

FDA Food Safety Data Sharing Platform

Stacey Wiggins, Ph.D.

Office of Food Safety
Center for Food Safety & Applied Nutrition
Food & Drug Administration

"Better food safety begins and ends with better data."

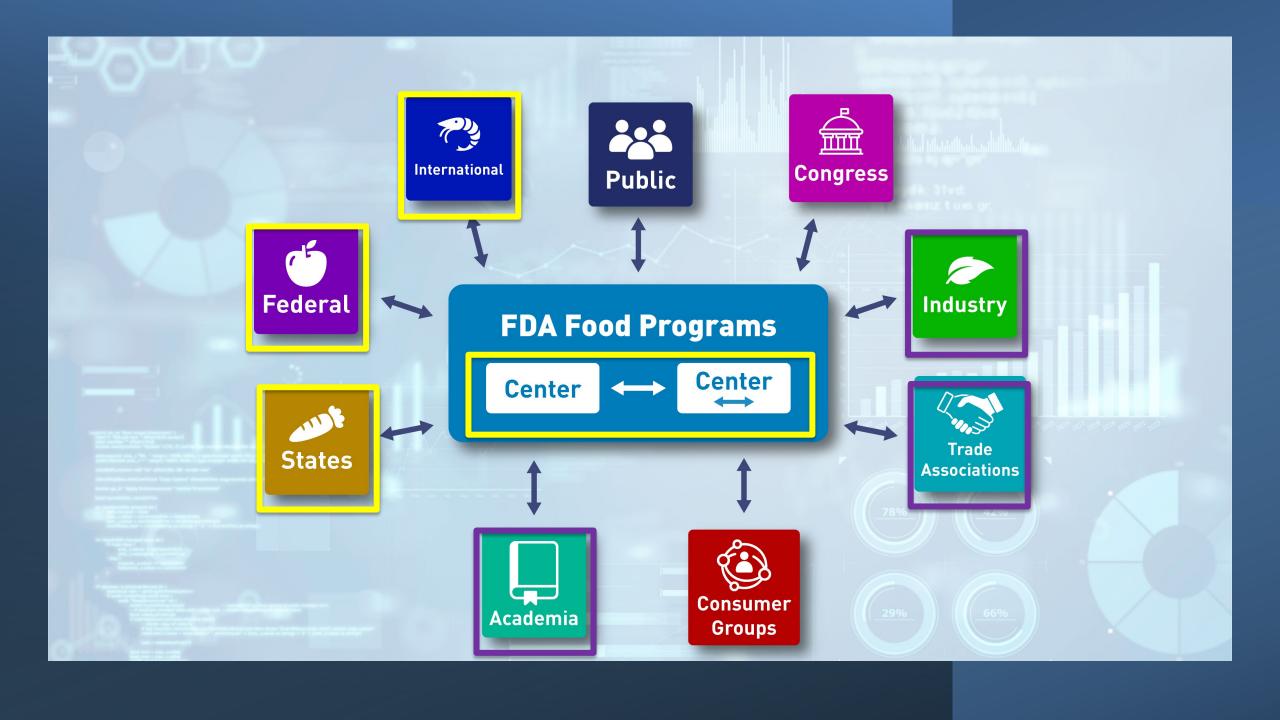

Frank Yiannas

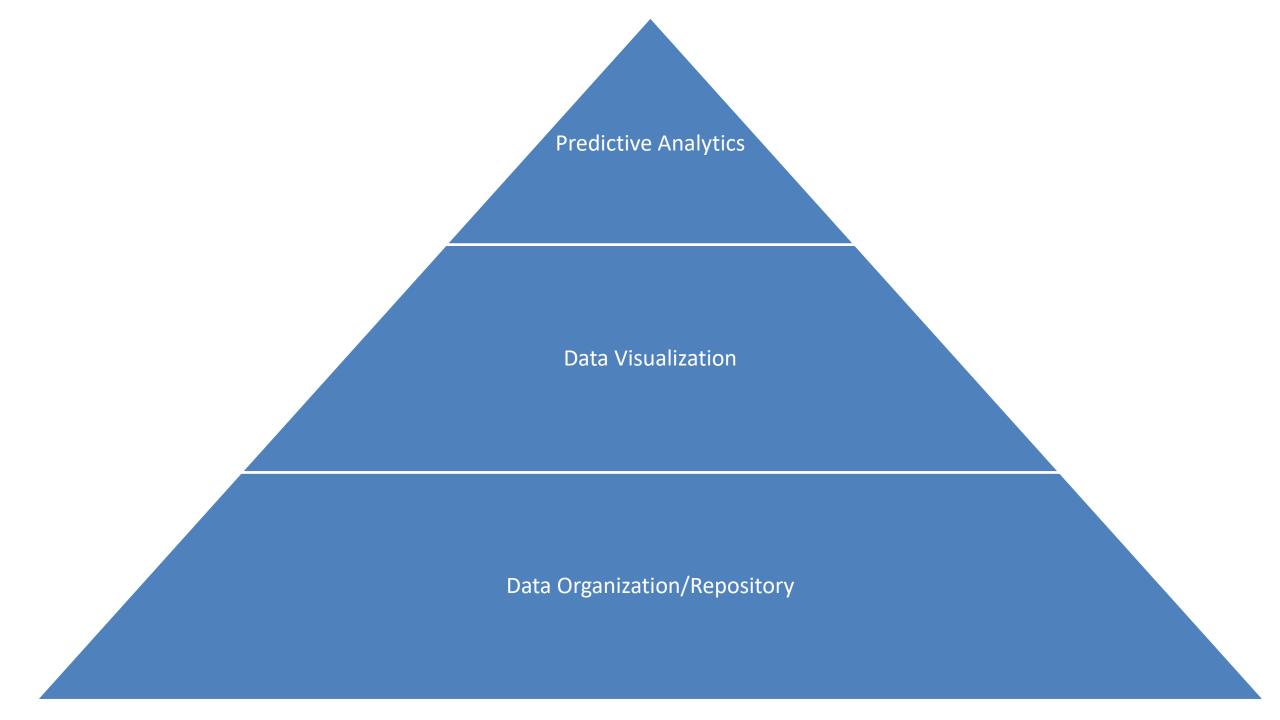

Data sharing will accelerate collective learning and enable comprehensive understanding, and ultimately prediction, of food safety vulnerabilities.

Food Safety Data Sharing Platform

Metadata: data about data; information that describes or explains the data

Seafood

- PFAS
- Aquaculture Drug Residues
- Marine Biotoxins
- Toxic Elements
- Decomposition
- Microbiology NEW
- Vibrio Ecological Forecasting NEW

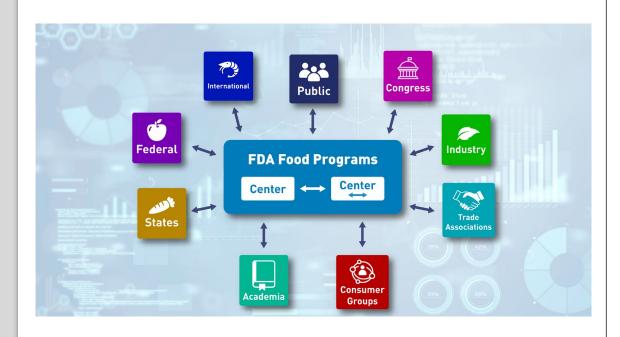

Other Foods

- PFAS NEW
- Aquaculture Drug
 Residues/Antibiotics NEW
- Toxic Elements NEW
- Microbiology NEW

