REGION 10**

IN THE MATTER OF:)
) Docket No. SDWA10-2024-0113
Nooksack Indian Tribe,)
)
Respondent.) **ADMINISTRATIVE ORDER ON**
) **CONSENT**
)
Nooksack River Casino) Proceeding pursuant to section 1414(g) of the
PWS ID # 105000084) Safe Drinking Water Act, 42 U.S.C. § 300(g)-3(g).

INTRODUCTION

1. The U.S. Environmental Protection Agency, Region 10 (EPA) and the Nooksack Indian Tribe (“Nooksack Tribe”), which is the Respondent in this matter, enter into this Administrative Order on Consent (Consent Order) to resolve noncompliance with the Safe Drinking Water Act (“Act”), 42 U.S.C. section 300f *et seq.*, and the National Primary Drinking Water Regulations (Part 141), 40 C.F.R. part 141 at the Nooksack River Casino Public Water System (“System”).

2. EPA has primary enforcement responsibility over public water systems on the Nooksack Indian Tribe Reservation (“Reservation”). No other governmental entity has applied for and been approved to administer the program on the Reservation.

3. EPA enters into and issues this Consent Order under the authority vested in EPA Administrator by section 1414(g) of the Act, 42 U.S.C. § 300g-3(g), which has been delegated to the undersigned EPA official.

4. By entering into this Consent Order, the Nooksack Tribe (1) consents to EPA’s authority to issue and enforce this Consent Order; (2) neither admits nor denies the factual allegations as set forth in this Consent Order; (3) agrees to undertake all actions required by the terms and conditions of this Consent Order; (4) consents to be bound by the requirements set forth herein; and (5) agrees not to

contest the authority of EPA to issue or enforce this Consent Order or the validity of any terms or conditions in this Consent Order.

PARTIES BOUND

5. This Consent Order applies to Respondent and its officers, directors, employees, agents, trustees, authorized representatives, successors, and assigns. Respondent must give written notice and a copy of this Consent Order to any successors-in-interest prior to transfer of any interest in the System. Any change in ownership or control of the System including, but not limited to, any transfer of assets or real or personal property shall not alter Respondent's responsibilities under this Consent Order.

6. Each undersigned signatory for Respondent certifies to her or his authority to execute this Consent Order and to legally bind Respondent to the terms of this Consent Order.

FINDINGS OF FACT

7. The Nooksack Tribe is a federally recognized Indian tribe and is a "person" within the meaning of 42 U.S.C. § 300f(10) and § 300f(12), for purposes of federal enforcement under the Act. Respondent owns and/or operates the System, which is a public water system, in Deming, Washington, within the exterior boundaries of the Nooksack Indian Tribe Reservation. The System provides the public with piped water for human consumption.

8. The System has approximately four (4) service connections and regularly serves more than twenty-five (25) individuals, which are not year-round residents. Therefore, the System is a "public water system" and a "noncommunity water system" within the meaning of sections 1401(4) and (16) of the Act, 42 U.S.C. § 300f(4) and (16), and 40 C.F.R. § 141.2. The System serves approximately 100 employees for more than six months per year and therefore is a "non-transient non-community water system" within the meaning of 40 C.F.R. § 141.2.

9. Respondent owns and/or operates the System and therefore is a “supplier of water” as defined in section 1401(5) of the Act, 42 U.S.C. § 300f(5), and 40 C.F.R. § 141.2. Respondent therefore is required to comply with the requirements of the Act and its implementing regulations, Part 141.

10. The System is solely supplied by a groundwater source. Therefore, the System is a “groundwater system” as defined in 40 C.F.R. § 141.400, and Respondent is required to comply with the Ground Water Rule in 40 C.F.R. Part 141, Subpart S.

FINDINGS OF VIOLATION AND CONCLUSIONS OF LAW

11. Respondent is required to deliver a consumer notice of individual tap monitoring results for lead to the persons served at each sampled site no later than 30 days after the System learns of the tap monitoring results, in accordance with 40 C.F.R. § 141.85(d). Within 90 calendar days following the end of each monitoring period, Respondent is required to submit to EPA a sample copy of the consumer notification along with a certification that the notification has been distributed, in accordance with 40 C.F.R. § 141.90(f)(3). EPA’s record reflects that Respondent failed to deliver a consumer notice to the persons served at each sampled site and failed to submit a copy of the consumer notice and certification to EPA for monitoring periods in 2019 and 2020 and therefore violated this requirement.

