HRS produces a score that ranges from 0 to 100, with 100 being the highest level of risk. From 1982 to 1995, the EPA assigned all hazardous waste sites with a HRS score of 28.5 or greater to the NPL. Only these sites with HRS score above 28.5 are eligible for Superfund remedial cleanup.

Could I get the list of sites assessed by EPA and received NFRAP (No Further Remedial Action Planned) each year and their respective HRS scores?

In addition, do you change the 28.5 cutoff HRS scores in later years?

Could I get the list of sites assessed by EPA and received NFRAP (No Further Remedial Action Planned) each year and their respective HRS scores?

The attached high-quality paper mentioned that The HRS produces a score that ranges from 0 to 100, with 100 being the highest level of risk. From 1982 to 1995, the EPA assigned all hazardous waste sites with a HRS score of 28.5 or greater to the NPL. Only these sites with HRS score above 28.5 are eligible for Superfund remedial cleanup.

Could I get the list of sites assessed by EPA and received NFRAP (No Further Remedial Action Planned) each year and their respective HRS scores?

In addition, do you change the 28.5 cutoff HRS scores in later years?

Thank you for your help,

I request copies of all communications records related to EPA's Dec. 27 proposal titled "Proposed Revised Supplemental Finding and Results of the Residual Risk and Technology Review" sent between executives, representatives or employees within the coal mining industry and EPA's Office of Administrator and Office of Air and Radiation.

This includes emails, calendar invitations, text messages, PowerPoint presentations, memoranda, analysis, Excel spreadsheets, and any other files or documentation.

I would like to receive this information via email or thumb drive in a searchable electronic text format (PDF is preferable).

I am willing to break this request up and receive the results in batches if that would expedite it. If so, I would prefer to receive the documents starting from the most recent available.

If you have any concerns with this request or feel the responsive records may be too large to process, please contact me at 206 939.1119 or at zack.hale@spglobal.com to discuss further. I would appreciate your communicating with me by telephone or email, rather than by mail.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the federal Freedom of Information Act.

To Whom It May Concern:

Pursuant to the Freedom of Information Act, I hereby request the following records:

A copy of records documenting the number of employees of the Environmental Protection Agency who have left their positions/were terminated/retired for the years 2015, 2016, 2017, 2018, as well as a copy of records documenting the number of new employees hired to work for the Environmental Protection Agency in the years 2015, 2016, 2017, 2018.

I am a career journalist with work that has appeared at The Daily Beast among other publications. I am willing to pay any reasonable expenses associated with this request, however, as the purpose of the requested disclosure is in full conformity with the statutory requirements for a waiver of fees, I formally request such a waiver.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

Sincerely,

Please see the attached report and attached Attachment U. We are only interested in receiving a copy of Attachment U that is redacted of any personal identifying information. We confirm that we do not wish to pursue the PBI substantiation process since the exemption 6 information is not subject to the substantiation process. The report is a Westbank Asbestos Removal Support Report for Orleans, Jefferson, and Plaquemines Parish, Louisiana relating to the Westbank Asbestos Removal Project. Pages 7-2 and 7-3 of the report indicate that air monitoring was performed while the asbestos material was being remediated across the Westbank, and that the results of such air monitoring were contained in Attachment U.

Dear Sir or Madam:

Pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, as amended, I hereby request any and all records and/or communications relating to Wisconsin Tissue Mills (a/k/a WTM or WTM I or Chesapeake Corporation) and contamination of the Fox River in Wisconsin. Wisconsin Tissue Mills is located at 984 WINCHESTER RD., NEENAH, WI 54956.

In addition to the foregoing, I also request any and all records and/or communications relating to any allocation of costs between Potentially Responsible Parties ("PRPs") with respect to the investigation and remediation of contamination of the Fox River in Wisconsin.

I request that the aforementioned records be provided in an electronic format, if feasible. We will reimburse EPA for all reasonable costs incurred. If it appears that these costs will exceed \$500 00, please contact the undersigned to discuss the available information and for authorization to exceed the above specified amount.

Thank you for your assistance, and please do not hesitate to contact me if you have any questions.

Respectfully,

On behalf of Documented, pursuant to FOIA, I hereby request the following:

Please provide a copy of Acting Administrator Andrew Wheeler's schedule from July 5, 2018 through to the date that this request is completed. Where possible, please provide any records on a rolling basis as they become available for release.