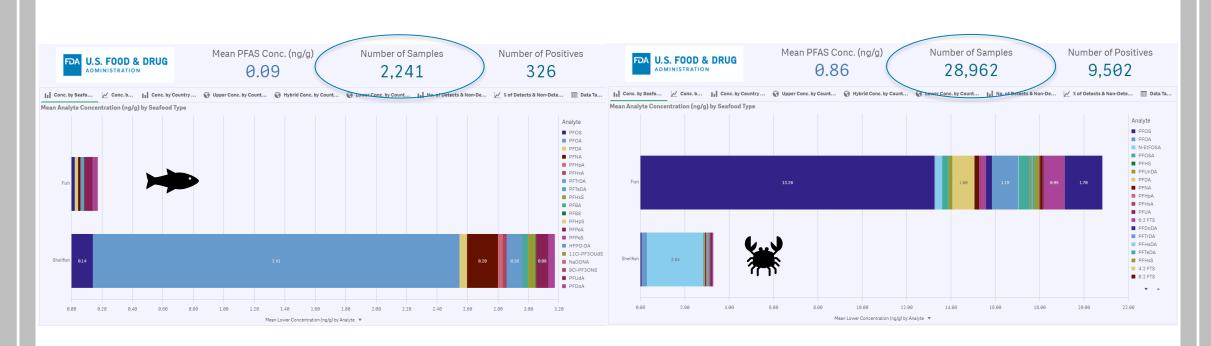

Data Overlays

- PFAS in ground water and surface water
- Locations of industrial/manufacturing facilities
- Locations of known use of AFFF
- Locations of wastewater treatments plants
- Locations of landfills
- Superfund sites with PFAS detection
- Agricultural landscapes

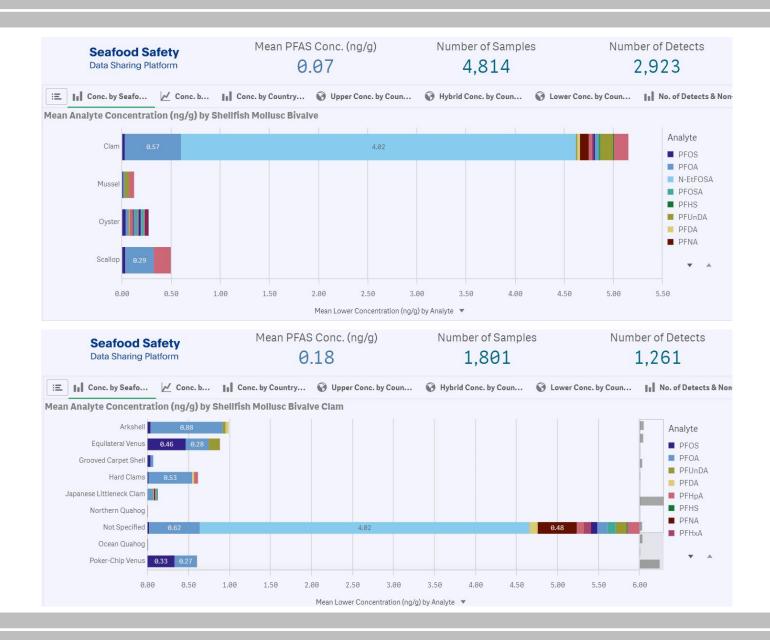

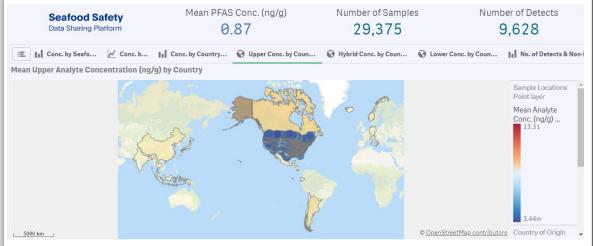

FDA

Combined

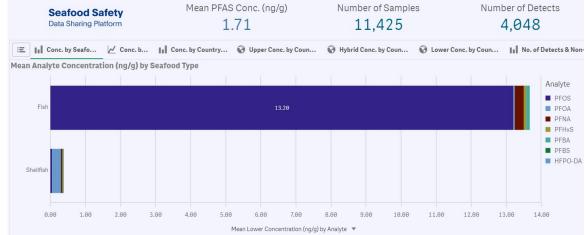

Bivalve

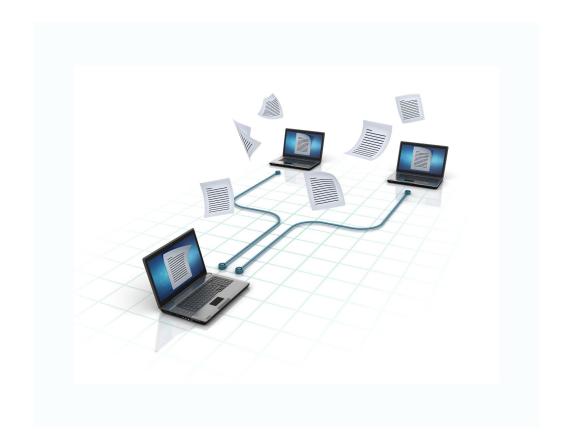

PFAS Type

Shared data assets located in one location, with advanced data visualization and predictive analytics

-> actionable insights