12. Respondent is required to monitor the System’s water annually for nitrate at every entry point to the distribution System which is representative of each well after treatment. 40 C.F.R. §§ 141.23(a) and (d). Respondent failed to monitor the System’s water for nitrate during 2021 and 2022 and therefore violated this requirement.

13. Respondent is required to complete corrective action of a significant deficiency or comply with an EPA-approved corrective action plan and schedule within 120 calendar days (or earlier if instructed by EPA) of receiving written notification from EPA of a significant deficiency. 40 C.F.R. § 141.404(a). Respondent is required to notify EPA within 30 calendar days of completion of a significant

deficiency corrective action. 40 C.F.R. § 141.405(a)(2). EPA sent Respondent a Notice of Deficiencies letter dated August 18, 2021, which detailed significant deficiencies. EPA's record reflects that Respondent failed to complete all corrective actions by December 16, 2021, and therefore violated this requirement.

14. Respondent is required to notify the public of certain violations of Part 141 and, within 10 calendar days after completing public notice, provide a copy of the public notice and certification to EPA. 40 C.F.R. §§ 141.31(d) and 141.201-141.211. The violation identified in paragraph 13 above is classified as a violation requiring Tier 2 public notice within 30 calendar days, according to 40 C.F.R. § 141.203. EPA's records reflect that Respondent failed to notify the public of the violation cited in paragraph 13 and failed to submit a copy of the public notice and certification to EPA and therefore violated this requirement.

15. Respondent is required to notify the public of certain violations of Part 141 and, within 10 calendar days after completing public notice, provide a copy of the public notice and certification to EPA. 40 C.F.R. §§ 141.31(d) and 141.201-141.211. The violations identified in paragraphs 11 and 12, above, are classified as violations requiring Tier 3 public notice within 1 year, according to 40 C.F.R. § 141.204. EPA's records reflect that Respondent failed to notify the public of the violations cited in paragraphs 11 and 12 and failed to submit a copy of the public notice and certification to EPA and therefore violated this requirement.

16. Respondent is required to report any failure to comply with Part 141 to EPA within 48 hours (except where Part 141 specifies a different time period). 40 C.F.R. § 141.31(b). Respondent failed to report the violations identified in paragraphs 11 through 15, above, to EPA and therefore violated this requirement.

ORDER ON CONSENT

Based on the foregoing Findings, and pursuant to section 1414(g) of the Act, 42 U.S.C. § 300g-3(g), Respondent agrees and is hereby ORDERED to perform the following:

17. Respondent shall at all times comply with Part B of SDWA, 42 U.S.C §§ 1401-1420, and its implementing regulations at 40 C.F.R Part 141, including the public notification requirements at 40 C.F.R. Part 141, Subpart Q.

18. Within 30 calendar days after receipt of this Order, and thereafter, no later than 30 days after the System learns of the tap monitoring results, Respondent shall deliver a consumer notice of individual tap monitoring results to the persons served at each sampled site, in accordance with 40 C.F.R. § 141.85(d). Within 45 days after receipt of this Order, and thereafter, within 90 calendar days following the end of each monitoring period, Respondent shall submit to EPA a sample copy of the consumer notification along with a certification that the notification has been distributed, in accordance with 40 C.F.R. § 141.90(f)(3). Templates and instructions are available at Attachment A of this Consent Order.

19. Within 30 calendar days of the Effective Date of this Consent Order, and as required by Part 141 thereafter, Respondent shall monitor the System's water annually for nitrate in accordance with 40 C.F.R. §§ 141.23(a) and (d). Respondent shall report results to EPA within the first 10 calendar days following the end of the required monitoring period. 40 C.F.R. § 141.31(a).

20. Within 30 calendar days of receipt of this Consent Order, Respondent shall consult with EPA regarding all outstanding significant deficiencies and shall submit a proposed schedule and plan to EPA for completion of all corrective actions necessary to address the significant deficiencies. The plan shall include proposed modifications to the System and estimated costs of modifications. Upon written approval by EPA, the approved plan and schedule ("Schedule") shall be incorporated into this Consent

Order with each milestone to be an enforceable requirement upon written approval by EPA. Within 10 calendar days after completing all tasks included in the Schedule, Respondent shall notify EPA of the project's completion. Respondent shall provide sufficient evidence of the project's completion to EPA, including photographs of the corrective actions. Thereafter, if EPA identifies any significant deficiency at the System, Respondent shall complete corrective action for each significant deficiency and provide notification to EPA within 30 calendar days of completion, as required by 40 C.F.R. §§ 141.403(a) and 141.405(a)(2).