Documented seeks the above listed records for noncommercial use as a representative of the news media. Documented qualifies as a news media organization under the definition provided by Congress in the OPEN Government Act because it "gathers information of potential interest to a large segment of the public, and uses its editorial skills to turn the raw materials into a distinct work, and distributes that work to an audience." Specifically, Documented is seeking this FOIA request because the information in it is of interest to a large portion of the public, including the many concerned citizens that regularly acquire information through our extensive range of publications. These publications include websites, blogs, newsletters, reports, press statements, social media networks such as Facebook, and Twitter. In addition, Documented reaches out to many traditional news media outlets that regularly broadcast our publications through television, radio, print and electronic articles and interviews. Documented plans to compile the information from this request into a distinct, original work that will be released to the public through the publications listed above.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter.

Please provide certified copies of all records related to ASBESTOS at the Electron Corporation facility located at 5101 South Rio Grande Street, Littleton, CO 80120. Specifically we are looking for abatement records, such as abatement notifications and permits.

This facility was demolished in 2003. The apartment complex that sits there now was built sometime between 2008 and 2010. We are not interested in any records related to this new complex or its construction. We are only interested in records related to the facility that previously sat at that location and was demolished in 2003.

We are requested all asbestos records related to this site from 1948 to 2004.

We are willing to pay up to \$300 in fees.

Dear FOIA Officer:

I am a journalist for Reuters News. Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I am requesting the following records:

â€œA list of all political appointees to the U.S. Environmental Protection Agency from Jan. 1, 2017, to Jan. 1, 2019.

â€œAny and all resumes for these appointees.

â€œAll financial disclosure forms filed by these appointees.

I am requesting a fee waiver, as this request is being made in connection with Reuters Newsâ€™ newsgathering functions in the public interest and not for any other commercial purpose.

I am also requesting expedited processing of this request. I am a member of the news media and there is an urgent public need for timely information about the qualifications and backgrounds of EPA officials who are carrying out changes in environmental regulations, including rules that govern pesticides and toxic chemicals. The public has a right to access this basic information.

I certify that these statements concerning the need for expedited processing are true and correct to the best of my knowledge and belief. Please advise within 10 calendar days, as the statute requires, whether the agency has granted this request for expedited processing.

If you decide to exempt portions of any record, I ask that you segregate those portions and promptly release the remainder of the records. If you withhold any record or portion of a record, please specify which statutory exemptions are claimed for each withholding.

If there are any search, review or duplication fees greater than \$25, please inform me before you fill the request.

Because this request is time-sensitive, please contact me by telephone at 646-832-8870, or by email at yasmeen.abutaleb@thomsonreuters.com, rather than by mail, if you have questions or wish to discuss this request. If I can clarify this, or speed this request in any way, please do not hesitate to contact me.

Re: Freedom of Information Act Request

Dear Freedom of Information Act Officer:

This is a request under the Freedom of Information Act.

I request a copy of documents containing information on the calendar or calendar entries of EPA acting Administrator Andrew Wheeler from December 1, 2018, to December 31, 2018.

These documents could include, but not be limited to, itineraries, scheduling documents, or correspondences detailing meetings in person, over the telephone, or online including a list of each meeting's attendees and any correspondences on what was discussed. For calendar entries included in Outlook or similar programs, please produce the records in memo form to include all invitees, notes, and attachments.

In order to help to determine my status to assess fees, you should know that I am a reporter with Bloomberg Environment, and this request is made as part of news gathering and not for a commercial use.

I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first. Please contact me if you have any questions.

Thank you for your consideration of this request.

To Whom It May Concern:

I am requesting an opportunity to inspect or obtain copies of the following types of public records received, sent, and/or retained by your Agency that relate to the Westfield River Paper Company facility in Russell, Massachusetts, from 1968 until present:

- Records of contemplated or actual asbestos abatement, removal, and/or containment work
- Records concerning asbestos inspection conducted at the facility
- Records concerning any fines or warnings issued, concerning asbestos at the facility
- Records concerning any reports of actual or possible asbestos or asbestos exposure at the facility
- Records concerning air monitoring relating to asbestos at the facility
- Any correspondence to or from the facility (and/or its owners or agents, including any asbestos contractor) concerning asbestos at the facility

If there are any fees for searching or copying these records, please contact me if the cost will exceed \$250 00. Please advise if the access to the records I am requesting will take longer than usual. Please also contact me with information about when I might expect copies or the ability to inspect the requested records.

If you deny any or all of this request, please cite each specific exemption that justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

Thank you for considering my request.

