

2024 Clean School Bus (CSB) Rebate Program

Prioritized School District List

The Bipartisan Infrastructure Law allows the EPA to prioritize certain communities that will benefit from the Clean School Bus (CSB) Program. Applicants requesting funds to replace school buses that serve a school district that meets one or more of the prioritization criteria below will receive preference in the selection process in the 2024 Clean School Bus Rebate Program, and if selected for funding, will be eligible for more funding per bus:

1. High-need school districts and low-income areas, limited to:
 - a. School districts listed in the [Small Area Income and Poverty Estimates \(SAIPE\) School district Estimates for 2022](#) as having 20% or more students living in poverty;
 - b. Title I-funded school districts and charter school districts not listed in the SAIPE data. See the Prioritization Self-Certification Instructions, which can be found on the [CSB Rebates webpage](#), for details on this option;
 - c. Title I-funded large public-school districts, meaning districts with more than 35,000 students and/or more than 45 public schools, that are in SAIPE but do not meet the 20% poverty threshold, may be eligible to self-certify for the high-need prioritization status for part or all of their district. See the Prioritization Self-Certification Instructions, which can be found on the [CSB Rebates webpage](#), for details on this option; or
 - d. School districts located in the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.
2. Rural school districts, limited to school districts identified with locale code “43-Rural: Remote” by the [National Center for Education Statistics \(NCES\)](#).
3. Tribal school districts, limited to Bureau of Indian Affairs funded school districts and school districts that receive basic support payments under section [7703\(b\)\(1\) of title 20](#) for children who reside on Indian land.

School districts that qualify under one or more of the prioritization categories above, except for 1.b and 1.c, are identified in the list of prioritized school districts for the 2024 CSB Rebate Program, below. This is not the complete list of all *eligible* applicants, only those that are prioritized. This list is sorted alphabetically, first by EPA Region, then by State and then by District Name. For a sortable and filterable list with more information on prioritized school districts, including which priority criteria a school district is prioritized under, please see the excel file Prioritized School District Detailed List, found at [School Bus Rebates: Clean School Bus Program | US EPA](#).

Districts not on the list below may still be eligible to self-certify their high-need prioritization status under prioritization category 1.b or 1.c in the list above: Applicants may be able to self-

certify that districts that are either (1.b) not in the SAIPE dataset or (1.c) very large (meaning that they have 45 or more schools and/or 35,000 or more students in the district) are high-need school districts. See the Prioritization Self-Certification Instructions, which can be found on the [CSB Rebates webpage](#), for details on these options. For a sortable and filterable list with more information on these self-certifiable school districts, please see the excel file Prioritized School District Detailed List, found at [School Bus Rebates: Clean School Bus Program | US EPA](#).

Note: The District ID listed for each district is a unique ID, used by both NCES and SAIPE. You will need to know your District ID for the application process. If you do not know your District ID, use <https://nces.ed.gov/ccd/districtsearch/> to find out. There are several districts on this list that do not have District IDs. These districts have all been designated temporary alphanumeric District IDs (e.g., “BIE0001”), which applicants should use on their application if they choose to apply.