21. Within 30 calendar days after receipt of this Order, and quarterly thereafter as long as the violation cited in paragraph 13 above, persists, Respondent shall notify the public of this violation. Thereafter, following any future violation of Part 141, Respondent shall comply with any applicable public notice provisions of 40 C.F.R. part 141, subpart Q. Within 10 calendar days after providing public notice, Respondent shall submit a copy of the notice and certification to EPA. 40 C.F.R. § 141.31(d). Templates and instructions are available at Attachment B of this Consent Order.

22. Within 30 calendar days of the Effective Date of this Consent Order, Respondent shall notify the public of the violations identified in paragraphs 11 and 12, above. During the pendency of this Consent Order and following any future violation of Part 141, Respondent shall comply with any applicable public notice provisions of 40 C.F.R. Part 141, Subpart Q. Within 10 calendar days after providing public notice, Respondent shall provide EPA a certification of having provided public notice, along with a representative copy of the public notice. 40 C.F.R. § 141.31(d). Templates and instructions are available in Attachment C of this Consent Order.

23. During the pendency of this Consent Order, Respondent shall report any violation of Part 141 to EPA within 48 hours of the violation occurring, as required by 40 C.F.R. § 141.31(b). However,

if a different time period for reporting is specified in this Consent Order or Part 141, Respondent shall report within that different period.

24. EPA and Respondent shall participate in quarterly videoconferencing meetings to discuss the status of Respondent's compliance with this Order and Part 141. Those quarterly videoconferencing meetings shall include, at minimum, one member of senior leadership from EPA, one member of senior leadership for Respondent, and Respondent's staff member responsible for ensuring compliance with this Consent Order and Part 141.

NOTICES

25. All notifications, documentation, submissions, and other correspondence required to be submitted to EPA by this Consent Order shall be submitted electronically to EPA at the following email addresses: miller.jessica.L@epa.gov and R10TribalDW@epa.gov. All monitoring results required by this Consent Order also shall be submitted to EPA in accordance with applicable regulations.

26. Respondent shall designate a Project Coordinator to oversee Respondent's implementation of the provisions of this Consent Order and receive on behalf of Respondent all notifications and correspondence from EPA relating to this Consent Order. Within ten (10) days of the Effective Date of this Consent Order, Respondent shall notify EPA of the Project Coordinator's name and email address.

GENERAL PROVISIONS

27. Respondent waives any and all remedies, claims for relief, and otherwise available rights to judicial or administrative review Respondent may have with respect to any issue of fact or law set forth in this Consent Order, including any right of judicial review of this Consent Order under section 1448(a) of the Act, 42 U.S.C. § 300j-7(a).

28. Respondent shall fully implement each item of this Consent Order. Respondent's failure to fully implement all requirements of this Consent Order in the manner and time period required shall be deemed a violation of this Consent Order.

29. Nothing in this Consent Order shall be construed to relieve Respondent of any applicable requirements of federal, state, tribal, or local law. EPA reserves the right to initiate enforcement as authorized by law for any violation of this Consent Order and for any future or past violation of any applicable legal requirements of SDWA, including, but not limited to, the violations identified in this Consent Order.

30. Violation of any part of this Consent Order, the Act, or Part 141 may subject Respondent to a civil penalty of up to \$69,733 (as adjusted for inflation) per day of violation, a court injunction ordering compliance, or both. 42 U.S.C. § 300g-3; 40 C.F.R. Part 19; 88 Fed. Reg. 89309 (December 27, 2023).

31. This Consent Order may be amended or modified by written agreement of EPA and Respondent.

32. The Effective Date of this Consent Order is the date upon which a fully executed copy is received by Respondent.

TERMINATION

33. No sooner than twelve (12) months after the Effective Date of this Consent Order, Respondent may request termination of this Consent Order and submit to EPA a written certification of completion summarizing all actions taken to comply with all requirements of this Consent Order.

34. EPA will review Respondent's certification of completion to determine whether Respondent complied with the terms of this Consent Order and Part 141. If EPA concludes that Respondent has failed to comply with any requirement of this Consent Order or Part 141, EPA may (1)

pursue civil penalties and (2) deny Respondent's request for termination, in which case this Consent Order remains effective.

35. If EPA denies a request for termination, Respondent may submit a subsequent request for termination and certification of completion to EPA for review and approval no sooner than six (6) months after receiving EPA's denial.

36. This Consent Order will terminate when Respondent receives written notification from EPA that its request for termination has been approved.

37. Notwithstanding the procedure for termination set forth above, EPA may terminate this Consent Order upon its sole discretion by written notice to Respondent.

IT IS SO STIPULATED AND AGREED.