EPA-R4- 2019- 002461	Rodney Huerter	Veolia North America	I hope you all had a merry Christmas and are enjoying the Holiday Season. On September 6, 2018, in response to FOIA Online Request No. EPA-R4-2018-011123, the EPA provided the attached RCRA Site Detail report (RCRAInfo 'handlerrpt') for EPA ID No. NCD070619663 (the "EPA-R4-2018-011123 (9.4.18) - RCRAInfo, Site Detail, NCD070619663" file). The current "owner" and "operator" of record information in that report is consistent with the information that is identified today in the following EPA web-based reports: 1) the Envirofacts Facility Detail Report for EPA Registry Id. No. 110000615264, and 2) the RCRAInfo Web Current Site Details for EPA ID No. NCD070619663 (I have attached screen prints for each of these referenced reports from the Agency's website). I request a current copy of the RCRA Site Detail Report for EPA ID No. NCD070619663 (updated to include any and all new information from the September 4, 2018 run date of the attached "Site Detail" report to present). Thank you.	#####

EPA-R4- 2019- 002467	Rodney Huerter	Veolia North America	On December 18, 2018, in response to a search based on "Handler ID: NCD070619663," the web-based RCRAInfo Search site (https://www3.epa.gov/enviro/facts/rcrainfo/search.html) returned the information included in the attached "rcrainfoquery_3, NCD070619663 (12.18.18)" file. The information relates to a facility located in Swannanoa, North Carolina, which was named "Old Asheville Dye and Finishing Location" (the "Facility"). Today, however, the same system returns "No records found," based on a search for the same Handler ID number, including active and inactive facilities, using only RCRAInfo facility information (see the attached "RCRAInfo, fac_search, NCD070619663 (12.28.18) - no active or inactive" file). The system did not include the Facility in searches based upon Facility names that start with "Old" or include "Asheville" (screen prints of these results are attached with this request). I also conducted alternate searches based upon all active or inactive facilities located in Swannanoa, N.C., Asheville, N.C., and Buncombe County, N.C. "the Facility is not identified in any of these searches (screen prints of these results are attached with this request). I request complete copies of: (1) the records that explain why the Facility is not appearing in searches conducted on the RCRAInfo Search site (for example, was the EPA ID Number cancelled?), and (2) if they exist, records that indicate the individual(s) who directed the change that results in the Facility not appearing in searches of the RCRAInfo Search site, and their affiliation (for example, whether the individuals are U.S. EPA employees or state agency employees). Thank you, and Happy New Year.	#####

EPA-R1- 2019- 002367	David Klochko		We are a consulting firm looking for data regarding regional groundwater contamination and Superfund Sites. Specifically we are hoping to locate ESRI Shapefiles (shp) that we can convert to Google Map files in order to determine if Projects we work on could be located within areas of regional groundwater contamination or near Superfund sites. Address information for Superfund sites would also be valuable. If data is available, please provide any potential costs. 1352, 1354, 1356, 1358, and 1360 Holton Lane District 13, Account #03161046 Takoma Park, Montgomery County, Maryland 20912 ECC Project #18-13429 ECC is currently performing a Phase I Environmental Site Assessment for the above-referenced locations. In order to completely understand the environmental history of the referenced sites, ECC would appreciate any and all information you can provide regarding previous reports of dumping or other environmental issues, and previous or pending enforcement actions for these locations. ECC understands there may be fees associated with this request. ECC is authorizing charges up to \$25 00. Please notify our office prior to incurring any fees above that amount. ECC would like to thank you for your cooperation in this matter. EPA-R6- 2019- 002364	David Klochko		We are a consulting firm looking for data regarding regional groundwater contamination and Superfund Sites. Specifically we are hoping to locate ESRI Shapefiles (shp) that we can convert to Google Map files in order to determine if Projects we work on could be located within areas of regional groundwater contamination or near Superfund sites. Address information for Superfund sites would also be valuable. If data is available, please provide any potential costs. Essentially what we are looking for is mostly available through the website https://www.epa.gov/superfund/search-superfund-sites-where-you-live . Through that link there is a mapping system which allows the user to select Superfund Site and see varying information about that site. What we are looking to do is have an internal mapping system of all of these sites similar to this, which would require either coordinate locations or address locations of each. We would want this in order to look at potential impacts to properties we are working on in the vicinity of the superfund sites. Preferably we are looking for an already existing shapefile that shows boundaries of each site.
