Determine tier levels:

- Select a site.

AQS Site ID

- Choose the month corresponding to the date of the event.

Month of EE

Feb ▼

- Use the event type filter to toggle on/off Informational (I) qualifiers dates. None is the default event type and corresponds to all days other than R and I qualifier dates.

Event Type

- The tier 1 and tier 2 levels, 5-year month-specific 98th-percentile, and minimum annual 98th-percentile are shown at the top.

Tier 1	Tier 2	minimum annual 98th percentile	5 year month-specific 98th percentile
22.51	15	15^{2019}	15.81

Calculate design values:

- The annual and 24-hour design values are calculated based on the current selections.
- The exclude tier 1 and tier 2 buttons remove all concentrations greater than or equal to the corresponding tiering thresholds and display the recalculated design values.

Exclude Tier 1 from DV

Exclude Tier 2 from DV

- Specific days can be selected on the plot and removed using the exclude selected days from DV button.

Exclude Selected Days from DV

- The reset button resets to the default selections.

Reset DV Calculations

Export Site Data:

- Click on Site Level Data Table tab
- Right on the table and select Export Data
